

SUPPLEMENTARY INFORMATION: Lake Ophelia National Wildlife Refuge in north Avoyelles Parish, Louisiana, is about 15 miles northeast of the city of Marksville and 30 miles southeast of the city of Alexandria. The refuge covers a total of 17,525 acres and lies approximately 8 miles northwest of where the Red River empties into the Atchafalaya River. This region is part of the Lower Mississippi River Alluvial Plain. The integration of bottomland hardwood forests and open wetland systems, long growing season, abundant rainfall, and geographical proximity to the Mississippi River provide habitat for a diversity of species including waterfowl, neotropical migratory birds, resident wildlife, and Louisiana black bear.

The refuge was established in 1988 to provide wintering habitat for mallards, northern pintails, and wood ducks, as well as breeding and nesting habitat for wood ducks, and to assist in meeting the goals of the North American Waterfowl Management Plan. The refuge is also being managed to provide habitat for a natural diversity of plants and animals, and to provide opportunities for compatible wildlife-dependent recreation, including hunting, fishing, wildlife observation, wildlife photography, and environmental education and interpretation.
