1.1 Introduction

The Eastern District of Michigan implemented Electronic Case Filing (ECF) June 1, 2004 as part of a nationwide implementation by the Federal Judiciary. As of June 1, 2004, the official record of filed cases is maintained electronically. E-filing became mandatory for attorneys after November 30, 2005.

User Manual – Staying Current

Readers are encouraged to refer to the on-line version of documents for the most current information because a previously printed hard copy of the User Manual may become obsolete.

Help Desk

A CM/ECF Help Desk has been established to respond to inquiries. The help desk is staffed Monday through Friday, 8:30 a.m. and 5:00 p.m. The number is (313) 234-5042.

1.2 Requirements for Electronic Filing

The ECF Policies & Procedures are required reading before using the ECF system. For a copy of the Policies & Procedures, visit the following Web site: http://www.mied.uscourts.gov/CMECF. The rules contained in the Policies & Procedures will be referred to throughout the User Manual. The Policies & Procedures will be revised from time to time and it is advisable to periodically check the web site for the most current materials.

The hardware and software needed to electronically file, view and retrieve case documents are:

- A personal computer running a standard platform such as Windows® or Macintosh®
- Electronic PDF conversion software, such as Adobe Acrobat Writer® to convert documents from a word processor format to portable document format (PDF) and Adobe Acrobat Reader®
- A PDF-compatible word processor application like Microsoft Word® or Corel WordPerfect®
- Internet access, preferably cable modem or DSL
- Internet service with Internet Explorer® or Firefox (more current versions advised)
- A scanner or access to a scanner for the creation of electronic papers from documents that are non-computerized

The user should also be familiar with PACER (Public Access to Court Electronic Records) and have access to an active PACER account. More information is available on PACER's web site, <u>http://pacer.uscourts.gov/</u>.

2.1 Preparing a Certificate of Service for Registered and Non-Registered Parties to Include with the Filing

Pursuant to Fed R. Civ 5(d), a certificate of service is required to be filed within a reasonable time after service. **The certificate of service should be included as part of the e-filed paper, rather than a separate filing.** To determine whether the paper will be served electronically on a registered attorney via a Notice of Electronic Filing, log into CM/ECF, click on "<u>Utilities</u>" and click on "<u>Mailings</u>" under the heading "**Miscellaneous**". Choose "<u>Mailing Info for a Case</u>". The system will list which parties are registered filing users, receiving NEFs and which parties are non-filing users, possibly requiring service in the traditional manner. (See <u>8.2 Miscellaneous</u> and ECF P&P Rule 8, Service)

2.2 Converting Electronic Documents to PDF Documents

A filing user must convert all documents from their native word processing application to PDF before submitting them to the Court's ECF system. Depending on word processing capabilities and what type of PDF conversion software is used, the process to convert will vary slightly.

Microsoft© and Corel© Products (Generally)

- 1. Open the document.
- 2. Click on the **File** menu and select **Print**.
- 3. In the **Printer Name** field (or **Current Printer** field), click to view the dropdown menu options and instead of choosing a printer, select **Acrobat PDF Writer**. See Figure 1.
- 4. Confirm Number of copies is set to "1" and page range is "All."

- 5. Click **[OK]** (or **[Print]**) to begin the conversion process. The document will not print to a printer instead a new box will open and prompt to save as a PDF document.
- 6. Follow the prompts, verify the **saved file type** is .pdf and click the **[Save]** button.
- 7. After PDF has been created, view the document to ensure it converted properly.
- 8. Be sure to remember where the document is saved on the hard drive and the name of the file because later, this will be the version of the document uploaded to the ECF system.

