Filed on Behalf of Herself & The Below Listed Concerned Organizations And Individuals

Responding to the January 28, 1999 release of a Notice of Proposed Rule-making in FCC Docket No. MM 99-25 (a.k.a. RM-9208 and RM-9242), Susan Trescott-Ness and the following signatories hereby submit formal written comments on the Commission=s Proposed Rule to establish a Low Power FM Radio Service (LPFM).

1. As Chairman Kennard correctly states, the F.C.C.'s public interest mandate is the agency's
Abedrock principle.≡ As such, in all matters, including that of Low Power FM (LPFM) radio
broadcasting, the fundamental issue with which the F.C.C. must concern itself is that of determining
and fulfilling public interest and demand. It is impossible to square with the public interest a ruling
which fails to abide by the virtually unanimous public support and demand for LPFM.

2. The F.C.C. is obligated to institute a system of license allocation which does not discriminate on
the basis of economic standing; where the rights of one are not held superior to the rights of others
and; where those rights are not held in perpetuity such that the rights of others are never recognized.

3. We are concerned about:

A. fundamental issues of fairness regarding the allocation of public resources;

B. the twin threats to democracy of:

i. media consolidation

ii. rising economic thresholds which bar access to public media resources;

C. cultural homogenization as a result of media consolidation;

D. local economic issues.

4. We are concerned that when comparing the stewardship of our airwaves to that of other forms of
public property where public use and participation is encouraged, access to the public airwaves has

been held in elitist reserve, despite the historic role played by amateurs and hobbyists in the development of radio technology. We believe that in general the F.C.C.'s role should not be to limit and restrict communication and the expression of ideas between American citizens, but rather to foster and facilitate it to the greatest extent possible.

5. We agree with the F.C.C.'s majority view that this LPFM service

A. can and should serve a wide range of purposes;

B. can and should allow access to the public airwaves to a wide range of Americans;

C. can and should serve a myriad of unique and diverse interests;

D. can and should provide service to currently unserved communities.

6. We urge the Federal Communications Commission to adopt MM Docket 99-25 in a timely manner.

Respectfully submitted by,

Susan Trescott-Ness
