

**Enclosure 2: Waterbodies Removed from Iowa’s 1998 303(d) List with Good Cause and not Included on Parts 1 or 5 of Iowa’s 2002 List**

Footnotes broadly describe reasons for removing waterbodies from Iowa’s list. More than one footnote indicates that the waterbody was listed in 1998 as impaired by more than one “pollutant” and/or unknown. For additional information, reference Iowa’s waterbody specific rationales that are available in EPA’s administrative record.

<sup>1</sup> No pollutant is causing impairment

<sup>2</sup> No waterbody specific data and/or information to support original listing; no waterbody specific data and/or information demonstrating use impairment; new studies

<sup>3</sup> Complies with water quality standards or does not meet listing criteria

<sup>4</sup> Removal based on updated modeling

The following waterbodies have been resegmented. As noted below, some of the re-segmented portions remain on Iowa's 2002 list. EPA is also approving these changes to Iowa's 303(d) list.