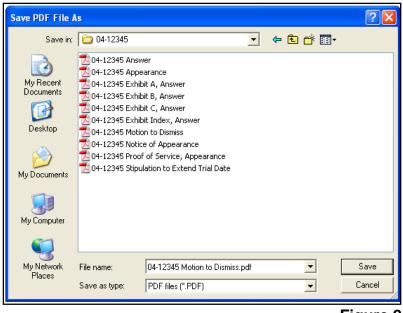

Figure 2

In Figure 2, the file is saved in the folder titled, "04-12345" and it is saved on the C:\ drive. The entire file path (or Filename) is "C:\My Documents\04-12345\04-12345 Motion to Dismiss.pdf". This file path is needed to upload documents in CM/ECF. The system directs the filing user to identify the right file path when filing a document by browsing through the computer's hard-drive.

If there are problems loading and using ECF with a personal computer, consider the following:

- The Court has verified that its version of ECF is compatible with current versions of Microsoft's Internet Explorer® and Firefox. ECF users might experience compatibility issues with versions of Netscape, America On-Line's® version of Netscape; and older versions of web browsers.
- Any version of a Web browser will frequently require the filing user to clear the temporary Internet files. This ensures the screens viewed within ECF display all available options.

Clearing temporary files/history in Internet Explorer

- Open an Internet Explorer® window and select **Tools**. Select **Internet Options**.
- In the "Browsing History" section, select [Delete] and choose Temporary Internet Files.

2.3 Scanning Documents

Use a scanner only if it is not possible to electronically prepare papers using a word processing software package and convert them to PDF. When scanning papers for the ECF system, the Court recommends scanning at a resolution of 200 to 240 dpi. Scanning at resolutions greater than 240 dpi tends to clutter the electronic transfer with unwanted markings and print. All papers should be scanned with a "black and white" setting whenever possible and should be 8.5" x 11". After scanning a document, review the file to make sure the images are not upside down or scanned in landscape.

2.4 Dividing Oversized Files

If the document being scanned is exceptionally long (usually an exhibit), be aware of the file size limitation. CM/ECF will not accept a file larger than 5 MB. Depending on the scanner, the chosen resolution and the content of the pages, this could be approximately 80 pages. If a single exhibit is larger than 5 MB, it must be divided into 5 MB segments.

If the pages are scanned and in PDF, Adobe software allows the user to divide the file without rescanning. Note: This function is not available in free versions of Adobe Reader.

Open the scanned pages in Adobe and click on "Document" in the File Menu. Click "Extract Pages." See Figure 1.

The original oversized file should now be two smaller files.

These instructions were created using Adobe Acrobat 8.0. Newer versions might require a variation of this step-by-step instruction. Refer to Adobe Help online or call the ECF Help Desk.

2.5 Combining Two PDF Files

At times, it may be necessary to combine files that were scanned as two or more separate documents. For instance a motion and a brief will need to be combined with the proof of service before being e-filed. In this situation, as long as the separate files are all saved as PDF files, Adobe software will allow the user to join the files together.

Open the file with the pages that should appear first. Click on "Document" in the File Menu and choose "Insert Pages." See Figure 1.

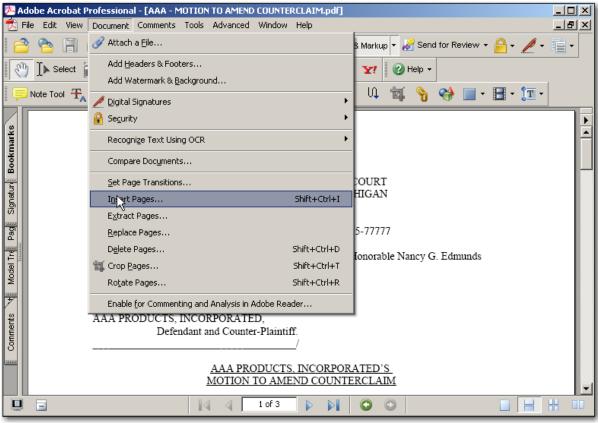

Figure 1

Navigate to the PDF file that needs to be combined with the open file. Click on the file and click the **[Select]** button in the lower right-hand corner. See Figure 2.

