# 第九十六課 介紹新書

## 第一部 對話

黃大明是一個美國國防語言

學院的學生，他已經學了二十四個禮拜的中國話了。他還想多知道一些關於中國跟世界的情形。他問張先生。

黃：張先生，我們已經學了二十四個禮拜的中國話了。普通的話我們會說一點兒了。可是要談到中國問題好像甚麼都不知道似的，您能不能給我們講講？

張：當然可以，可是中國有幾千年的歷史，人口有六萬萬多。地方佔亞洲的四分之一。

我真不知道應當從甚麼地方說起。最好把你的問題說出來，我們一塊研究研究。

黃：我對於地理跟歷史都有興趣，可是我不知道是應當先問您中國地理，還是先問您中國歷史？

張：我想我們應當先討論中國地理，以後再討論中國歷史。不過要是詳詳細細的研究中國地理得用很多時候，所以我們只好簡簡單單的說一說。

黃：那麼就請您把最重要的先說一說，不太重要的就不必說了。要是我對於某一點特別有興趣，我再請您多給我講一講。

張：就那麼辦吧第一，我們先把中國的地理大概的說一說，像中國的位置，中國的地勢，甚麼的。

黃：我聽說中國又有高山又有大河。我希望您給我們講講。要是不講中國的山河，就等於沒學中國地理。

張：除了要講中國的山河以外，還要講中國的人口，氣候，跟中國沿海的島。

黃：對了，對了。像台灣，金門，甚麼的，請您無論如何都要給我們介紹介紹。我覺得這些都算是一種常識，人人都應當知道的。

張:我同意你說的話,所以我們不但要把那幾個大島說一說,並且要把太平洋裏各島也討論討論也許你們知道的比我們知道的還多

黃:張先生,您別客氣談到中國的城市,當然是您知道的比我們知道的多.可是要是講到美國城市,您已經在美國住了十幾年了,您知道的也不比我們少了,您也可以說一說.

張:我不是客氣,因為美國這麼大,城市這麼多,我要講的不過是美國的一部分,並且就是我看到的一部分.至於我說的對不對,也是一個問題.

黃:美國是一個民主國家,您有您的看法,我有我的看法,第三個人有他的看法,誰都可以發表自己的意見.

張:可是世界上除了美國跟中國以外,還有很多國家,所以我們也要談一談世界地

理。

黃: 好極了。多得一點兒智識, 總有好處, 不會有壞處。<sup>chù</sup>張先生, 請您<sup>jìn</sup>盡量把世界地理給我們多<sup>jyǎng</sup>講一點兒。

張: 我也不是<sup>jwān</sup>專家,<sup>jǐ</sup>只好我知道甚麼告訴你甚麼。要是有不對的地方, 請你也不要客氣直接的告訴我。

## Translation, Basic Dialogue

## Introducing This New Book

Hwáng Dà Míng is a student of the Defense Language Institute. He has studied Chinese Mandarin for twenty-four weeks. He wants to know more about China and the world situation, so he asks Mr. Jāng.

Hwáng: Mr. Jāng, we have studied Chinese for twenty-four weeks. We know how to speak some ordinary Chinese. But concerning Chinese problems, it seems that we don't know anything. Can you discuss these problems for us?

Jāng: Of course I will. But China has had a history of several thousand years, a population of more than six hundred million, and an area one fourth of Asia. I really don't know where to begin. The best thing would be for you to ask your question, and let us study it together, O.K.?

Hwáng: I am interested in both Chinese geography and history. I don't know whether I should ask you first about geography or about history.

Jāng: I think we should discuss Chinese geography first. Then we will discuss Chinese history. However, if we study Chinese geography in detail, we have to spend a lot of time. So we can only talk about it briefly.

Hwáng: In that case, please talk about the most important things first, and leave out the rather unimportant things. If I am interested in a certain point, I shall ask you to explain it in further detail.

Jāng: Let's do it that way. First, let's talk about Chinese geography in general, such as position, terrain, etc.

Hwáng: I have heard that there are high mountains and large rivers in China. I hope that you will talk

about them. If you don't explain the mountains and rivers to me, it will amount to nothing being learned in Chinese geography.

Jāng: In addition to Chinese mountains and rivers, I shall also talk about Chinese population, climate, and the islands along the Chinese coast.

Hwáng: Right, right; for instance, Taiwan, Quemoy, etc. Please introduce them to us by all means. I feel that these things are common knowledge, everyone should know about them.

Jāng: I agree with what you said. So, we will not only mention the large islands, but shall also discuss various islands in the Pacific. Perhaps you know more than I do about them.

Hwáng: Mr. Jāng, please don't be modest. Of course you know more about Chinese cities than I do. However, since you have lived in the United States for more than ten years, you would know no less than I. You can also talk about them.

Jāng: It is not that I am modest. America is large and she has so many cities. What I want to talk about is only a portion of the whole. Moreover, it will only be about the portion I have visited. As to whether I can talk about the cities as they actually are is still a question.

Hwáng: America is a democratic country. You will have your point of view, I will have my point of view, and he will have his point of view. Anybody can express his own opinion.

Jāng: But besides the United States and China, there are many other countries in this world. So we will also want to talk about world geography.

Hwáng: Very good. It is always good to get more knowledge. There can be no harm. Mr. Jāng, please explain more about world geography to the best of your ability.

Jāng: I am not an expert. I can only tell you what I know. If there is anything that is not true, please feel free to tell me.

## 說中文跟寫中文

用中文「說」一個 gù 事跟用中文「寫」一個 gù 事，有的時候不一樣。以後我們學看中文報的時候，就可以知道報上「寫」的中文跟我們普通「說」的中文，不一樣的地方很多。 <sup>Mǒu</sup> 些語言專家家想，這是中國語言的一個很特別的地方。

以前我們念的那九五課書裏，第五部的寫法叫白話<sup>1</sup>，用白話寫的東西叫白話文。有的白話文跟我們普通說的話一樣，有的比我們普通說的話簡單一點兒。我們說：「那個時候還有三個人沒到呢。」用白話文寫出來，也許是：「那時還有三人沒到。」至於中國報跟很久以前的中國書的寫法叫文言<sup>2</sup>。用文言寫的東西叫文言文。現在還有很多人用文言寫書，寫信。文言

文比我們普通說的話更簡單了。

從這一課起，不但在對話那一部我們要<sup>tāu</sup>討論很多新的問題——地理，歷史，甚麼的。在念書這一部，也學些新東西——比說話簡單的白話文跟文言文。

## WADE-GILES ROMANIZATION DRILLS

## INTRODUCTION

There have been scores of different Chinese romanization systems at various times since 1605 A.D. when Matteo Ricci, an Italian Jesuit missionary, published his first book using romanization along with Chinese characters. There are still at least four romanization systems in current use. The Army Language School and some other educational institutions, notably the Navy Language School, Yale and Cornell Universities, have been using the Yale romanization system, which has been modified from a system devised by the War Department during World War II, because it is the closest to the English language in spelling and pronunciation. The other three are the Wade-Giles, the national romanization and the Chinese Communist latinization systems. Since biographical and geographical names in newspapers, magazines, books and maps are still spelled out in the Wade-Giles romanization system and the postal modification of it, it has been found necessary for students using the Yale system to have some knowledge of the Wade-Giles system too. Having learned one system, it is quite easy to convert to the other.

Of the twenty-one (21) initials and thirty-five (35) finals used in the four hundred some Chinese-Mandarin sounds, nine (9) initials and fourteen (14) finals are spelled exactly the same in both Yale and Wade-Giles systems. Problems of conversion from one system to the other lie in the twelve (12) initials and twenty-two (22) finals which are spelled differently. These problems have been divided into sixteen (16) lessons, each of which tackles only a few. It is believed that by this systematic study of conversion from Yale to Wade-Giles, students will learn the latter in a matter of hours with no difficulty at all.

In giving these drills, it is suggested that the instructor does not utter all the sounds in the same tone, but change from one tone to the other from time to time. In doing so, the monotony, in the real sense of the word, will be broken and the result will sound more natural, as well as giving students the opportunity to romanize Chinese sounds in the four tones.

1. This exercise covers fifteen initials and five finals. Nine of the former and four of the latter are spelled exactly the same in both systems:

<u>INITIALS</u>			<u>FINALS</u>		
<u>Same</u>	<u>Different</u>		<u>Same</u>	<u>Different</u>	
	<u>Yale</u>	<u>W-G</u>		<u>Yale</u>	<u>W-G</u>
f	b	p	a	au	ao

m	p	p'	ang		
n	t	t'			
s	k	k'			
sh

\*Except in yan (Y) and yen (W-G)

2. All the Chinese sounds which are composed of these fifteen initials and five finals are listed below in Yale romanization. Write down the W-G equivalents:

a	ai	an	ang	au
ba	bai	ban	bang	bau
da	dai	dan	dang	dau
fa	---	fan	fang	---
ga	gai	gan	gang	gau
ha	hai	han	hang	hau

sa	sai	san	sang	sau
sha	shai	shan	shang	shau
ta	tai	tan	tang	tau
wa	wai	wan	wang	---
ya	yai	yan	yang	yau

3. The instructor will utter these sounds and ask students to write them down in both systems.

第九十七課 中國地理

第一部 對話

黃：張先生，請您先把中國的位<sup>jr</sup>置給我們說一說。

張：拿經<sup>wěi</sup>緯線來說，中國是由東經七十多度到東經一百卅多度。北緯十幾度到北<sup>wěi</sup>緯四十幾度。

黃：中國的附<sup>fù</sup>近都有甚麼國家？

張：中國的東邊免<sup>gù</sup>隔着太平洋有日本和菲<sup>Fēi</sup>律<sup>Lǜ</sup>濱<sup>Bīn</sup> (Philippines)。在亞<sup>Yǎ</sup>洲<sup>Jiū</sup>大陸上，我們從東北說到西南，有韓<sup>Hán</sup>國 (Korea)，俄<sup>É</sup>國，阿<sup>A</sup>富<sup>Fù</sup>汗<sup>Hàn</sup> (Afghanistan)，印<sup>Yìn</sup>度 (India)，不<sup>dān</sup>丹 (Bhutan)，尼<sup>Ní</sup>泊<sup>Bō</sup>爾 (Nepal)，緬<sup>Myǎn</sup>甸<sup>diàn</sup> (Burma)，跟越<sup>Ywè</sup>南 (Vietnam)。

黃：泰<sup>Tài</sup>國 (Thailand) 是不是也在中國南邊免？

張：是在中國南邊免，可是不跟中國相<sup>syāng</sup>聯接。高<sup>Gāo</sup>棉<sup>mián</sup> (Cambodia)，馬<sup>Mǎ</sup>來<sup>lái</sup>亞 (Malaya)，也都在中國南邊免，都不跟中國相<sup>syāng</sup>聯接。

黃：到底中國的面積有多大？

張: 南北五千多公里, 東西五千五百多公里,  
中國的面積<sup>Jī</sup>有一千多萬方公里, 佔<sup>Yā Jōu</sup>亞洲  
 的四分<sup>Jr</sup>之一, 世界的十二分<sup>Jr</sup>之一。

黃: 中國跟外國交界的地方, 有很多山麼?

張: 有山也有水。比方說中國跟<sup>Hán</sup>韓國 (Korea) 交  
 界的地方, 有<sup>Yā Lù Jyāng</sup>鴨綠江 (Yalu River), 中國跟<sup>Yin</sup>印度  
 交界的地方有<sup>Lā Yǎ</sup>喜馬拉雅山。

黃: 中國的海岸<sup>àn</sup>線有多長?

張: 中國的海岸<sup>àn</sup>線有一萬多公里長, 由中國  
 的東北到南部<sup>Gwǎng</sup>廣東 (Canton) 因為中國的海  
 岸<sup>àn</sup>線太長所以把中國附近<sup>fù</sup>的海分成四  
 個海, 最北邊兒的叫<sup>Bwó</sup>渤海 (Pó hǎi), 往南有黃  
海 (Yellow Sea), 東海 (East China Sea), 最南邊兒的叫  
南海 (South Sea)。有人也把南海叫中國海。

黃: 中國海岸<sup>àn</sup>線那麼長一定有很多海軍基  
 地, 對不對?

張: 對了可是我今天不能都告訴你們, 就說  
 兩個最有名的<sup>shwùn</sup>旅順 (Port Arthur) 跟青島 (Tsingtao)

黃: 中國的地形請您大概的給說說。

張: 中國的地形好像一個大山<sup>pwō</sup>坡, 西部的山又多又高, 地形高。東部的山又少又<sup>dī</sup>低所以地形<sup>dī</sup>低。

黃: 中國的河都從西往東<sup>lyóu</sup>流麼?

張: 對了。可是在中國西南部, 跟中國東北部, 有幾條河由北向南<sup>lyóu</sup>流。

黃: 張先生, 我覺得很奇怪。中國地方那麼大, 地形就像您說的那麼簡單麼?

張: 當然不簡單。西部除了山以外還有高原, 也有<sup>pén</sup>盆地。北部有沙<sup>mwo</sup>漠, 東北有平原。華北也有平原。

黃: 除了中國大陸以外, 中國也有很多島麼?

張: 最大的<sup>Tái wān chí</sup>是台灣, 其次是海南島。除了這兩個大島以外還有很多<sup>chyún</sup>羣島。

黃: 澎湖是不是<sup>chyún</sup>羣島?

