

Figures for *Data Analysis on the EIA-826/906*

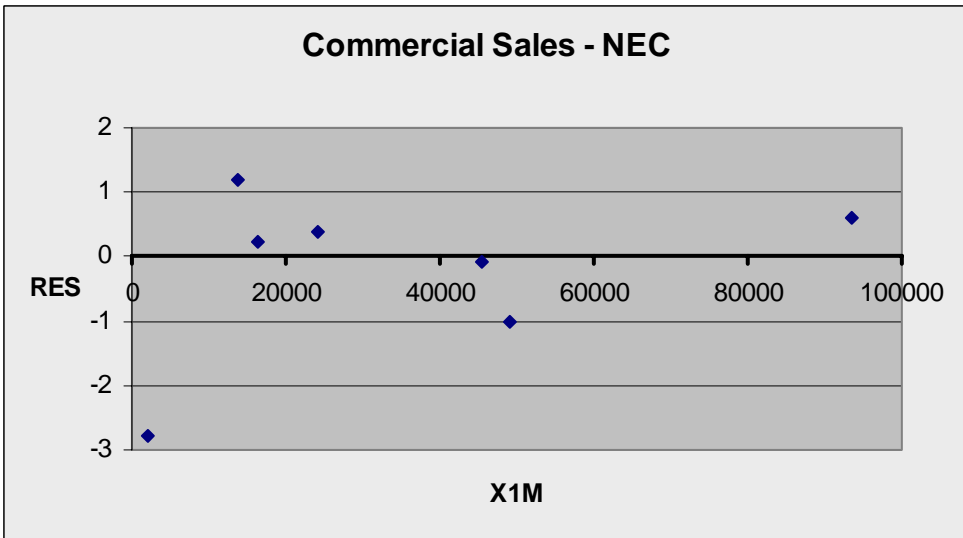

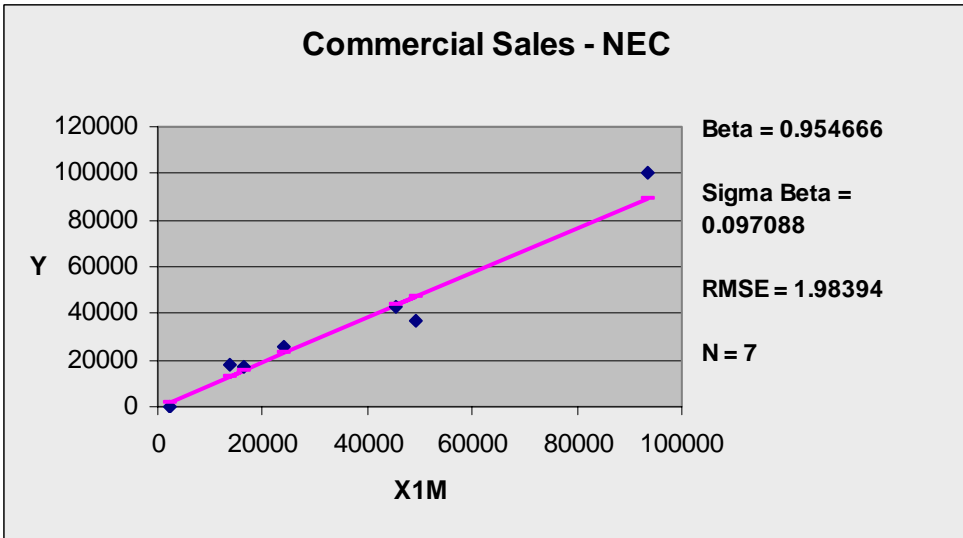

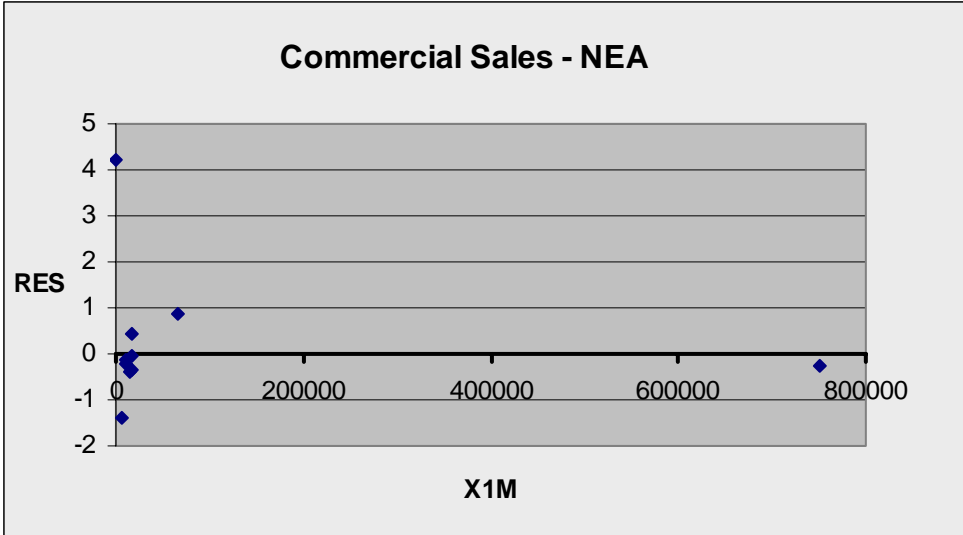

1. Scatter plots and Standardized Residual Plots

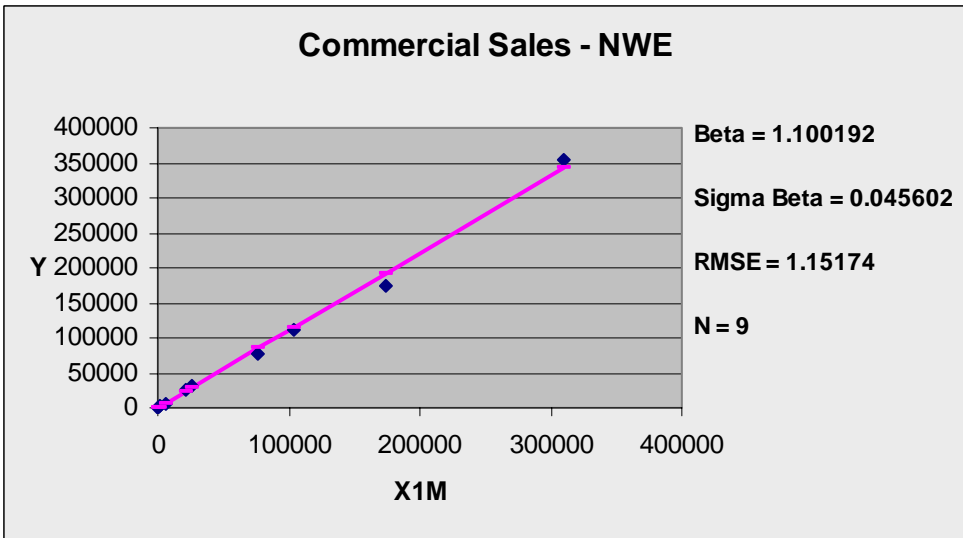

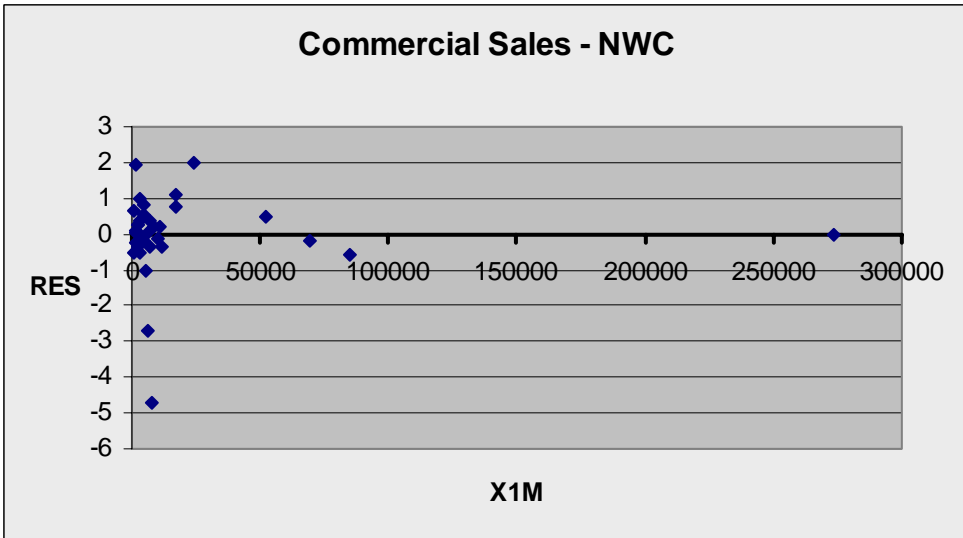

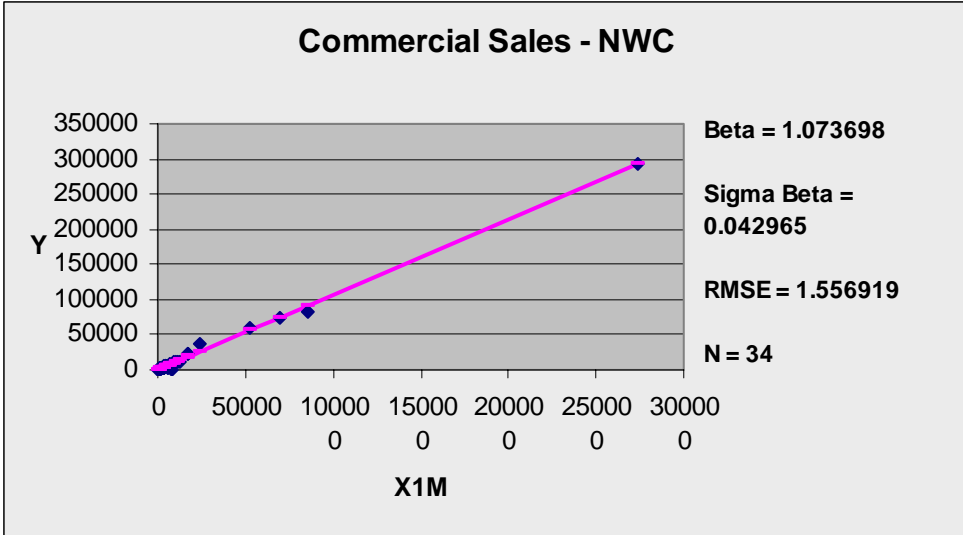