3.1 Entering the ECF System

The following are a list of definitions important to a filing user while navigating in CM/ECF.

Client Code – A code created by the user that is entered on the PACER/ECF login screen along with a PACER account. The code allows the user to track filings and PACER usage by client. The quarterly billing statements from PACER will show the total amount due according to each client code. Detailed transactions with client codes are available on the PACER Service Center Web site or through a PACER statement email service. Contact PACER for more information.

Court-issued Login – A login and password given to every filing user by the Eastern District of Michigan. The login and password allow users to electronically file in the ECF system. The Court-issued login and password will serve as a signature on all electronically filed documents.

Electronic Service – A Notice of Electronic Filing automatically generated by the ECF system constitutes service on a registered filing user when a paper is e-filed by an attorney. Service of Process and service on a non-filing user must be done in the traditional manner.

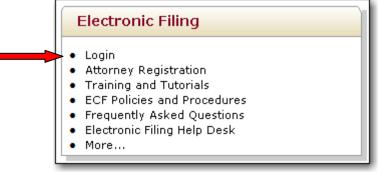

Free-text box – At some points in the ECF system, the filing user has the ability to type whatever he or she feels is appropriate to add to the docket text.

Main Menu Bar – The blue bar at the top of all ECF screens. The bar guides a user through the different functions of ECF and has seven different features: Civil, Criminal, Query, Reports, Utilities, Search and Logout. If Civil and Criminal are omitted, the filing user is logged in with a PACER account.

Enter the ECF system by accessing the Internet and going to the Court's Web site, <u>http://www.mied.uscourts.gov</u>. The top middle section of the web site is devoted to electronic filing. Click on "Login" or click on the **Electronic Filing** header to review the CM/ECF page with the most up-to-date information, policies and announcements. See Figures 1 and 2.

To *file an electronic document*, use the Court-issued ECF login and password assigned to the attorney on whose behalf a paper is being filed.

To *view and retrieve court documents* only, use a PACER login and password. See Figure 3.

If you receive the message "You do not have permission to view this document," viewing the document is restricted to attorneys of record in the case and the system does not recognize you as such. If the login prompt appears again, after you have entered your CM/ECF login and password, it means that the "free look" link has expired. You will need to enter your PACER login and password to view the document, and you will be charged \$.08 per page.

The client code provides a way to track filings and PACER usage billed to a specific client. Enter the client's name, law office file number or some distinctive code. It is not necessary to register the client code with the Court or with PACER. The quarterly billing statements from PACER will show the total amount due according to each client code. Detailed transactions with client codes are available on the PACER Service Center Web site or through a PACER statement email service. Contact PACER for more information. A filing user should not enter anything in the client code field if logging in to e-file a paper.

After entering the correct login and password, click on the **[Login]** button to access the ECF system.

If the ECF system does not recognize the login and password, it will display the following error message on the screen, see Figure 4.

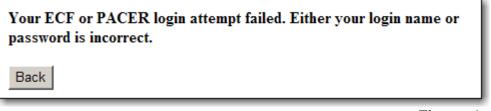

Figure 4

Click the **[Back]** button and re-enter the correct login and password.

Once successfully logged into the ECF system, the system will display a Welcome screen. At the top of the screen is the blue Main Menu Bar. See Figure 5.

Figure 5

The Main Menu Bar has seven different areas that can be accessed at any time when using the ECF system. They are:

Civil – Allows electronic filing of civil and miscellaneous case papers.

Criminal – Allows electronic filing of criminal case papers.

Query – Allows a search of the ECF system by case number, filed date, nature of suit, attorney name or party name. Logging into PACER is required to query ECF.

Reports – Allows a user to run the docket report of a specific case. Logging into PACER is required to view a docket sheet.

Utilities – Allows a filing user to submit proposed orders and stipulated orders, maintain his/her account information, view the ECF transaction log, and view mailing information for a case.

Search – Allows a user to look for the correct e-filing event by typing in a keyword or part of a document title.

