

This Class 606 is considered to be an integral part of Class 128 (see the Class 128 schedule for the position of this Class in schedule hierarchy). This Class retains all pertinent definitions and class lines of Class 128.

1	<b>INSTRUMENTS</b>	35	...Ground electrode monitoring
2	..Light application	36	...Depilation
2.5	..Lithotripsy	37	...Combined cutting-coagulation
3	..With particular wavelength	38	....With feed back control
4	..Ophthalmic	39	...Cutting
5	...Recurving or reshaping of the eye	40	...Coagulation
6	...Cataracts or glaucoma	41	..Applicators
7	..Angioplasty	42	...With switching or power control
8	..Anastomosis	43	...Depilation
9	..Dermatological	44	....By needle
10	..Systems	45	...Cutting
11	...Beam energy control or monitoring	46	....Endoscopic
12	....Condition responsive	47	....With formable electrode
13	..Applicators	48	....Bipolar electrodes
14	...Placed in body	49	...coagulation
15	...With optical fiber	50	....Bipolar electrodes
16	...With optical fiber	51	....With forceps or tweezers
17	..With beam shaping or redirecting (e.g., lens)	52	....With forceps or tweezers
18	....Mirror	237	.Chiropractic or osteopathic implement
19	....Articulated arm	238	..Percussive prod
20	..Cryogenic application	239	...Motorized pummelling device
21	..Internal application	240	..Positioner for recumbent user
22	..With coolant supply	241	..Extension appliance
23	...Tip or other cooling concentration means	242	...Couch
24	....With heating means (e.g., defroster)	243	....With intermediate gap
25	....Self-contained coolant supply	244	....With pivot to pedestal
26	....With hand manipulable coolant control	245	..With intermediate pivot
27	..Heat application	53	.Orthopedic instrumentation
28	..Tip or other heat concentration means	54	..External fixation means
29	...Tip in electrical circuit	55	...Movable by patient
30	....Self-contained powersupply	56	...Ring frame
31	....With thermal control means	57	...Compression or distraction mechanism
32	..Electrical application	58	....Cyclable or incrementable
33	..Electromagnetic wave irradiation	59	...Pin connector
34	..Systems	60	..Internal fixation means
		246	...Spinal positioner or stabilizer
		247	....Facet implant
		248	....Spinous process implant
		249	....Spacer type
		250	....Including ransverse connector for linking longitudinal rods; (e.g., parallel rods)
		251	....Adjustable
		252	.....Sliding adjustment
		253	.....Articulated adjustment
		254	....Flexible rod
		255	....Resilient rod
		256	....Articulating rod
		257	....Dynamic stabilization

258	....Adjustable length rod	285	.....With pliable or malleable elements or having a meshlike structure (e.g., small strips for craniofacial surgery)
259	....Multipart rod	286	....Including anchoring means
260	.....Including connector for securing rods end to end	287	....Ball and socket type (e.g., polyaxial)
261	....Particular shaped rod	288	....Having indirect contact with screw head
262	.....Formable in situ	289	.....Screw retention means (e.g., anti-backup)
263	....Including wire, strap, or cable	290	.....Locking ring or washer
264	....Rod attachable by threaded fastener	291	.....Interlocking screw head and plate holes (e.g., conical or threaded)
265	.....With head of fastener attachable to longitudinal rod	292	.....Nut
266	.....Ball and socket type (e.g., polyaxial)	293	.....Wedge
267	.....Head attachable using multiple parts	294	.....Spring
268	.....Including washer	295	.....Screw head cover
269	.....Including retaining ring	296	.....Slideable over screw head
270	.....Including set screw	297	....Bone-penetrating element (e.g., spikes)
271	.....Externally threaded head	298	....Plate material
272	.....Including locking mechanism	299	....Memory material
273	.....Anti-splay	300	...Orthopedic fastener
274	.....Nut	301	....Threaded fastener element
275	....Thread structure (e.g., double threaded, etc.)	302	....Including a cover or protector
276	....Attachable hook	303	.....Including a grommet
277	....Attachable by clamp	304	....Cannulated
278	....Rod connectors, per se	305	....Head structure
279	....Method of spinal positioning or stabilizing	306	.....Detachable
62	...Intramedullary fixator	307	.....Enlarged
63	....Expanding in diameter or length	308	.....Particular shape
64	....Cross-fastened	309	.....Shank
65	...Femoral screw	310	.....Including anchor means extendable from shank
66	....Anti-rotation or keeper means	311	.....Self-drilling
67	...Femoral nail	312	.....Self-tapping
68	....Expanding	313	.....Radially expandable
280	...Cortical plate (e.g., bone plates)	314	.....Slotted
70	....Multi-element or coated plate	315	.....Multiple threads on a single fastener
71	.....Having separable and distinct plate elements	316	.....With interrupted thread
281	....Method of implanting a bone plate	317	.....Variable pitch thread
282	....With compression or distraction mechanism	318	.....Screw tip
283	....Flexible plate	319	....Including additional head-anchoring means
284	.....Shapeable plate (e.g., in situ)	320	....Adjustable, (e.g., longitudinally adjustable)
		321	....Headless screw (e.g., ligament interference screw, etc.)