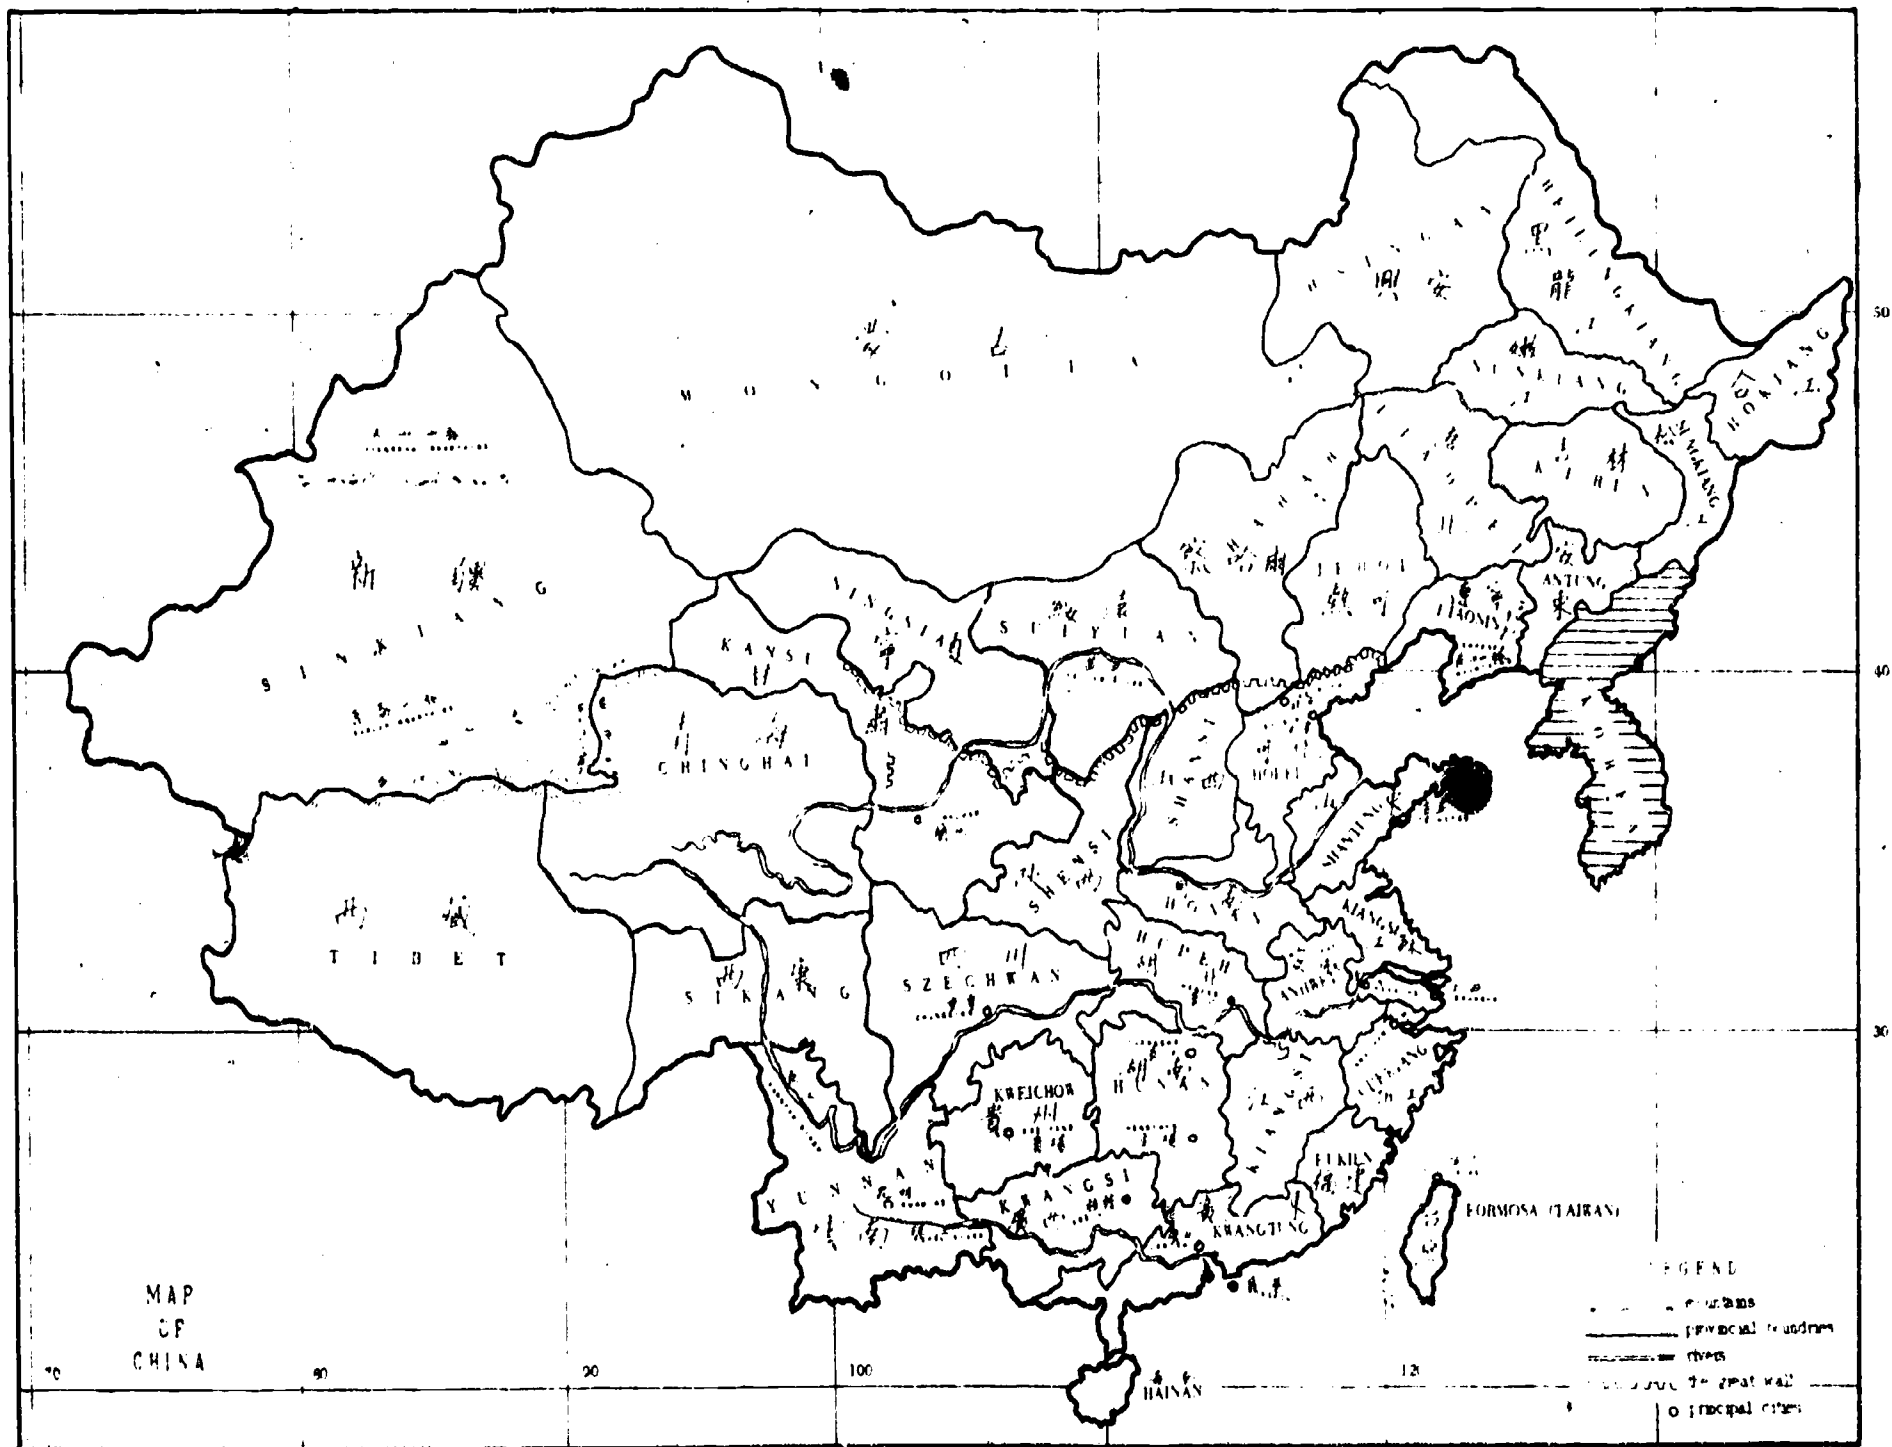

張: 中國人把<sup>Póng Hú</sup>澎湖叫做<sup>Póng Hú Lyè</sup>澎湖列島, 也許是因為那些小島都排<sup>lyè</sup>列在一條直線上的原

gù  
故。

黃: 張先生, 您說 中國 有很多山, 是不是也有  
很多河?

張: 中國 的山河, 我們今天沒有工夫講了, 留  
到下一課再給你們說一說。

Chinese Geography

Hwáng: Mr. Jāng, will you please tell us about the location of China.

Jāng: In terms of longitude and latitude, China is situated between seventy-odd degrees east longitude to one hundred-thirty-odd east longitude; and from ten-odd degrees north latitude to forty-odd north latitude.

Hwáng: What are the countries in the vicinity of China?

Jāng: To the east of China, but separated from it by the Pacific, there are Japan and the Philippines. On the Asian continent, from northeast to southwest, there are Korea, Russia, Afghanistan, India, Bhutan, Nepal, Burma, and Vietnam.

Hwáng: Is Thailand also to the south of China?

Jāng: Yes, she is to the south, but she does not directly adjoin China. Cambodia and Malaya are also located to the south of China, but also do not adjoin China.

Hwáng: How large is China's area after all?

Jāng: From the south to the north, China runs five thousand plus kilometers. China has an area of over ten million square kilometers. It constitutes one fourth of the area of Asia, and one twelfth of the earth.

Hwáng: Are there many mountains separating China from other countries?

Jāng: There are mountains and rivers between China and other countries. For example, there is the Yalu River adjoining China and Korea. There are the Himalaya Mountains adjoining China and India.

Hwáng: How long is China's coast line?

Jāng: China's coast line is 10,000 some kilometers long. It runs from the northeastern corner to the south, that is Kwangtung. As China's coast line is very long, the seas along China are divided into four parts. The northern one is called Bwo Hai (or gulf of Chihli);

to its south, there are the Yellow Sea and the East China Sea. The southernmost one is called South China Sea, or sometimes the China Sea.

Hwáng: Since China's coast line is so long, China must have many naval bases. Am I right?

Jāng: Right. But today I cannot tell you all about them. I can only mention two: Port Arthur and Chingtao.

Hwáng: Please talk about the terrain of China in general.

Jāng: China's entire terrain is similar to a big mountain slope. In the west, there are many high mountains, therefore it is high. In the east, there are a few low mountains, therefore it is low.

Hwáng: Do all Chinese rivers run from the west to the east?

Jāng: Yes. But in the southwestern part and in the north-eastern part of China, several rivers run from the north to the south.

Hwáng: Mr. Jāng, I am surprised. China is so large, is her terrain as simple as you have put it?

Jāng: Of course, it is not that simple. In West China, besides mountains, there are also plateaus and basins. There are deserts in the north, plains in the north-east and in the north.

Hwáng: Besides the mainland, are there many islands off China?

Jāng: The largest island is Taiwan. The second largest is Hainan. In addition to these two, there are many archipelagoes, such as the Paracel Islands.

Hwáng: Are the Pescadores an archipelago?

Jāng: The Chinese people call Penghu (Pescadores) a series of islands. Perhaps they feel that these islands look as if they were arranged in a straight line.

Hwáng: Mr. Jāng, you have mentioned that China has many mountains. Are there many rivers in China?

Jāng: As to mountains and rivers in China, I won't have time to go into them today. I shall save them for the next lesson.

## A. 中國的長城

研究中國地理，歷史的人，都知道中國的長城<sup>1</sup>跟運河<sup>2</sup>。

我們先談長城，下一課再談運河。在歷史上現在中國的「省」，從前有的是「國」。兩千多年以前，有幾個靠北部的「國」，因為要保護自己的國家，防禦敵人的攻擊，各在北部跟附近的國家交界的地方，建築城牆。到了兩千二百多年的時候，這些城牆才連接起來，成了一條很長的城牆。這個城牆由河北省到甘肅省<sup>Gānsù</sup>一共有五千多里那麼長，所以叫長城。也有人叫萬里長城。長城平均高三十尺，寬十五尺，並不是建築在一條直線上的，也不是全建築在平原上的。長城在地圖上經緯線的位置是由東經九十八度到一百二十度。長城不但在中國是一個

很大的建築並且在世界上也是一個非常有名的建築。

第九十八課 中國的山河

第一部 對話

黃：張先生，昨天您說要給我講講中國的山河，我想您不會忘了吧。

張：當然沒忘，可是也許因為時間的關係不能詳詳細細的講，請你們不要覺得失望。

黃：時間這麼短，就請您先給我說一說中國的山脈吧。

張：中國的西部是中國所有山脈的起點，往東往北，往南，伸出三條山脈。

黃：喜馬拉雅山在裏頭麼？

張：是往南的就是喜馬拉雅山，是在中國跟印度當中。

黃：在中國西北跟俄國交界的地方是甚麼山？

張：那是天山跟阿爾泰山，那條山脈很長，可不是最長，一直到中國北部跟中國東北。

黃：那麼中國最長的山脈是那條？

張: 是崑崙山脈, 由中國西部起一直往東, 又  
 分了很多山脈, 到中國內地各省。

黃: 崑崙山也是中國最高的山麼?

