INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, AUGUST 21, 2000 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL V

## CURRENT SITUATION:

Four new large fires were reported in the Rocky Mountain, Northern Rockies and Southern Areas. Crews reached containment goals on eight large fires, three of which were in the Rocky Mountain Area. Initial attack activity was light and winds diminished throughout the west. Firefighters should be aided by a weather forecast for lighter winds and no lightning in the Northern Rockies today. The Army battalion, the 327th Infantry from Fort Campbell, Kentucky is scheduled to be trained on 8/24 and should be deployed to the Northern Rockies on 8/25. The 2nd Marines from Camp LeJeune, North Carolina will be trained and deployed shortly after that. Very high to extreme fire indices have been reported in North Dakota, Texas, and all the western states except New Mexico.

## NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Edrington) is assigned to manage the large fires in the Hamilton area. An Area Command Team (Mann) is assigned to manage the large fires in southwest Montana. An Area Command Team (Meuchel) is assigned to manage the large fires in central Montana. An Area Command Team (Gale) is assigned to manage the large fires in northwest Montana. Priorities are being established by the Northern Rockies Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

BLODGETT TRAILHEAD, Bitterroot National Forest. A Type I Incident Management Team (Gage) is assigned. This fire is three miles northwest of Hamilton, MT. Moderate downslope spread into the upper portions of Sheafman Creek drainage is being checked by helicopters. Substantial portions of the western edge of the fire have hit natural barriers and are not spreading.

VALLEY COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Frye) is assigned. These fires are seven miles south of Darby, MT. The complex consists of the Bear, Taylor, Taylor Spot, Hilltop, Razor, Fat and Mink fires. The Razor fire has come out of Chicken Creek and produced flame lengths of 200 to 300 feet. The evacuation order is still in place for the east and west forks of the Bitterroot River. Crews are concentrating on isolating and containing spots east of West Fork Road.

SKALKAHO COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Myers) is assigned. This group of fires is ten miles southeast of Hamilton, MT. Included in the complex are the Bear, Coyote and Skalkaho Falls fires. Fire activity has increased with clear skies and a stronger wind. Multiple smoke columns have been visible from the advancing fire front. Structure protection operations are ongoing.

WILDERNESS COMPLEX, Bitterroot National Forest. A Type II Incident Management Team (Cook) is assigned. The complex consists of 20 fires in the Selway-Bitterroot and Frank Church River of No Return Wildernesses, 40
miles southwest of Hamilton, MT. Cooler temperatures and higher relative humidities have slowed fire growth. Observed fire behavior includes surface fires with isolated torching. Large fires in the complex include the Hamilton, Lonely, Fitz, Thirty, Echo and Gabe fires.

THOMPSON FLAT COMPLEX, Lolo National Forest. A Type I Incident Management Team (Studebaker) is assigned. This is a complex of six fires in the vicinity of Superior, MT. Crews are mopping up and securing fireline on Johnson Creek. Structure protection in the Trout Creek and Quartz Flat areas continues. Crews are making good progress toward containment of the Moore fire.

UPPER NINEMILE COMPLEX, Lolo National Forest. A Type I Incident Management Team (Bennett) is assigned. The Army's 20th Engineers Battalion from Ft. Hood, Texas, commanded by LTC Shumway, is assigned. These fires are burning 25 miles northwest of Missoula, MT. The Alpine fire has been staffed by resources from this complex. A burnout operation is underway on the Marion fire. The Flat Creek fire on the Superior Ranger District is moving closer to Ninemile District Divide.

RYAN GULCH, Southwestern Land Office, Montana Department of Natural Resources and Conservation. A Type I Incident Management Team (Melton) is assigned. This fire is 15 miles east of Clinton, MT. Fire activity has been low due to light winds. A burnout in Cramer Creek is nearly completed. The evacuation order for Bear Creek, Cramer Creek and Ten Mile Creek will most likely be lifted today.