74	....Bone cerclage device	86 A	...Tool for installing or removing spinal positioner or stabilizer
75	....Staple or clip		
322	....Including cover or protector		
323	....Hollow (e.g., with socket or cannula etc.)	86 B	...Tool for installing or removing cortical plate
324	....Clamp	106	.Means for removing foreign objects from the throat or connected passageways (e.g., probang)
325	....Having rotation means		
326	....Expandable		
327	....Radially		
328	....Comprising multiple separate parts	107	.Means for removing, inserting or aiding in the removal or insertion of eye lens material
329	....Nail, tack, or pin	108	.Means for inserting or removing conduit within body
330	....Hook		
331	....Composed of particular material	109	..Ear vent or drain
76	..Specialized coating or material	110	.Means for removing tonsils, adenoids or polyps
77	..Absorbable		
78	..Shape memory material	111	..With hemostasis
79	..Orthopedic cutting instrument	112	...By pressure application
80	..Reamer or drill	113	..By wire loop or snare
81	....Acetabular	114	..With collecting means for removed material
82	..Saw type tool		
83	..Rongeur, resector, or nipper	115	...By vacuum application
84	..Osteotome or scraper	116	.Means for marking animals
85	....Rasp or file	117	.Means for applying animal identification device
86 R	..Means for use in bone reparation	118	.Means for circumcision
87	...Osteotomy jig or fixture	119	.Obstetric or gynecological instruments
88	....Knee or knee joint		
89	....Femoral head	120	..Umbilical clamp
90	...Joint distractor	121	..Partuition assistance device
91	...Acetabular cup positioner	122	...Fetus extractor
92	...Device for the application of bone cement	123	...With vacuum or suction application
93	....Applicator	124	...With mechanical means for applying tension (e.g., gearing, reels, etc.)
94	....Pressurized cement placement		
95	....Intramedullary plug or centering means	125	..Means for rupturing the amniotic membrane
96	...Drill or pin guide		
97	....X-ray positioned	126	..Embryotome
98	....Cross-pinning drill guide	127	.Means for concretion removal
99	...Prosthesis insertor or extractor	128	..With fragmenting means
100	....Restrained movable mass (e.g., slide hammer)	129	.Electrode guide means
101	...Nail or plate bender	130	.Stereotaxic device
102	...Gauging or measuring device	131	.Means for removal of skin or material therefrom
103	..Wiring aid	132	..By means for skin graft preparation (e.g., dermatome)
104	...Screw or pin placement or removal means	133	..Physical removal of hair or hair plugs from skin
105	...Bone compression or distraction	134	...By application of wax or adhesive
105.5	....Cast removal implement	135	.Means for, or to assist in mammalian sterilization
		136	..By crushing

