Is about time something is done about these credit card companies, this is total LEGAL ROBBERY, credit cards can do anything they want with the publi, and now with the way the economy is, they will be making a lot more money from the consumers, there are a lot of people outthere that have lost their jobs, and sometimes are living off of their credit cards, but then they run into the problem of not being able to make the payments on time or at all, which in turn the credit card company hits them with a huge fine usually \$35 for the late fee, then they raise that interest rate to the roof. I am speaking for myself which at the time I applied for the credit card, nothing was explained to me, sure enough now I am being hit with 3 different interest rates, one for a \$200 cash out I took of 18%, then another interest rate separate for purchases of 18%, then 27% for the balance transfer I did from another card. That to me is total ludicrist and a total legal robbery by the bank.... Do you think I will ever pay this accoutn off, I don't think so when the \$100 payment that automatically comes out of my acct to pay it goes mostly to the interest, therefore the bank getting riches off of me.... REAL SAD, WHAT THIS WORLD IS COMING TO, NO HELP FOR THE MIDDLE CLASS OR THE WORKING CLASS PEOPLE.
