Office of Inspector General

Mission Statement

To (1) conduct and supervise audits and investigations of Treasury programs and operations; (2) provide leadership and coordination and recommend policies for activities designed to (a) promote economy, efficiency, and effectiveness in the administration of Treasury programs and operations, and (b) prevent and detect fraud, waste, and abuse in Treasury programs and operations; and (3) keep the Secretary and the Congress fully and currently informed about problems, abuses, and deficiencies in Treasury programs and operations.

Program Summary by Appropriations Account

Dollars in Thousands

Appropriation	FY 2006	FY 2007	FY 2007		FY 2008	
		President's			\$ from	% from
Salaries and Expenses	Enacted	Budget	CR-rate	Request	CR-rate	CR-rate
Audit	\$11,549	\$11,908	\$11,682	\$12,661	\$979	8.38%
Investigations	5,281	5,444	5,340	5,789	449	8.41%
Total Appropriated Resources	\$16.830	\$17.352	\$17.022	\$18.450	\$1,428	8.39%

FY 2008 Priorities

- Complete 56 audits,
- Complete 100 percent of OIG statutory mandated audits on time, and
- Refer 105 fraud, waste or abuse investigative cases for criminal prosecution, civil litigation or administrative action.

Section 1 – Purpose

1A – Description of Bureau Vision and Priorities

The Treasury Office of Inspector General (OIG) provides independent oversight of the Department of Treasury and eight bureaus. The OIG has two primary offices, the Office of Audit (OA) and the Office of Investigations (OI).

The OIG's requested funding will be used to provide critical audit and investigative services, ensuring the effectiveness and integrity of Treasury's programs and operations. We will continue, as our first audit priority, to address mandated requirements related to financial statements, information security, Treasury procurements on behalf of the Department of Defense, and as necessary, failed financial institutions resulting in material losses (more than \$25 million) to the deposit insurance funds. While there are a number of critical areas where the OIG will also provide audit oversight, highlights of three of the Department's most serious management challenges and where we plan to focus our work include:

Programs to Combat Terrorist Financing and Money Laundering -- Treasury faces unique challenges in carrying out its responsibilities under the Bank Secrecy Act (BSA) and USA Patriot Act to prevent and detect money laundering and terrorist financing. To effectively prevent and detect financial crimes and terrorist financing it is necessary to have: (1) strong control environments at financial institutions that ensure that business is conducted with reputable parties, and large currency transactions and suspicious activities are properly and timely reported to Treasury, (2) strong federal and state regulatory agencies that examine and enforce BSA and USA Patriot Act requirements at financial institutions, and (3) strong analytical capacity to identify and refer to law enforcement leads provided through reports filed by financial institutions. While FinCEN is the Treasury bureau responsible for administering BSA, it relies on other Treasury and non-Treasury agencies to enforce compliance with the Act's requirements. The Office of Foreign Assets Control (OFAC), the Treasury office responsible for administering U.S. foreign sanction programs, also relies on other Treasury and non-Treasury agencies to ensure compliance with OFAC requirements. Past audits and Congressional hearings have surfaced serious regulatory gaps in the detection of and/or timely enforcement action against financial institutions for BSA and related violations. This management challenge will continue to be a major focus of our audit program.

Efforts to Ensure the Security of Treasury 's Information Systems -- The Department faces serious challenges in bringing its systems into compliance with information technology security policies, procedures, standards, and guidelines. In its fiscal year 2006 Federal Information Security Management Act (FISMA) independent evaluation, the OIG continued to report significant deficiencies in the Department's information security programs and practices, constituting substantial non-compliance with the FISMA requirements. Although the Department recently established a reliable systems inventory (a significant problem in the past) improvements are still needed in the areas of:

certification and accreditation, security awareness, training employees with significant security responsibilities, tracking corrective actions, identifying and documenting system interfaces, security self-assessments, configuration management, and incident response. During 2006, OMB required agencies to perform specific actions to protect certain personally identifiable information. The OIG reported that the Department faces significant challenges to meet these requirements.

<u>Treasury's Management of Capital Investments</u> -- Treasury needs to better manage large acquisitions of systems and other capital investments. OIG reported significant cost escalations in the Department's HR Connect system and the Treasury and Annex Repair and Restoration (TBARR) project. OIG also reported that the Department's Treasury Communication Enterprise (TCE) system, estimated to cost \$1 billion, was poorly planned, executed, and documented. Among other things, the transition to TCE was delayed due in part to a successful protest of the bid award, and the Department changing course on how it addressed the bid protest decision. More recently, after nearly 2 years in development and \$15 million spent, FinCEN terminated its contract for the storage and retrieval component of BSA Direct after significant concerns were raised about schedule delays and project management.

