LONG - Longitude
LNM - Local Notice to Mariners
LT - Light
LT CONT - Light Continuous
LWB - Lighted Whistle Buoy
LWP - Left Watching Properly
MISS - Missing
MR - Refer to Light List
MR-I - Refer to Light List

RFL - Range Front Light
RIV - River
SEC - Section
SG - Green Square
SG-SY - Green Square with Yellow Square
SHL - Shoaling
SND - Sound
SS - Sound Signal
TEMP - Temporary Aid Change
TMK - Topmark
St M - Statute Mile
TR - Red Triangle
TRLB - Temporarily Replaced by Lighted Buoy
TRLT - Temporarily Replaced by Light
TR-TY - Red Triangle with Yellow Triangle
TRUB - Temporarily Replaced by Unlighted Buoy

Additional Abbreviations Specific to this LNM Edition:

AHOP Above Head of Passes
BHOP Below Head of Passes
HSC Houston Ship Channel
MRGO Mississippi River - Gulf Outlet

SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

COAST PILOT 5 - CHANGE NUMBER 0719-07

See Enclosure.

LNM: NOAA

DEPARTMENT OF HOMELAND SECURITY SUSPICIOUS ACTIVITY

The Department of Homeland Security (DHS) encourages the maritime public to report information concerning suspicious activity to their local Federal Bureau of Investigation Joint Terrorism Task Force (JTTF) Office, www.fbi.gov/contact/fo/fo.htm, or to other appropriate authorities. Individuals can contact the DHS Watch and Warning Unit, at (202) 323-3205, or toll free at 1-888-585-9078, or by E-Mail to nipc.watch@fbi.gov. The U.S. Coast Guard reminds the maritime industry that they may also report information concerning suspicious activity to the National Response Center (NRC), at 1-800-424-8802.

LNM: DPW

DGPS SITE OFF-AIR TIME

Off-air time has been approved for Mobile Point, Alabama, DGPS Site from 1400Z to 1600Z, January 17, 2008. The alternate time will be from 1400Z to 1600Z, January 17, 2008, for annual maintenance.

LNM: NAVCEN

LNM PUBLICATION NOTIFICATION BY E-MAIL

The U.S. Coast Guard Navigation Center is offering an E-Mail notification service. This is a free service. Users can subscribe to this service by accessing the Navigation Center Website (<http://www.navcen.uscg.gov>). This is a one-way E-Mail service, which will notify subscribers when the latest U.S. Coast Guard Local Notice to Mariners has been published on the Navigation Center Website. Privacy Information: Disclosure of your E-Mail address is voluntary. It is solicited for the sole purpose of delivering the requested information to you and will not be released to any other party.

LOCAL NOTICE TO MARINERS CONTACT INFORMATION

Our valued customers are welcome to contact us directly regarding contents, inclusion or omissions in this document. Our contact number is (504) 671-2327. Our office hours are 7:00 a.m. until 3:30 p.m. (Central Standard Time). This is YOUR Local Notice to Mariners, take an interest and make a difference.

LNM: DPW

LOUISIANA/TEXAS - GULF OF MEXICO - INSHORE AND OFFSHORE UNLIT PLATFORMS

The Coast Guard has received numerous reports of unlit platforms in the Gulf of Mexico and regional inshore waters. Mariners are urged exercise extreme caution when navigating in or near these locations. The platform locations are attached as an enclosure in this publication.

SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

Comments and recommendations regarding proposed aids to navigation changes should be submitted to:

Commander (dpw)
Eighth Coast Guard District
Attn: Federal Projects
500 Poydras Street, Room 1230
New Orleans, LA 70130-3310

Or by e-mail: my2cents@d8.uscg.mil

All comments or recommendations should include the following information:

- Quantity, type, capacity, and value of vessels involved and the extent to which vessels transit the area seasonally, by day, and by night.
- If known, the type of navigational devices (e.g. compass, radio direction finder, radar, Loran, search lights, etc.) with which each vessel is equipped.
- The number of vessel passengers and/or type, quantity, and value of cargo involved.
- Chart section or graphic, as necessary to illustrate the comment or recommendation.

SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

FL - GULF OF MEXICO - Seismic Survey

Continuing until approximately May 6, 2008, the M/V NORTHERN GENESIS will be conducting seismic surveys bounded by the following approximate positions:

- 27-39-00N 087-05-00W,
- 25-39-00N 087-05-00W,
- 27-49-00N 086-38-00W and
- 25-38-00N 086-45-00W.

The M/V NORTHERN GENESIS is restricted in maneuverability. Surveys are being conducted 24-hours a day, 7-days a week. The M/V NORTHERN GENESIS will be towing cables 4.5 miles in length, with streamer yellow tailbuoy with radar reflector and flashing white strobe light. The M/V NORTHERN GENESIS request mariners to keep 6 nautical miles astern and 3 nautical miles around the vessel. The M/V NORTHERN GENESIS will be monitoring VHF-FM Channels 16 or 71. Mariners are urged to transit the area with extreme caution.

FL - GIWW - EAST BAY TO WEST BAY - Bridge Construction - Channel Closures - UPDATE

Construction continues on the new span for the existing bridge across the Intracoastal Waterway, Mile 271.8, EHL, on Florida State Route 79 at West Bay near Panama City, Bay County, Florida. Work trestles were previously reported established on the north and south sides of the waterway within the fender walls. The north side trestle has been removed and only the south side trestle remains.

UPDATE: Girder lift operations, previously scheduled for November 2007, have been postponed due to delays. The girder lift operations are presently scheduled to be conducted in late December, 2007. Work will include the use of two crane barges and two tugs that will work in the navigation channel, necessitating temporary closures of the navigation channel during daylight hours. The Coast Guard Captain of the Port in Mobile will issue temporary safety zones for all waters of the Gulf Intracoastal Waterway within 500 yards of the construction site when operations are being conducted that restrict or close the navigation channel to vessel traffic. Advisories regarding the girder lift operation will be broadcast via the Coast Guard Broadcast Notice to Mariners System on VHF-FM.

For additional information, mariners may contact the Coast Guard Captain of the Port at (251) 441-5976 or Mr. David Denison, Project Manager, APAC, Inc., (850) 636-7732.

Mariners are requested to exercise caution and pass at their slowest safe speed when transiting the construction site.

LA - LAKE PONTCHARTRAIN - Bridge Construction Fender Repairs- UPDATE

Construction continues on the project to replace the existing dual fixed span bridges on Interstate 10 across Lake Pontchartrain between New Orleans, Orleans Parish and Slidell, St. Tammany Parish, Louisiana. The new bridges are being constructed east of the existing bridges that were damaged by Hurricane Katrina. Currently, pilings for the bridge piers are being driven from the north and south banks and progressing across the lake. In addition, numerous tugs, crane barges, material barges and other floating equipment will be working at various locations across the entire lake. Other material barges will be moored to groups of mooring piles, previously reported established at various locations across the lake.

A crane barge and a deck barge are currently working in the navigation channel during daylight hours, seven days per week for the construction of the new main channel bridge piers. The barges reduce the available horizontal clearance to approximately 100 feet within the navigation channel through the bridge construction site.

UPDATE: On January 17, 18 and 19, 2008, girder lift operations will be conducted over the main navigation channel at intermittent times during daylight hours. DURING LIFT OPERATIONS, THE NAVIGATION CHANNEL WILL BE BLOCKED AND VESSELS WILL NOT BE ALLOWED TO TRANSIT THROUGH THE BRIDGE. The M/V PROSPECTOR will monitor VHF-FM Channel 13. Mariners should contact the M/V PROSPECTOR prior to arrival at the bridge site for information regarding ongoing channel closures and for other passing instructions.

Mariners are urged to transit this area with caution at their slowest safe speed to minimize wake.

LA - BAYOU LIBERTY - Temporary Deviation from Drawbridge Operating Regulations to Test a Proposed Rule and Supplementary Notice of Proposed Rulemaking for a Drawbridge Operating Regulation

LA - BAYOU LIBERTY - Temporary Deviation from Drawbridge Operating Regulations to Test a Proposed Rule and Supplementary Notice of Proposed Rulemaking for a Drawbridge Operating Regulation

