## CURRENT SITUATION:

Initial attack activity was light in all Areas. Nationally, 103 new fires were reported. Five new large fires were reported, four in the Northern Rockies Area and one in the Rocky Mountain Area. Five large fires were contained, three in the Northern Rockies Area and one each in the Rocky Mountain and Southern Areas. Very high to extreme fire indices were reported in Arizona, California, Hawaii, Idaho, Kansas, Montana, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming.

## NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Mann) is assigned to manage Blackfoot Lake Complex, Wedge Canyon, Robert, Middle Fork Complex, Trapper Creek Complex, Crazy Horse, Rampage Complex, High and Little Salmon Creek Complex. An Area Command Team (Rounsaville) is assigned to manage Lincoln Complex, Winslow, East Complex, Rough Draw Complex, Cathedral Peak Complex, Rathbone and Burnt Ridge/Sheep Camp Complex. An Area Command Team (Ribar) is assigned to manage Cherry Creek Complex, Mineral-Primm/Boles Meadow, Fish Creek Complex, Black Mountain 2, Cooney Ridge and Gold 1. An Area Command Team (Greenhoe) is assigned to manage Sapp, Slim's Complex, Fiddle, Beaver Lake, Cayuse Lake Complex, and Clear/Nez Fire Use Complex.

BLACKFOOT LAKE COMPLEX, Flathead National Forest. A Type 1 Incident Management Team (Mortier) is assigned. This incident, comprised of the Beta Lake, Doris Mountain, Lost Johnny, Ball Creek, Wounded Buck, Doe, Dead Buck, and Blackfoot Lake fires, is in timber 19 miles east of Kalispell, MT. Frequent torching, short uphill runs and backing fires were observed. Firefighters contained the spot fires east of Hungry Horse Reservoir.

WEDGE CANYON, Flathead National Forest. A Type 2 Incident Management Team (Paul) is assigned. This fire is in sub-alpine fir with down fuels, 20 miles east of Eureka, MT. Fire activity was moderate with interior torching, spotting and crowning. Structure protection is in place for 80 residences.

MIDDLE FORK COMPLEX, Glacier National Park. A transfer of command from Ferguson's Type 1 Incident Management Team to Cable's Type 1 Incident Management Team will occur today. This incident, comprised of the Belton, Center and Harrison fires, is in timber, five miles east of West Glacier, MT. Moderate ground fire with isolated torching was observed. The fire continued to burn downslope towards Highway 2. Structure protection is in place for 25 residences.

CRAZY HORSE, Flathead National Forest. A Type 2 Incident Management Team (Chrisman) is assigned. This fire is in mixed conifer with heavy dead and down fuels, ten miles northeast of Saint Ignatius, MT. Continued slow surface spread with isolated torching was observed in the morning with increased torching in the afternoon as winds increased.

ROBERT, Flathead National Forest. A transfer of command from Ferguson's Type 1 Incident Management Team to Cable's Type 1 Incident Management Team will occur today. This fire is in timber, eight miles north of Columbia Falls, MT. Slow burning ground fire was observed with occasional torching. Structure protection is in place for 100 residences and six commercial properties.

RAMPAGE COMPLEX, Glacier National Park. A transfer of command from Ferguson's Type 1 Incident Management Team to Cable's Type 1 Incident Management Team will occur today. This incident, comprised of the Double Mountain 1 and 2, Riverview No. 1, Riverview No. 2 and Rampage, is in timber 15 miles southeast of West Glacier, MT. Surface fire with occasional torching was observed. The Double Mountain 1 and 2 fires have burnt together. These fires made another significant run, growing by over 2,400 acres and igniting numerous spot fires to the north and south. Structure protection is in place for 30 residences.

TRAPPER CREEK COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Cable) is assigned to the Trapper Creek, Paul Bunyan and Trout fires; a Type 2 Incident Management Team (Paul) is assigned to the Wolf Gun fire. The complex is in mixed conifer with dead and down fuels, 45 miles northeast of Kalispell, MT. Fire behavior was minimal. Structure protection is in place for three commercial properties.

HIGH, Flathead National Forest. A Type 2 Incident Management Team (Weldon) is assigned. This fire is in timber, 23 miles northeast of Seeley Lake, MT. Fire behavior was minimal. This fire will become part of the Little Salmon Creek Complex today.