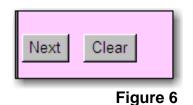

Logout – Allows a secure, successful exit from the system.

Although not shown here, at the bottom of the Welcome screen, the date and time of the filing user's last login is recorded. For security reasons, review this information before every session. If the date and time of the filing user's last login are not correct, or it is suspected an unauthorized party is using the login and password, contact the CM/ECF help desk as soon as possible.

3.2 General Rules and Manipulations

Each event screen has two buttons associated with data entry. See Figure 6.

- Use the **[Next]** button to accept entered data, display the next data-entry screen or commit and finalize the transaction. Sometimes, instead of **[Next]**, the button is **[Submit]**.
- Use the **[Clear]** button to remove all characters entered in its associated field or box.

To *correct a mistake*, use the **[Back]** button on the browser toolbar to return to the previous screen and correct any data entry errors. See Figure 7.

								Figure 7

Sometimes, clicking the **[Back]** button will produce an error screen stating the page has expired. If this screen appears, it is most likely that the filing must begin again. See Figure 8.

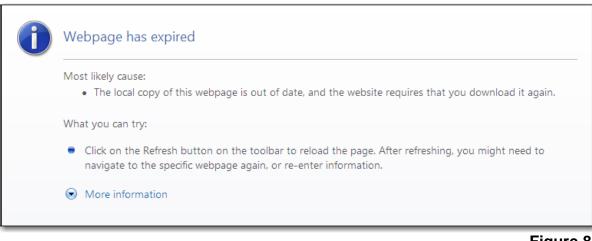

Figure 8

Use the **[Back]** button to correct any screens until the "Attention!!" warning message, which appears immediately before the transaction is committed. Clicking the **[Next]** button after seeing this message means the document has been filed with the Court and the user will not be able to go back and fix mistakes. See Figure 9.

Attention!! Pressing the NEXT button on this screen commits this transaction. You will have no further opportunity to modify this transaction if you continue.

Figure 9

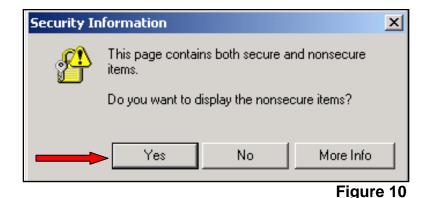

Only the Clerk's Office can make changes or corrections to documents that have already been transmitted to the Court. The Clerk's Office may edit a docket entry to correct or clarify, however docket entries will not be automatically modified upon request.

If a mistake is recognized after a paper has been filed, contact the CM/ECF help desk at (313) 234-5042.

Mistakes may include:

- Attaching the wrong PDF file or only part of a document to a docket entry
- Selecting the wrong document description from the menu
- Entering the wrong case number and attaching a document to the wrong case

When trying to access certain areas of CM/ECF, especially the area to send proposed orders, a pop-up may appear that asks if you want to display the nonsecure items. Click **[Yes]**, otherwise, the screens will not display correctly. See Figure 10.

3.3 Using the Search Feature

After logging into the ECF system with a Court issued login and password, click on the words "Civil" or "Criminal" in the Main Menu Bar. A user may also hover over either word to use cascading menus to find the appropriate event. See Figure 11.

The next screen serves as a reminder that e-filing an attorney appearance adds to the case **only** the attorney whose login and password is used to e-file the document. Therefore, if multiple attorneys need to be added to a case, each attorney must e-file an attorney appearance under his/her own login and password. See Figure 6.

An attorney must e-file their <u>individual</u> appearance under their <u>own</u> login and password to receive notification of electronic filings (NEFs).
An appearance that lists multiple attorney names should not be e-filed.
Please contact the ECF Help Desk at (313) 234-5042 if you have any questions about this practice.

The next step is to upload the attorney appearance into the ECF system. The system asks for the Filename of the electronic document. See Figure 7.