The Commander, Eighth Coast Guard District has issued a temporary deviation from the regulation in 33 CFR 117.469 governing the operation of the State Route 433 (S433) pontoon span bridge across Bayou Liberty, Mile 2.0 at Slidell, St. Tammany Parish, Louisiana. This deviation will test a change to the drawbridge operation schedule to determine whether a permanent change to the schedule is needed. The deviation will allow the draw of the S433 bridge to open on signal, except from 7:00 p.m. until 7:00 a.m., the draw shall open on signal if at least 2-hours notice is given. The Coast Guard previously published a Notice of Proposed Rulemaking in the Federal Register dated November 15, 2007, to change the regulation governing the operation of the (S433) pontoon span bridge across Liberty Bayou, Mile 2.0, at Slidell, St. Tammany Parish, Louisiana. The rule, as previously proposed, would have changed the notice required for an opening from 12-hours to 4-hours. A final rule for that proposed change was not published. Subsequently, the bridge owner has requested that the notice for an opening be changed so that the bridge will open on signal, except that from 7:00 p.m. until 7:00 a.m., 7-days per week, the bridge will open on signal with 2-hours notice.

A Supplemental Notice of Proposed Rule Making [CGD08-06-10], is being published in the Federal Register in conjunction with the test deviation to obtain public comments. The Coast Guard will evaluate public comments from this Test Deviation and the above referenced Supplemental Notice of Proposed Rule Making to determine if a permanent special drawbridge operating regulation is warranted. The test deviation is in effect until May 13, 2008. The Coast Guard encourages comments relative to this test deviation and the Supplemental Notice of Proposed Rulemaking. Comments and related material to Commander (dpb), Eighth Coast Guard District, 500 Poydras Street, New Orleans, Louisiana 70130-3310. Comments must be received by the Bridge Administrator by January 14, 2008.

LA - TECHFUNCTA RIVER - Temporary Deviation from Drawbridge Operating Regulations to Test a Proposed Rule and Supplementary Notice of Proposed Rulemaking for a Drawbridge Operating Regulation

The Commander, Eighth Coast Guard District has issued a temporary Test Deviation [CGD08-07-037] from the regulation in 33 CFR 117.500 governing the operation of the State Route 22 (SR 22) swing span bridge across the Techfuncta River, Mile 2.5 at Madisonville, St. Tammany Parish, Louisiana. This temporary deviation will test a change to the drawbridge operation schedule to determine whether a permanent change to the schedule is needed. The deviation will allow the draw of the SR 22 bridge to operate as follows: The draw of the SR 22 Bridge, mile 2.5 at Madisonville, shall open on signal from 7:00 p.m. until 6:00 a.m. Then from 6:00 a.m. until 7:00 p.m., the draw need only open on the hour and half hour, except that, from 6:00 a.m. until 9:00 a.m., and from 4:00 p.m. until 7:00 p.m., Monday through Friday, except federal holidays, the draw need only open on the hour. The draw shall open on signal at any time for a vessel in distress or for an emergency aboard a vessel. This temporary deviation is in effect until May 13, 2007.

A Notice of Proposed Rule Making [CGD08-07-38] has been published in the Federal Register in conjunction with the Test Deviation to obtain public comments. The Coast Guard will evaluate public comments from this Test Deviation and the above referenced Notice of Proposed Rule Making to determine if a permanent special drawbridge operating regulation is warranted. The Coast Guard encourages comments relative to this test deviation and the Notice of Proposed Rulemaking. Written comments must be received by the Bridge Administrator at Commander (dpb), Eighth Coast Guard District, 500 Poydras Street, New Orleans, Louisiana 70130-3310, by January 14, 2008.

LA - GIWW - INNER HARBOR NAVIGATION CANAL - Partial Bridge Closure - Restricted Clearance

The Claiborne Avenue vertical lift span bridge across the Inner Harbor Navigation Canal, Mile 0.9, at New Orleans, is partially closed to navigation due to mechanical malfunction. With the lift span partially open to navigation, it provides approximately 65 feet of vertical clearance. The bridge will open to this elevation on signal except from 6:30 a.m. until 8:30 a.m., and from 3:30 until 5:45 p.m., Monday through Friday, it will remain closed. Between the hours of 5:45 p.m. until 6:30 a.m., it will open on signal with 1-hour notice. Mariners may contact the bridge at (504) 942-8354.

