1 "MCD" indicates a false MCD. These are for Census use only.  
2 The CCD and CDP boundaries represent statistical entities only. They are not to be updated through the BAS.  
3 Incorporated place name color correlates to the incorporated place fill color.  
4 Due to space limitations, some road names, along with other feature and geography names on the map, may not be shown.  
5 Address range break values represent the last address stored in the MAF/TIGER database for each street that crosses the boundary of your jurisdiction.
