Needs and Uses: The information sought will assist 800 MHz licensees in preventing or resolving interference and enable the Commission to implement its rebanding program. Under that program, certain licensees are being relocated to new frequencies in the 800 MHz band, with all rebanding costs to be paid by Sprint Nextel Corporation (Sprint). The Commission's overarching objective in this proceeding is to eliminate interference to public safety communications. The Commission's orders provided for the 800 MHz licensees in non-border areas to complete rebanding by June 26, 2008, but the Commission has allowed licensees to seek extension of that deadline through waiver requests. This collection is being revised to incorporate the waiver request information collection previously approved under OMB control number 3060-1114.