Charts: 11367 11369 11371

LNM: LNM
43/07 DPB

LA - GIWW - INNER HARBOR NAVIGATION CANAL LOCK - Limited Mooring

Due to limited mooring space between the Florida Avenue Bridge and the Inner Navigation Canal Lock (IHNC), it is requested that all tows contact the IHNC Lock on VHF-FM Channel 14, for locking information prior to navigating through the Florida Avenue Bridge.

Towboat captains are reminded that if a tow has to be broken for locking operations, this should be done prior to coming through the Florida Avenue Bridge and the barges should not be left unattended in the canal for any reason. Tow captains must use the mooring buoys and tend the wheelhouse at all times.

To prevent bank erosion, captains are also reminded not to push the head of their tow into the bank while waiting for locking. For up-to-date information, mariners can contact Lockmaster, Mr. Richard McKinzie, at (504) 945-57.

LA - LOWER MISSISSIPPI RIVER - NEW ORLEANS TO BATON ROUGE - HUEY P. LONG BRIDGE - Construction - Waterway Restrictions - Temporary Closures - Marine Safety Zones - UPDATE

Construction continues on the widening project of the Huey P. Long, U.S. 90 Bridge across the Lower Mississippi River, Mile 106.1, AHOP. Work is underway at all 4 river piers with barges and other equipment reducing the available horizontal clearances to approximately 650 feet through the main navigation channel span and approximately 390 feet through the east auxiliary span.

Planned waterway closures are scheduled to allow Massman Construction Company to conduct heavy lift operations. Due to the nature and magnitude of these lifting operations, a complete closure of the Mississippi River at the Huey P. Long Bridge, Mile 106.1 to Mile 106.2, AHOP, will be required for the entire width of the river.

LA - LOWER MISSISSIPPI RIVER - NEW ORLEANS TO BATON ROUGE - HUEY P. LONG BRIDGE - Construction - Waterway Restrictions - Temporary Closures - Marine Safety Zones - UPDATE

UPDATE: There are no waterway closures scheduled through January 19, 2008. Mariners should continually monitor the schedule updates that are issued weekly by the Coast Guard Sector New Orleans, Waterways Management Division. A schedule can be obtained by sending a request to LTJG Tom Sanborn at Coast Guard Sector New Orleans, email address: Tom.A.Sasnborn@uscg.mil. Attached to the back of this notice is the latest Coast Guard Sector New Orleans Marine Safety Bulletin, regarding the lifting schedule and specific information regarding the Marine Safety Zone that will be in effect.

On the closure days, a temporary reporting point for all down-bound vessels has been established at Guy Mallory Light 114, LLNR-13825, at Mile 112.9. Vessels operating in close proximity to the Huey P. Long Bridge sector (Guy Mallory Light 114, LLNR-13825, at Mile 112.9 to Cargill Gran Elevator at Westwego, Mile 103.1) are required to monitor VHF-FM Channel 12 for updates and up-to-the minute instructions on vessel movement plans after the waterway reopens. A Safety Zone will be in effect from the start of the closure until the marine traffic backlog has been cleared after the reopening of the waterway. The Vessel Traffic Service (VTS) will manage vessel movement to clear up traffic that has stopped or slowed to accommodate the closure. ALL vessels are required to contact the -Vessel Traffic- on VHF-FM Channel 12, for permission to transit through the construction site during the post closure time period of the Safety Zone. The Safety Zone will end after the backlog of vessels has been cleared and marine traffic has been returned to a normal flow by the VTS.

For further information mariners may contact the Coast Guard Sector New Orleans Waterways Management Division at (504) 565-5103 or the Eighth Coast Guard District Bridge Administration Branch in New Orleans at (504) 671-2128. Additionally, mariners may contact the Coast Guard Vessel Traffic Center 24-hours per day, at (504) 589-2780 or VHF-FM Channels 16 or 67 and on VHF-FM Channel 12, in the construction area on closure days.

Mariners are requested to pass at their slowest safe speed to minimize wake and to exercise due caution at all times in this area.