LINCOLN COMPLEX, Helena National Forest. A Type 1 Incident Management Team (Studebaker) is assigned. This complex is comprised of the Moose-Wasson and Snow-Talon fires, ten miles west of Lincoln, MT. Fire behavior was minimal. The Moose-Wasson fire is contained; there was no significant perimeter growth on the Snow-Talon. Structure protection is in place for 150 residences and 20 commercial properties.

EAST COMPLEX, Yellowstone National Park. A Type 2 Incident Management Team (Gardner) is assigned. This incident, comprised of the East and Grizzly fires, is ten miles east of Fishing Bridge Junction, WY. Isolated torching with creeping fire was observed. Highway 20 was reopened for public use for three hours in the morning and three hours in the afternoon.

WINSLOW, Central Land Office, Montana Department of Natural Resources \& Conservation. A Type 2 Incident Management Team (Kearney) is assigned. This fire is in timber, five miles southwest of Lakeview, MT. The fire received rain showers yesterday afternoon; fire behavior was minimal. A microburst of wind associated with a thunder cell struck base camp yesterday afternoon. The dining tent was blown a distance of $1 / 8^{\text {th }}$ mile. Numerous tents, tent flys' and portajohns' were displaced and inverted. There are no known injuries. Preparations are being made to transition with two Type 3 Teams, one in Idaho and one in Montana. Structure protection is in place for 30 residences and one commercial property.

CATHEDRAL PEAK COMPLEX, Custer National Forest. A Type 1 Incident Management Team (Humphrey) is assigned. This incident, comprised of the Cathedral Peak, Oliver and Salderbalm fires, is in timber 10 miles south of Nye, MT. Fire behavior was minimal due to higher humidity levels and very light rainfall. Structure protection is in place for 50 residences and one commercial property.

BURNT RIDGE SHEEP CAMP COMPLEX, Lewis and Clark National Forest. A Type 2 Incident Management Team (Hendricks) is assigned. This complex, comprised of the Burnt Ridge, Ant Park, Sheep Camp and Pioneer Ridge fires, is four miles northwest of Neihart, MT. Minimal fire behavior was observed. The Sheep Camp spike camp was demobed and many of the resources were assigned to the Burnt Ridge Complex. Decrease in fire acreage is due to more accurate mapping of the Ant Park fire.

ROUGH DRAW COMPLEX, Gallatin National Forest. A transfer of command from Oltrogge's Type 1 Incident Management Team to a Type 3 organization will occur today. This complex, five miles southeast of Livingston, MT is comprised of the Rough Draw, Slippery Rock, Speculator 1, Speculator 2, Elbow, Brundage, Walbrun and Hawley fires. Fire behavior was minimal.

RATHBONE, Gallatin National Forest. A Type 2 Incident Management Team (Walker) is assigned. This fire is in timber, 17 miles north of West Yellowstone, MT. Moderate interior burning and some isolated torching were observed. Decrease in fire acreage is due to more accurate mapping on the east flank.

FISH CREEK COMPLEX, Lolo National Forest. A Type 1 Incident Management Team (Stam) is assigned. U.S. Army Task Force Steel Dragon (2nd Battalion, 82nd Field Artillery Regiment) commanded by Lt. Col. Gregory Schultz, at Fort Hood, TX is assigned. This incident, comprised of the Fish Creek, Thompson Creek, Surveyor Creek, Lower Quartz, Siamese Lake, Indian Creek, Middle Fork Indian Creek, Cedar Log and West Fork Indian Creek fires, is 24 miles west of Missoula, MT. Fire behavior was moderate, characterized by surface fire with occasional torching. Crews made good progress securing fireline and mopping up in several divisions of the Thompson Creek Fire. Structure protection is in place for 195 residences and one commercial property.

BLACK MOUNTAIN 2, Southwestern Land Office, Montana Department of Natural Resources \& Conservation. A Type 1 Incident Management Team (Gelobter) is assigned. This fire is in mixed conifer, understory and grass, nine miles west of Missoula, MT. Fire behavior was low. Structure protection is in place for 650 residences.

CHERRY CREEK COMPLEX, Lolo National Forest. This incident, comprised of the Cherry Creek and Tepee Creek fires, is in lodgepole pine with heavy ground fuels, 12 miles southeast of Thompson Falls, MT. Minimal fire activity was observed. Structure protection is in place for 180 residences.