張: 不是中國最高的山是喜馬拉雅山的額  
 非爾士峯, 也是世界上最高的山。到現在  
 還沒有多少人上去過呢。

黃: 聽說中國的山有五個是最有名的。是真  
 的麼?

張: 是的。不過我今天不給你們講, 因為給你們  
 們說很多地理上的專名詞, 你們也記不  
 住。那五座山都很高, 很好看, 山上都有廟。  
 那五座山有名, 也都是因為宗教的關係。

黃: 剛才您說的山, 跟山脈, 有甚麼分別?

張: 平常我們說到山, 就想到大山, 小山, 跟所  
 有的山。可是山脈是指着很多一個系統,  
 在一塊兒的山。所以一個山脈裏可以有  
 很多山峰, 很多山嶺。

黃: 中國那個山嶺最有名?

張: 最有名的是秦嶺。也許這是我個人的偏見。上幾年以前,我從秦嶺北邊坐車到秦嶺南邊,看見氣候跟人民的生活,有很大的分別。等我們講到中國的氣候的時候,再給你們說說。

黃: 秦嶺是不是長江跟黃河的分水嶺?

張: 對。 黃河在秦嶺北邊,一共長四千多公里。 長江在秦嶺南邊,長五千多公里。

黃: 除了長江跟黃河以外, 中國還有甚麼河?

張: 中國的河流除了長江跟黃河以外,還有珠江。

黃: 你說的河跟河流,我又有一點不清楚。

張: 河流就好像是一個系統似的,可能包括很多小河跟支流。

黃: 請您給我們舉一個例子。

張: 要是提到珠江,這條河流就包括珠江上流的東江,北江,跟西江。

黃: 長江是不是也叫揚子江?

張: 是的。中國人因為那條河最長, 所以把他  
叫做長江 黃河的水裏有很多黃土, 水的  
顏色很黃, 所以叫黃河。

黃: 中國有沒有國際河流?

張: 有在中國東北跟韓國 俄國交界的地方  
有國際河流。在中國西北跟西南也有國  
際河流, 流到外國去。

## Translation, Basic Dialogue

## Mountains and Rivers in China.

Hwáng: Mr. Jāng, yesterday you said you would talk about mountains and rivers in China, I don't suppose, you will forget this, will you?

Jāng: No, I won't. Perhaps I cannot talk about them in great detail because of the time limit. So, please don't be disappointed.

Hwáng: Since we have only a short time, please talk first about the mountains and mountain ranges in China.

Jāng: The starting point of all Chinese mountains can be found in the western part of China. These mountains extend toward the east, the north, and the south and become three different mountain ranges.

Hwáng: Did you include the Himalayas?

Jāng: The Himalayas extend toward the south. They separate China from India.

Hwáng: What mountains are there between northwest China and Russia?

Jāng: They are the Tien Shan and Altai mountains. This mountain range is very long, although not the longest. It extends straight to the northern part of China and the northeastern part of China.

Hwáng: Then, what is the longest mountain range in China?

Jāng: That is the "Kwēnlwún Mountain Range." It starts from the western part of China, extends straight toward the east and then becomes many mountain ranges which are located in various inland provinces.

Hwáng: Is Kwēnlwún also the highest mountain in China?

Jāng: No, the highest is Mount Everest in the Himalayas. It is also the highest in the world. Up till now not many people have climbed it.

Hwáng: I heard that there are five well-known Chinese mountains. Is this true?

Jāng: Yes, but I am not going to talk about them today. If I give you too many geographical terms, you cannot remember them. Those five mountains are high and beautiful. There are temples on these mountains. They are all famous for religious reasons.

Hwáng: You just mentioned mountains and mountain ranges. Is there any difference?

Jāng: Ordinarily, when we say "mountain," we mean large mountains, small hills, or all mountains. But when we say "mountain ranges," we refer to a systematic group of mountains. A mountain range may include many peaks.

Hwáng: Which is the most famous mountain in China?

Jāng: Chinling is the most famous. Perhaps this is my own preference (prejudice). When I rode in a car from the north side of the Chinling to the south side, I noticed that the climates and people's livelihoods on the two sides are very different. I will talk about this when I discuss China's climate.

Hwáng: Is Chinling a watershed between the Yangtze River and the Yellow River?

Jāng: Yes. The Yellow River is on the northern side of Chinling, altogether 4000-odd kilometers long, while Yangtze is on the southern side of Chinling, 5000-odd kilometers long.

Hwáng: What are the other rivers in China besides the Yangtze and the Yellow Rivers?

Jāng: Besides the Yangtze and the Yellow Rivers there is also the Pearl River among the Chinese rivers and river flows.

Hwáng: You just mentioned 'rivers' and 'river flows', these are not too clear.

Jāng: River flows are systematic groups of rivers. A river flow may include many small rivers and tributary rivers.

Hwáng: Please give an example.

Jāng: For instance, when we say Pearl River flow, we include the East River, North River, and West River in its upper reaches.

Hwáng: Is the Yangtze River also called the Cháng Jyāng?

Jāng: Yes. Since it is the largest river in China, the Chinese call it the "Long River." There is yellow mud in the water of the Yellow River. The water is yellow, therefore the river is called the Yellow River.

Hwáng: Is there an international river flow in China?

Jāng: Yes, there is. Such a river flow lies between the north-eastern part of China, Korea and Russia. Also in the northwestern part and in the southwestern part of China, there are international rivers which flow to other countries.

## A. 中國的運河

我們討論中國地理歷史的時候，我們也應當知道在中國歷史上非常有名的運河。

運河是在兩千四百年以前開始用人工造的一條河，到六百年前才造好。這條河的起點在河北省一直流到 <sup>Jò Jyāng</sup> 浙江 省，當中有幾部分是由原來的河——黃河跟長江——連接起來的。運河一共長一千四百多公里。在沒修鐵路以前，中國南北交通多半靠着這條河。北部因為氣候的關係米很少，所以特別是北方人吃的米需要由運河運來，運河對人民的的生活有很多的幫助。

運河是為了運東西造的，所以叫「運河」。雖然在中國我們一提到「運河」是指着這條河說的。不過現在「運河」並不是這條河的專名 <sup>tsz</sup> 世界詞

上別的用人工造的河也全叫「運河」。世界上還  
有兩條有名的運河，才造了幾十年。一條在非  
長一百六十六公里；一條在南美只長八  
十一公里，所以中國這條運河實在是世界上  
最長最老的運河。

第九十九課

第一部 對話

第一步兵旅的兩個參謀 李 Jōu  
舟

跟 王明 商量作戰 jīhwá  
計劃

李: 今天情報參謀報告參謀長說, 敵人集中不少戰車, 多半要開始攻勢。參謀長讓我跟您 jīhwá 我們的防禦。  
計劃

王: 要是敵人這次的攻勢是用戰車作先頭攻擊部隊, 我們的防禦也得 jīhwá 好才可以。  
計劃 dīkàng 戰車。  
抵抗

李: 我們的前 shǎu 跟觀 tsò 所後頭, 有鐵絲網。  
哨 測 鐵絲網是不夠 dīkàng 戰車的。  
抵抗

王: 那當然得在鐵絲網後頭 bùlái 那個 léichyū  
佈雷 雷區 裏頭多半得用防戰車 lái  
雷

李: léichyū 後面還得有防戰車 náu 不讓戰車過  
雷區 壞 來。

王: 就有 léichyū 還不行。他們要是用很多戰車。  
雷區

一 lyàng 讓地 雷 lái 炸壞了, 第二 lyàng 再接着  
上來, 總可以過得來的。

李: 是的。有了防戰車 壕, 他們的工兵也有法  
子讓他們戰車過來。

王: 所以我們在防戰車 壕 後頭, 得有各種防  
禦戰車的 武器。

李: 我們在防戰車 壕 後頭, 有一條長 壕溝, 裏  
頭各種鎗炮的掩體都得有。

王: 你看應當有些甚麼 武器 呢?

李: 步鎗, 機關鎗, 只能打敵人的步兵。我們得  
用火 箭筒, 無 座 力炮, 迫 擊炮, 跟大的  
戰防炮, 才能打敵人的戰車。

王: 火 箭筒 得用多大口 徑 的呢?

李: 情報參謀說, 敵人這次的戰車不是輕的,  
都是中戰車。我們的火 箭筒 一定得是  
三點五英寸口 徑 的。

王: 無 座 力炮, 跟 迫 擊炮, 口 徑 都得在一零六  
公 厘 以上才行。

王：我們得需要甚麼口徑的戰防炮？

李：我們的戰防炮有九十公厘就夠了。

王：為甚麼不用更大的呢？

李：我們的兵工廠做了一種新的戰防炮。炮彈比以前的利害的多。所以戰防炮的口徑不必太大就夠了。

王：敵人的戰車都是中戰車，火力一定很大，你以為我們的壕溝裏各種炮的掩體壞壞是不是？

李：你說的很對。我們的掩體最好是重掩體，才能抵抗敵人戰車上的炮。

王：我們為甚麼不用戰車打敵人的戰車？

李：我們可以請司令部讓一些戰車在我們的壕溝後頭幫着打敵人的戰車。

王：我想這個法子很好。因為戰車比較有機動性。敵人到那兒我們也可以開到那兒去打他們。

王：敵人最近調了一些空軍到前線來。我們的

戰車很容易被車炸。我想請司令部派高射炮保護我們的戰車。

王：我想起來一件事。我們的雷區應當有明圖給司令部送去。

李：這個當然沒有明圖我們自己也沒法知道那兒有地雷。

王：我們也得告訴前哨。這幾天派人巡邏。敵人有甚麼活動都得報告司令部。

李：我們要知道敵人的戰車集中在哪兒，可以用炮兵轟擊他們的戰車。

王：我們也可以用飛機轟炸他們。

李：這個法子不錯。在敵人開始攻勢以前，先破壞他們一部分戰車。到他們攻擊的時候，我們也可以少吃一點虧。

王：我們就這樣好了。您寫計劃給參謀長好不好？

李：好。

Military Subject

Translation, Role Dialogue

We must utilize our own direct infantry  
brigade elements for use plans.

Lǐ: Today the intelligence staff reported to the chief of staff that the enemy has already concentrated many tanks. Most likely they are going to launch an attack. The chief of staff asked me to make our defense plans with you.

Wáng: If the enemy uses tanks as the spearhead this time, our defense has to be planned so as to be able to resist them.

Lǐ: Behind our outpost and our observation post, we have barbed wire entanglements. These are not enough to resist the enemy tanks.

Wáng: Behind the barbed wire entanglements, we naturally have to lay mines. In the mine field, most of the mines will have to be anti-tank mines.

Lǐ: Behind the field there must be an anti-tank ditch to stop tanks from coming in.

Wáng: It won't be enough just to have the mine field. If they use many tanks, when one tank is damaged, the second one could follow and might be able to cross the ditch.

Lǐ: Yes. Even if we have an anti-tank ditch, the enemy engineers can still think of some way to get their tanks across.

Wáng: Therefore we must have all kinds of anti-tank weapons behind the anti-tank ditch.

Lǐ: We will have a long trench behind the anti-tank ditch. In it we will have emplacements for all kinds of guns and artillery pieces.

Wáng: What weapons do you think we should have?

Lǐ: Rifles and machine guns can only be used against infantrymen. We have to use bazookas, recoilless guns, mortars, and large anti-tank guns to fight enemy tanks.

- Wáng: How big is the muzzle of the bazookas that we are going to use?
- Lǐ: The intelligence staff said that the enemy tanks are medium tanks. Our bazookas must be 3.5's.
- Wáng: How about the recoilless guns?
- Lǐ: Both the recoilless guns and the mortars must be over 106 mm.
- Wáng: What muzzle size should the anti-tank guns be?
- Lǐ: It will be sufficient to have anti-tank guns of 90mm.
- Wáng: Why don't we use larger ones?
- Lǐ: Our arsenal makes a kind of new anti-tank gun shells that are more powerful than the old ones. Therefore, the muzzle of the anti-tank guns don't have to be too large in size.
- Wáng: All enemy tanks are medium tanks. The firepower must be very great. It will be very easy for them to destroy emplacements of our artillery pieces in the trenches. Don't you think so?
- Lǐ: You are right. Our emplacements had better be bunkers so that they can withstand the bombardment of the tanks.
- Wáng: Why don't we use tanks to fight enemy tanks?
- Lǐ: We can request our headquarters to send some tanks and deploy them behind the trenches. They could assist us in fighting enemy tanks.
- Wáng: I think this is a good idea. Since these tanks have great mobility, they can go wherever the enemy tanks go.
- Lǐ: The enemy has recently sent its air force to the front line. Our tanks will be very easily damaged. I am thinking of requesting headquarters to protect our tanks by sending anti-tank guns.
- Wáng: I just thought of something. We should have an overlay of mine field sent to headquarters.
- Lǐ: Of course, we can't tell ourselves where the mines are unless we have an overlay of the mine field.

L. 99

Wáng: We also have to order the outposts to send out more patrols. If the enemy has any activity, the outpost should report it to headquarters.

Lǐ: If we know where the enemy tanks are, we can concentrate on bombarding their tanks with artillery pieces.

Wáng: We can also use airplanes to bomb them.

Lǐ: That is a good way. If we destroy part of his tanks before the enemy starts his attack, we will face less tank fire.

Wáng: We will do it this way. Would you prepare our plan for headquarters?

Lǐ: Fine!