CLEAR CREEK DIVIDE COMPLEX, Flathead Agency, BIA. A Type I Incident Management Team (MacGregor) is assigned. This complex, 60 miles northwest of Missoula, consists of the Clear Creek, Vanderburg, Siegel, Seepay and Magpie Creek fires. The Clear Creek fire is 80 percent contained, while the Vanderburg fire is 75 percent contained. Crews have started to take action on some critical hot spots along the Divide fire. Monitoring of the Siegal and Seepay fires is ongoing.

SCHLEY, Flathead Agency, BIA. A Type II Incident Management Team (Carlson) is assigned. This fire is burning near the town of Evaro, MT. Burnout of the south flank has been completed. Spots in very rugged country to the northwest of the fire have been discovered. Suppressing these spots has caused a delay in completing the indirect fireline.

MONTURE/SPREAD RIDGE, Lolo National Forest. A Type I Incident Management Team (Waterbury) is assigned. The fires are 15 miles east of Seeley Lake, MT. The perimeters of both fires have showed little growth. The Spread Creek fire spotted to the south side of the creek, but crews gave been able to keep the fire from moving. Rolling material is causing some concern.

CROOKED, Clearwater National Forest. A Type II Incident Management Team (Anderson) is assigned. The fire is 50 miles southwest of Missoula, MT, near Lolo Pass. The team is also managing ten other fires, most of which are in the Selway-Bitterroot Wilderness. Lower temperatures and higher humidities have caused fire activity to moderate. The Crooked fire poses some threat of making runs at Lolo Pass.

MAUDLOW/TOSTON, Central Land Office, Montana Department of Natural Resources and Conservation. A Type II Incident Management Team
(Sczcepanik) is assigned. These fires are 25 miles north of Belgrade, MT. Torching is occurring in pockets of timber. Fire activity is increasing. The east slope areas are growing together and burning upslope toward the main fire. Residences and other structures remain threatened.

MIDDLE FORK COMPLEX, Beaverhead-Deerlodge National Forest. A Type I Incident Management Team (Carvelho) is assigned. The complex consists of the Falls Creek, Cougar Creek/Coyote Springs, Skalkaho Pass, Lick Creek and Copper Creek fires, 30 miles southwest of Philipsburg, MT. Suppression efforts are continuing on the Skalkaho Pass fire. The Coyote fire has made a run to the northeast and is closer to the Skalkaho fire. Structure protection efforts are ongoing.

MUSSIGBROD COMPLEX, Beaverhead-Deerlodge National Forest. A Type I Incident Management Team (Humphrey) is assigned. This complex includes the Mussigbrod and Maynard fires, which are 12 miles northwest of Wisdom, MT. Crews are preparing fireline for a planned burnout operation in the Trail Creek area. Firelines from Mussigbrod Lake to Bender Creek and Johnson Creek are being reinforced.

JUDITH COMPLEX, Lewis and Clark National Forest. This complex consists of the Studhorse, Lost Fork and High Springs fires, which are 25 miles southwest of Stanford, MT. Threatened resources include timber, a watershed and endangered species habitat. No new information was received.

BOULDER COMPLEX, Central Land Office, Montana Department of Natural Resources and Conservation. A Type II Incident Management Team (Hutchins) is assigned. This complex, three miles northeast of Basin, MT, consists of the Boulder Hill and High Ore Road fires. There has been minimal activity on the fire. Crews continue to conduct mopup of heat sources.

MCDONALD II, Lewis and Clark National Forest. The fire is 36 miles southwest of Choteau, MT. No new information was received.

STONE YOUNG, Kootenai National Forest. A Type II Incident Management Team (Colla) is assigned. The complex consists of the Young, Lydia, Stone Hill and Cliff Point fires, 65 miles northeast of Libby, MT. Moderating weather and fire conditions are helping crews to make significant progress on the Fan Creek, Lydia and Stone Hill fires. Residents of Pinkham Creek may be allowed limited access to their property today.