MINERAL-PRIMM, Southwestern Land Office, Montana Department of Natural Resources \& Conservation. A Type 1 Incident Management Team (Bennett) is assigned. This incident, comprised of the Mineral-Primm, Stuart Peak and Boles Meadows fires, is in timber 19 miles northeast of Missoula, MT. Isolated torching occurred in the northwest portion of the MineralPrimm Fire and the southeastern part of the Boles Meadow Fire. Active surface burning occurred in isolated unburned perimeters in the Wilderness and interior islands.

COONEY RIDGE, Southwestern Land Office, Montana Department of Natural Resources \& Conservation. A Type 2 Incident Management team (Sandman) is assigned. This fire is in timber eleven miles east of Florence, MT. Fire activity was minimal. Crews continued direct and indirect fireline construction in the northern and eastern flank divisions. Structure protection is in place for 100 residences.

GOLD 1, Bitterroot National Forest. A Type 2 Incident Management Team (Philbin) is assigned. This fire is in heavy timber, nine miles northeast of Corvallis, MT. Fire behavior subsided due to higher humidity levels and lower temperatures.

SLIM'S COMPLEX, Nez Perce National Forest. A Type 1 Incident Management Team (Sexton) is assigned. This complex, comprised of the Slim's, Stillman and Poet fires, is 35 miles east of Grangeville, ID. Fire activity was low. Firefighters continued cold trailing, hot spotting and constructing fireline along the northern and southern flanks of the Poet fire.

SAPP, Nez Perce National Forest. A Type 1 Incident Management Team (Sexton) is assigned. This incident, comprised of the Sapp and Richardson fires, is in timber and grass 22 miles south/southeast of Elk City, ID. Fire behavior was minimal. Structure protection is in place for 22 residences and one commercial property.

BEAVER LAKE COMPLEX, Clearwater National Forest. A Type 1 Incident Management Team (Frye) is assigned. This incident, comprised of the Beaver Lake, Siah Lake, Moose Lake, Lily Lakes, Bears Oil, Cayuse, Eagle Creek, Eagle Creek East, Fish, Queen Creek, North Howard and Hopeful 2 fires, is 19 miles southwest of Missoula, MT. Higher temperatures and lower humidity levels resulted in increased drying across the incident. Surface fire and single and multiple tree torching was observed. Structure protection is in place for 61 residences and 51 commercial properties.

CAYUSE LAKE COMPLEX, Clearwater National Forest. A Fire Use Management Team (Cones) is assigned. This incident, comprised of 44 fires, is in timber 41 miles southwest of Lolo, MT. Fire behavior was minimal. All fires in this complex are suppression fires managed under a confinement strategy.

FIDDLE, Nez Perce National Forest. This fire is in timber, six miles northeast of Riggins, ID. No visible fire activity was observed.

MEAT HOOK, Custer National Forest. This fire is in timber, 15 miles East of Buffalo, SD. Fire behavior was minimal. Structure protection is in place for 50 residences and one commercial property.

3 MILE, Eastern Land Office, Montana Dept. of Natural Resources \& Conservation. This fire is in grass, brush and timber 13 miles northwest of Glendive, MT. Fire behavior was extreme due to strong winds.

MOLLMAN, Flathead Agency, Bureau of Indian Affairs. This fire is in timber, five miles southeast of Ronan, MT. Surface fire and single tree torching were observed. Firefighters made good progress towards containment goals on the lower part of the incident with the aid of aerial resources.

UNION, Yellowstone National Park. This fire is in timber, 35 miles east of Ashton, ID. Fire behavior was minimal.

FRANK'S CREEK, Dakota Prairie National Grasslands. This fire is in timber and grass, seven miles north of Medora, ND. Fire behavior included flame lengths of two to four feet and pockets of isolated torching.

## NORTHWEST AREA LARGE FIRES:

B\&B COMPLEX, Deschutes National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This complex, comprised of the Booth and Bear Butte fires, is 14 miles west of Sisters, OR. The fires are in timber with heavy ground fuels. Both fires are very active with torching, spotting and short crown runs. Structure protection is in place for 1,000 residences and 12 commercial properties. State Highway 20 remains closed for through traffic.