To attach the PDF document, click on the **[Browse...]** button. Doing this will bring up a "Choose File" or "File Upload" pop-up box. Navigate through the drives in the computer to locate the saved PDF document. See Figure 8.

If the correct folder does not display the PDF document, click on the down arrow for the "Files of type" and highlight "All Files (*.*)". This will display all types of files in the folder. See the arrow in Figure 8.

More likely than not, there are two versions of the Attorney Appearance saved. There will be a word processing version and a PDF version. **Be sure** to select the PDF version to upload to the system. The ECF system only accepts PDF documents for filing.

Verify this is the correct PDF document, by right-clicking on the document to bring up the "quick menu". See Figure 9.

Select "Open with Acrobat" to launch the document and scroll through it to make sure it is the correct document and that it has the correct number of pages. Once reviewed, close the PDF document to return to the "Choose File" box.

This is the only opportunity you have to review the document. Viewing the document allows a filing user to find and correct significant filing errors before sending the filing to the Court and other parties. Remember, once submitted, a filing cannot be edited or changed in any way by an attorney. Now, click the **[Open]** button in the lower right hand corner of the box to bring the selected PDF into the filing. See Figure 10.

<u>4.3 Filing of Discovery Materials and Rule 26(a)(1) or (2) Disclosures –</u> <u>Prohibited Under Fed. R. Civ. P. 5(d)</u>

The implementation of CM/ECF does not change the Court's rules regarding the prohibition of filing of discovery materials and disclosures under Rule 26(a)(1) or (2).

The District Court does not accept discovery material in accordance with Federal Rule of Civil Procedure 5(d) and Eastern District of Michigan Local Rule 26.2:

Fed. R. Civ. P. 5(d) [Effective 12/01/00]

(d) FILING CERTIFICATE OF SERVICE: All papers after the complaint required to be served upon a party, together with a certificate of service, must be filed with the court within a reasonable time after service, but disclosures under Rule 26(a)(1) or (2) and the following discovery requests and responses must not be filed until they are used in the proceeding or the court orders filing: (i) depositions, (ii) interrogatories, (iii) requests for documents or to permit entry upon land, and (iv) requests for admissions.

Note that "Discovery requests" include deposition notices and "Discovery responses" include objections. [Please review Fed. R. Civ. P. 30, 31, 33, 34, and 36.]

LR 26.2 Filing of Discovery Material [Effective 7/01/01]

(a) Depositions, interrogatories, requests for the production of documents, requests for admission and responses to such discovery material shall not be filed with the Clerk except:

- (1) When discovery material provides factual support of a motion, response, or reply, the party relying on the material must file it as an exhibit or attachment to the motion, response, or reply.
- (2) When discovery material is to be read or otherwise used during a trial, hearing or other miscellaneous proceeding, the party relying on the material must file it at the start of the trial, hearing or proceeding or at such later time as the Court permits.

(b) Filing of all deposition material shall be only in written form. If audiotaped or videotaped, a written transcript of the depositions will be accepted for filing.

(c) The party taking the deposition, initiating interrogatories, requesting the production of documents and admissions and any responses to such requests shall maintain custody of the deposition or other discovery material until it is filed with the Court, or until six months after the expiration of the last applicable appeal period, or until the Court directs otherwise. When the Court orders filing, the party charged with custody of the discovery material must file it with the Court within 10 days of service of the order, unless the Court directs otherwise.

(d) If discovery material not previously filed with the Clerk is needed for an appeal in a case, the party maintaining custody of the discovery material shall file it with the Clerk either on stipulation of the parties or on order of the Court.

COMMENT: The Court has extended the prohibition of filing discovery material to include the certificate of service of such discovery material.

Note: See <u>Notice Regarding Filing of Deposition and/or Other Discovery Material</u> (Local Rule 26.2)

4.4a Filing Attachments

If there are two or more exhibits, the first attachment must be an index of exhibits. Each additional exhibit should be individually attached and must be identified in the electronic record with an exhibit identifier and brief narrative description. See below. (For more information, see ECF P&P Rule 18, Exhibits).