LA - BAYOU LAFOURCHE - Bridge Construction - UPDATE

As of December 20, 2007, construction on the new SR-1 fixed span bridge across Bayou Lafourche, Mile 13.3 at Leeville, Louisiana, continues on schedule. The contractor has completed the construction of the 2 main channel piers and vessel passing restrictions have been discontinued. Vessel movements should not be restricted until the contractor begin placement of the main channel spans between the main channel piers. It is anticipated that this phase of the construction will begin in late February or early March of 2008. The contractor indicates that this work will require approximately eight (8) daylight closures of the main channel over a period of several weeks. Mariners should be minimally impacted by this work. Notices to Mariners will be issued well in advance of the work to provide proper notification to everyone.

TX - GULF INTRACOASTAL WATERWAY - ELLENDER TO GALVESTON BAY - Bridge Construction - Fender Replacement - Channel Restriction - UPDATE

Work continues on the project to replace the fender system of the Highway 87 Bridge (West Port Arthur Bridge) across the GIWW, Mile 288.8, at Port Arthur, Texas.

UPDATE: Work on the south fender has necessitated the staging of various construction and crane barges along the south side of the channel reducing the available horizontal clearance to approximately 155 feet. During daylight work hours, additional material barges or other equipment may be moored channelward of the crane barges further reducing the horizontal clearance. At night and on weekends the material barges will be removed from the channel, but the crane barges will remain in the waterway moored adjacent to the bridge piers. The channel ward corners of the barges are marked with fixed white lights.

The north side of the fender system has been damaged as the result of a vessel allision. Mariners are cautioned with respect to the seasonal northerly winds that are currently being experienced in this area. These northerly winds, in conjunction with cross currents that may be coming out of the Sabine Neches Waterway, may make maneuvering in this area more difficult than usual. Due caution is advised.

The Coast Guard Captain of the Port, Port Arthur, Texas, will issue advisories via the Coast Guard Broadcast Notice to Mariners system on VHF-FM. Vessel Traffic Service Port Arthur will coordinate vessel transits under the bridge. Vessels intending to transit under the West Port Arthur Bridge are advised to contact Vessel Traffic System Port Arthur on VHF-FM Channel 01A or 65A or by calling (409) 719-5070. Mariners should exercise extreme caution when transiting this area.

TX - TRINITY RIVER - Bridge Construction - Cable Ferry - Temporary Waterway Blockage - UPDATE

Williams Brothers Construction Company, Inc. is currently constructing a new fixed span bridge to replace the existing Interstate 10 Highway Bridge across the Trinity River, Mile 7.1 near Houston, Texas. It was previously reported that a cable ferry would be operating across the waterway upstream of the existing bridge. UPDATE: The ferry will not be established as previously advertised. However, a 100-foot by 50-foot material barge will cross the river in both directions, multiple times per day while under tow of a motor vessel. Operations will be conducted Monday through Saturday between 7:00 a.m. and 5:00 p.m. throughout the remainder of the bridge construction project. Mariners should exercise caution in this area and be alert for other equipment operating in the vicinity. Furthermore, mariners are requested to pass at their slowest safe speed to minimize wake. For further information contact Mr. David Collins, Jr., Texas Department of Transportation at 409-466-7218 or Williams Construction Company, Inc. at (713) 522-9821.

PUBLIC NOTICE (11-07)

All interested parties are notified that an application has been received on November 28, 2007 from Beacon Maritime Inc. by the Commander, Eighth Coast Guard District, for approval of location and plans for construction of a pontoon bridge in a navigable waterway of the United States.

WATERWAY AND LOCATION: Sabine River (Old Channel), mile 9.5 (15.3 km) between Orange, Orange County, Texas and Calcasieu Parish, Louisiana.

CHARACTER OF WORK: The proposed project involves building a pontoon bridge consisting of three barges across the river. The barges will be connected to existing bridge ramps from a previously existing pontoon bridge that was used for many years at this site location. This proposed bridge will allow vehicular access to Orange Harbor Island for industrial operations.

MINIMUM NAVIGATIONAL CLEARANCES:

Existing:

Horizontal: 540 feet (164.59 meters)

Vertical: Unlimited

Proposed:

Horizontal: 0 feet (0 meters)

Vertical: 0 feet (0 meters)

ENVIRONMENTAL CONSIDERATIONS:

The Coast Guard is the lead federal agency for satisfying the requirements of the National Environmental Policy Act (NEPA). Based on the Environmental Assessment (EA) provided by the applicant, the Coast Guard has made a tentative determination that the proposed project will not have a significant impact for purposes of the NEPA.

