**Re: Emergency Petition and Complaint of the District of Columbia Public Service Commission Under Section 202(c) of the Federal Power Act, DOE Docket-EO-05-01**

Dear Secretary Bodman:

Pursuant to the United States Department of Energy ("DOE") Order No. 202-05-3, issued December 20, 2005 ("DOE Potomac River Order"), Pepco hereby files this revised notice of the planned outage of the 230 kV circuits serving the Potomac River Substation, and through that station, the District of Columbia.

Please contact the undersigned counsel should you have any questions.

Respectfully submitted,

Anthony C. Wilson

**FURTHER NOTICE OF 230kV CIRCUIT PLANNED OUTAGES**

This filing is made pursuant to the United States Department of Energy ("DOE") Order No. 202-05-3, issued December 20, 2005 ("DOE Potomac River Order"), directing Mirant Potomac River, LLC ("Mirant"), to generate electricity at Potomac River Generating Station pursuant to the terms of the DOE Potomac River Order. At page 11 of the DOE Potomac River Order, the Potomac Electric Power Company ("Pepco") was directed to notify DOE, Mirant, PJM Interconnection ("PJM"), Federal Energy Regulatory Commission ("FERC"), Environmental Protection Agency ("EPA"), and the Virginia Department of Environmental Quality (DEQ) of scheduled outages.

After investigation, Pepco has determined that the proposed duration of the outage must be adjusted to reflect a change in the scope of work. Accordingly, today Pepco notified PJM and Mirant via the e-Dart system that the proposed outage shall be extended by three days (total of eight days) for the outage on 230kV feeder 23106. The outage is scheduled to begin Monday, January 9, 2005 at 0700 hours thorough January 16, 2005 at 2359 hours. By this filing Pepco hereby notifies all other parties.

Respectfully submitted,

---