Investigative priorities for FY 2008 are:

- Investigating complaints of alleged criminal and serious misconduct,
- Investigating allegations of fraud and other crimes involving Treasury contracts, grants, guarantees (fictitious instruments), and federal funds,
- Investigating instances of misdirected and stolen payments usually accompanied by identity theft enterprises,
- Investigating a variety of financial programs (OTS, OCC, & TTB), like those
 where fraud and other crimes are involved in the issuance of licenses or benefits
 provided to citizens,
- Performing oversight or quality assurance reviews of the Treasury's police operations at BEP and the U.S., and
- Proactive efforts in detecting, investigating, and deterring electronic crimes and other threats to the Department's physical and cyber critical infrastructure.

Resources required to support OIG operations for FY 2008 are \$18,450,000 from direct appropriations, and \$1,300,000 from reimbursable agreements for contract audits of other Treasury bureaus.

1B – Program History and Future Outlook

In FY 2005, the OIG completed 54 audits and evaluations, and opened 168 new cases and referred 85 investigations for criminal prosecution, civil litigation, or corrective administrative action. OIG audits identified potential monetary benefits (cost savings

and/or funds put to better use) totaling nearly \$52 million, and our investigative efforts led to more than \$6 million collected in fines, restitution, recoveries and settlements paid to the government or aggrieved parties.

In FY 2006, OIG efforts resulted in 57 audits completed, 488 complaints reviewed for potential investigation or inquiry, 129 new cases opened, 144 investigations referred, potential monetary benefits of \$35 million identified, and nearly \$600 thousand collected in fines, restitution, recoveries, and settlements.

In FY 2007, the Office of Audit expects to perform or supervise contractors to meet mandated audit requirements and focus its self-initiated audit resources to address the major management and performance challenges identified by the Inspector General. Those challenges are (1) Corporate Management, (2) Management of Capital Investments, (3) Information Security, (4) Linking Resources to Results and (5) Anti-Money Laundering and Terrorist Financing/Bank Secrecy Act Enforcement. In FY 2007, the Office of Investigations plans to continue investigating all reports of fraud, waste and abuse, and other criminal activity. FY 2007 resources will enable OI to maintain the improvements made to aggressively investigate, close, and refer cases in a timely manner. OI will also continue to conduct a limited number of proactive integrity projects such as the fraudulent improper payments project initiated in FY 2006.

The requested FY 2008 resource level will allow OIG to maintain performance at a level consistent with FY 2006 and FY 2007. OIG has continued to direct a significant portion of its limited resources to auditing Treasury programs that combat terrorist financing and money laundering, including a number of important audits at FinCEN, OFAC, OCC, and OTS.

OIG expects to complete 56 audits and evaluations and refer 105 investigations in FY 2008, however OIG continues to lack sufficient resources to comprehensively audit the Department's programs and operations.

Section 2 – Budget Adjustments and Appropriation Language

3A – **Audit** (\$12,661,000 from direct appropriations and \$1,300,000 from reimbursable programs): The Office of Audit conducts audits of eight Treasury bureaus and all non-IRS Treasury offices; produces more than 50 reports annually; and provides firsthand, unbiased perspectives and recommendations for improving the economy, efficiency, and effectiveness of Treasury programs and operations. The Office of Audit often identifies significant cost savings to the government, principally through self-initiated audits.

The Office of Audit also responds to requests by Treasury officials and the Congress for specific work. While statute requires certain audits be conducted every year, the number of additional congressionally-required audits and requests has increased in recent years.

3.2.1 – Audit Budget and Performance Plan

	Met	Yes	Yes	Yes		

Key: Oe - Outcome Measure, E - Efficiency Measure, Ot - Output/Workload Measure, and M - Management/Cust. Satisfaction

Description of Performance: In FY 2005, the OIG completed 54 audits and evaluations, completed all statutory audits by the required dates and identified potential monetary benefits (cost savings and/or funds put to better use) totaling nearly \$52 million. In FY 2006, OIG efforts resulted in 57 audits completed, all statutory audits completed on time and \$35 million in potential monetary benefits identified.

In FY 2007, the Office of Audit will continue to perform or supervise contractors in meeting mandated audit requirements. The Office of Audit will focus its limited self-initiated audit resources to address the major management and performance challenges identified by the Inspector General. Those challenges are (1) Corporate Management, (2) Management of Capital Investments, (3) Information Security, (4) Linking Resources to Results and (5) Anti-Money Laundering and Terrorist Financing/Bank Secrecy Act Enforcement.