第一百課 中國的氣候與人口

黃：張先生，前天您說秦嶺跟中國的氣候有很大的關係。您今天能不能跟我們解釋解釋？

張：秦嶺很高，在中國的中部，所以從北部吹來的冷風，被秦嶺擋住了。秦嶺以北到了冬天很冷，可是秦嶺以南氣候比較溫和。

黃：除了秦嶺以外，太平洋對中國的氣候有沒有影響？

張：當然也有很大的影響，靠近太平洋的那幾省，都有點海洋氣候，特別是南方那幾省，一年的氣候都比較溫和。

黃：中國甚麼地方是大陸氣候呢？

張：中國而北，西南，西部，那些高原地區都是大陸氣候，冬天很冷，夏天很短，很乾。

黃：中國有沒有一年都是春天的地方？

張：有。是在中國的西南，也許你們都聽說過。那個地方叫做昆明。

黃：對了，我聽說那個地方是第二次世界大戰的時候中國跟美國空軍的基地。

張：對了，昆明的天氣真好，不常陰天。

黃：中國有沒有雨<sup>ji</sup>季？

張：中國北方下雨，多半是在夏天，冬天下雪。下雨的時候，下幾天就晴天了，很少連下多少天的時候。南方，西南有雨<sup>ji</sup>季，天天下雨，可是下的不太大，也許連下多少天，有的時候，連下一兩個月。

黃：中國下<sup>wù</sup>霧的地方多不多？

張：重慶<sup>Ching</sup>的<sup>wù</sup>霧最有名。雖然沒有倫敦<sup>Lwún dwūn</sup>那麼利<sup>lì</sup>害，可是也差不多。南方幾省有<sup>wù</sup>霧的地方很多。

黃：中國的氣候跟中國人口的分佈，有沒有關係？

張：很有關係。中國沿海幾省，因為氣候<sup>wān nǎo</sup>溫和，<sup>chǎn fēng fù</sup>農產豐富，所以人口比較<sup>jiǎo</sup>多。

黃：甚麼地方人口比較<sup>jiǎo</sup>少呢？

張：中國的西北，蒙古，西藏，西南山地，人口比較少。當然一方面是因為氣候不太好，另一方面是因為農產不豐富。

黃：談到人口，中國到底有多少人？

張：大概總在六萬萬以上。

黃：國內有沒有少數民族？

張：中國漢族最多。滿族、蒙族、回族、藏族，甚麼的都算少數民族。

黃：這些少數民族跟漢人住在一塊兒麼？

張：滿人本來住在中國東北，可是後來有很多人搬到中國本部來住，多半已經被漢人同化了。

黃：回人呢？

張：他們多半還住在中國內地各城，也有信回教的人，不過不多。可是中國西北的漢人也不一定比回人少。

黃：蒙人跟藏人呢？

張：蒙人住在蒙古，藏人住在中國的西藏。

Translation, Basic Dialogue

Climate and Population in China

Hwáng: Mr. Jāng, day before yesterday you said that the mountain range of Chínlǐng had something to do with the climate of China. Would you care to explain this today?

Jāng: The mountain range of Chínlǐng is very high. It is in the middle part of China, and the cold winds blowing from the north are stopped by the mountain range. To the north of the mountain range it is cold during the winter. However, it is comparatively warm in places to the south of Chínlǐng.

Hwáng: Besides Chínlǐng, does the Pacific Ocean have any influence on the climate of China?

Jāng: Of course, it has. In those provinces near the Pacific, we have oceanic climate. The climate in several southern provinces in particular is rather warm.

Hwáng: Where, in China, can we find continental climate?

Jāng: In the plateau areas of the western part, in the southwestern part, and in the northwestern part of China, we have continental climate. Winters are cold and summers are short and dry.

Hwáng: Is there any place in China where there is spring all year round?

Jāng: Yes, there is a place in the southwest of China. Perhaps you have heard of it. The city is called Kūnmíng.

Hwáng: Right, I've heard of it. During the Second World War it was a military base for Chinese and American air forces.

Jāng: That's right.

Hwáng: Is there any rainy season in China?

Jāng: In north China, rain comes most of the time in summer, snow in winter. It may rain several days in a row, and then comes a clear day. It is not often that it rains continuously. In the south and southwest of China, there is a rainy season. It rains continuously every day. But it is only a light rainfall. It may rain continuously for several days or even for one or two months.

Hwáng: Are there many foggy places in China?

Jāng: Chungking is famous for being foggy. It is not as foggy as London, but it is almost the same. There are also foggy places in the southern provinces.

Hwáng: Does the climate in China affect distribution of the Chinese population?

Jāng: It does. In the coastal provinces the climate is warm, therefore agricultural products are abundant. The population there is also large.

Hwáng: Where are the less populated areas?

Jāng: The northwestern part of China, Mongolia, Tibet, and the southwestern mountain area are all sparsely populated. Of course, on one hand, it is the result of bad weather, and on the other hand, the reason is poor agricultural production.

Hwáng: After all, what is the population of China?

Jāng: Approximately six hundred million.

Hwáng: Is there a minority race in China?

Jāng: The Han's, or the Chinese, constitute a majority. The Manchus, the Mongolians, the Turks (or the Uigurs), the Tibetans, and many others are all considered minority races.

Hwáng: Do the minority races live together with the Han's (Chinese)?

Jāng: The Manchus originally lived in the northeast, but later many of them came to China proper. Most of them were thus assimilated by the Chinese.

Hwáng: How about the Turks?

Jing: Most of them still live in the northwest. There are Mohammedans in inland cities of China, but there are not too many of them. However, in the northwest, there are not necessarily any less Chinese than Mohammedans.

Hwáng: How about the Manchians and the Tibetans?

Jing: The Manchians live in Manchuria, while the Tibetans live in Tibet.

個人<sup>1</sup>與家族<sup>2</sup>

中國從前雖然有 Hàn 漢 Méng 蒙 Dzàng 藏 五個民族，分佈各地區，可是因為受了 Hàn 漢 族的同化，他們的生活沒有太大的分別，他們對於家族的看法也差不多一樣。

中國人覺得一個人是家族的<sup>3</sup>一部分，不是一個自由的個人。一個人最重要的事情是讓他這個家族生長下去。所以結婚這件事就成了全家的事，不是個人的事了。父母要替兒子找一個合適的女孩子，希望兒子早一點兒結婚，多養幾個孩子。兒子結了婚，養了孩子，還住在一塊兒。父母老了，需要兒女的幫忙，兒女覺得自己小的時候，得到父母的幫忙，父母老了，當然應當幫父母的忙。這樣兒祖父母，父母，兒

女，兒子的兒女，住在一塊兒，成了中國社會的一個特別的情形。中國人以為要是每一個人能把家弄好了，國家與世界的問題，也就可以解決了。不過，這幾十年，中國各方面很受外國的影響，兒子結了婚，也不都跟父母一塊兒住了。