In this example, there is an Index of Exhibits and three exhibits: Exhibit A – Claim Statement, Exhibit B – Email Correspondence and Exhibit C – January 2006 Contract.

The process to attach exhibits to the motion is a three step process.

1.) Click on the **[Browse...]** button, and find the first PDF attachment saved on the computer's hard drive (In this example, it is the Index of Exhibits). See the #1 arrow in Figure 10. After the correct Filename appears in the **Filename** field, move to Step 2 on the screen.

4.4b Filing Voluminous Exhibits

Exhibits, no matter the quantity or length can be e-filed if the following guidelines are adhered to.

Don't get "timed out" of CM/ECF by trying to send too much at one time. The connection to CM/ECF is lost if it takes longer than 20 minutes to move from one screen to the next and the move from the final docket text screen to the notice of electronic filing is when your filing is actually being transmitted to the court.

Monitor and adjust the total file size of what you are e-filing. A general guideline is to keep the total file size (main document plus attachments) below 20 - 25MB. If your total file size exceeds 20 -25 MB, e-file your exhibits as separate group filings, receiving multiple Notices of Electronic Filings (see example below). Remember, the system does not accept any one PDF file larger than 5MB, so any single exhibit larger than 5MB must be divided into parts.

Know your system. If you have a slow modem or slow Internet service, you may want to keep the total file size below 10MB. Also, keep in mind the time of day you are e-filing may impact how quickly your system transmits the documents.

To file voluminous exhibits in groups, file the main document along with a portion of your exhibits. After receiving a Notice of Electronic Filing, go back to the Civil Events menu. Go to "Other Documents" and select "Exhibit." Upload the next sequential exhibit as the main document and file the next several exhibits as attachments to this filing. Continue this process until all of your exhibits are filed. (See below for an example of filing a motion for summary judgment with 15 exhibits)

Example

File your motion with the first group of exhibits, kept under a 25 MB total (example, Index of Exhibits and the first nine exhibits). Receive a Notice of Electronic Filing with the docket text similar to the below example. See Figure 1.

4.5 Filing a Certificate of Service/Summons Returned Executed

FRCP 4 requires proper service of a summons and complaint on a defendant. Although the service of the summons is handled in the traditional manner, the return of service for a summons and complaint must be e-filed. This requires the proper paperwork to be made into one PDF file and it usually requires the documents to be scanned. Be sure to scan the back side of the summons and the green card used for certified mail, if necessary.

PLEASE NOTE: These instructions are for e-filing a summons returned executed only. Certificates of service for other pleadings, such as motions, should be included as the last page of the pleading when they are e-filed and not submitted to the court as a separate e-filing.

To e-file a summons returned executed, click on <u>Service of Process</u> under the category **Initial Pleadings and Service**. See Figure 1.

It is possible to further describe the motion with the drop down and free-text boxes. See the arrow in Figure 10.

For this example, type the word "*Evidence*" in the free-text box and click **[Next]** to continue.

If there are any mistakes in the docket text, it is still possible to fix them. Click on the "Back" button in the browser or click on "Criminal" to start over.

This screen is the final check before committing this transaction. Once again, look through the docket text to make sure it is correct, and verify the case number at the top of the screen. Notice the text in red and blue. See Figure 11.

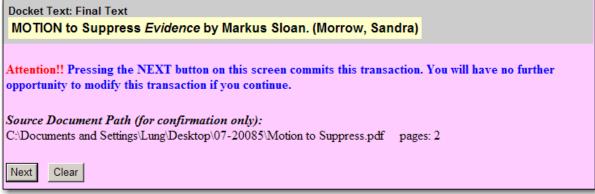

Figure 11

After this screen, the motion to suppress will be filed and recorded on the docket. A NEF sent to all other registered parties in this case notifies them of the filing. Non-registered parties must be served in the traditional manner. Any mistakes discovered after this point cannot be corrected by the filing user. **Please make sure the submitted information is correct and accurate.**

Once the information is verified, click the **[Next]** button.