Presented for a selection of regions and end-users (commercial, industrial, residential).

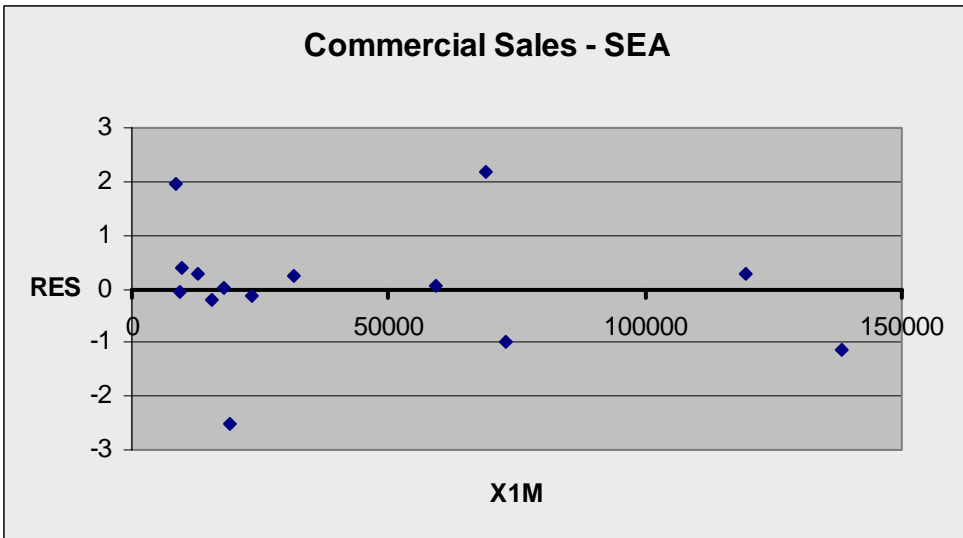

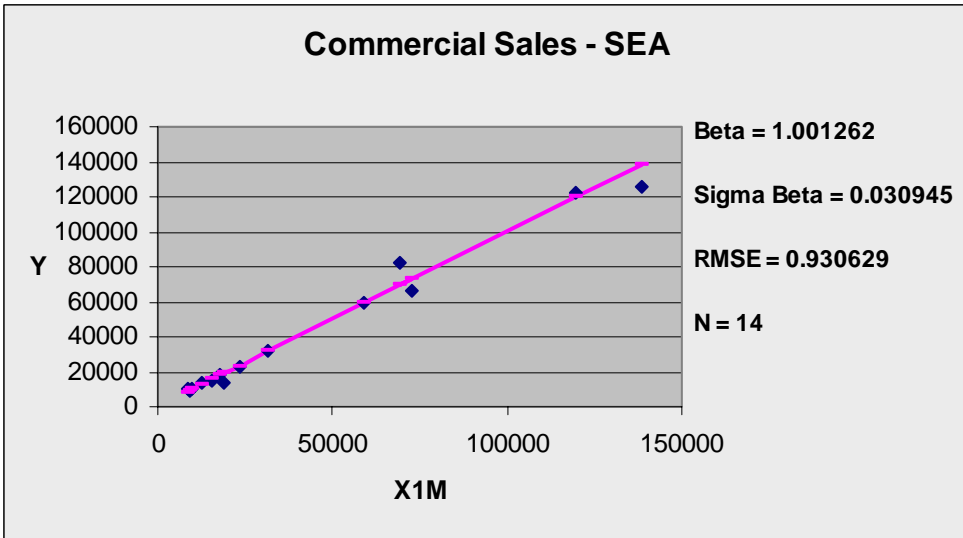

For each choice there are two plots – one which includes all of the data and the other which includes all of the data except for those companies that have been deemed to be an outlier or influential observation.