Similarly for FY 2008, the Office of Audit will continue, as its first audit priority, to address mandated requirements related to financial statements, information security, and as necessary, failed financial institutions resulting in material losses (more than \$25 million) to the deposit insurance funds. While there are a number of critical areas where the OIG will also provide audit oversight, our focus will be on the Department's serious management challenges related to programs to combat terrorist financing and money laundering, the security of Treasury's information systems, and Treasury's management of capital investments.

3B – **Investigations** (\$5,789,000 from direct appropriations): The Office of Investigations prevents, detects and investigates complaints of fraud, waste and abuse at eight Treasury bureaus and all non-IRS Treasury offices. This includes the detection and prevention or deterrence of employee misconduct and fraud, or related financial crimes within or directed against Treasury. The Office of Investigations refers its cases to the Department of Justice and state or local prosecutors for criminal prosecution or civil litigation, or to agency officials for corrective administrative action.

3.2.2 – Investigations Budget and Performance Plan

Dollars in Thousands **Includes Strategic Objective M5A Investigations Budget Activity** FY 2004 FY 2005 FY 2007 **FY 2008** FY 2006 **Resource Level Enacted Enacted** Enacted President's Request **Budget** Financial Resources Appropriated Resources \$3,489 \$5.069 \$5.281 \$5.444 \$5.789 Other Resources 0 \$3,489 \$5,069 **Total Operating Level** \$5,281 \$5,444 \$5,789 **Human Resources** Appropriated FTE 27 41 41 41 41 Other FTF Λ Λ Λ Λ Λ Total FTE (direct and reimbursable) 27 41 41 41 41

prosecution, civil litigation or corrective	Actual		85	144		
administrative action. (Oe)	Met		Yes	Yes		

Key: Oe - Outcome Measure, E - Efficiency Measure, Ot - Output/Workload Measure, and M - Management/Cust. Satisfaction

Description of Performance: In FY 2005, the OIG opened 168 new cases and referred 85 investigations for criminal prosecution, civil litigation, or corrective administrative action, and OIG investigative efforts led to more than \$6 million collected in fines, restitution, recoveries and settlements paid to the government or aggrieved parties collected.

In FY 2006, the OIG reviewed 488 complaints for potential investigation or inquiry, opened 129 new investigations, and referred 149 investigations, leading to nearly \$600 thousand in fines, restitution, recoveries, and settlements.

In FY 2007, the Office of Investigations (OI) plans to continue investigating all reports of fraud, waste and abuse and other criminal activity. FY 2007 resources will enable the Office of Investigations to maintain the improvements made in an effort to aggressively investigate, close, and refer cases in a timely manner.

Given the current investigative resource level, the Office of Investigations continues to prioritize its workload by directing investigators to work on the most significant cases first. This, coupled with the realignment of OI in 2006, to include increasing

supervision, should better position the OIG to reduce most delays associated with processing our criminal and serious employee misconduct investigations.

In FY 2008 the Office of Investigations will continue investigating all reports of fraud, waste and abuse, and other criminal activity, and will maintain current efforts to aggressively investigate, close and refer cases for criminal prosecution, civil litigation or administrative action in a timely manner.

4A - Human Capital Strategy Description

The OIG identified two mission critical occupations that closely align to its two budget activities, audit and investigations, and has integrated workforce plans for these specialized professionals (auditors, criminal investigators) with strategic and annual plan goals and objectives.

The OIG has had exceptional recruitment success using automated tools to re-establish and then maintain its human capital pipeline for the past four years, with OIG job announcements attracting up to 1,000 applicants, and selections made and positions offered within 30-days, on average.

4B – Information Technology Strategy

IT funding has been critical in enabling OIG to make significant progress in providing technology refreshment that allows our auditors, investigators, and support personnel to use hardware and software actively maintained by the manufacturers. IT funding also strengthens OIG's entity-wide IT security program, with equipment designed for antivirus detection/protection, anti-spam detection, anti-spy detection, intrusion detection/prevention, monitoring and patch management, and disaster recovery. This ensures that the OIG IT infrastructure operates in a secure manner and that the information collected during audits and investigations of the Department's operations and resources are not susceptible to computer attacks and terrorist activities. Maintaining the OIG IT infrastructure and its IT security program at an acceptable level requires on-going upgrades of tools and technologies.

IT funding has also enhanced OIG's ability to perform computer forensics during investigations and computer vulnerability scanning during audits of the Department's IT operations and resources. Maintaining these capabilities requires on-going upgrades of tools and technologies.

4.3 – PART Evaluation Table

The OIG is not, nor is it scheduled to be, PARTed.

For a complete list of PART results visit the following website: http://www.whitehouse.gov/omb/expectmore/all.html
