

are scheduled to expire on November 3, 2008. Four substances for use in handling were placed on the National List on November 4, 2003, and are scheduled to expire on November 4, 2008. They will be making final recommendations on these 11 materials at this meeting. Two forms of Tartaric acid, for use in handling in § 205.605(a) and (b) for which the Board has not completed its review, were placed on the National List on November 3, 2003, and are scheduled to expire on November 3, 2008. The sunset review process for these two forms of Tartaric acid must be concluded no later than November 3, 2008. If renewal is not concluded by this date, the use or prohibition of these 2 forms of Tartaric acid will no longer be in compliance with the National Organic Program.

The Policy Development Committee will present recommendations regarding revisions to the NOSB Policy and Procedures Manual and the Guide for new NOSB members as well as discuss their on-going collaboration with the NOP to review the NOP responses to prior NOSB recommendations.

The Compliance, Accreditation, and Certification Committee and the Crops Committee will jointly present their recommendation offering guidance for accredited certifying agents regarding annual commercial availability determinations for organic seed sourcing by farmers under § 205.204.

The Crops Committee will present recommendations on the materials Tetracycline, Cheesewax, Dextrin, and Sorbitol octanoate petitioned for use on § 205.601. The Committee will also present their recommendations on the continued use or prohibition of Copper sulfate, Ozone gas, Peracetic acid, and EPA List 3—Inerts of unknown toxicity, with their respective annotations and limitations. These exemptions are due to expire on November 3, 2008, from § 205.601. The Committee will also present their recommendation on the continued use or prohibition of Calcium chloride for use as a brine-sourced foliar spray. Calcium chloride is otherwise considered a prohibited natural substance in § 205.602 and is also due to expire on November 3, 2008.

The Crops Committee and the Livestock Committee will jointly present their recommendation on the development of standards for organic aquatic plants in organic aquaculture.

The Livestock Committee will present its recommendation on the material Fenbendazole petitioned for use in § 205.603. The Committee will present its recommendations on the petition to remove the expiration date of October 21, 2008 on the following three

substances: DL-Methionine, DL-Methionine-Hydroxy Analog; and DL-Methionine-Hydroxy Analog Calcium—for use only in organic poultry production in § 205.603. The Committee will also present recommendations on the use of fish feed and open net pens in regards to the development of organic aquaculture standards for finfish.

The Handling Committee will present their recommendations on the materials Sodium chlorite, acidified and Calcium, derived from seaweed petitioned for inclusion in § 205.605 for use in organic products. The Committee will present their recommendations on the 24 materials Black Pepper, Buck Hull Powder, Camu Camu Extract, Caramel Color, Chinese Thistle Daisy Extract, Chlorella algae, Codonopsis Root Extract, Dumontiaceae algae, Ginger Root Extract, Jujube Fruit Extract, Kombu seaweed, Ligusticum Root Extract, Marsala Cooking Wine, Oatbran, Okra, Pectin, low methoxy, non-amidated, Peony Root Extract, Polygala Root Extract, Polygonum Root Extract, Poria Fungus Extract, Rehmannia Extract, Sherry Cooking Wine, Tangerine Peel Extract, and Tragacanth Gum petitioned for inclusion in § 205.606 for use in organic products depending on final commercial availability determinations performed by accredited certifying agents.

The Handling Committee will present their recommendations on the continued use or prohibition of the material exemptions in § 205.605(a) which is Agar-agar and due to expire on November 3, 2008, and Animal enzymes, Calcium sulfate, and Glucono delta-lactone, with their respective annotations and limitations, due to expire on November 4, 2008. The Committee will also present their recommendations on the continued use or prohibition of the material exemption in § 205.605(b) which is Cellulose with its respective annotations and limitations, due to expire on November 4, 2008. They will also present their recommendations on the continued use or prohibition of the material exemptions for the two forms of Tartaric acid in § 205.605(a) and (b) which are due to expire on November 3, 2008.

The Meeting is Open to the Public. The NOSB has scheduled time for public input for Tuesday, May 20, 2008, from 1 p.m. to 5 p.m., Wednesday, May 21, 2008, from 3:45 p.m. to 5 p.m., and Thursday, May 22, 2008, from 8 a.m. to 9:30 a.m. Individuals and organizations wishing to make oral presentations at the meeting may forward their requests by mail, facsimile, email, or phone to Valerie Frances as listed in **ADDRESSES** above. Individuals or organizations will

be given approximately 5 minutes to present their views. All persons making oral presentations are requested to provide their comments in writing. Written submissions may contain information other than that presented at the oral presentation. Anyone may submit written comments at the meeting. Persons submitting written comments are asked to provide 30 copies.

Interested persons may visit the NOSB portion of the NOP Web site at <http://www.ams.usda.gov/nop> to view available meeting documents prior to the meeting, or visit <http://www.regulations.gov> to submit and view comments as provided for in **ADDRESSES** above. Documents presented at the meeting will be posted for review on the NOP Web site approximately 6 weeks following the meeting.

Dated: April 1, 2008.

Lloyd C. Day,

Administrator, Agricultural Marketing Service.

BILLING CODE 3410-02-P

DEPARTMENT OF AGRICULTURE

National Agricultural Library; Notice of Intent To Seek Approval To Collect Information

AGENCY: USDA, Agricultural Research Service, National Agricultural Library.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13) and Office of Management and Budget (OMB) regulations at 5 CFR Part 1320 (60 FR 44978, August 29, 1995), this notice announces the National Agricultural Library's intent to request renewal for information collection relating to existing nutrition education materials (*i.e.* recipes and cookbooks) targeting low-income and Food Stamp Program-eligible persons. This voluntary form gives Food Stamp Nutrition Education (FSNE) providers the opportunity to share resources that they have developed or used.