LIGHTNING COMPLEX, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (Morcom) is assigned. This complex is comprised of the Grouse Creek, Haas Ridge, Butcherknife and Two Corral fires, 31 miles east of Joseph, OR. The Grouse Creek, Butcherknife and Two Corral fires are contained. Hat Point road is open to the public.

SQUARE LAKE FIRE, Okanogan/Wenatchee National Forest. A Type 2 Incident Management Team (Furlong) is assigned. This fire is in continuous old growth forest, heavy brush and downed fuels, 20 miles west of Leavenworth, WA. Creeping and smoldering with isolated torching were observed. A trail closure for upper Icicle Creek drainage is in effect.

GLACIER PEAK COMPLEX, Mt. Baker-Snoqualmie National Forest. This complex, comprised of the Mineral, Found Lake and Emerald Lake fires, is in timber, brush and heavy downed fuels, 16 miles southeast of Marblemount, WA. Active fire with torching and short runs was observed.

## ROCKY MOUNTAIN AREA LARGE FIRES:

BLACKWATER COMPLEX, Shoshone National Forest. Plans are being made for a transfer of command from Wendt's Type 2 Incident Management Team to a Type 3 organization. This complex, comprised of the Blackwater and Norris fires, is 30 miles west of Cody, WY. The Norris fire is in monitor status. The Blackwater fire had minimal growth with surface burning and isolated torching.

BOULDER BASIN 2, Shoshone National Forest. This fire is in grass, sagebrush and timber, 25 miles southwest of Cody, WY. Minimal fire activity with smoldering was observed due to higher humidity levels and cloud cover. Structure protection is in place for 25 residences and 20 commercial properties.

SAWTOOTH, Routt National Forest. This fire is in blow-down and bug-killed spruce, 20 miles northeast of Steamboat Springs, CO. No new information was reported. This will be the last report unless new information is received.

## EASTERN GREAT BASIN AREA LARGE FIRES:

NORTH FORK LICK, Payette National Forest. A Type 2 Incident Management Team (Suwyn) is assigned. This incident, comprised of the Marble and North Fork Lick fires, is in sub-alpine fir with dead and down fuels, 18 miles northeast of McCall, ID. Increase in acreage is due to more accurate mapping. Minimal fire activity was observed. Structure protection is in place for 123 residences and two commercial properties.

MIDDLE FORK COMPLEX, Salmon-Challis National Forest. A Fire Use Management Team (Clark) is assigned. The complex is comprised of the Cougar, Marble, Prospect, Mahoney, Teapot, Falconberry and Trapper fires, 25 miles northwest of Challis, ID. Very little fire activity was observed within the complex. The complex is in monitor status. Closures to the Falconberry have been lifted.

LOST PACKER COMPLEX, Salmon-Challis National Forest. This complex, comprised of the Waugh, Upper West Horse, Little Horse and Horse fires, is 36 miles northwest of Salmon, ID. No new information was reported. This will be the last report unless new information is received.

## NORTHERN CALIFORNIA AREA LARGE FIRES:

SANTA CLARA COMPLEX, Santa Clara Unit, California Department of Forestry \& Fire Protection. A CDF Type 1 Incident Management Team (Chuchel) is assigned. This complex, composed of 23 lightning fires, seven active large fires and 16 contained fires within the area, is in chaparral, timber and grass, ten miles south of Livermore, CA. Increased fire activity with large upslope runs was observed.

## OUTLOOK:

Weather Discussion: Surface high pressure pushing into Montana and northern Wyoming is ushering in cooler air and an easterly upslope flow along the Continental Divide. Otherwise, westerly flow prevails over the rest of the west with an upper low moving through southern Oregon and southern Idaho.