第一百零一課 台灣

第一部 對話

黃：先生，台灣現在這麼重要，請您先把台灣的歷史背景給我們講一講。

張：在歷史上，我們現在所知道的，最早是五八三年被葡萄牙的水手發現的。就起了一個名字叫 "Formosa"。

黃：那是不是葡萄牙話？

張：是的。意思是美麗的海島。所以從那時候起，西方人都知道那個島叫 "Formosa"。

黃：日本人從甚麼時候起開始統治台灣？

張：那是因為第一次中日戰爭，中國打敗了。所以就在一八九五年把台灣給了日本。

黃：日本統治台灣一共統治了多少年？

張：差不多五十年。一直到第二次世界大戰完了，日本投降以後，才把台灣拿回來。

黃：現在在台灣，他們用甚麼語言？

張：現在都用國語。有頭腦的台灣人都知道

國語的重要。當然有些年歲大的人，國語

說的不太好，可是他們都能懂國語。日本

張：台灣土話已經不太流行了。

黃：台灣土話，你會說麼？

張：我不懂，我更不會說了。從前在台灣的

國人都說福建話，因為他們都是從福建

到那兒去的。

黃：台灣到底有多大？

張：台灣島本身有一萬三千八百零八方哩，

可是要加上別的島還有幾十方哩。

黃：別的甚麼島？一共有多少？

張：澎湖列島一共有六十四島，別的島大大

小小的還有十三個。

黃：別的島裏頭包括金門馬祖麼？

張：不包括金門馬祖離台灣遠，離大陸近。

黃：台灣有甚麼重要城市？

張：最大的是台北。人口有八十多萬，在台灣

北部。還有台中台南兩個城市。一個在台

 要基地，對不對？

張：是的。那個地方叫 鳳山，所有的新兵都在  
鳳山 受基本訓練，也有一部分是陸軍高

黃：台灣 的人口有多少？

張：一九六二年的統計，有一千一百五十萬，可是看  
 樣子人口還要繼續增加。

黃：在 台灣 的歷史上，有一位很有名的人叫  
 甚麼？

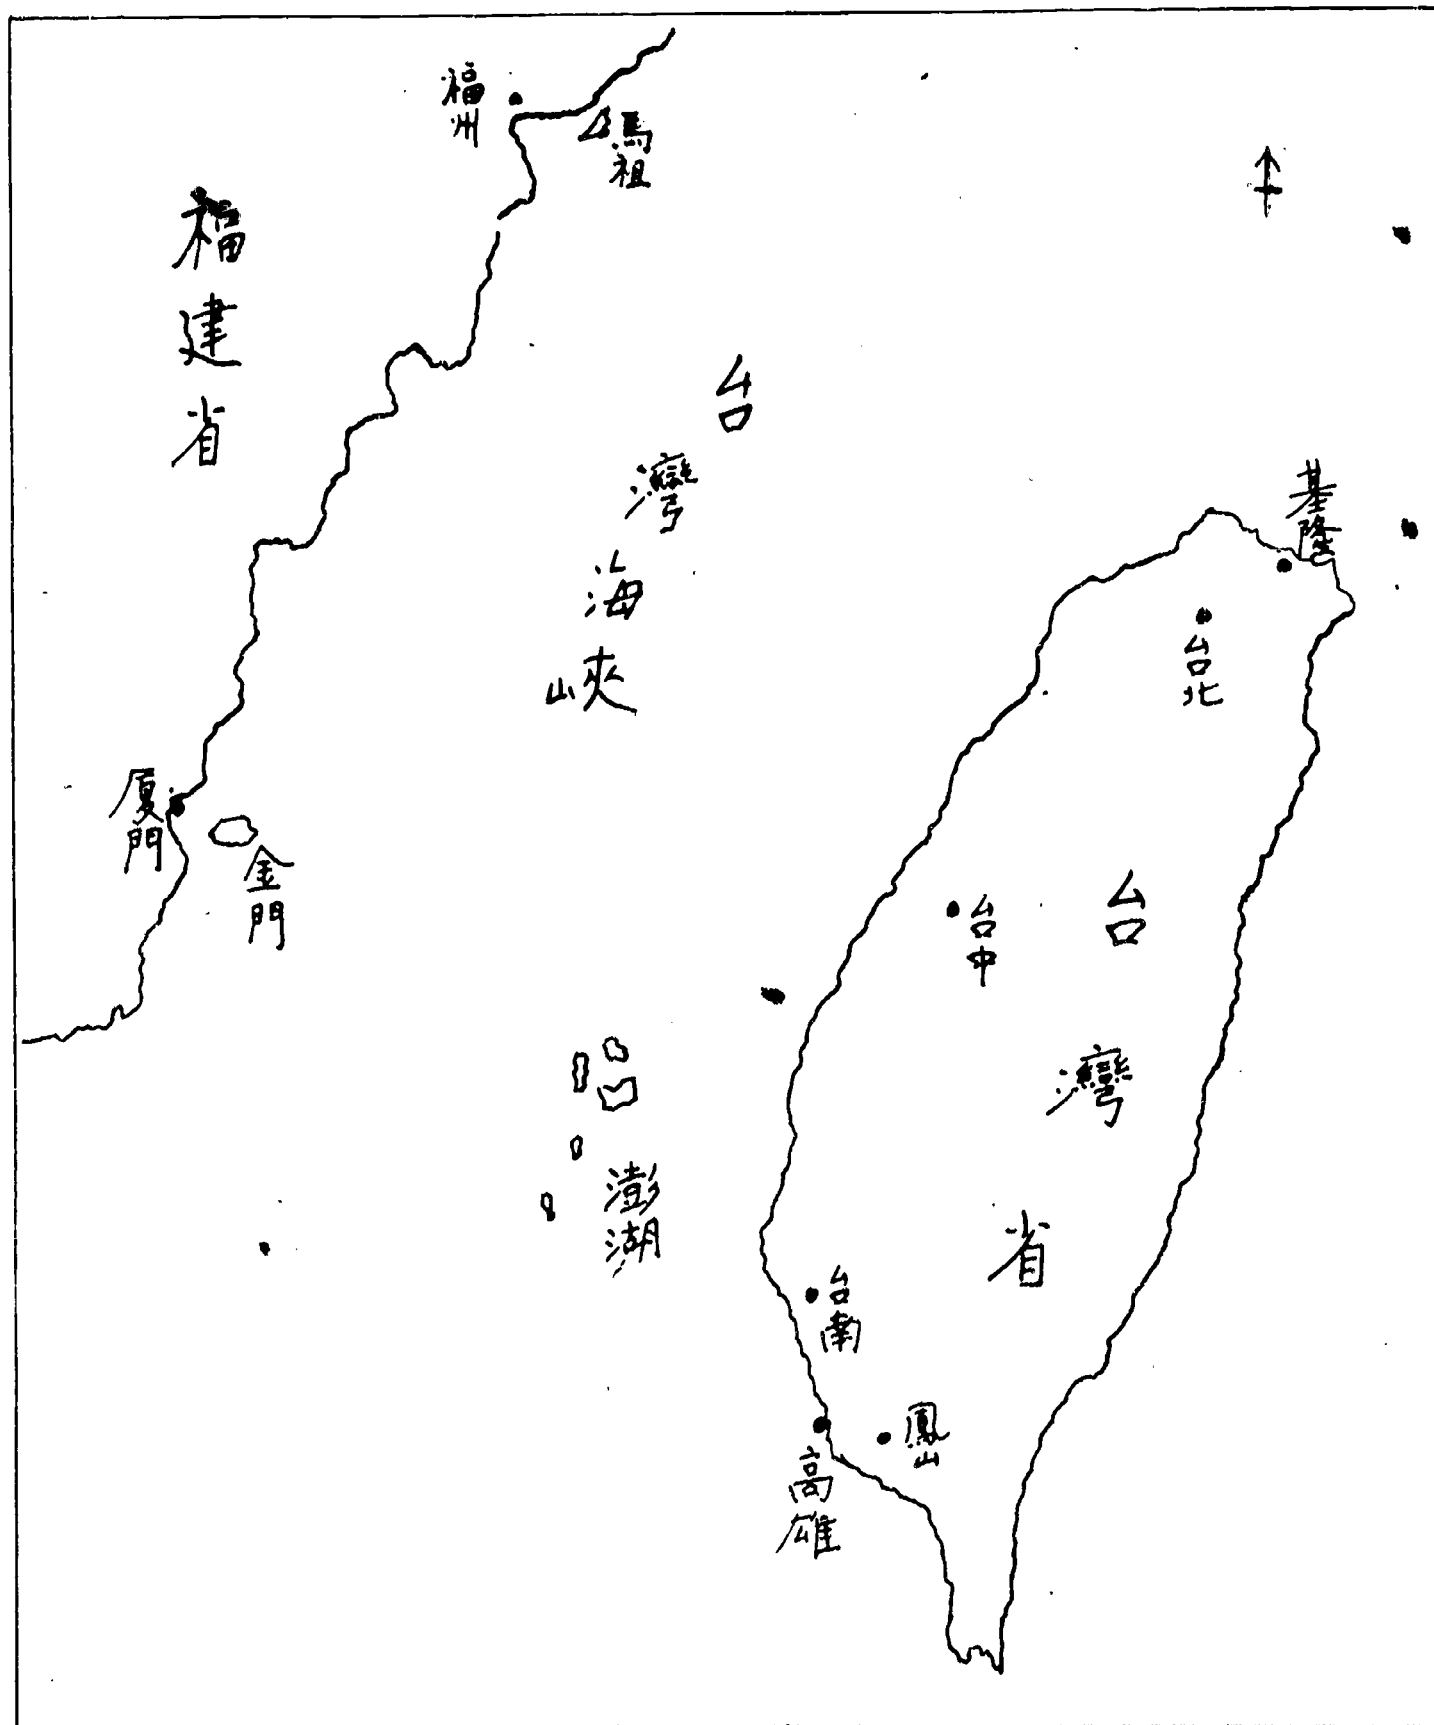

張：叫 鄭成功 他是 明朝 人，可是 明朝 滅亡了  
 以後，新的朝代是 清朝，他不願意向 清朝  
 投降，所以就帶了很多人，一千二百多隻  
 船，在一六六一年，從 金門 逃到 台灣。

Translation, Basic Dialogue  
Taiwan (1)

Hwáng: Mr. Jāng, Taiwan is very important now. Will you please tell us about the historical background of Taiwan.

Jāng : Speaking of history, the earliest date we know of is 1583. In that year the island was discovered by Portuguese sailors and was given the name "Formosa".

Hwáng: Is it Portuguese?

Jāng : Yes, it means "Pretty Island". From that time on, Westerners knew that island as "Formosa".

Hwáng: Since what time did the Japanese rule Taiwan?

Jāng : This came about after the Chinese defeat in the First Sino-Japanese War. In 1895 Taiwan was given to Japan.

Hwáng: For how many years did Japan rule Taiwan?

Jāng : For about fifty years. Not until the Japanese surrender at the end of the Second World War, was Taiwan returned to China.

Hwáng: What language is spoken in Taiwan now?

Jāng : Now they speak Chinese Mandarin. All the Formosans who were clearheaded could see the importance of Chinese Mandarin. Naturally, some elderly people do not speak good Mandarin. But they can understand all Mandarin. Japanese and local dialects are not very popular now.

Hwáng: Do you speak the local dialects?

Jāng : I don't even understand them, not to mention speaking. The Chinese people in Taiwan formerly spoke the Fukien dialect, because they came from Fukien.

Hwáng: How large is Taiwan after all?

Jāng : Taiwan, itself, has an area of 13,808 square miles. If you want to include the other islands, you must add several score square miles.

- Hwáng: What are the other islands? Altogether, how many are there?
- Jāng: There are a total of 64 islands in the Pescadores. Other islands, some large and some small, number thirteen.
- Hwáng: Do these islands include Quemoy and Matsu?
- Jāng: They don't. Quemoy and Matsu are far from Taiwan and close to the mainland.
- Hwáng: What are the important cities in Taiwan?
- Jāng: The largest city is Taipei. It has a population of more than 800,000 people. Two other cities are Taichung and Tainan. One is in the central part, and the other is in the southern part of Taiwan.
- Hwáng: Are there any naval bases?
- Jāng: There are two: one is in the north, called Keelung; the other is in the south, called Kaohsiung.
- Hwáng: I heard that in the neighborhood of Kaohsiung there is an army base. Is this true?
- Jāng: Right. It is Fèngshān. All recruits receive their basic training there. A portion of that base is for advanced army training.
- Hwáng: How large is the population of Taiwan?
- Jāng: According to statistics in 1962, the population was more than 11½ million. But it seems that the population will continue to grow.
- Hwáng: There is a famous person in the history of Taiwan. What is his name?
- Jāng: He is called Jèng Chéng-Gūng of the Ming Dynasty. When the Ming Dynasty was destroyed, the new dynasty was called the Ch'īng Dynasty. He did not want to surrender, therefore he took his men and 1200-odd ships and fled to Taiwan from Quemoy in 1661.
- Hwáng: What people were living in Taiwan at that time?
- Jāng: The Dutch people were occupying Taiwan. But Jèng Chéng-Gūng defeated them.

L. 101

Hwáng: How many years did Jèng Chéng-Gūng rule Taiwan?

Jāng : Over twenty years.

## 甚麼是國語

中國話最普通的是國語，吳語與閩語平常我們叫上海話，閩語叫福建話，吳語叫廣東話，國語的百分之九十以上是北平話。

北平是最近這幾百年中國的國都，因為北平有這樣兒的歷史背景，所以在上頭說到的那幾種話當中，北平話是全國最普通的話。從東北的吉林一直到西南部的雲南都說跟北平差不多的話，不算蒙古跟西藏，中國各省這八百七十多萬方公里的地方，統計起來，十分之九以上都是說跟北平話很近的話。

現在台灣跟別的地區的學校都用國語教書，差不多人人都說國語了。從前有一部分人

說：「為甚麼只有北平話才算國語？我們說的土話不也是中國話麼？為甚麼要把北平話代替了我們的土話？」其實中國各省的話都是中國話。不過，要計劃各地區都說一樣的話，就非要找出一個最普通的話來，讓全國各地的人都說那種話不可。國語的「國」跟國歌的「國」意思一樣。國歌是全國要唱的一個歌，國語是全國要說的一種話。

黃：要是我們從台灣回來，給我們的親戚朋友帶點兒甚麼東西最好呢？

張：要是你有女朋友，或是你有太太，你應當給他們做一兩件中國衣服。他一定會特別喜歡。給別人可以買點手工藝出品，都不太貴。

Translation, Basic Dialogue  
Taiwan (2)

- Hwáng: If we want to take a trip to Taiwan, could you plan it for us?
- Jāng: Of course, I can. People taking a trip to Taiwan will usually go by air. After they arrive there, they need not fly any further. They may take a train from Taipei to Taichung, Tainan, and Kaohsiung and look around.
- Hwáng: Are there any scenic spots in the vicinity of Taipei?
- Jāng: There are many. The most famous places are Tsǎu Shǎn or Yáng Míng Shǎn, and Bì Tán, and R Ywè Tán in Taichung, etc.
- Hwáng: What is meant by "tán"?
- Jāng: "Tán" is similar to a lake.
- Hwáng: If I were to stay in Taiwan for several months, what should I see first?
- Jāng: That depends on your interest. For instance, if you are interested in industrial construction, you may go and see various developments in industry.
- Hwáng: Would you tell us something about religion in Taiwan?
- Jāng: In Taiwan there are people who believe in all religions. They are free to choose.
- Hwáng: Can we visit temples there?
- Jāng: I think you may, as long as you do not hinder their religious ceremony. Sometimes there is a temple fair. Foreigners are welcomed there.
- Hwáng: How is the climate in Taiwan?
- Jāng: From May to October it is summer. The temperature is about 70° and not too hot. Winter lasts only two months, from January to February. It is a short winter and not too cold. It often rains but never snows.
- Hwáng: Do typhoons occur in Taiwan?

- Jāng: Every year from July to October typhoons occur. Sometimes they are very serious, causing many losses. Sometimes they are not serious.
- Hwáng: At the present time the Taiwan population is large and the land area is small. Their farm products must be abundant if they can support their own people. Is this true?
- Jāng: That is true. Taiwan produces a great deal of rice, sugar, and pineapples. Each year they export those three products in large quantities.
- Hwáng: How is the import and export business in Taiwan?
- Jāng: The import and export business each year amounts to over one hundred million dollars.
- Hwáng: What do they export besides rice, sugar, and pineapples?
- Jāng: They also export tea, bananas, cement, etc. They import, most of the time, chemical fertilizers, metals, electrical materials, machines, etc. They import some women's cosmetics, but the customs levy a heavy duty on these.
- Hwáng: Is it all right if I plan to study in Taiwan?
- Jāng: I think the Taiwan schools will welcome you. I heard that several graduates from the Defense Language Institute are studying at the Taiwan University.
- Hwáng: How much will a foreign student have to spend in Taiwan?
- Jāng: I don't know very well. I think it must be less expensive than in the U.S. Those students I mentioned just a while ago are on various kinds of scholarships.
- Hwáng: Are there native people in Taiwan now?
- Jāng: There are. The Gāushān Tribes still live in the mountains. They are very friendly. Sometimes they have their pictures taken with visitors and allow them to take those along with them.
- Hwáng: When I return from Taiwan, what would be best for me to bring back as gifts to my relatives and friends?

Jane:

If you have a girl friend or a wife, you should take one or two Chinese dresses for her. She would particularly appreciate this. For others you may buy some handkerchief products which wouldn't cost too much.

## 台灣<sup>3</sup>的拜拜

台灣<sup>3</sup>的風俗都跟大陸各省差不多，只有一種風俗叫「拜拜」是很多第二次世界大戰以後從大陸到台灣<sup>3</sup>去的人所沒聽說過的。作拜拜的人在那天拜<sup>1</sup>神<sup>2</sup>，所以叫「拜拜」。很久以前，很多福建人跟 Gwǎng 東人因為從中國南部坐船到台灣<sup>3</sup>，在上海非常危險，到了台灣<sup>3</sup>以後的生活也很苦，求神保護他們。甚麼神沒關係，只要能給他們保護就行了。所以作「拜拜」的日子，在島上各地不一樣，一年也不只一天。台北市五月十三那天的拜拜最熱<sup>nàu</sup>。因為這一天是城<sup>3</sup>的生日。這位城<sup>3</sup>在一千七八百年救過很多人。在台北有一個小<sup>myàu</sup>廟裏頭，有城<sup>3</sup>的像。城<sup>3</sup>旁邊兒還有兩個守衛的像。在城<sup>3</sup>那天的拜拜，男男女女穿著紅紅綠綠各

種顏色的衣 shang 裳，跟着城 hwáng 隍神像後頭，在街上唱歌，跳舞，這一天都請親戚朋友到家裏來吃，喝，玩，樂，高興極了。

- Notas: 1. 拜 V: to worship

第一百零三課

<sup>Syà</sup>廈門 (Amoy) <sup>Fú Jōu</sup>金門 馬祖 福州

黃: 張先生, 金門 馬祖 為甚麼重要?

張: 在軍事上很重要。請你們看一看地圖, 找出 <sup>Fú</sup>福建省來。

黃: <sup>Fú</sup>福建離 台灣 就 <sup>gá</sup>隔着 台灣海峽 不過一百三十英里。

張: 是的, 在 <sup>Fú</sup>福建省有兩個大城, 一個是 <sup>Fú</sup>福建南部的 <sup>Syà</sup>廈門, 一個是北部的 <sup>Fú Jōu</sup>福州。

黃: <sup>Fú Jōu</sup>福州, <sup>Syà</sup>廈門跟 金門, 馬祖 有甚麼關係?

張: <sup>Syà</sup>廈門跟 <sup>Fú Jōu</sup>福州都是很好的海口。有河, 有公路, 可以通到 <sup>Fú</sup>福建 <sup>nài</sup>內地, 有海船可以通到 <sup>yán</sup>中國沿海各地。

黃: 附近有沒有海軍基地?

張: 從前 中國海軍學校, 海軍基地, 還有很大的造船廠, 都離 <sup>Fú Jōu</sup>福州不遠。

黃: <sup>Fú</sup>福建的省會在那兒?