KOOTENAI COMPLEX, Kootenai National Forest. A Type II Incident Management Team (Cowin) is assigned. This complex consists of 34 fires that are 20 miles northwest of Libby, MT. Twelve of the fires are staffed. Lighter winds and cooler temperatures are aiding firefighters in securing firelines and mopping up. TROY SOUTH, Kootenai National Forest. A Type II Incident Management Team (Berndt) is assigned. This complex of 48 fires is near Troy, MT. Five of the fires are high priority due to threats to a municipal watershed and structures in the city of Troy. No significant fire runs have occurred in the past 24 hours.

GREEN MOUNTAIN, Kootenai National Forest. A Type II Incident Management Team (Kearney) is assigned. This is a complex of fires five miles southeast of Noxon, MT. Staffed fires include the Green Mountain, McNeeley, Basin Creek and Engle. Four other fires are in patrol status. Cloud cover and higher humidities have helped to moderate the fire
activity.
BEAVER CREEK, Gallatin National Forest. A Type II Incident Management Team (Duke) is assigned. This fire is south of Big Sky, MT. West winds have blown the fire into Cabin Creek, with spotting into Gully Creek. Crews are constructing fireline north along both the east and west perimeters. Spots in the Carrot Basin have been identified and firelines are being built around them.

BURNT FLATS, Clearwater area, Idaho State Department of Lands. A Type II Incident Management Team (Ostman) is assigned. The fire is three miles from Whitebird, ID. Crews and dozers are nearing completion of over 20 miles of indirect fireline across the head of the fire, in an effort to keep it confined to the stream canyons. The fireline is being prepared for a burnout operation.

MALONEY CREEK, Clearwater Area, Idaho State Department of Lands. A Type II Incident Management Team (Specht) is assigned. This fire is 12 miles southeast of Craigmont, ID. Crews are conducting a burnout operation north of China Garden Creek and west to the Snake River, protecting summer homes.
A Fish and Game cabin ahead of the advancing fire has been prepared for the fire's passage.

NORTHWEST LAND OFFICE (NWLO) IA COMPLEX, Northwestern Land Office, Montana Department of Natural Resources and Conservation. These fires are all within 45 miles of Kalispell, MT. Ten fires make up this complex. Unburned fuels along dozer line are the main control problem on the Bald Hill fire. Reburn potential for these fires is high.

NORTHWEST PEAKS COMPLEX, Idaho Panhandle National Forest. The fires are burning in subalpine fir and spruce seven miles southeast of Eastport, ID. The fire is receiving cooler temperatures and a small amount of precipitation. Along with improving weather, helicopter bucket drops on the perimeter have been effective in preventing further spread.

SPRUCE COMPLEX, Yellowstone National Park. This is a complex of 11 fires in Yellowstone National Park. No major fire growth has been observed for a second day. The south entrance road to Yellowstone National Park remains closed.

CHIPM0, Flathead National Forest. The fire is burning in spruce, subalpine fir and brush 45 miles southeast of Kalispell, MT. The fire has been slowly backing downward and laterally with some torching. Higher humidities and cooler temperatures have slowed the fire's spread.

THREE BEARS, Nez Perce National Forest. A Type II Incident Management Team (Cones) is assigned. This fire is on both sides of the Salmon River, 29 miles from Elk City, ID. No new information was received.

CANYON FERRY COMPLEX, Helena National Forest. This complex, located 12 miles north of Helena, MT, consists of the Bucksnort and Cave Gulch fires. Minimal fire activity has been reported. Mopup of heat sources continues.

NOSEBAG 22, Idaho Panhandle National Forest. This fire is burning in subalpine fir, spruce, brush and grass eight miles northeast of Hope, ID. Fire activity has diminished due to higher humidities. Helicopter bucket
drops have slowed the fire's spread to the northeast. Crews are working to locate, suppress and mopup spot fires outside the perimeter.