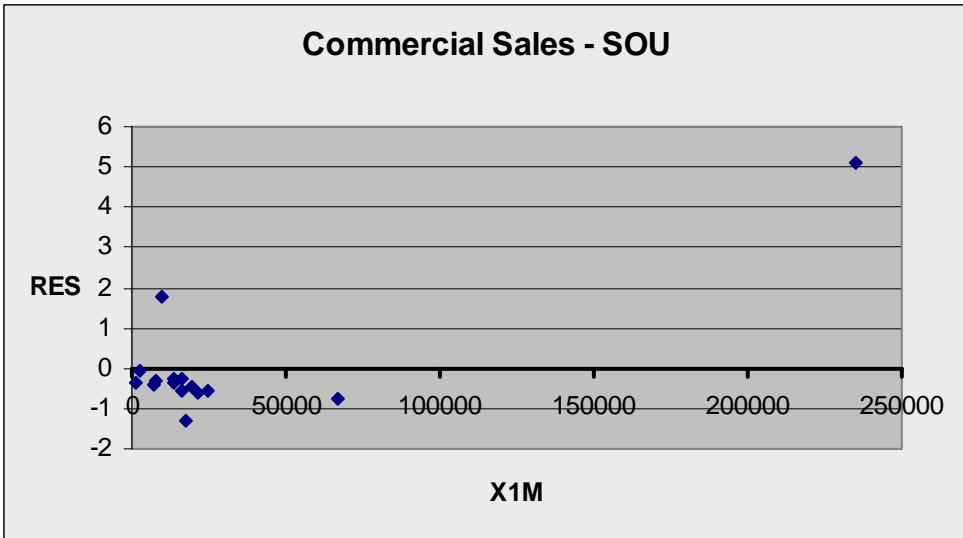

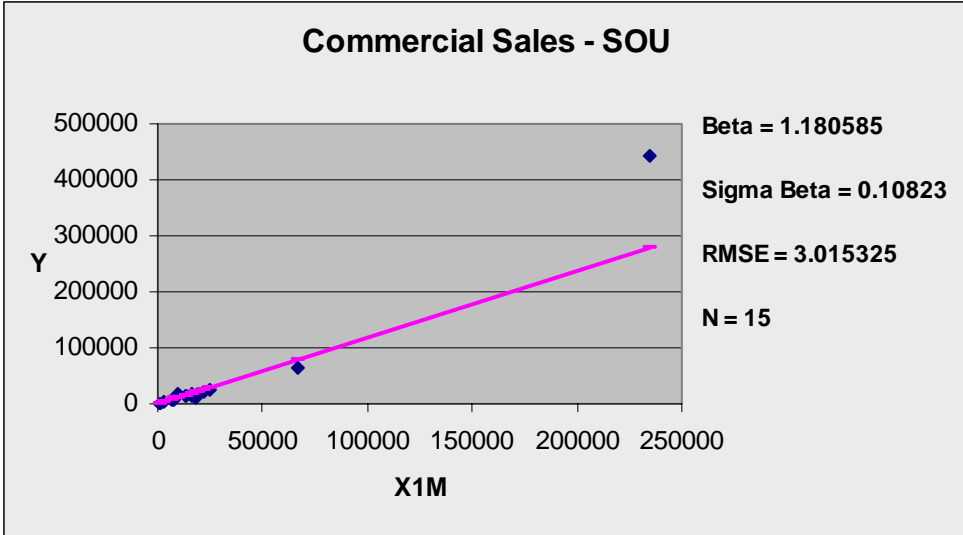

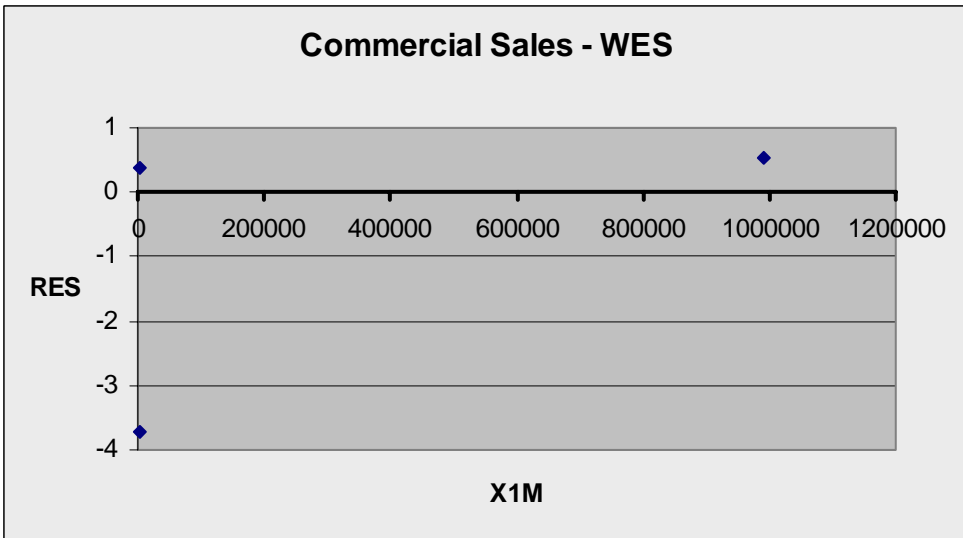

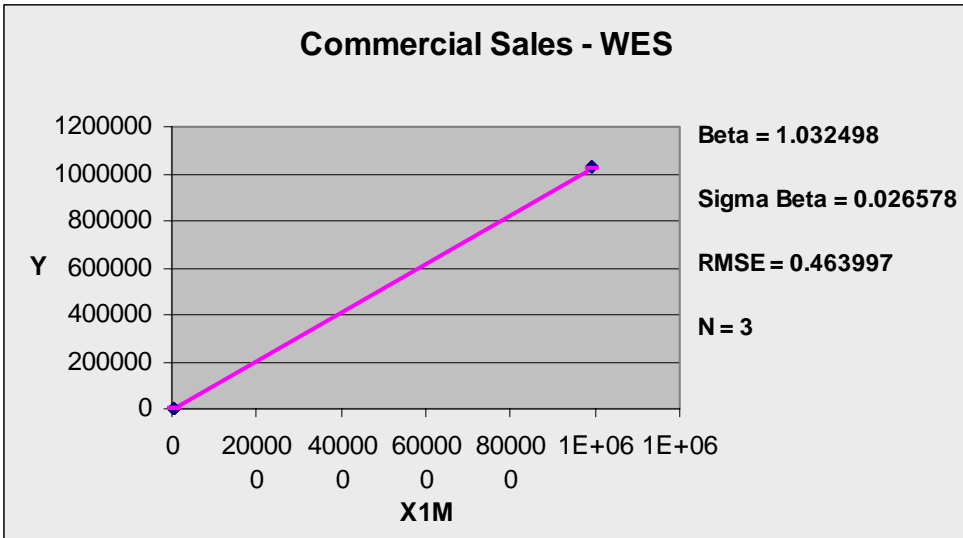

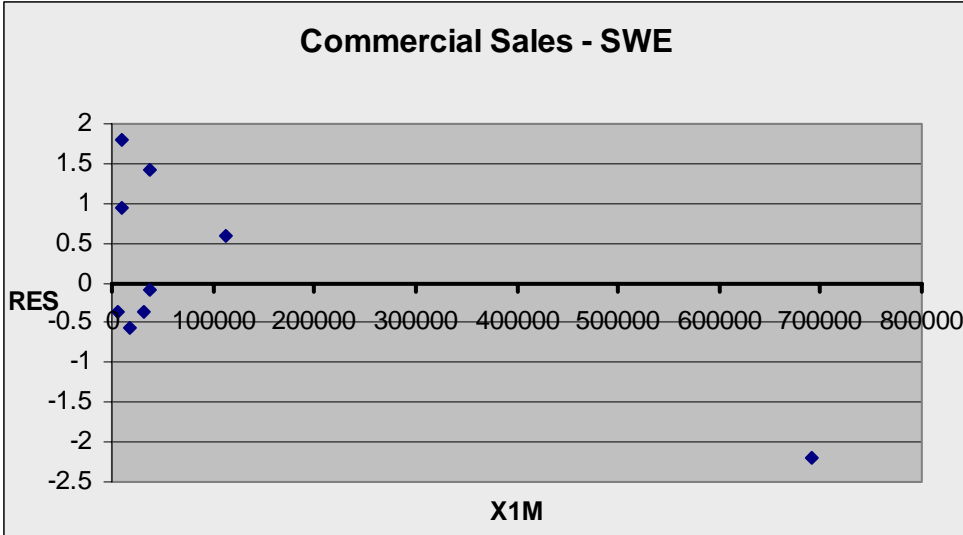