137	..By severing	171	...Reciprocating or oscillating cutter
138	.Means for removing suture, clip, staple or ligature	172	..Means to limit cutter penetration depth (e.g., dura guard)
139	.Suture, ligature, elastic band or clip applier	173	...By disconnecting cutter drive
140	..Elastic band applier	174	..Shear type (e.g., scissors, etc.)
141	...Band applied to reproductive organ	175	...Snout cutter
142	..Clip applier	176	..Saw type
143	...Clip fed from supply	177	...Reciprocating
144	..Mechanical suture or ligature applier	178	...Oscillating
145	...Shuttle action by suture passing device	179	...Cylindrical
146	...Spool feeds suture to needle	180	..Rotary cutter
147	..Means for clamping needle to handle	181	..Lancet
148	..Suturing or ligating aid or guide	182	...Spring driven or biased into cutting position
149	...Eversion device	183	...Plural cutting blades
150	...Alignment device (e.g., approximators)	184	..Punch
151	.Surgical mesh, connector, clip, clamp or band	185	..Puncturing or piercing
152	..Connector for nerve endings	186	...Multiple puncturing elements (e.g., tatoo, scarifiers, etc.)
153	..Connector for hollow body organs	187	...Hair or artificial hair injector or anchor
154	...Bioabsorbable	188	...Earlobe piercing means
155	...Connector is single element	189	...Acupuncture means
156	...Removable	190	.Blunt dissectors
157	..Occluding clip, clamp, or band	191	.Internal pressure applicator (e.g., dilator)
158	..Artery or vein	192	..Inflatable or expandible by fluid
159	.Blood vessel, duct or teat cutter, scrapper or abrader	193	...Inserted in female reproductive system
160	.Curette	194	...Inserted in vascular system
161	.Optic, otic or oral scrapper or abrader	195	...Detachable from inflation means
162	.Means for cleaning eye, ear or nose	196	...Nose or throat
163	.Means for debeaking or dehorning animals	197	..Rectal or anal
164	..By electrical or thermal application	198	..Expanding dilator (e.g., expanding arm, etc.)
165	.Means for removal of animal tails	199	..Nasal dilator
166	.Corneal cutter or guide for corneal cutter	200	..With emboli trap or filter
167	.Cutting, puncturing or piercing	201	.External pressure applicator
168	..Cutter drive reversed to clean material therefrom	202	..Pneumatic cuff
169	..Cutter having vibratory drive means	203	..Tourniquet
170	..Cutter carried on elongated probe-like member	204	..Acupressure device
		204.15	..Head
		204.25	...Eye
		204.35	...Wrinkle remover
		204.45	...Nose shaper
		204.55	...Horn bender
		205	.Forceps

206 ..Jaws biased to open or closed position  
 207 ..Jaw structure  
 208 ..Hinge or latch structure  
 209 ..Tubular member stripper  
 210 ..Tweezers  
 211 ..Combined with another device  
 212 ..Hoof crack repair  
 213 ..Sutureless closure  
 214 ..Chemical bonding material applied to wound edges  
 215 ..Material placed on opposed sides of incision or wound  
 216 ..Means to draw opposed sides of incision into apposition  
 217 ....Sliding fastener  
 218 ....Screw, rack and pinion or pawl and ratchet  
 219 ...Staple fastener  
 220 ...With retaining means  
 221 ...Approximating clip or serrefine  
 222 ..Suturing needle  
 223 ..Needle tip or body structure  
 224 ..Filament attachment  
 225 ...Tied, hooked, wedged or grasped  
 226 ...Deformed  
 227 ...Pull out or frangible  
 228 ..Suture or ligature  
 229 ..Collagen containing  
 230 ..Absorbable in body  
 231 ..Organic material containing  
 232 ..Suture retaining means (e.g., buttons)  
 233 ..Suture supported from engagement with incision (e.g., suture bridge)  
 234 ..Oral pacifier  
 235 ..Teething device  
 236 ..Nipple attachment or structure  
**CROSS\_REFERENCE ART COLLECTIONS**  
 900 **LUMBAR STABILIZER**  
 901 **THORACIC STABILIZER**  
 902 **CORTICAL PLATE SPECIFICALLY ADAPTED FOR A PARTICULAR BONE**  
 903 ..Cranial and facial plate  
 904 ..Jaw plate  
 905 ..Rib or sternum plate  
 906 ..Small bone plate  
 907 **COMPOSED OF PARTICULAR MATERIAL OR COATED**  
 908 ..Bioabsorbable material  
 909 ..Bone

910 ..Polymer  
 911 ..Memory material  
 912 ..Radiolucent material  
 913 ..Monolithic  
 914 **TOOLKIT FOR INSTALLING OR REMOVING SPINAL POSITIONER OR STABILIZER**  
 915 **TOOLKIT FOR INSTALLING OR REMOVING CORTICAL PLATE**  
 916 **TOOL FOR INSTALLING OR REMOVING ORTHOPEDIC FASTENER**

**FOREIGN ART COLLECTIONS**FOR 000 **CLASS-RELATED FOREIGN DOCUMENTS**

Any foreign patents or nonpatent literature from subclasses that have been reclassified have been transferred directly to the FOR Collections listed below. These Collections contain ONLY foreign patents or nonpatent literature. The parenthetical references in the Collection titles refer to the abolished subclasses from which these Collections were derived.

**INSTRUMENTS**

..Orthopedic instrumentation  
 ..Internal fixation means  
 FOR 100 ...Spinal positioner or stabilizer (606/61)  
 FOR 101 ...Cortical plate (606/69)  
 FOR 102 ...Orthopedic fastener (606/72)  
 FOR 103 ....Threaded fastener element (606/73)