CEDAR BUTTE, Miles City Field Office. The fire was ignited by lightning 35 miles south of Ekalaka, MT. Fuels are mostly grass.

LONG RIDGE, Nez Perce National Forest. This fire was ignited by lightning on $8 / 10$ in the Selway-Bitterroot Wilderness, 14 miles southwest of the Moose Creek Ranger Station. The fire is being monitored by reconnaissance flights and by the Gardiner Lookout.

SIAMESE, Lolo National Forest. The fire was ignited by lightning on 8/10 and has not been staffed. It is 15 miles southwest of Tarkio, MT. Fuels include subalpine fir, douglas fir, lodgepole pine and spruce. Air patrol is monitoring the fire's spread and behavior. The Trio fire has been added to this incident. Cooler temperatures and light winds have cause fire activity to be low.

MINARET PEAK, Flathead National Forest. The fire is near the Spotted Bear Ranger Station in the Bob Marshall Wilderness. The fire was ignited by lightning on 8/4. The fire is spreading slowly down a slope. The pocket of fuel in the basin is mostly burned out.

EAST THUNDER 14, Idaho Panhandle National Forest. This fire is 23 miles east of Sandpoint, ID. Fuels are subalpine fir, spruce, brush and grass. Higher humidities are keeping the fire's spread low. U.S. Forest Service personnel are monitoring the fire as it continues to move to the north and southwest.

HIDDEN CREEK, Clearwater National Forest. The fire is 12 miles southeast of Powell, ID. The fire is being monitored by US Forest Service personnel. The predominant fire movement is to the east along Hidden Ridge.

PARKE PEAK, Glacier National Park. The fire is in the northwest corner of Glacier Park. It was ignited by lightning on 7/23. The fire's activity for the past 24 hours has been limited to isolated burning of interior islands.

HELEN CREEK, Flathead National Forest. This fire is 22 miles south of Spotted Bear, MT. The Lewis Creek II fire has burned into this fire. Structure protection actions continue at Black Bear Cabin and Pack Bridge. The fire is backing west and south with minimal movement to the north.

FROG LAKE, Clearwater National Forest. The fire is 16 miles southeast of Powell, ID. The fire is being monitored by US Forest Service personnel.

ELIZABETH, Clearwater National Forest. The fire is 33 miles northeast of Pierce, ID. No significant fire activity is occurring.

SNOW CREEK, Clearwater National Forest. The fire is 30 miles northeast of Pierce, ID. US Forest Service personnel are monitoring the fire. No significant activity has occurred during the past 24 hours.

## EASTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

TRAIL CREEK, Boise National Forest. A Type II Incident Management Team (Shell) is assigned. This fire is near the community of Atlanta, ID. Structure protection and safety remains a primary concern. Due to dry
fuel conditions and unfavorable weather the fire is exhibiting extreme behavior with a considerable amount of torching and spotting. Idaho Governor Dirk Kempthorne met with the incident command staff.

TETON COMPLEX, Grand Teton National Park, NPS. A Type II Incident Management Team (Murphy) is assigned. This complex is north of Jackson, WY.
It consists of the Wilcox, Moran, Hechtman and Glade fires. Developed areas in the Grand Teton National Park and Yellowstone National Park remain a primary concern.

RANKIN, Salmon-Challis National Forest. A Type I Incident Management Team (Stam) is assigned. This fire is 40 miles west of Challis, ID. Progress has been made on building containment lines on most divisions of the fire. Structure protection remains in effect.

NORTH STANSBURY, Salt Lake Field Office, BLM. This lightning-caused fire is nine miles west of Grantsville, UT. The fire is less than a mile away from an explosive storage plant and residences. Air operations are assisting in establishing containment lines on the west and east flanks of the fire.