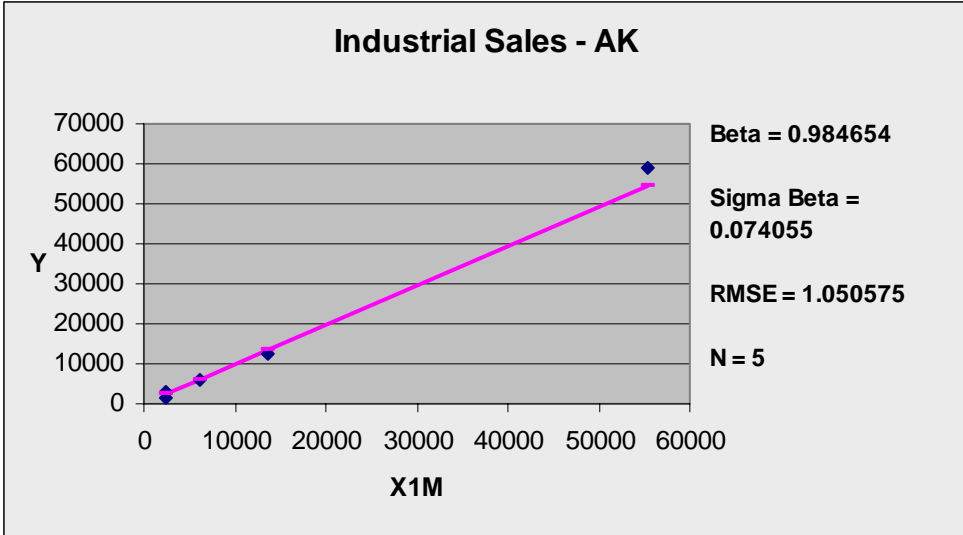

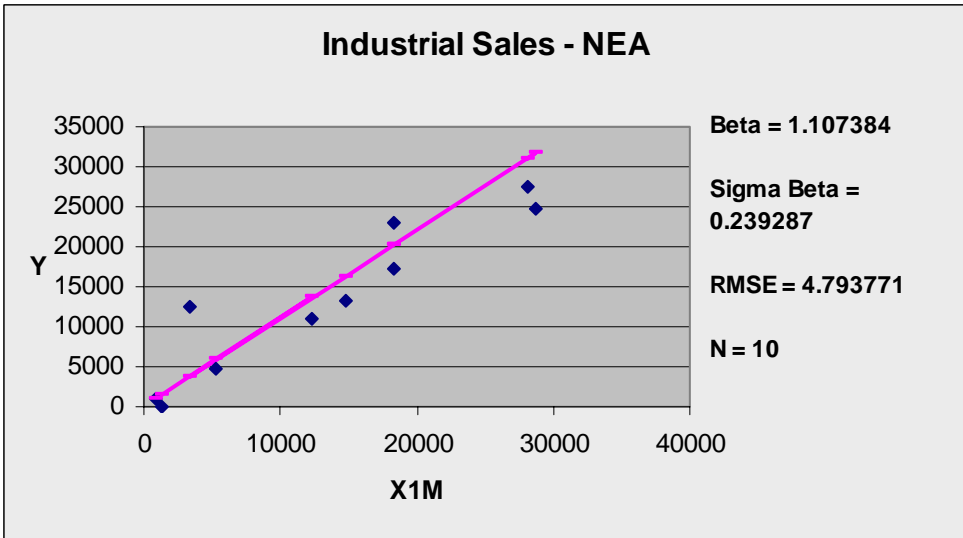

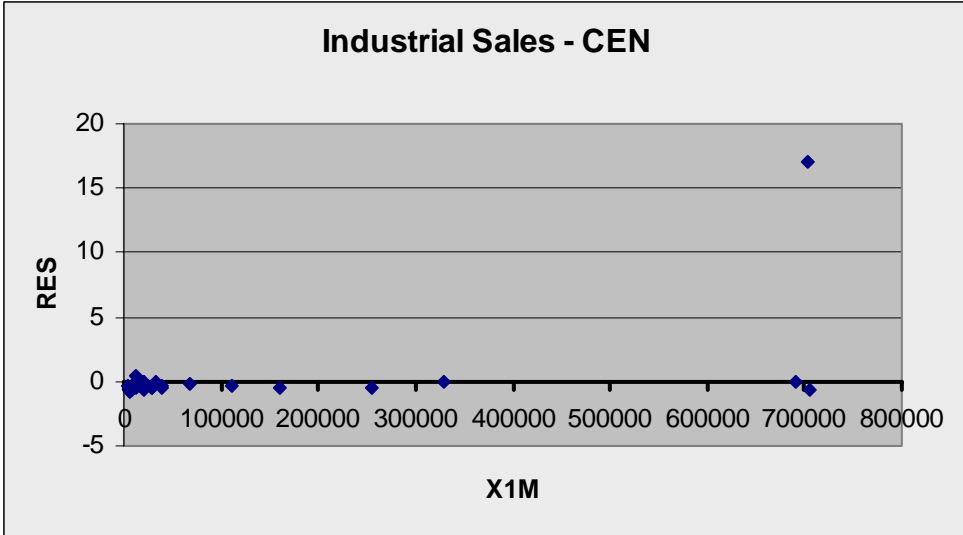

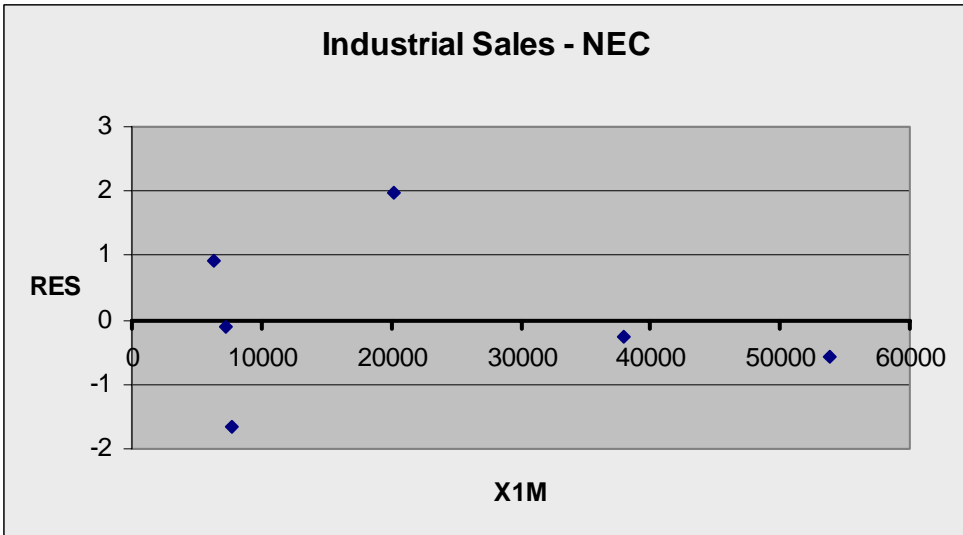

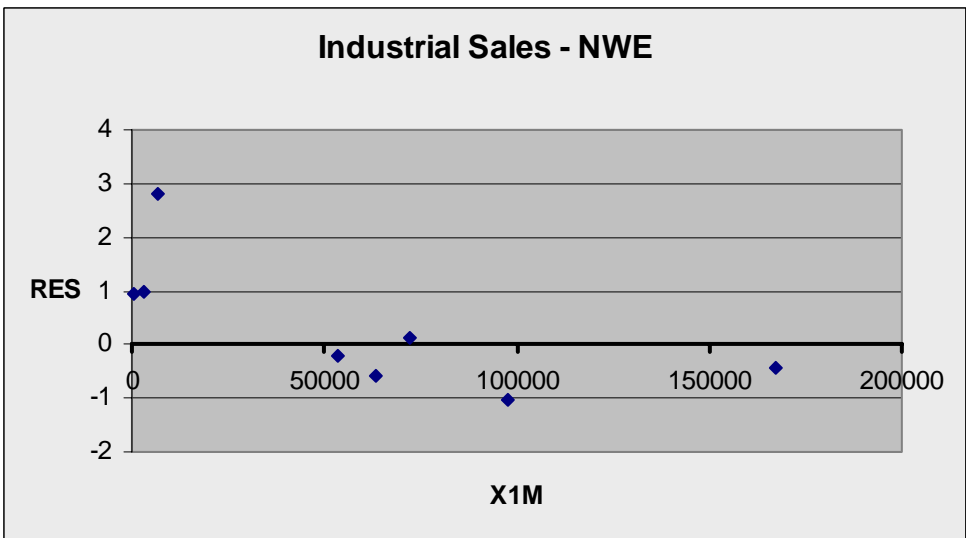