The ECF system will now display the Notice of Electronic Filing (NEF). See Figure 12.

5.2 Filing a Notice of Joinder/Concurrence to Motion

In multi-defendant cases, an attorney will sometimes file a notice of joinder to a codefendant's motion. To do so, click on "Criminal" in the Main Menu Bar. This brings up the possible Criminal Events. See Figure 1.

Figure 1

Click on <u>Notices</u> under the heading **Other Filings**.

Choose the type of filing from the **Available Events** list. Select "Joinder/Concurrence" so it appears in the **Selected Event** list and click [Next]. See Figure 2.

6.1 Querying the ECF System

At any time during an ECF session, a filing user can click "Query" on the Main Menu Bar to search for case information by case number, date filed, nature of suit, party name or attorney name. See Figure 1.

Figure 1

The system displays a PACER login screen. Enter a PACER login and password and a client code if desired.

If a filing user logs into the system for querying purposes only and not to electronically file documents, there is no need to enter a Court-issued login and password. Enter a PACER login and password instead. See <u>3.1 Entering the ECF system</u> for further information.

The next screen is the query screen. There are several ways to query a case file. See Figure 2.

Figure 2

If the case number is known, enter it in the "Case Number" field. The system will prevent you from querying an invalid case number. See the arrow in Figure 2.

A full case number includes an office code, the year the case was filed, the case type and the case sequencing number. For example, 2:04cv12345. Two is the office code. Case Types are as follows: cv – Civil x – Miscellaneous cr – Criminal m – Criminal Complaint m – Criminal Complaint

To search for a case, only the case year and the case sequencing number are absolutely essential. Entering 04-12345 is sufficient to find the case.

If searching by filed date, last entry date or nature of suit, case status can assist in narrowing the search. Enter a date range in the "Filed Date" fields using the following format: "mm/dd/yy". See the #1 arrow in Figure 3.

If a date range is entered in the "Last Entry Date" fields, then the system will list all cases that had a document filed in the case during the dates listed. See the #2 arrow in Figure 3.

The "Nature of Suit" describes the basic issue of the case chosen by the filer from a pre-determined list that is part of the civil cover sheet. It is possible to scroll through the same list in the "Nature of Suit" field. See the #3 arrow in Figure 3.

To search using the "Nature of Suit" field, enter a date range to search, such as "Filed Date" in order to acquire a list of search results. If information is entered in the "Nature of Suit" field only, the system will say that no search criteria were entered. See Figure 4.

Another way to find a case is searching by name. See the #1 arrow in Figure 5.

Figure 5

Enter the full last name or business name if known. If unsure about the spelling, enter a portion of it and enter an asterisk (*). For example, if the last name is *Johansson*, enter *Joh*n*. The results will include any case involving someone with a last name starting with "*Joh*" and containing the letter "*n*" after it. So the results could list *Johnson* as well as *Johansson*.

If the name was *Morrow*, enter **row*. The results could list *RowBoats, Inc.* or *Brown*, as well as *Morrow*.

If the last name is *Haroldson*, but a filing user is not sure if it is *Haroldson* or *Haroldsen*, enter *Harolds*, without the asterisk. The results will bring up cases involving anyone with the last name starting with *Harolds*.

A filing user must enter at least two consecutive letters in one of the name fields. If the entity being searched is a business, the search must be performed in the "Last Name/Business" field.

To narrow the search, select the type of person being searched. The choices are "party" or "attorney".

Once all of the search criteria is entered, click on the [Run Query] button.

The ECF system will display the search results according to the criteria entered. If information is entered in the "Filed Date" field, the system will list the results by case number. An example of a Query of cases filed within a date range is shown in Figure 6.