張: <sup>Fú Jōu</sup>福州就是 <sup>Fú</sup>福建省的省會。

黃：可是福州跟金門馬祖有甚麼關係，你還沒有解釋呢。

張：這很容易解釋。福州是福建北部的大門，馬祖就像門前頭的衛兵。

黃：如果馬祖在別人手裏，福州就會變成了死城，對不對？

張：對了。因為船隻艦艇就不能隨便進出福州的港口了。

黃：金門跟廈門也是這樣的關係麼？

張：是的。金門好像廈門的衛兵，沒有金門，廈門也就危險了。

黃：在歷史上這幾個城有甚麼值得注意的事情麼？

張：一八四二年中國跟英國訂的南京條約裏，中國開放五個海口跟外國通商。

黃：南京條約是不是在中國被英國打敗了的時候簽字的？

張：是的。那是在中國近代史裏，中國第一次

跟外國作戰，沒有準備，沒有訓練，武器不好，所以打敗了。

黃：您說的五個海口都是那五個？

張：廣州 (Cantón) 寧波 (Ningpo) 上海 福州 跟 廈門。

黃：剛才您只是說金門，馬祖對廈門跟福州的關係，您還沒說對台灣有甚麼關係。

張：這種關係很明顯，金門，馬祖控制福州跟廈門，並且控制台灣海峽，另一方面可以保護台灣。

黃：這麼說來，金門，馬祖對台灣太重要了。

張：一點兒也不錯。在防禦方面，金門，馬祖是台灣的前線。在進攻方面，金門，馬祖是前頭部隊，可以說是重要的戰畧據點。

## Translation, Basic Dialogue

## Amoy, Quemoy, Matsu and Foochow

Hwáng: Mr. Jāng, will you please explain why Quemoy and Matsu are important?

Jāng: They are important in a military sense. Please look at a map and locate Fukien Province.

Hwáng: Fukien is separated from Taiwan by the Formosa Strait, a mere 130 miles.

Jāng: Yes. There are two large cities in Fukien Province. One is Amoy, in the south; while the other is Foochow, in the north.

Hwáng: What is the relationship between Amoy, Foochow, Quemoy, and Matsu?

Jāng: Amoy and Foochow are very good ports. From these, there are rivers and highways leading to inland cities of Fukien. Ships from those two ports can sail to other coastal places.

Hwáng: Are there navy bases near them?

Jāng: Formerly, the Chinese Naval Academy, navy base, and large shipyards were not far from Foochow.

Hwáng: Where is the capital of Fukien?

Jāng: Foochow is the capital of Fukien Province.

Hwáng: You have not explained what, after all, is the relationship between Amoy, Foochow, Quemoy, and Matsu.

Jāng: This is easy to explain. Foochow is similar to a north gate of North Fukien, and Matsu is similar to a guard in front of that gate.

Hwáng: If Matsu falls into the hands of other people, Foochow will become a dead city. Is this right?

Jāng: Right. In that case, it would not be easy for ships and battle ships to come in and go out of the port of Foochow.

Hwáng: Do Quemoy and Amoy also have such a relationship?

Jāng: Yes, Quemoy is similar to a guard in front of Amoy. Without Quemoy, Amoy would be in danger.

Hwáng: Is there any historical significance about those cities?

Jāng: In 1842, China signed a treaty with England. In this treaty of Nanking, China agreed to open five ports to business with foreign countries.

Hwáng: Was the treaty of Nanking signed because China was defeated by England?

Jāng: Yes, in modern Chinese history, that was the first Chinese war with other countries. She was not prepared and her armed forces were untrained. Her weapons were inferior too, therefore she was defeated.

Hwáng: What are the five ports you mentioned?

Jāng: They are Canton, Ningpo, Shanghai, Foochow, and Amoy.

Hwáng: Just a while ago you only talked about Quemoy and Matsu in their relationship with Amoy and Foochow. You have not mentioned their relationship with Formosa.

Jāng: Such relationship is very obvious. Quemoy and Matsu control Foochow and Amoy; furthermore they control the Formosa Strait. On the other hand, they may protect Formosa.

Hwáng: From this point of view, Quemoy and Matsu are very important to Formosa.

Jāng: That's perfectly right. In defense, Quemoy and Matsu are the frontlines of Formosa. In offense, they will be "the advanced unit". They may be considered as important strategical points.

張: 最大的損失是把中國的香港給英國了。  
<sup>swǔn shr</sup> <sup>Syāng Gǎng</sup>

MAP OF HONG KONG RELATIVE TO CANTON AND MACAU

## Translation, Basic Dialogue

## Hong Kong, Kowloon, and Macau

Hwáng: Mr. Jāng, you talked about the Opium War last time. Besides opening five ports, did China suffer other losses?

Jāng: China gave Hong Kong to England. This was the biggest loss.

Hwáng: Why did the British want that place?

Jāng: Since the location of Hong Kong is very convenient, it can easily serve as a "gangplank" of British commerce with the Far East.

Hwáng: In economics, Hong Kong also benefits England a great deal, doesn't it?

Jāng: Yes. Hong Kong became a British Crown Colony and also a free port. Each year there are many merchant ships coming and going. Commerce is extremely well developed.

Hwáng: I heard that Hong Kong is a pretty place, is it?

Jāng: It is extremely pretty. Tourists visiting the Far East all want to visit Hong Kong.

Hwáng: Hong Kong is an island. I suppose most travellers take a plane to Hong Kong, don't they?

Jāng: Some go by ship, but, this is very time-consuming. It is much faster to go by air. Planes arrive at the Kaitak Airport in Kowloon.

Hwáng: Where is Kowloon?

Jāng: Kowloon is on the opposite shore of Hong Kong. Hong Kong is an island while Kowloon is a peninsula opposite it.

Hwáng: Does it also belong to the British?

Jāng: Yes, Kowloon was leased to the British for ninety-nine years.

Hwáng: Why ninety-nine years? When can China get it back?

- Jāng: In International Law, the maximum term of a lease is ninety-nine years, therefore they leased it for ninety-nine years. At the latest, China will get it back in 1998.
- Hwáng: Can China get it back before this date?
- Jāng: That would depend on negotiations between China and Great Britain.
- Hwáng: What can tourists buy when they visit Hong Kong?
- Jāng: They can buy a great many things that are inexpensive. Chinese-made furniture and wooden chests can be brought back as souvenirs.
- Hwáng: I heard that men's and women's clothing are also inexpensive. Is this true?
- Jāng: Yes. Visitors all want to take back several Hong Kong-made suits. The tailoring shops there are busy each day and night. This is very convenient to travellers.
- Hwáng: Are there famous restaurants?
- Jāng: Restaurants have dishes from all parts of China and the whole world. If you go there, you naturally will want to eat a dinner in a floating restaurant. When you eat there, you will be able to see the beautiful scenery of the sea. This is very pleasant.
- Hwáng: How is the weather in Hong Kong?
- Jāng: It's a little hot, but still comfortable. That is why Hong Kong can attract visitors from all over the world.
- Hwáng: Are there any foreign colonies near Hong Kong and Kowloon?
- Jāng: Another colony is called Macau, which originally was Chinese territory. It was later occupied by Portugal.
- Hwáng: How did the Portuguese occupy Macau?
- Jāng: The Portuguese were the first Europeans to do business with China and were also the first Europeans to occupy Chinese territory.
- Hwáng: When did they start occupying Chinese soil?

L.104

Jāng: In 1557 they had already built houses in Macau to live in. Each year they paid rental to the Chinese government. Later, China was defeated in the Opium War, and from then on, they no longer paid rents.

Hwáng: Is Macau thus considered a Portuguese colony?

Jāng: In 1887 China signed a treaty with Portugal, allowing them to stay permanently in Macau.

## 中國俗話 (-)

廣東省香港、澳門在中國南部，離北平很遠。這一帶地方的人說的話叫廣東話。廣東話的聲音跟句子構造都跟國語有很大的分別。廣東人覺得國語很不容易學。他們說的國語也比較別省的人說的難懂。中國人常說「天不怕，地不怕，就怕廣東人說北平話」。中國有很多好像這一類的話，這一類的話叫俗話。這些俗話都是用不多的字就把一個看法，或是一個道理說得很清楚。所以我們說話演講的時候，常常喜歡用一兩句俗話。俗話多半都是在一個社會裏，你跟着我說，我跟着你說，父親告訴兒子，兒子又告訴他的兒子，這樣兒的一句話慢慢兒的就變成了人人都說的一句俗話了。

有一些俗話是告訴人怎麼作人的。好像「救人救到底，送人送回家」意思是開始作了一件事，無論如何應當把那件事作完了。「走錯了路回得來，說錯了話回不來」意思是一個人把話說出來以後，別人就聽見了，要改也改不了了。所以我們說話應當小心。

李:連長說不要工兵搭浮橋。我們這一排各人就  
舉着兵器用縱隊過河。

王:我們這次攻擊是不是從正面攻擊?

李:我們預備用正面攻擊的戰術指揮官的戰  
畧是用小部隊正面攻擊,看看敵人的防禦工  
事怎麼樣,再決定以後的計劃。

王:現在我們的集結地區在河這邊兒。一過了河,  
我們的衝鋒位置就在河那邊。我們的側翼  
是不是暴露了?

李: 我們的情報是敵人有一營步兵在河那邊。我們一過河, 他們可能用包翼的戰術。

王: 那麼, 我們一定吃虧。敵人一營打我們一排, 後頭又是河, 又沒有空軍, 或是戰車掩護, 我們一個人也回不來吧。

李: 司令部早計劃好了。作戰命令上頭寫得很清楚, 叫我們一過河, 快一點跟敵人接觸。想法子破壞敵人的障礙物。等敵人一開始包翼我們立刻撤退, 避免敵人包圍。

王: 敵人的壕溝前頭有沒有地雷區?

李: 這個不清楚。我們過了河一開始攻擊就知道了。

王: 要破壞敵人的鐵絲網, 我們得預備鉗子吧。

李: 昨天司令部送來了十幾把鉗子, 一定夠用。

王: 我還是不放心敵人的埋伏。

李: 河那邊很平, 看得很清楚。敵人可能包翼我們的側翼, 可是不可能有埋伏, 因為沒有地方埋伏。

王: 我們就是按计划撤退, 敵人也會追擊我們的。人一定很大。  
員損失

李: 司令部說派一連炮兵在河邊等着。我們一開始撤退, 炮兵就用炮打擊我們的敵人。

王: 這個法子不錯, 要是沒有飛機掩護更好。

李: 司令部說這次小的交戰不用空軍。我寧可沒有飛機掩護, 飛機沒有大炮容易瞄準, 很容易把我們自己打中了。

王: 您說的很對, 有炮兵掩護撤退, 我們也就放心了。

李: 我們這一排是步鎗排, 有四班。你看那一班先過河?

王: 我看先派一個步鎗班過去, 跟着讓重兵器班過去, 那兩個步鎗班最後過去。

李: 重兵器班最後過去, 不好麼?

王: 重兵器班要是最後過去, 步鎗班就沒有火力支援了。

李: 重兵器班第二批過去, 很好。要是第一批過去, 一有問題, 我們這一排的火力支援就都沒有了。

王: 我們的重兵器班有兩個三英寸半的火箭筒跟兩挺三十口徑的輕機鎗。可是有

一半都有毛病,最好換新的。

李:我已經給連指<sup>hwēi</sup>揮所打電話,連長說先借給  
我們一個火<sup>jiàn tǔng</sup>箭筒跟一<sup>tīng</sup>挺輕機鎗,等我們  
那些壞的收<sup>shōu</sup>拾好了再還。

王:重兵器班的下士王明,這些時候好像精神不  
太好,您看讓他休息這次,怎麼樣?

李:他在那班很多日子,弟<sup>syūng</sup>兄們都喜歡他,現在  
換不太好,你跟他談談,告訴他這次攻擊很要  
緊,他那班的任務很要緊,他得好好的領<sup>dǎu</sup>導他  
的班才行。

王:我一定跟他談談。

Military Subject  
Translation, Basic Dialogue

A platoon leader, Lí Chéng, looks at an operational map with his sergeant, Wáng Hwá. They discuss operational orders.

Lí: We have just received orders from headquarters saying that we are going to cross the river and attack the enemy. Here is the battle map. Let us discuss it.

Wáng: Why is it that only our platoon is to be used?

Lí: Our company commander said that this time our platoon will attack only to find out how the enemy position is.

Wáng: Are the engineers going to build the pontoon bridge for us to cross the river?

Lí: Our company commander said that we won't need the engineers to build the pontoon bridge for us. The soldiers of this platoon will hold their weapons high in the air and cross the river in column.

Wáng: Is our attack going to be a frontal attack?

Lí: We are planning to use the frontal attack. Our commander's strategy is to use small units in making a frontal attack, and see how the enemy defense is. Then we will decide on our plan later.

Wáng: At the present time, our assembly area is on this side of the river. As soon as we cross the river, our assault position would be on the other side. Are our flanks going to be exposed?

Lí: According to our intelligence report, the enemy has a battalion of infantry on the other side of the river. As soon as we cross the river, the enemy might use out-flanking tactics.

Wáng: In that case, we will certainly get stung. Fighting one battalion of the enemy with a single platoon, with the river behind us, without any air force cover or tanks would mean that none of us would be able to come back.

Lí: Headquarters has its plans well in hand. On the battle order it says very clearly that after we cross the river, we will quickly contact the enemy and try to destroy enemy obstacles. When the enemy starts outflanking us, we will immediately withdraw to avoid being surrounded by the enemy.

Wáng: Is there a mine field in front of the enemy trenches?

Lí: I do not know for sure. We will know as soon as we cross the river.

Wáng: In order to cut the enemy's barbed wire entanglements, we probably will have to prepare cutters.

Lí: Headquarters has sent over some ten cutters. They will surely be enough.

Wáng: I still cannot be assured about an enemy ambush.

Lí: It is very level ground on the other side of the river. This can be seen very clearly. The enemy might outflank our flanks, but he cannot ambush us because there is no place for the ambush.

Wáng: Even if we withdraw according to plan, the enemy would pursue, and our casualties would certainly be heavy.