BLIND, Bridger-Teton National Forest. The fire is southeast of Alpine, WY. The fire is spreading south and north, but has not crossed the Little Greys River. Significant runs have been observed on the south end of the fire in Deadman Creek.

FONTENELLE, Bridger-Teton National Forest. This lightning-caused fire is 20 miles north of Kemmerer, wY. Dry fuels, high temperatures, high winds and low humidity are contributing to active fire behavior. The fire continues to spread south and west.

NICK, Payette National Forest. A Type II Incident Management Team (Saleen) is assigned. This fire is burning in subalpine fir 12 miles east of McCall, ID. Structure protection plans and evacuation plans are complete. Fire behavior has been moderate, allowing successful fireline construction and holding by the crews.

CLEAR CREEK, Salmon-Challis National Forest. A Type I Incident Management Team (Hutchison) has been assigned. The fire is 12 miles west of Salmon, ID. The 3rd Battalion 5th Marines from Camp Pendleton, California, commanded by Col. Callihan, is assigned. Structure protection plans are in place for the communities and towns of Salmon, Gibbonsville, North Fork, Cobalt and Shoup. A major fuel reduction project around the structures in the town of North Fork are in process. This is a cooperative effort by the County of Lemhi and the incident staff.

DRY CANYON, Caribou National Forest. This lightning-caused fire is ten miles southeast of Malad, ID. Heavy fuels and treacherous terrain are hampering containment efforts. Burnout operations have been successful in securing indirect firelines.

GREEN CANYON, Upper Snake River District, Eastern Idaho Area, BLM. This fire is burning in brush and timber five miles southwest of Malad near the Sawtooth National Forest boundary. Inaccessibility, dry fuels and windy conditions are causing containment problems. Burnout operations have been successful and good progress is being made on securing firelines.

BURGDORF JUNCTION, Payette National Forest. A Type I Incident Management Team (Dague) is assigned. The 3rd Battalion 16th Field Artillery from Ft. Hood, Texas, commanded by LTC Darryl Williams, is assigned. The fire is 23 miles north of McCall, ID. Decreased fire behavior has been reported, due to cloud cover and higher relative humidity recovery.

BOULDER, Bridger-Teton National Forest. A Type II Incident Management Team (Zimmerman) is assigned. This fire is 15 miles east of Jackson, WY, in the Gros Ventre Wilderness. A structure protection plan is implemented. Area closure remains in effect for the Little Granite and Boulder Creek areas.

HALF MOON COMPLEX, Bridger-Teton National Forest. A Type II Incident Management Team (Williams) is assigned. This complex, consisting of the Half Moon and the Triangle Lake fires, is near Pinedale, WY. The Half Moon portion of this complex is contained.

DRY FORK II, Vernal Field Office, BLM. The fire is burning in pinyon pine, juniper, aspen, fir and lodgepole pine 20 miles northwest of Vernal, UT. Fire activity has been minimal.

1 E GOOSE CREEK, Utah State, Northwest State. The fire is 20 miles southwest of Oakley, ID. Wind speeds have decreased, resulting in moderation of fire behavior.

MORSE, Salmon-Challis National Forest. A Type II Incident Management Team (Suwyn) is assigned. The fire is burning in grass, sagebrush and douglas fir 12 miles southeast of Ellis, ID. The main emphasis is to contain the fire's spread at the head of Cold Creek. Clear air is allowing the effective use of helicopters in that area.

ENOS, Bridger-Teton National Forest. A Type II Incident Management Team (Zimmerman) is assigned. This fire is burning in the Teton Wilderness 33 miles northeast of Jackson, WY. The Teton Wilderness has been closed due to fire activity. Current threats are to hunting cabins in the area. Fire activity is reduced due to cooler temperatures and cloud cover.

DIAMOND PEAK, Payette National Forest. This lightning-caused fire is 42 miles northeast of McCall, ID. At this time there is no threat to the community of Edwardsburg.