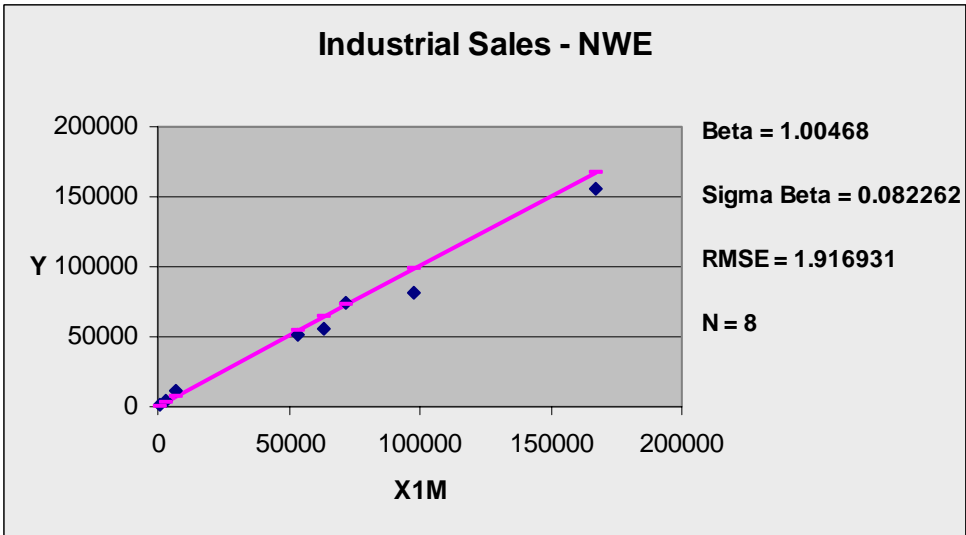

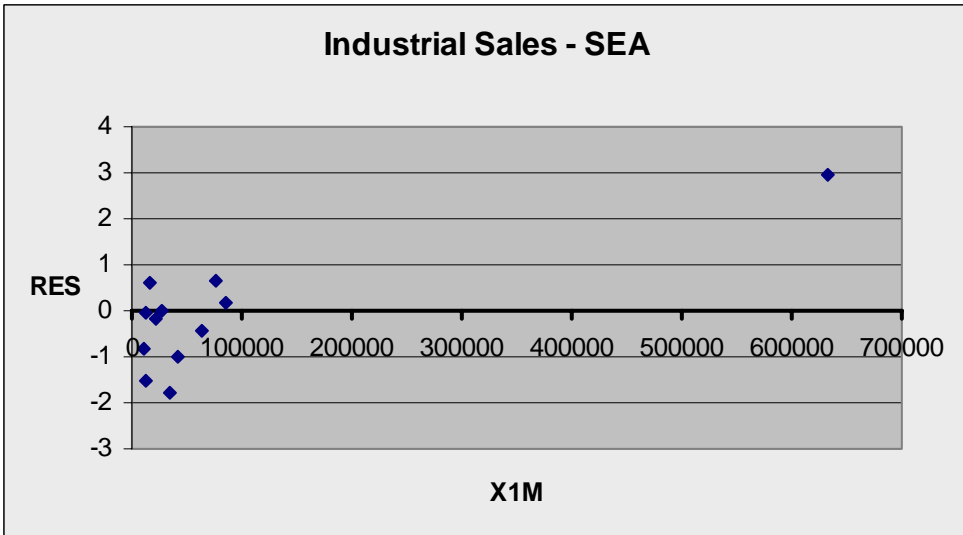

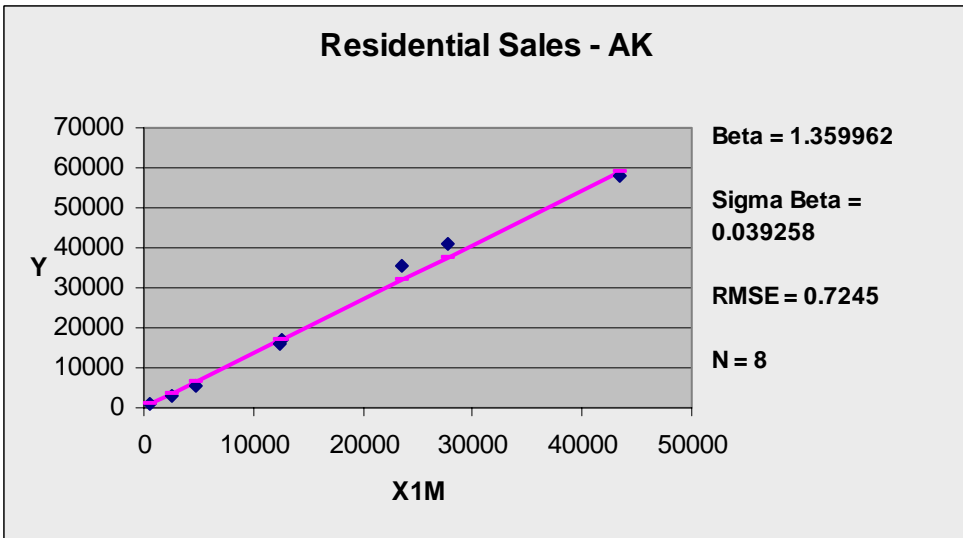

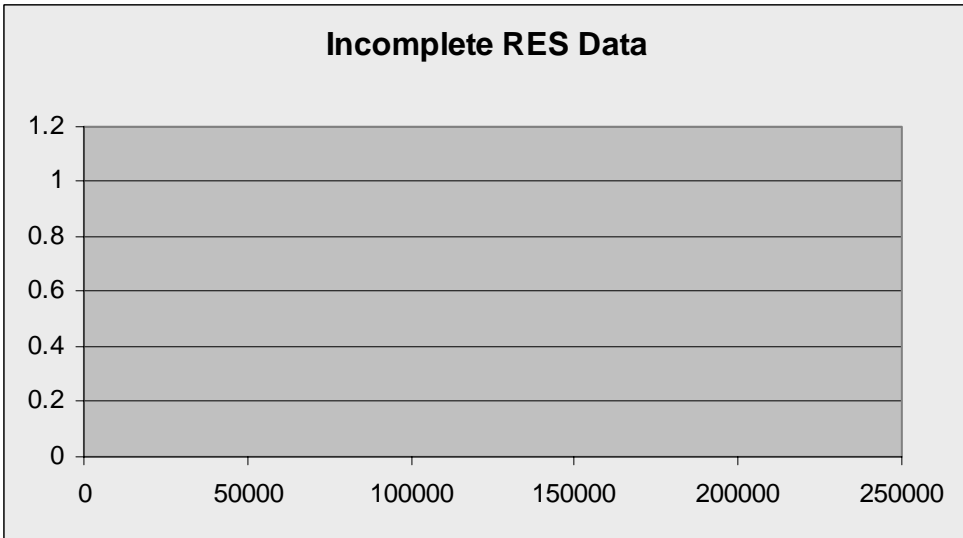

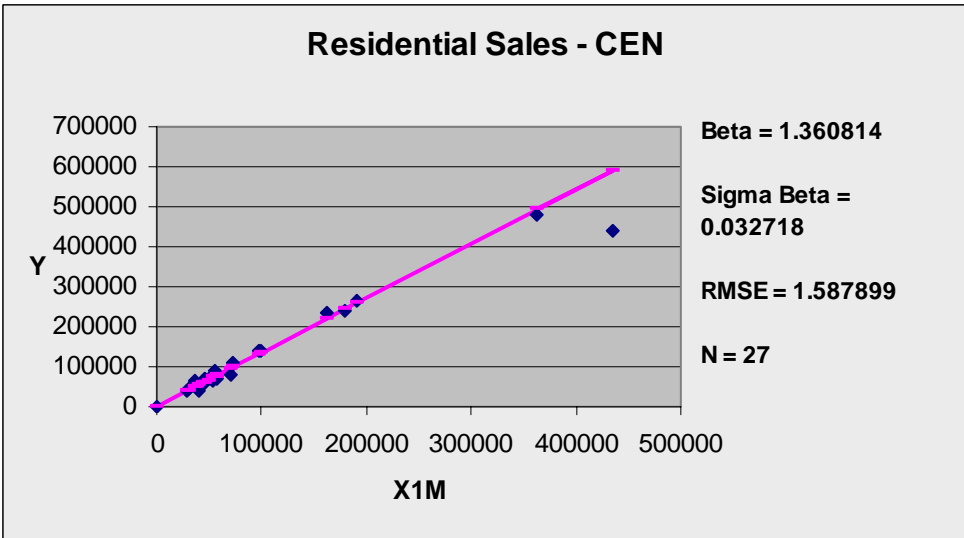

