

ICD-10-PCS 2007 Version

What's New in this Release

ICD-10-PCS Code Set Changes

- Med/Surg Section codes reduced—*Highlights*
 - Peripheral Nerves body system—qualifier values Upper Extremity Nerve, Other and Lower Extremity Nerve, Other have been deleted; Heart and Great Vessels, qualifier value Artery, Other has been deleted, and qualifier value Thoracic Artery, Other has been changed to Thoracic Artery (see draft guideline b4.12).
 - Upper and Lower Extremities body systems—application of finger and toe body parts more selective
 - Unused combinations of the root operation Removal and the approach External eliminated with select device values. This is planned follow-up refinement of 2006 streamlining.
- Added specificity for devices and substances (e.g., ceramic on polyethylene hip replacement bearing surface, intraocular telescope, endobronchial device)
- New/updated character/value—*Highlights*
 - General—Sections 0-9 (Vol. 1), the name of character 3 is changed from Operation to Root Operation; Sections B-H (Vol. 2), the name of character 3 is changed from Type or Modality to Root Type.
 - Upper and Lower Bones—
 - Qualifier value Resurface added to root operation Replacement for hip resurfacing procedures
 - Limb Lengthening Device in the Placement section relocated to Med/Surg section, as a qualifier of External Fixation Device in the Upper and Lower Bones body systems.
 - Heart and Great Vessels—Qualifier value Bifurcation added to coronary artery body-part values as needed.
 - Extracorporeal Assistance and Performance, Extracorporeal Therapies—New duration value Multiple added to identify series procedure treatment.
- Net reduction of codes

| | 2006 | 2007 |
|--|---------------|-----------------|
| Medical and Surgical Section (Section 0) | 78,254 | 77,242 (-1,012) |
