

the number of RDT&E mission activities as well as new applications of existing technology. Alternative 2 includes existing baseline RDT&E mission activities, known future RDT&E mission activities over approximately the next seven years, and projected increases in test activities over approximately the next 15 years, based on a continual trend. Alternative 2 generally provides for a 15 percent increase in the number of mission activities above Alternative 1 levels plus new applications of existing technology.

The EIS will evaluate the potential environmental effects resulting from the identified alternatives. Issues to be addressed will include, but may not be limited to, the following areas: (1) Land use, plans, and coastal zone consistency; (2) Physical resources—air quality and water quality; (3) Noise from detonations and the firing of guns; (4) Biological resources including wildlife, submerged aquatic vegetation, threatened & endangered species and otherwise protected species (short-nosed sturgeon, marine mammals and migratory birds), fisheries, including an analysis of essential fish habitat, riverine communities, and special biological resource areas; (5) Socioeconomic issues—including recreational and commercial uses of the Potomac River and restricted airspace, property values, environmental justice, and risks to children; (6) Cultural resources—effects on sites on or near the Potomac River; (7) Safety—cleanup, handling, storage, and transport of hazardous materials, unexploded ordnance, lasers, electromagnetic fields, and chemical and biological simulants (imitations).

The Navy is initiating the scoping process to identify community concerns and local issues that should be addressed in the EIS. Federal, state, and local agencies as well as interested persons are encouraged to provide oral and/or written comments to NWSCDL to identify specific issues or topics of environmental concern. The Navy will consider these comments in determining the scope of the EIS. Written comments on the scope of the EIS must be postmarked by August 14, 2007, and should be mailed to: Ms. Stacia Courtney, Naval Surface Warfare Center Dahlgren Division, Corporate Communications Office (C6), 6509 Sampson Road, Suite 213, Dahlgren, VA 22448-5108. Comments can be faxed to 540-653-4679 or e-mailed to [stacia.courtney@navy.mil](mailto:stacia.courtney@navy.mil).