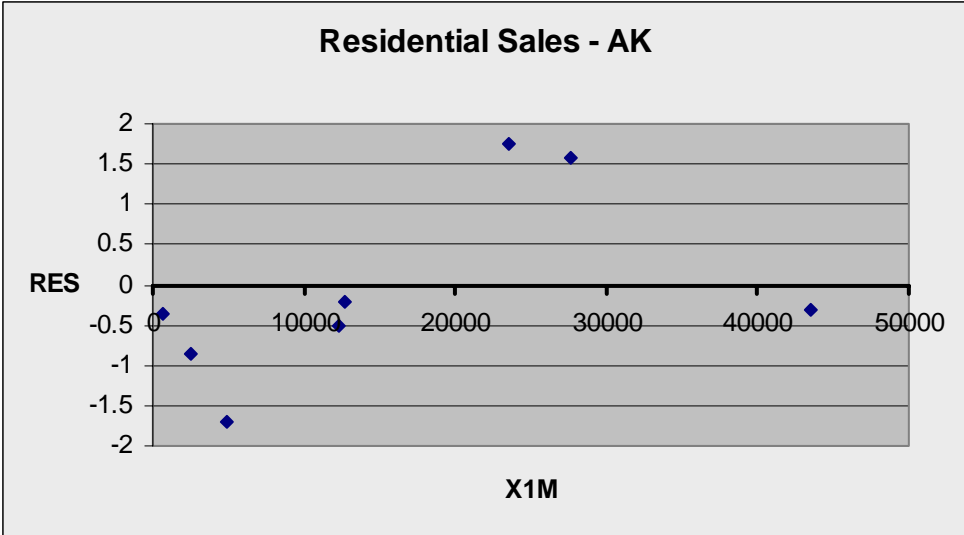

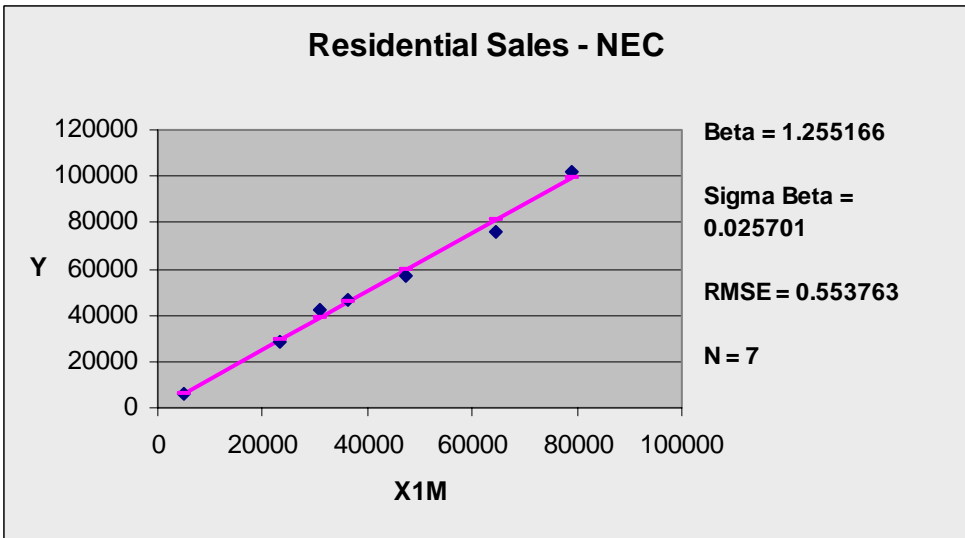

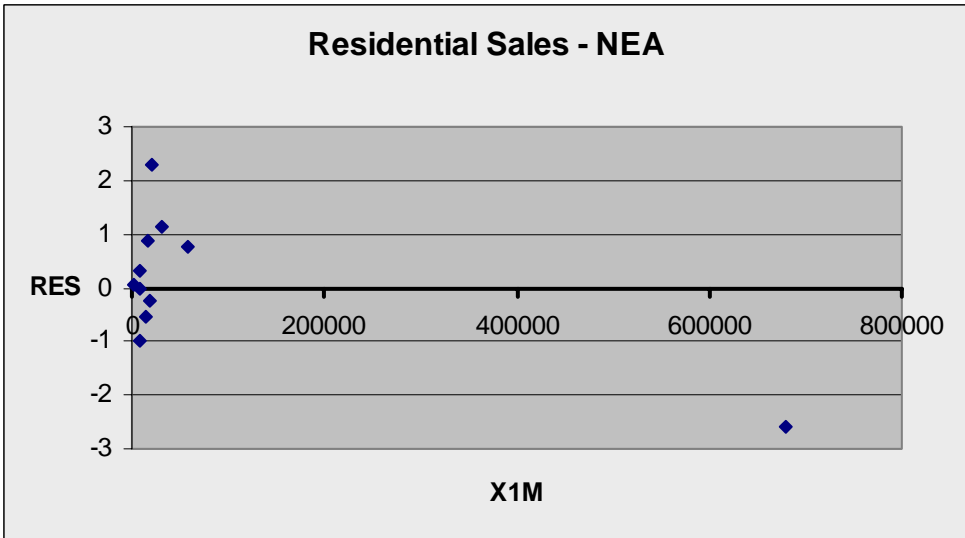

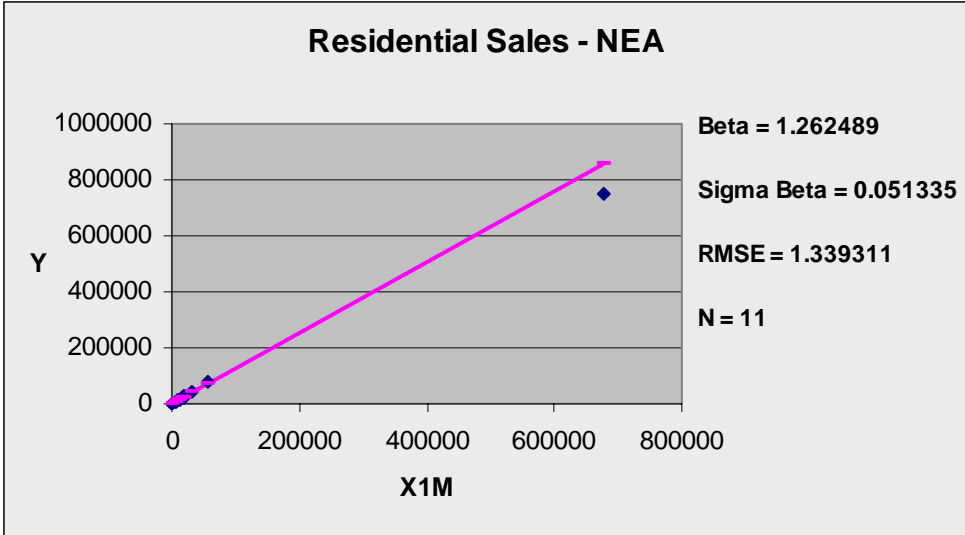

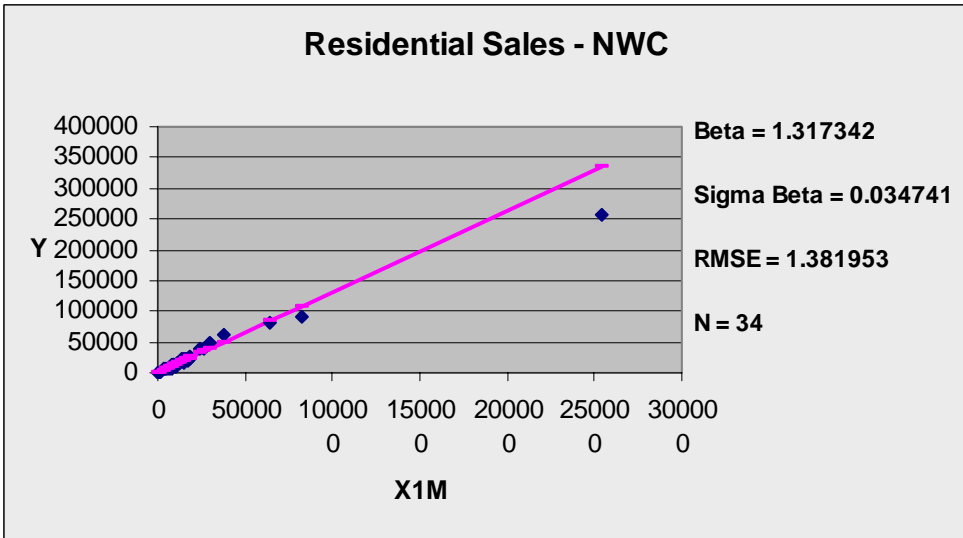