BURLEY COMPLEX, Upper Snake River District, Southcentral Idaho. This complex consists of the Coal Banks Complex and C Rocks for a total of 20 fires. Fire behavior has been less extreme due to calmer winds. Current threats are to livestock, wildlife habitat and winter range.

MARLIN SPRINGS, Salmon-Challis National Forest. This fire is burning along the ridge between Montana and Idaho, 40 miles northwest of Salmon, ID. Fire spread has been minimal on the Idaho side of the fire.

INDIAN/PROSPECT, Payette National Forest. A Type II Incident Management Team (Saleen) is assigned. The fire is 33 miles east of McCall, ID. Crews continue mopping up spot fires.

FLOSSIE COMPLEX, Payette National Forest. These fires are 50 miles northeast of McCall, ID. Fire behavior has moderated due to higher
relative humidity and lower temperatures.
SCF WILDERNESS, Salmon-Challis National Forest. This complex is made up of the North Fork Wilderness Complex and the South Zone Wilderness fire. A heavy inversion hampered aerial reconnaissance of the fires. Active burning and acreage increase has occurred during the last 24 hours. Most of the private resorts and residences in the area remain evacuated.

SOUTH SHELLROCK, Payette National Forest. The fire is burning in the Frank Church River of No Return Wilderness Area 55 miles east of McCall, ID. Fire behavior has been minimal due to lower temperatures and higher relative humidity.

NORTH SHELLROCK, Payette National Forest. The fire is 55 miles east of McCall, ID. Fire activity has moderated due to higher relative humidity and lower temperatures.

## WESTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

WEST BASIN, Elko Field Office, BLM. This lightning-caused fire is located 12 miles east of Jackpot, NV. It is burning on both sides of the Idaho/Nevada border on BLM land and the Sawtooth National Forest. Strong winds are causing extreme fire behavior and very high rates of spread. Current threats are to wildlife habitat, cultural sites, summer homes, Magic Mountain Ski Area, riparian zones and grazing allotments.

CHERRY, Ely Field Office, BLM. This fire is 30 miles northwest of Ely, NV. Wildlife habitat and the Goshute Wilderness Study Area remain threatened. No new information was received.

PARSNIP, Ely Field Office, BLM. This fire is burning in sagebrush, dense pinyon pine and juniper 30 miles northeast of Caliente, NV, in a wilderness study area. PHILLIPS RANCH, Humboldt-Toiyabe National Forest. The fire is 50 miles southeast of Ely, NV. No new information was received.

LITTLE WATER, Humboldt National Forest. This fire is 60 miles southeast of Elko, NV, burning in white fir, isolated pinyon pine and mahogany. Fire activity remains low.

MAMMOTH, Humboldt-Toiyabe National Forest. The fire is burning in white fir and pinyon pine 75 miles southwest of Ely, NV, within the Grant Range Wilderness Area. Fire activity remains low with some burning and smoldering occurring within the interior.

ROCKY MOUNTAIN AREA LARGE FIRES:
PAHASKA COMPLEX, Shoshone National Forest. This lightning-caused fire is located 50 miles west of Cody, WY. A Type II Incident Management Team (Sisk)is assigned. No new information was reported.

BURRO FLATS, Shoshone National Forest. The fire is 12 miles south of Dubois, WY. It is burning in the Fitzpatrick Wilderness at high elevations. Crews continue to suppress and mopup unburned islands of fuel. No additional increase in acreage has been noted.

HENDERSEN DRAW, Casper District. This lightning-caused fire is 20 miles north of Casper, WY. Good progress has been made by crews, supported by air operations. Wind shifts have caused containment problems in two areas of the fire. Interstate 25 has been reopened.

HAGERMAN,Custer Dispatch Center County. This lightning-caused fire is
southwest of Sundance, WY.