Lí: Headquarters says that they will send an artillery company to wait on this side of the river. As soon as we withdraw, the artillery will bombard the enemy pursuing us.

Wáng: This is a good idea. It would be even better if there were air cover.

Lí: Headquarters says for such minor contacts the air force would not be used. I would rather not have air cover. Airplanes cannot aim at targets as accurately as artillery pieces. Sometimes we hurt our own men.

Wáng: You are right. If we have artillery to cover our withdrawal, that would be enough. We can rest at ease then.

Lí: Our platoon is an infantry platoon with four squads. Which do you think should cross the river first?

Wáng: I think we should let an infantry squad cross first, then the heavy weapons squad follow them. The other two infantry squads can be the last ones to cross.

Lí: Isn't it better to have the heavy weapons squad cross last?

L.105

Wáng: If the heavy weapons squad crosses last, the infantry squad would have no fire support.

Lǐ: It is all right that the heavy weapons squad crosses as the second batch. If the heavy weapons squad would cross first, our platoon would not have any fire support if there were any problem.

Wáng: In our heavy weapons squad there are two 3.5 inch rocket launchers and two 30 mm light machine guns. But half of them are defective. It is best that they be replaced by new ones.

Lǐ: I already called the company commander at the command post. He lent us a rocket launcher and a light machine gun. When ours have been repaired, we can return theirs.

Wáng: Cpl. Wang Ming of the heavy weapons squad does not seem to be in very good spirits. Do you think we should let him rest this time?

Lǐ: He has been with that squad for a long time. All the men like him. It is not good if we replace him now. You talk to him and tell him this attack is very important, and his squad's mission is also very important. He must lead his squad well this time.

Wáng: I certainly will discuss it with him.

## 中國俗話 (二)

A.

在這一課我們繼續討論中國的俗話。有一種俗話說的是人的經驗「不怕慢，只怕站」意思是：無論作甚麼事，慢一點兒沒關係，可是千萬別停住不作了。「紙裏包不住火」的意思是：不能把紙包住火，火一定把紙燒了，還是看得見。不管多秘密的事情，早晚會讓人知道的，所以不應當作的事情，最好別作。

還有一些中國俗話跟西方的俗話的意思差不多。我們隨便舉兩個例子：(一)西方的是「兩個人的頭腦比一個人的好」中國的是「二人同心黃土成金」意思都是叫人合作。(二)西方的是「有一點兒學問是很危險的事情」中國的是「活到老，學到老，還有三分學不到」說法不一樣，其實意思都是叫人別得了一點兒知識就以為

自己懂得很多。

俗話也叫俗語。有機會要是能把中國所有的俗話翻譯成英文 dào 倒是一件很有意思的工作。

第一百零六課

太平洋的島嶼

第一部 對話

黃：張先生您講台灣的時候，沒有提到 琉球羣島 為甚麼？

張：因為 琉球羣島 現在不是屬於中國的。一八九五年以前，琉球羣島 是中國的。後來被日本佔領統治。第二次世界大戰的時候，美軍為了打 琉球羣島 死傷很利害。

黃：不但打 琉球羣島，我們的 損失 很大，並且在太平洋各島作戰我們都有很多 傷亡。

張：既然你對於太平洋的戰事知道的這麼清楚，我現在問你幾個問題，請你給我們解釋解釋。

黃：只要我知道，我一定說。

張：第一，先請你把美國在太平洋裏的島嶼說一說。

黃：現在 夏威夷 已經是美國的一州了。往西有中途島，威克島，這兩個在戰 畧 上很重要。再往西就是關島。

張：很好。請你把關島南邊的 羣島 分析分析。

黃:從關島往西有菲律賓羣島,現在是一個獨立  
國。從前是美國的屬地。菲律賓跟中國美國都  
是好朋友。

張:往南,島嶼就越來越多吧。

黃:往南,叫南洋羣島。再往南就是澳洲跟新西  
蘭。

張:那麼請你再說一說南洋羣島的情形。

黃:南洋羣島的情形,我不太清楚。聽說那些島  
上華僑很多,跟中國的關係很密切。請您  
給我們講講吧。

張:從前那些島是在英國跟荷蘭的勢力範圍以  
內。現在荷蘭跟英國的勢力,在南洋已經減  
少了。現在印尼是一個獨立國了。

黃:甚麼是印尼?

張:印尼就是印度尼西亞的簡稱。

黃:英國在南洋的勢力還存在麼?

張:還有馬來亞雖然也獨立了,可是跟英國的關  
係還很好,也很密切。婆羅洲的北部,新幾內  
亞的東部還屬於英國。

黃:聽說新加坡比香港還美麗,是真的麼?

張:我沒去過,可是我也那麼聽說,是世界第一流  
 的海軍基地,是從<sup>Yīn</sup>印度洋到<sup>Fēi Lǚ Bīn</sup>中國,日本,菲律賓,  
 必須<sup>syū</sup>經過的地方。

黃:靠近<sup>yū</sup>太平洋北部的這些島嶼,好像沒有甚麼  
 問題<sup>shì</sup>似的。

張:不見得。日本本國的幾個島現在沒有問題,可  
 是<sup>Kù Yè</sup>日本北邊的庫頁島,就是日本跟<sup>È</sup>俄國爭來  
 爭去的地方。

黃:為甚麼<sup>syān</sup>爭<sup>xiāng</sup>?

張:一九<sup>líng</sup>零五年日<sup>È</sup>俄戰爭以前,庫頁島都是<sup>È</sup>俄  
 國的。日<sup>È</sup>俄戰爭,俄國<sup>shī</sup>失敗了,把<sup>Kù Yè</sup>庫頁島的南部<sup>shī</sup>  
 給日本了。現在因為第二次世界大戰日本<sup>shī</sup>  
 失敗了,<sup>È</sup>俄國想都要回去。

黃:張先生,您還沒說<sup>Aù Jōu</sup>澳洲跟<sup>Lán</sup>新西蘭呢。

張:那是兩個<sup>lì</sup>獨立國。<sup>Aù Jōu</sup>澳洲的<sup>syù mù</sup>畜牧,農業都很有名。  
<sup>Lán</sup>新西蘭的公共衛生辦的最好,平均起來,人的  
<sup>shòu</sup>壽命最長。

黃:我很喜歡到那些地方去看看,不知道有機會  
 沒有?

張:我希望你有機會可以到那些地方去看看。

Translation, Basic Dialogue

Islands in the Pacific

Hwáng: Mr. Jāng, when you talked about Taiwan, why didn't you mention the Ryukyu Islands?

Jāng: Because the Ryukyu Islands do not belong to China now. Before 1895, the Ryukyu Islands were Chinese. Later, they were occupied and ruled by the Japanese. In the Second World War, American forces suffered heavy casualties when they fought for these islands.

Hwáng: Not only did we suffer great losses in fighting for these islands, we also had a lot of casualties while fighting for the other islands in the Pacific.

Jāng: Since you know so much about the Pacific War, let me ask you some questions. Please give us an explanation on these.

Hwáng: As long as I know something about them, I shall be glad to say something.

Jāng: First, please tell us about the American islands in the Pacific.

Hwáng: Hawaii is now an American state. To its west, there are the Midway Islands, and Wake Island. These two are strategically important. To their west, there is Guam.

Jāng: Very well. Please analyze the islands to the south of Guam.

Hwáng: From Guam looking west, we find the Philippine Islands. Today it is an independent state although it formerly belonged to America. She is a nation friendly to both China and the United States.

Jāng: More and more islands are found toward the south, right?

Hwáng: Toward the south there are the Southern Pacific islands. A bit further south, there is Australia and New Zealand.

- Jāng: In that case, please talk about the conditions of the South Pacific islands again.
- Hwáng: I am not very clear on conditions in those islands. I heard that there are many overseas Chinese in these islands. They are very close to the Chinese in China. Will you please discuss this with us?
- Jāng: Formerly, these islands were within the British and the Dutch spheres of influence. Now British and Dutch influence has diminished. "Yinni" is an independent country today.
- Hwáng: What is "Yinni"?
- Jāng: "Yinni" is the abbreviation for Indonesia.
- Hwáng: Is there still any British influence among the South Pacific Islands?
- Jāng: There still is. Although Malaya is independent now, she maintains good and close relationship with Great Britain. North Borneo and the eastern portion of New Guinea still belong to her.
- Hwáng: I heard that Singapore is prettier than Hong Kong. Is this true?
- Jāng: Although I have never been there, I also heard this. It is a first class navy base. It is a place you must pass when you go to China, Japan, and the Philippines from the Indian Ocean.
- Hwáng: It seems that there are no problems concerning those islands in the Northern Pacific.
- Jāng: I don't see it this way. There are no questions about the islands of Japan herself. But the Sakhalin Island, to the North of Japan, is a point of contention between Japan and Russia.
- Hwáng: Why did they fight for Sakhalin?
- Jāng: Prior to the Japanese-Russian War, the Sakhalin Island was Russian. In that war, Russia was defeated, and the southern part of that island was given to Japan. Now, after the Second World War and the defeat of Japan, Russia wants to have it back.
- Hwáng: Mr. Jāng, you have not talked about Australia and New Zealand.

L.106

Jāng: Those two are independent nations. The pastoral industries and agriculture of Australia are very famous. The public health of New Zealand is the best in the world. Their average life expectancy is the highest.

Hwáng: I would like very much to visit these places. I don't know whether I will have the chance.

Jāng: I hope that you will have an opportunity to visit these places.

## 新聞廣播

中國無線電廣播新聞的時候，用的字有點兒像一個很簡單的報告，大概是因為他們希望能在很短的時間報告很多的新聞，所以用這個法子。報告員常用「於」代替「在」，用「與」代替「跟」。以下是幾個新聞廣播的例子：

「香港消息，<sup>mōu</sup>某國商人計劃明年夏季<sup>ji</sup>於香港商業地區建築一個大旅館。」

「中國與日本於明天下午討論發展兩國經濟問題。」

「昨天王將軍與海軍參謀長，討論兩個問題。第一是防守台灣海峽<sup>syá</sup>問題，其次是海軍的訓練與給養問題。」

「印<sup>Yin</sup>度北部與中國大陸西南部相聯接，最近因為交界問題，雙方派兵，情形非常緊張！」

- (二) 一個人腦子的大小，跟一個人<sup>tsung</sup>聰明不<sup>tsung</sup>聰有關係沒有？
- (三) 無論如何，我也要繼續把罪與罰這本書翻譯完了，才翻譯別的書。
- (四) 派一個負責聯絡兩國事情的高級聯絡人員，必得得到雙方同意。
- (五) 說到一個國家的經濟很發展，也就是說他們的農業工業商業很發展。
- (六) 第二次世界大戰的時候，日本進攻香港英國把所有秘密的公事都燒了。
- (七) 您比較比較就知道中英文的句子構造分

(八) 國防語言學院的學生受完了基本訓練才來念書的，不在軍隊服務的學生很少。

(九) 有的電台每半個鐘頭就有一次新聞廣播。每次廣播五分鐘，廣播員的報告得又清楚又快。

L.106

3. Exercise on the er sound:

a. Er as a complete word:

<u>Yale</u>	<u>W-G</u>
er	erh

- b. As a diminutive suffix, the Yale romanization system uses the pronunciation approach and the W-G romanization system uses the character approach. The former spells out the word according to how it is pronounced in actual speech while the latter spells out each character which forms the word. Thus:

<u>Yale</u>	<u>W-G</u>
jêr	chê-erh
nêr	nâ-erh
kôudar	k'ôu-tâi-erh
dyanyîngr	tiên-yîng-erh
nâr	nâ-erh
yidyâr	i-tiên-erh
yihwêr	i-huî-erh
yikwâr	i-k'uâi-erh
wêr	wêi-erh

Note that the diminutive suffix er of the Yale system is spelled as r in actual usage, although the pronunciation still remains the same. When a syllable ends with n, ai or ei, the n or i is dropped before r is added in order to represent the true pronunciation of that syllable.

\* The instructor will read out aloud all the sounds in paragraphs 2 and 3 above and ask students to write them down in both systems.

