

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

OFFICE OF WATER

MEMORANDUM

DATE: June 25, 2008

SUBJECT: Potential Exclusions to Screener: Operators With One and Two Wells
Coalbed Methane Study

FROM: Marla Smith, Senior Statistician

TO: Carey Johnston, Project Lead
Technology and Statistics Branch
Engineering and Analysis Division
Office of Science and Technology

As explained in Part B of the supporting statement for the Information Collection Request, the sample design assumes that the screener would be sent to all operators with *more* than two coalbed methane wells. For operators with one or two wells, EPA would attempt to complete the screener using publicly available information and contacts with industry associations. Attachments 1 and 2 identify the operators with only one or two wells.

If you have any questions, please do not hesitate to contact me.