Unless it is demonstrated, through this public notice process, that the potential exists for significant environmental impacts, the Coast Guard will issue a Finding of No Significant Impact (FONSI) as the final environmental document for this proposed project. Documents relative to this determination are available for review at the address indicated in the last paragraph of this notice, Monday through Friday from 7:30 a.m. to 3:00 p.m. except federal holidays.

The bridge is a pontoon bridge designed to rise and lower with the tides including the 100-year flood elevation of 8 feet (2.43 meters) above MSL. No fill material will be placed above the floodplain and no wetlands or submerged vegetation would be filled or affected.

No additional right-of-way will need to be acquired for the bridge project and no relocations of residences or businesses will be required. No parklands, recreational areas, archaeological sites, waterfowl or wildlife refuges will be affected by the proposed bridge project. No prime and unique farmland will be impacted by the proposed project and no significant effects on public utilities, fire protection, or other emergency services are anticipated. No wild and scenic rivers or wildlife management areas exist at the proposed project site.

Texas Water Quality Certification is required in accordance with Section 401 of the Clean Water Act. The Texas Commission on Environmental Quality (TCEQ) is expected to review the plans for this project and issue an individual Water Quality Certification statement. The State of Texas has a Coastal Zone Management Program (CMP). The existing bridge is located within the Texas CMP area. The applicant has requested that the Texas General Land Office review the plans for this proposed project and issue a statement of concurrence that the project will be consistent with the Texas CMP goals and policies.

The TCEQ, Air Quality Planning Division is expected to furnish consistency statements that the proposed project meets the requirements of the State Implementation Plan on air quality.

Louisiana Water Quality Certification is required in accordance with Section 401 of the Clean Water Act. The Louisiana Department of Environment Quality is expected to review the plans for this project and issue an individual Water Quality Certification statement.

The State of Louisiana has a Coastal Zone Management Program (CMP). The existing bridge is not located within the Louisiana CMP area as stated by a letter from Louisiana Department of Natural Resources Office of Coastal Restoration and Management dated October 24, 2007.

A portion of the bridge project will be in Calcasieu Parish, Louisiana which is in attainment for air quality, thus only a consistency statement from TCEQ will be required.

This notice initiates Essential Fish Habitats (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. This proposed project will not impact any wetlands. Our initial determination is that the proposed project would not have a substantial adverse impact on EFH or federally managed fisheries. Our final determination, relative to project impacts and the need for mitigation measures, is subject to review by and coordination with the U.S. National Marine Fisheries Service.

SOLICITATION OF COMMENTS:

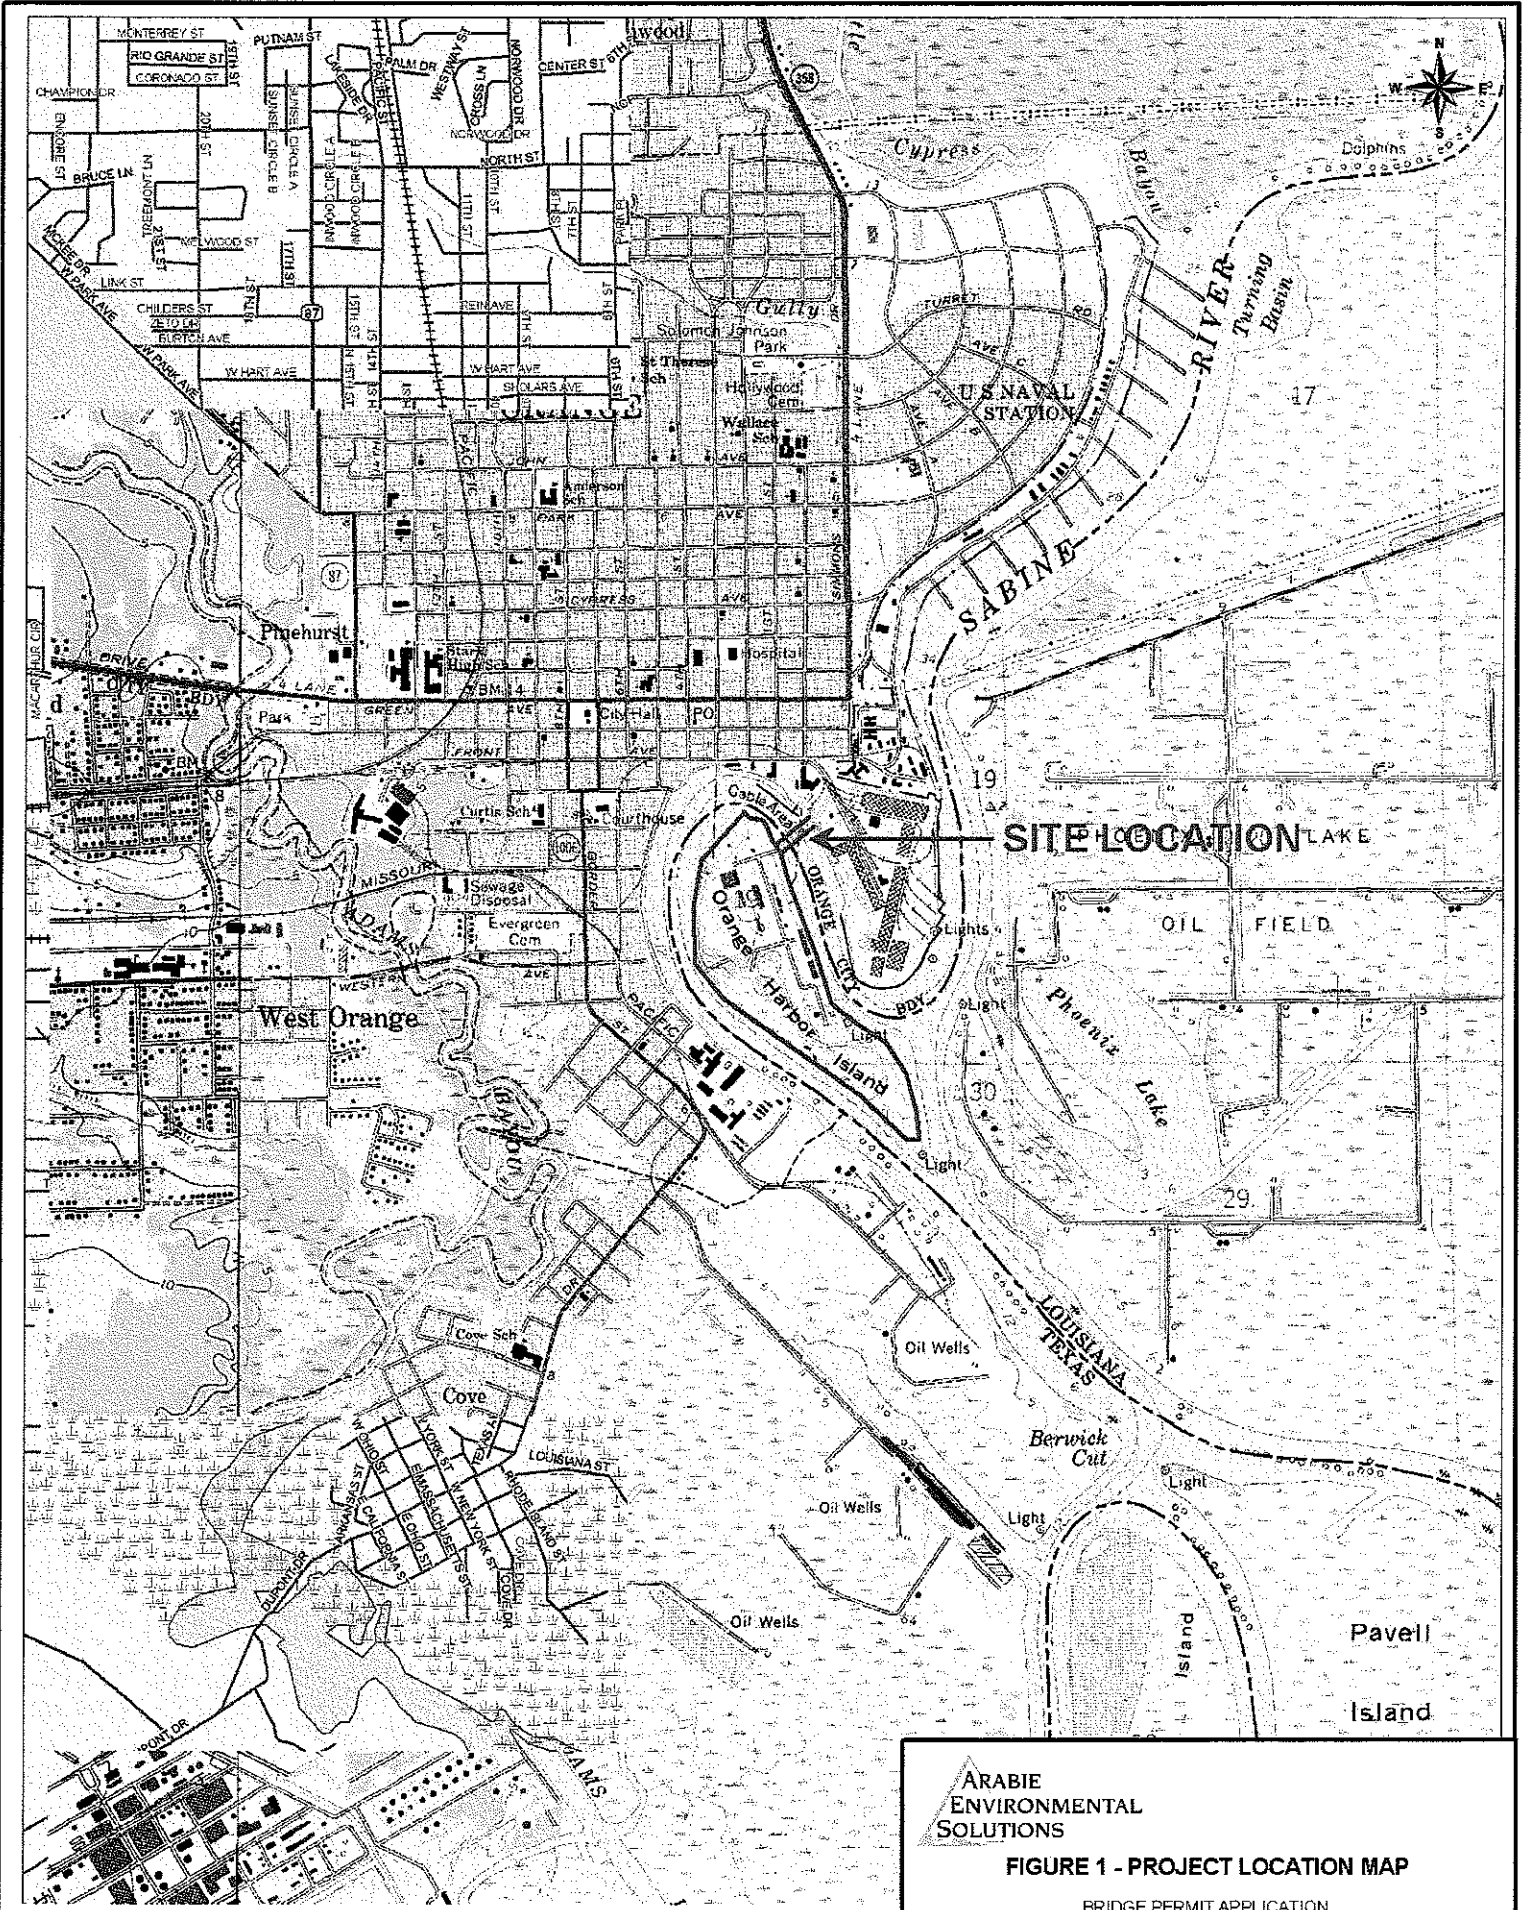

Mariners are requested to submit comments on the proposed bridge project, the extent of nighttime traffic at the bridge site and other navigational safety issues.

Interested parties are requested to express their views, in writing, on the proposed bridge project including its possible impact on minority and/or low income population, if any, giving sufficient detail to establish a clear understanding of their reasons for support of or opposition to the proposed work. Comments will be received for the record at the Office of the Commander (dpb), Eighth Coast Guard District, 500 Poydras Street, Room 1313, New Orleans, Louisiana 70130-3310, through January 18, 2008. These comments will be made part of the case record.

Map of location and plans attached.

DAVID M. FRANK
Bridge Administrator
By direction of the Commander
Eighth Coast Guard District