NORTHERN CALIFORNIA AREA LARGE FIRES:
STORRIE, Plumas National Forest. A Type I Incident Management Team (Vail) is assigned. The fire is 20 miles west of Quincy, CA in the Feather River Canyon. Fire activity has been minimal, due to a stable atmosphere. Good progress is being made on the south end of the fire, including burning out and holding of indirect fireline.

NORTHWEST AREA LARGE FIRES:
MILEPOST 244, Umatilla National Forest. A Type II Incident Management Team (Jackson) is assigned. The fire is burning in grass, brush and timber five miles southeast of Gibbon, OR. The fire is creeping with some surface fire in grass and brush. Some interior torching has also been observed. Most of the burnout operations have been completed.

| $\begin{aligned} & \text { INCIDENT } \\ & \text { NAME } \end{aligned}$ | $\|S T\|$ | UNIT ${ }^{\text {\| }}$ | SIZE | $\left\lvert\, \begin{gathered} \|\%\| \\ \mid \text { CTN } \end{gathered}\right.$ | $\begin{aligned} & \text { EST } \\ & \text { CTN } \end{aligned}$ | $\begin{aligned} & \text { \|TOTAL \| } \\ & \text { \|PERS \| } \end{aligned}$ | CRW\| | \|ENG| | HELI | STRC\| | $\left\lvert\, \begin{array}{c\|} \text { EST } \\ \mid \text { LOSS } \mid \end{array}\right.$ | $\begin{gathered} \$ \$ \$ \\ \mid C-T-D \end{gathered}$ |

SOUTHWEST AREA LARGE FIRES:
DRAGON, Grand Canyon National Park. The fire is six miles west of the North Rim developed area. No new information was received.

PEAK, Tonto National Forest. The fire is burning in dense brush and steep terrain six miles south of Globe, AZ. Heavy rain in the fire area has caused flood damage to access roads. This has resulted in the containment
date being pushed back.
NORTH, Tonto National Forest. This fire is burning in ponderosa pine in the Mazatzal Wilderness, six miles southwest of Payson, AZ. Terrain is steep and access is limited. The fire is being monitored and managed by U.S. Forest Service personnel. Due to receipt of only small amount of precipitation and poor relative humidity recovery at night, this fire is still very active.

## SOUTHERN AREA LARGE FIRES:

GATOR MARSH WEST, Texas State Forest Service. This fire is 30 miles east of Houston, TX.

SCRUB CREEK, Texas State Forest Service. The fire is 30 miles northeast of Huntsville, TX. It is burning in a 20 year old pine plantation and 75 foot flame lengths have been noted. Texas Army National Guard Blackhawks and Chinooks are providing structure protection.

LAMBERT COMPLEX, Texas State Forest Service. These four fires are burning along a railroad track 40 miles west of Fort Worth, TX. Texas Army National Guard Helicopters are assisting with suppression and structure protection. Multiple primary structures are currently threatened.

MERRITT ISLAND NWR, U.S. Fish and Wildlife Service. The fire is 15 miles southeast of Titusville, FL. No new information was reported. This will be the last report unless new information is received.

NINA COMMAND, Florida Division of Forestry. This is a complex of three lightning-caused fires located in Brevard County. No new information was reported. This will be the last report unless new information is received.

OUTLOOK:

The northwest United States will begin to see a warming trend with less wind as the trough moves east and allows for a ridge to build back over the area. Conditions will be dry with winds generally out of the southwest or west at speeds under 20 mph . No thunderstorms are forecast in Montana, Idaho, Oregon or Washington. The Haines Index will increase somewhat. Strong valley inversions will develop overnight as the upper level ridge returns.

Farther south, monsoon moisture will bring more showers and wet thunderstorms to the higher elevations of eastern Utah, Wyoming, Colorado, New Mexico and Arizona. Winds will be light upslope or southwest to 20 mph.

Relative humidities will be slightly lower today, in the teens and 20's across the west. Some single digit humidities will occur in the hottest desert areas.