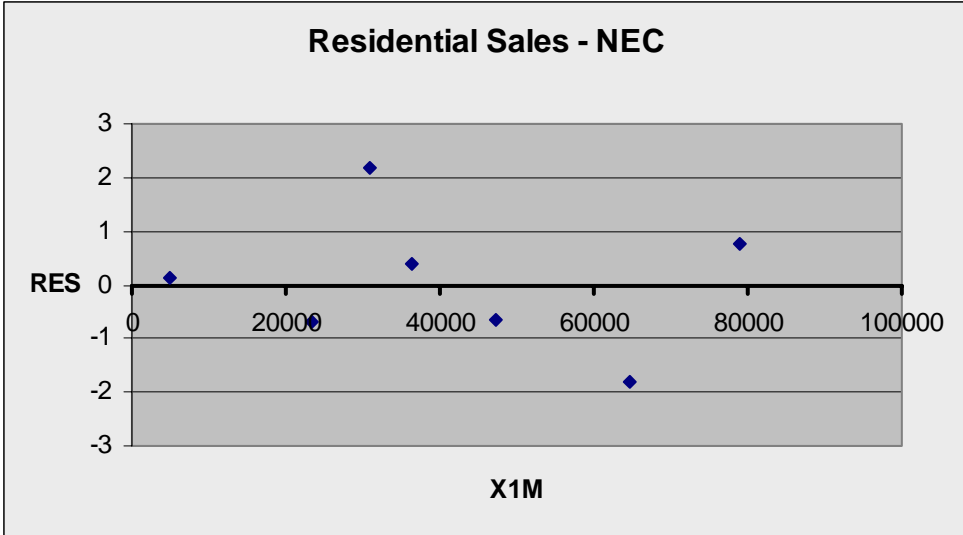

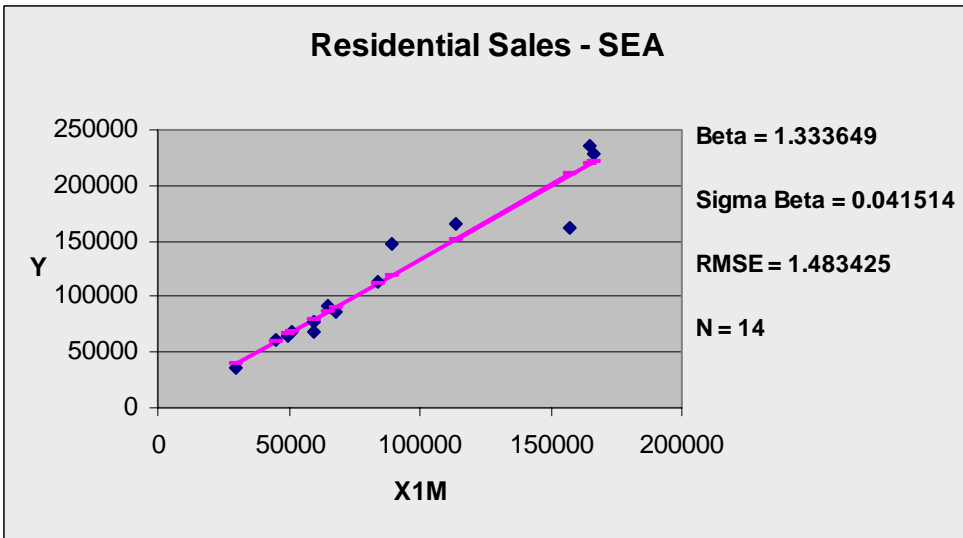

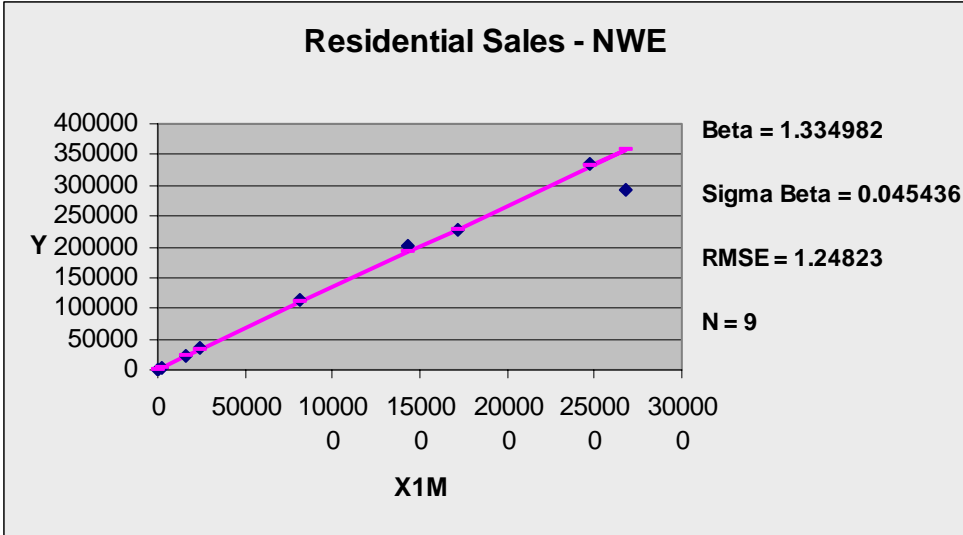

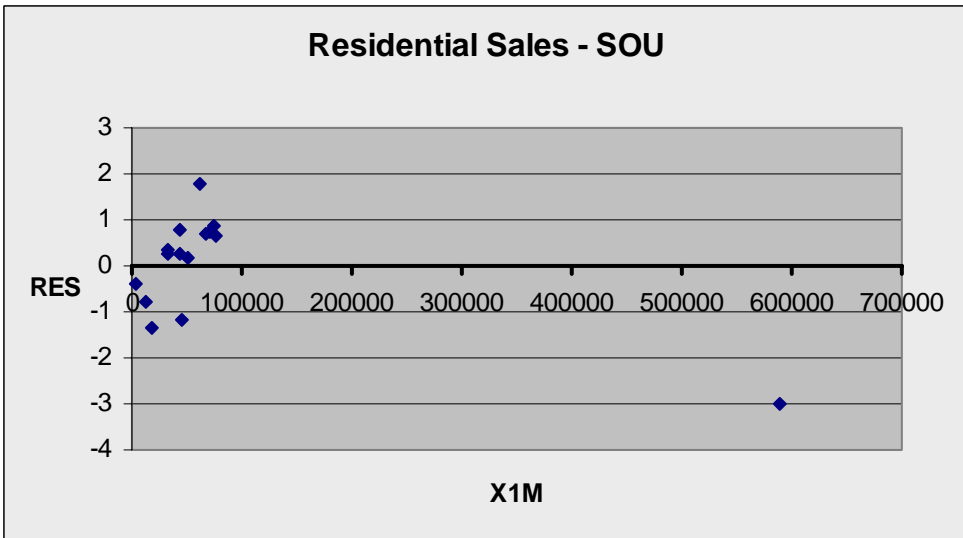

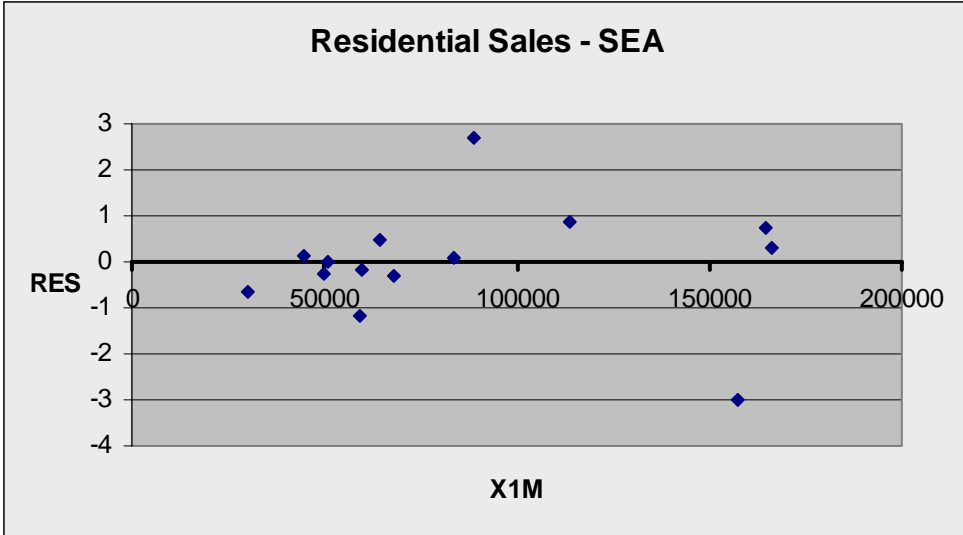