DATES: Comments on this notice must be received by 65 days after date of publication in the **Federal Register** to be assured of consideration.

ADDRESSES: Address all comments concerning this notice to Gina Hundley Gomez, Technical Information Specialist, Food and Nutrition Information Center, National Agricultural Library, 10301 Baltimore Avenue, Beltsville, MD 20705-2351,

telephone (301) 504-5368 or fax (301) 504-6409.

Submit electronic comments to ghundley@nal.usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Food Stamp Nutrition Connection Recipe Submission and Review Form.

OMB Number: 0518-0043.

Expiration Date: Three years from date of approval.

Type of Request: Existing data collection from Food Stamp nutrition education providers.

Abstract: The National Agricultural Library's Food Stamp Nutrition Connection (FSNC) <http://foodstamp.nal.usda.gov> resource system developed and maintains an on-line recipe database, the Recipe Finder, as a popular feature to the FSNC Web site. The purpose of the Recipe Finder database is to provide FSNE providers with low-cost, easy to prepare, healthy recipes for classes and demonstrations with FSNE participants. FSNC staff rely on these same educators to submit their best recipes for review, analysis and inclusion in the database. FSNC staff and FSNE providers alike benefit from the collecting and posting of feedback on the individual recipes based on educator experiences. Data collected using the voluntary Submission Form will help identify a person's eligibility to submit materials for this database. The Recipe Finder Submission Form allows FSNE providers to submit recipes on-line, saving time and money by eliminating the need to photocopy and mail or fax recipes. Data collected from the Recipe Review form will help educators share their successes or identify opportunities for added value when incorporating these recipes into their FSNE efforts.

This online submission form will continue to serve as an efficient vehicle which allows FSNC staff to communicate with FSNE providers and inform other interested parties of healthy recipes that are appropriate for low-income Americans.

Estimate of Burden for Recipe Submission Form

Public reporting burden for this collection of information is estimated to average 7.5 minutes per response.

Respondents: Food Stamp nutrition education providers.

Estimated Number of Respondents: 100 per year.

Estimated Total Annual Burden on Respondents: 12.5 hrs.

Estimate of Burden for Recipe Review Form

Public reporting burden for this collection of information is estimated to average 7 minutes per response.

Respondents: Food Stamp nutrition education providers.

Estimated Number of Respondents: 150 per year.

Estimated Total Annual Burden on Respondents: 17.5 hrs.

Comments

Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance for the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and the assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who respond, including the use of appropriate automated, electronic, mechanical, or other technology. Comments should be sent to the address in the preamble. All responses to this notice will be summarized and included in the request for Office of Management and Budget (OMB) approval. All comments will become a matter of public record.

Dated: March 12, 2008.

Antoinette Betschart,

Associate Administrator, ARS.

BILLING CODE 3410-03-P

DEPARTMENT OF AGRICULTURE

Forest Service

Bend/Ft. Rock Ranger District; Deschutes National Forest; Oregon; Dead Log Vegetation Management Project EIS

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The USDA, Forest Service, will prepare an environmental impact statement (EIS) on a proposed action to address forest health and hazardous fuels concerns within the 16,000-acre planning area known as the Deadlog Vegetation Project. The planning area is located about 36 miles southeast of Bend, Oregon; it is located in Township 22S, Range 15E, and Township 23S, Ranges 14E and 15E. The alternatives will include the proposed action, no

action, and additional alternatives that respond to issues generated through the scoping process. The agency will give notice of the full environmental analysis and decision-making process so interested and affected people may participate and contribute to the final decision.

DATES: Comments concerning the scope of the analysis must be received by 30 days following the date that this notice appears in the **Federal Register**.

ADDRESSES: Send written comments to Phil Cruz, District Ranger, Bend/Ft. Rock Ranger District, 1230 NE 3rd St., Suite A-262, Bend, OR 97701.

FOR FURTHER INFORMATION CONTACT:

Mark Macfarlane, Environmental Planner, Bend/Ft. Rock Ranger District, 1230 NE 3rd St., Suite A-262, Bend, Oregon, 97701, phone (541) 383-4044. E-mail mmacfarlane@fs.fed.us.

Responsible Official. The responsible official will be John Allen, Forest Supervisor, Deschutes National Forest, P.O. Box 1645 Hwy 20 East, Bend, OR 97701.

SUPPLEMENTARY INFORMATION:

Purpose and Need. Many forest stands in the project area are sustaining a higher density of understory trees than they would have historically and are susceptible to bark beetle mortality. Large diameter trees are unable to compete with the younger, more vigorous trees for available resources. Also, understory trees and brush combined with a high degree of buildup of natural fuels on the forest floor are contributing to the risk of uncharacteristically severe fire behavior, should a wildfire start in the planning area. The purpose of the project is to:

- Manage stands of late old structure ponderosa pine to promote sustainability over the long term;
- In dense stands dominated by ponderosa pine, return stands toward historic conditions addressing tree species composition, stocking levels and resistance to insects, disease and fire mortality;
- Reduce surface fuels throughout the planning area to levels that will not sustain stand replacement fires; manage lodgepole pine stands to reduce the acres susceptible to bark beetle mortality;
- And reduce potential for the spread of ponderosa pine dwarf mistletoe.

Proposed Action. The proposed actions are intended to sustain, enhance, and protect long-term productivity and resiliency of the forest ecosystem, and maintain and enhance wildlife habitat. Proposed actions include selection harvest, commercial thinning, small tree thinning and ladder