| Geographic Area Weather | High Temperatures | Minimum Relative Humidity | Wind |
| :---: | :---: | :---: | :---: |
| NORTHERN ROCKIES AREA <br> Gusty winds with isolated showers and thunderstorms across southern Montana and partly to mostly cloudy elsewhere. | Idaho: 80s <br> Montana:70s west and 65 to 75 east North Dakota: 60s | Idaho:15 to 25\% <br> Montana: 20 to 30\% west and 30 to $40 \%$ east North Dakota: 40 to 50\% | Idaho: Northeast 5 to 15 mph Montana: East to northeast 5 to 15 mph west with occasional higher gusts and east to northeast 5 to 15 mph east North Dakota: Northeast to northwest 10 to 15 mph |
| NORTHWEST AREA <br> Mostly sunny, except brief morning clouds on the coast. | 75 to 85 over west Washington and northwest Oregon, except 65 to 75 coast. Highs 85 to 95 in southwest Oregon and east of Cascades. | 25 to $35 \%$ over west Washington and northwest Oregon, but 35 to $55 \%$ coast. 10 to $25 \%$ southwest Oregon and east of Cascades, lowest in southeast Oregon. | Washington: Light and variable winds becoming north to northeast 5 to 15 mph by afternoon. Oregon: Light and variable becoming north to northwest 5 to 10 mph . |
| EASTERN GREAT BASIN <br> Idaho, Bridger-Teton: <br> Partly-mostly cloudy with isolated afternoon thunderstorms in eastern Idaho and the Bridger-Teton. <br> Utah, Arizona Strip: <br> Partly-mostly cloudy with widely scattered showers and thunderstorms mainly mountains. | Idaho, Bridger- <br> Teton: <br> 53 to 81 mountains, 72 to 87 valleys. Utah and Arizona Strip: <br> 63 to 82 higher elevations, 82 to 94 valleys. | Idaho, Bridger-Teton: <br> 9 to $25 \%$ west, 23 to $44 \%$ east. <br> Utah, Arizona Strip: <br> 20 to $30 \%$ valleys, 30 to 40\% mountains. | Idaho, Bridger-Teton: light and variable. <br> Utah, Arizona Strip: North 10 to 15 mph in the north, Southwest 10 to 15 mph in the south. |
| ROCKY MOUNTAIN AREA <br> Isolated to widely scattered afternoon thunderstorms west of the divide. Isolated morning showers and scattered afternoon thunderstorms near and east of the divide. | Highs in the 80 to 90 over Colorado (60s to lower 70s mountains), 70 to 75 over Wyoming and western South Dakota (mid 50s to lower 60s mountains). | 13 to $21 \%$ over lower elevations of southcentral Wyoming and western Colorado, with 25 to $45 \%$ elsewhere. | Variable 5 to 15 mph , except easterly 8 to 18 mph over portions of eastern Colorado and southeast Wyoming. |
| SOUTHERN CALIFORNIA AREA <br> Areas of morning low clouds and fog coastal areas, otherwise mostly sunny except becoming partly cloudy with isolated showers and thunderstorms over the far southeastern mountains and deserts during the afternoon. | 65 to 75 coastal areas. <br> 80 to 90 mountains. 90s valleys. <br> 90s upper desert. 95 to 105 low desert. | 15 to $30 \%$ desert. 15 to $30 \%$ mountains. 15 to $30 \%$ valleys. 50 to $65 \%$ coast. | Southwest to northwest 5 to 15 mph . |
| NORTHERN CALIFORNIA AREA <br> Sunny. Areas of fog and low clouds along the coast. | Warmest inland valleys in the 90s. 60s to mid 70s near the coast. | 10 to 20\%. | Mostly southwest to northwest 5 to 15 mph . |

## ENTRAPMENT AVOIDANCE

Avoiding situations where firefighters become entrapped is the first concern when devising strategy and tactics. The following discussion points are among the things that should be considered.

- Review how LCES relates to the 10 Standard Fire Orders.

Discuss safety zone, entrapment, and deployment area:

- Safety zone - a preplanned area of sufficient size and suitable location that is expected to prevent injury to fire to firefighters from known hazards without using fire shelters.
- Entrapment - when a firefighter is trapped between the oncoming fire and a safety zone, causing burnover with or without a fire shelter deployment.
- Deployment area - a selected topographical site that must be used when retreat to a safety zone is cut off by fire, has little or no fuel to cause flame impingement on the fire shelter, which will disintegrate it.

## - Discuss escape routes:

- Escape route - the travel route or path that provides the safety margin allowing the firefighter a retreat to the safety zone before the flame front overtakes the firefighter
- Have multiple escape routes in case of cut off
- Scout and personally observe hazards (e.g., cliffs, loose soils, rocks, vegetation, steep slopes, etc.).
- Precut escape lanes to safety zones.
- Use predicted fire behavior to assess impact on escape routes.
- Time your escape routes before needing to actually use them. Account for slowest firefighters and or equipment. Know your escape time.
- Clearly mark escape routes.
- Do not locate escape routes near chimneys, saddles, narrow canyons or box canyons.