5. Review all the sounds in paragraph 2, Less 104 by asking students to write them down in both systems.

# 第一二零七課

## 中國的重要城市

黃：張先生，您能不能把中國重要的城市大概的給我們講一講？

張：在政治方面我們可以找出幾個重要的城市。

第一是北平，第二是南 <sup>Jīng</sup> <sub>京</sub>。

黃：張先生，北平又叫北 <sup>Jīng</sup> <sub>京</sub>，對不對？

張：從前清 <sup>cháo</sup> <sub>朝</sub> 的時候叫北 <sup>Jīng</sup> <sub>京</sub>，後來到了民國還是叫北 <sup>Jīng</sup> <sub>京</sub>，可是民國十七年國民 <sup>dǎng</sup> <sub>黨</sub> 把 <sup>shǒu</sup> <sub>首</sub> 都建 <sup>lì</sup> <sub>立</sub> 在南 <sup>Jīng</sup> <sub>京</sub> 以後，北 <sup>Jīng</sup> <sub>京</sub> 就被叫北平了。

黃：現在我懂了。如果南 <sup>Jīng</sup> <sub>京</sub> 是 <sup>shǒu</sup> <sub>首</sub> 都，北 <sup>Jīng</sup> <sub>京</sub> 就叫北平。要是北 <sup>Jīng</sup> <sub>京</sub> 是 <sup>shǒu</sup> <sub>首</sub> 都，就叫北 <sup>Jīng</sup> <sub>京</sub>。

張：北平是中國的政治中心，也是中國的文化中心，也是北方的鐵路中心。

黃：除了北平跟南 <sup>Jīng</sup> <sub>京</sub> 以外，還有甚麼政治上重要的城市？

張：至少在每一個地區有一個重要的城市。比方說在東北，長春很重要，是東北的工業跟交通中心。

黃：西北那個城市最重要？

張：要有交通的發展才能決定。比方說，從前我們說西安是西北的中心，可是鐵路已經修到 Lán 蘭 Jōu 州 的地位已經代替了 西安。如果鐵路再往西北修，迪化 也一定很重要。現在 迪化 是 Jyāng 疆 的省會，將來就成了 中國 在西北方面的大門。

黃：中國的西部，西南部，有甚麼重要的城市？

張：西部得說 重 Ching 慶 跟 成都，都在 四 Chwān 川 省。西南方面也有兩個重要的城市，一個是 Lā Sā 拉薩 是 Yīn 印 度的大門，一個是 Kwūn 昆 明是通 Myàn Dyan 緬甸 的大門。

黃：聽說 Lā Sā 拉薩 也是一個 dzūng 宗 教中心，對不對？

張：對。 Lā Sā 拉薩 是政治中心，是 dzūng 宗 教中心，也是商業中心，所以非常重要。

黃：中國中部呢？

張：我要說的是 Hàn 漢 Wū 武 Hàn Yang 漢陽，這三個城市，都重要。

黃：這一個城市，在歷史上有甚麼重要的事情？

張：Wū Chāng 武昌 是 gō ming 革命 起 yì 義 的地方，歷史上叫 Wū Chāng 武昌 起

yì gé mìng 義. 革 命 軍 伍 Chāng 昌 起 義 打 到 別 的 地 方 最 後 把  
 mǎn qīng zhèng fǔ 滿 清 政 府 推 翻 了。

黃: 那些地方的交通怎麼樣?

張: 現在有鐵橋, 把三個都聯接起來。往南有鐵路  
 可以通到廣<sup>Jiāng</sup>州, 往北有鐵路可以通到北平。

黃: 中國南部最要緊的城市是哪個?

張: 廣<sup>Jiāng</sup>州是中國南方的大門, 鐵路的中心。一方面  
 可以北上到漢<sup>Hàn</sup>口北平, 一方面可以通九<sup>Lóng</sup>龍。

黃: 那麼廣<sup>Jiāng</sup>州一定也是一個商業中心了?

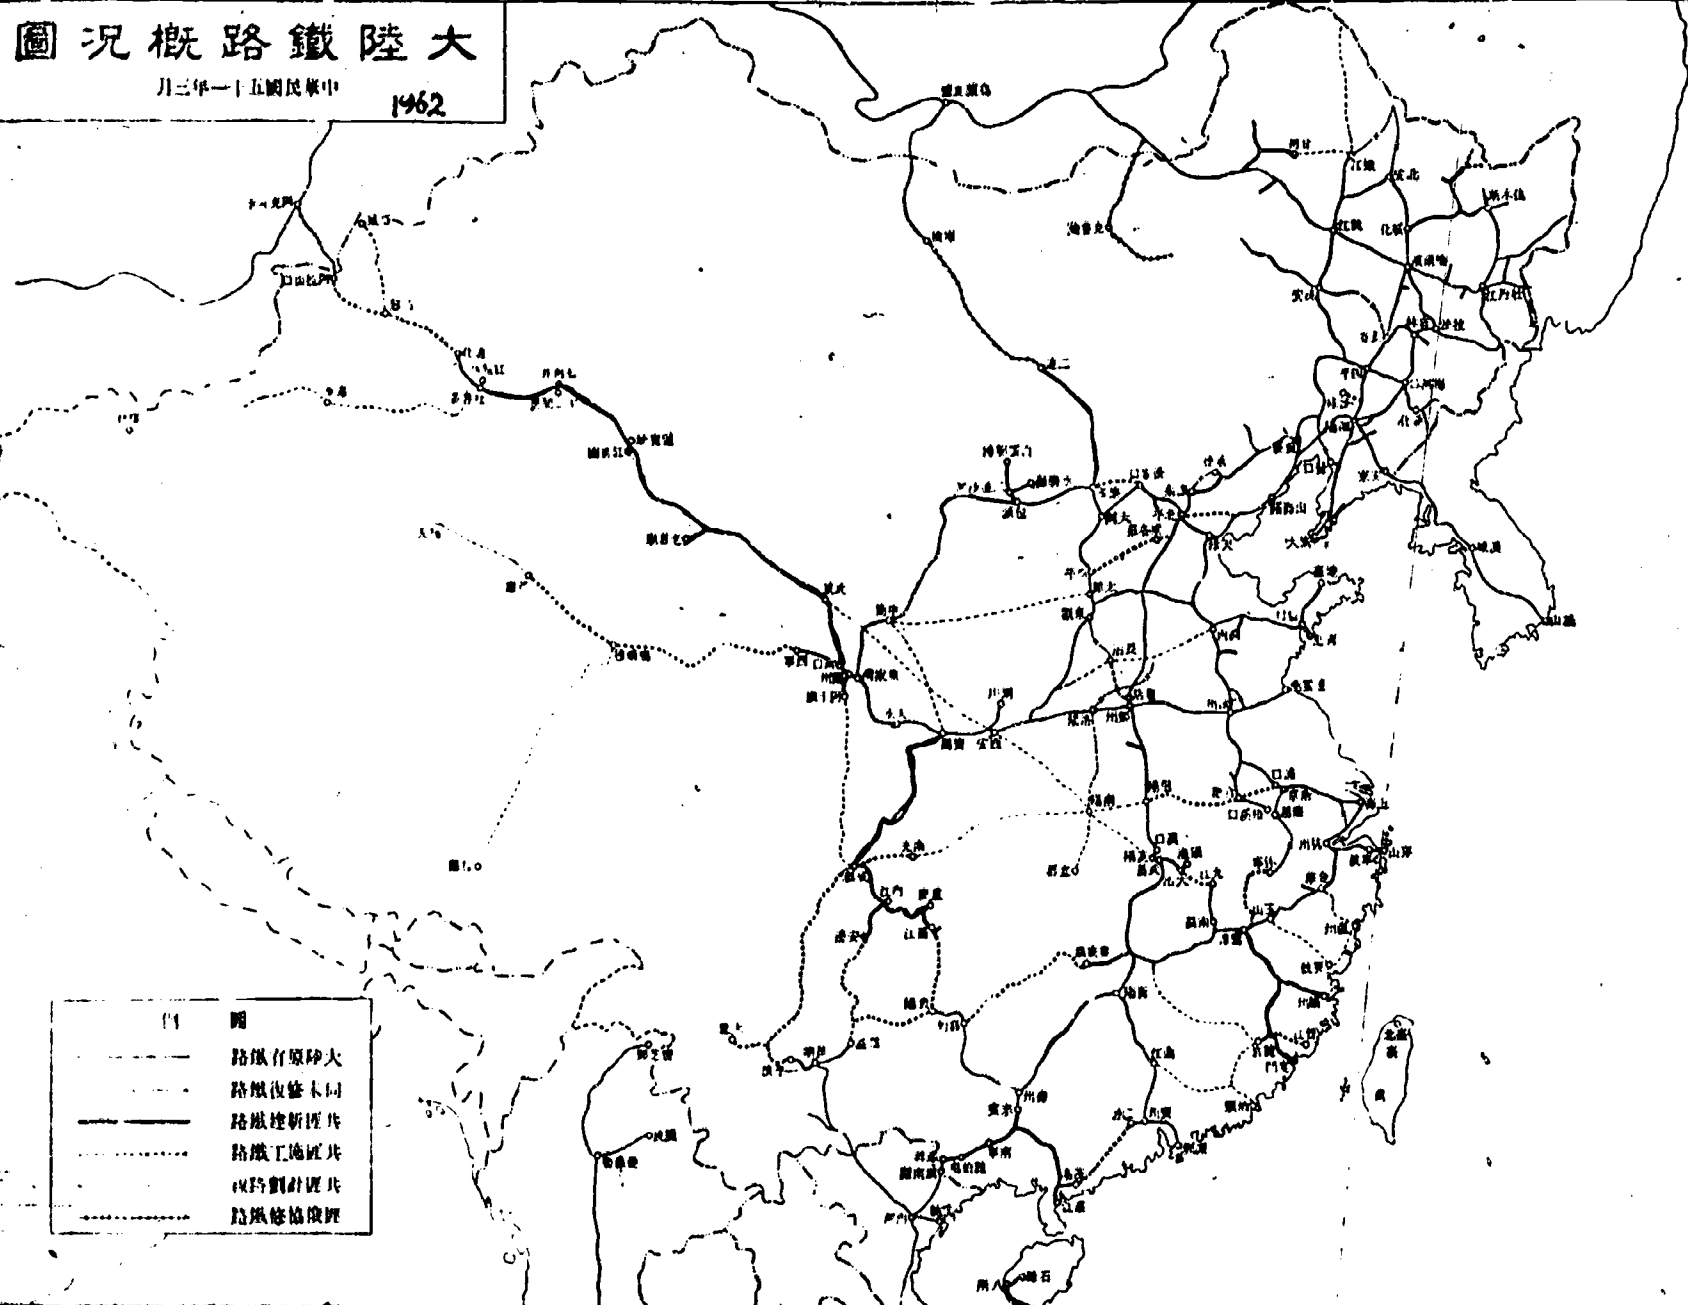

張: 對了。很多進出口的商人在廣<sup>Jiāng</sup>州作進出口買  
 賣, 還有別的商業中心, 明天再談, 好不好?

黃: 好, 明天再談吧。

## Translation, Basic Dialogue

## Important Cities in China

- Hwáng: Mr. Jāng, can you talk in general about important Chinese cities for us?
- Jāng: In a political sense, we find several important cities. The first one is Peiping. The second one is Nanking.
- Hwáng: Mr. Jāng, Peiping is also called Peking, isn't it?
- Jāng: It was called Peking during the Ching Dynasty. It was still called Peking at the beginning of the Republic. But in 1928, the seventeenth year of the Republic, after the government of the Nationalist Party established Nanking as their capital, Peking was changed to Peiping.
- Hwáng: Now I understand. When Nanking is the capital, Peking is called Peiping. If Peking is the capital, then it is called Peking.
- Jāng: Peiping is a political center in China. It is also a cultural center, and a railway center in the northern part of China.
- Hwáng: What are the other politically important cities in China, in addition to Peiping and Nanking?
- Jāng: There is at least one in each area. For example, in Northeast China, Changchun is a very important transportation and industrial center.
- Hwáng: Which city is the most important in Northwest China?
- Jāng: That depends on the development of transportation. For example, formerly we said Sian was the center of the Northwest. But railways have gone as far as Lanchow, so Lanchow takes a position that replaces Sian's importance. If railways are again extended northwestward, Tihwa will certainly become very important. Nowadays, Tihwa is the capital of Sinkiang province. In the future it will become a gateway to Northwestern China.

L. 107

Hwáng: What are the important cities in the western part and the southwestern part of China?

Jāng: We must mention Chungking and Chengtu in the western part. They are both in Szechwan Province. There are two important cities in the southwestern part of China; one is Lhasa, a gateway to India. The other is Kunming, a gateway to Burma.

Hwáng: I heard that Lhasa is also a religious center, isn't it?

Jāng: Yes, Lhasa is a political center, a religious center, and also a commercial center. Therefore it is very important.

Hwáng: How about those in the middle part of China?

Jāng: Those I want to mention include Hankow, Wuchang, and Hanyang. These three cities are important.

Hwáng: Are there any historical events in connection with these three cities?

Jāng: Wuchang is the place where the Republic started its revolution. In history, the event is called "The Wuchang righteous uprising." From Wuchang the revolutionary army fought to other places and finally overthrew the Ching Dynasty of the Manchus.

Hwáng: How are transportation conditions in these places?

Jāng: There are steel bridges connecting the three cities. Toward the south, there is a railway from here to Canton. Toward the North, there is a railway to Peiping.

Hwáng: Which is the important city in South China?

Jāng: Canton is a gateway in the south and also a railway center. In one direction, a railway there leads to Hankow and thence north to Peiping. In the other direction it leads to Kowloon.

Hwáng: So Canton must also be a commercial center.

Jāng: Right. Many importers and exporters carry on their business in Canton. There are other commercial centers in China. Shall we talk about them tomorrow?

Hwáng: Fine, let's talk about them tomorrow.

中國的姓與名字

中國雖然人口有五六萬萬人，可是一共只有四百多個姓。姓，說明一個人屬於那一個家族。無論在說的時候，或是寫的時候，姓總是放在名字的前頭。大多數的中國姓都是一個字的最普通的是張，王，李，趙，<sup>Jiǎo</sup>這些姓。有幾個姓是兩個字的，像歐陽，<sup>Ōuyáng</sup>，司徒，<sup>Sītú</sup>，甚麼的。

至於姓底下的名字比較複雜。中國人從一生下來就有一個小名兒，是父母隨便起的一個名字。像小妹，老三，甚麼的。只家裏人親戚叫這個名字。祖父母或是父母還另外給起一個名字。這種名字的意思，說明父母對他們孩子將來的希望。這種名字平常都是兩個字，或是一個字。像文，中正，甚麼的。以後在學校念書畢業後，在政府或是別的地方作事，都用這個名

字。從前有的中國人不願意隨便用這個名字，所以除了「名」以外，還有一兩個名子，叫「號」或「字」。中華民國國父姓<sup>swūn</sup>孫，名字是「文」，有兩個「字」或「號」，是中山跟<sup>Yi Syān</sup>逸仙。不過國民黨領導革命以後，中國文化各方面都有了改變，現在大多數的中國人都只有一個名字了。