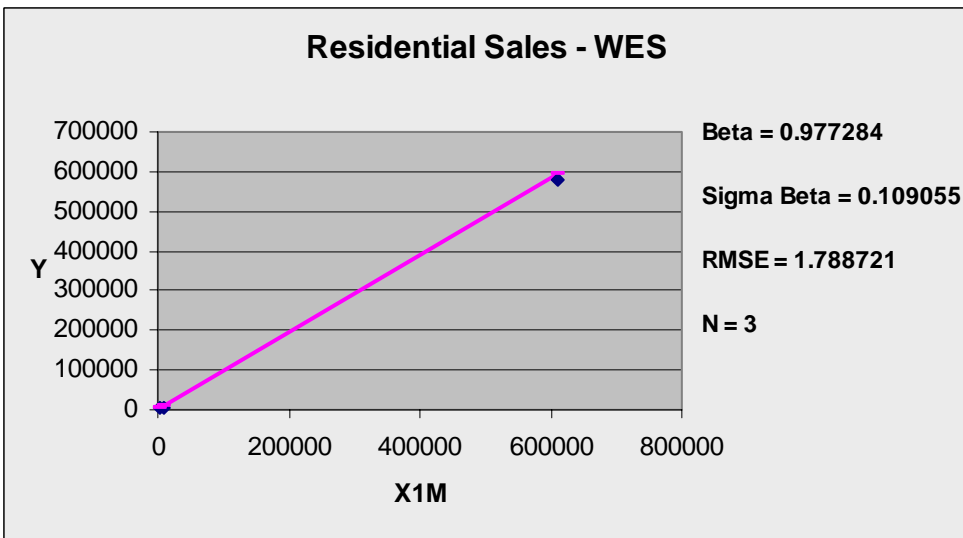

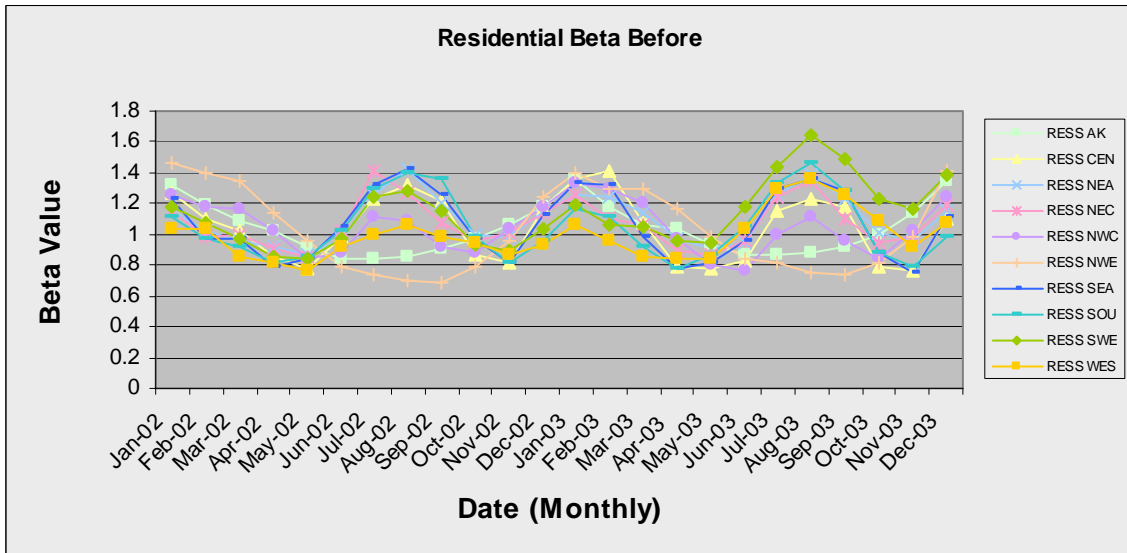

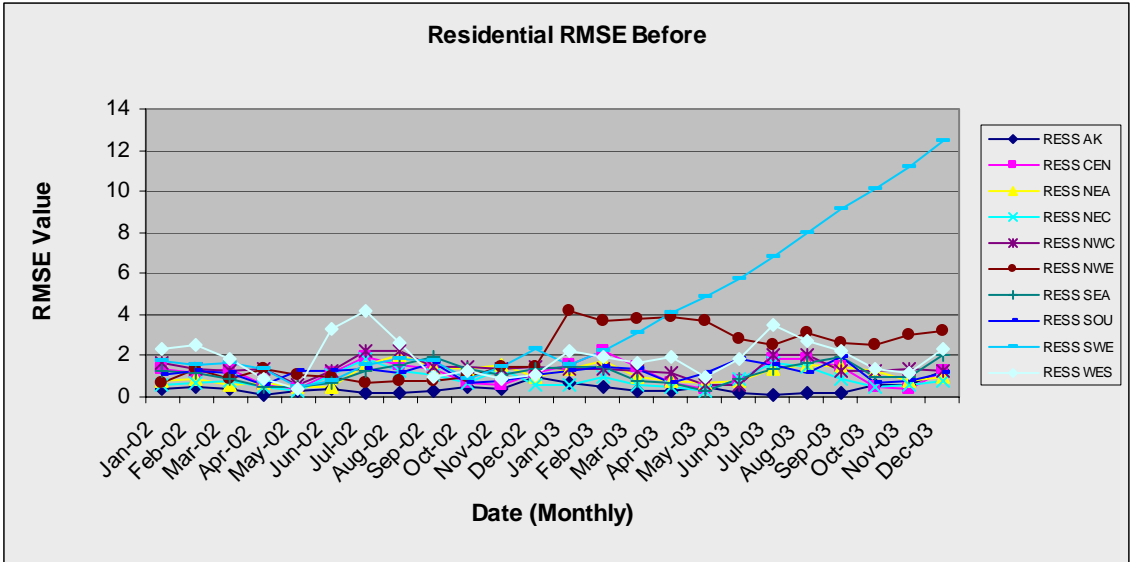

Residential Sales - WES

2. Macro-level Longitudinal Estimates

3. Micro-level Longitudinal Data