7.1 Docket Sheet

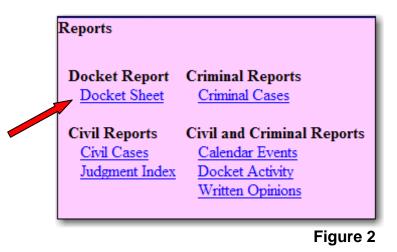

The system allows a filing user to run a number of reports, the most common one is the docket report.

To run a docket report, click on "Reports" in the Main Menu Bar. See Figure 1.

Figure 1

The next screen gives a list of reports. Some reports give information, such as how many civil or criminal cases were filed during a specified period. However the most used report by the Court and attorney is the docket sheet report. Click on "Docket Sheet". See Figure 2.

If logged into the system with a Court-issued login, the system will ask for a PACER login and password before displaying the next screen.

Depending on the options selected when the report is requested, the report shows every party and attorney on a case and the docket text of every event. When creating the docket sheet report, the system displays the following report selection screen. See Figure 3.

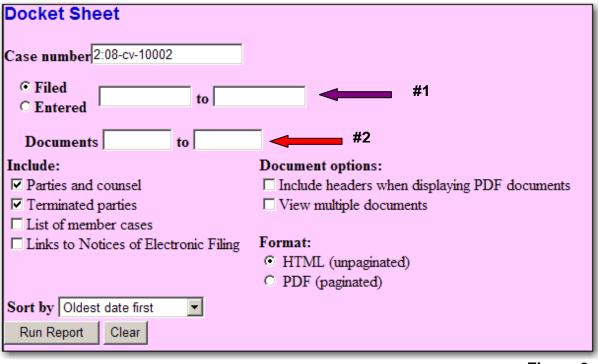

Figure 3

First, enter the case number in the "Case number" field and click [Find This Case]..

The next fields are the date range fields. Use these fields to search for events filed or entered between a specified start date and end date, inclusive. See the #1 arrow in Figure 3.

If only a start date is entered, the report will include events filed or entered on or after that date. If only an end date is entered, the report will include events filed or entered on or before that date. If the fields are left blank, the report will show all events regardless of filed or entered date, depending on other entries on this screen.

If a filing user enters document numbers in the document range fields, the events displayed will be limited to those with document numbers between those numbers, inclusive. The system will not display unnumbered events, such as minute sheet entries of court proceedings. See the #2 arrow in Figure 3.

Enter only a beginning range number and the report will include documents with that number or higher. Enter only an ending range number and the report will include documents with that number or lower. Leave these fields blank and the report will show all documents and events regardless of document number, depending on other entries on this screen.

If the box next to "Parties and Counsel" is checked, the docket sheet will include the names of the parties, along with their roles and attorneys. If unchecked, the report will include only the heading, the general case information, and the docketed events. This can be useful if there are a lot of parties, and the filing user does not want to print or see those pages.

There is an option to include "terminated parties" in the case caption. If included in the report, a notation next to their name will say that they were terminated as of a particular date. If the box is unchecked, they will not appear in the caption, but will still appear in any relevant docket entries.

If the filing user checks "Links to Notice of Electronic Filing", the docket sheet will have a silver ball next to the docket number of those items which have a Notice of Electronic Filing. If generating the docket to print it, it is not necessary to include the links.

Another option is the "Sort by" field. It is possible to specify the order in which the events listed in the report will be sorted. *Oldest date first* is the traditional order. This means that the events will be shown in the order they were filed or entered, with the most recent event at the end of the report. *Most recent date first* would put the first event last. Since oldest date first is the most common display, that is the default selection.

If the filing user checks the box by "Include headers when displaying PDF documents", any PDF document viewed will have a banner on top of each page containing the case number, docket entry number, date filed and page number on it. See Figure 4.

Figure 4

The option to "View Multiple Documents" allows a user to select multiple docket entries and combine them to be one PDF.

After entering the preferred options for viewing the docket, click [Run Report].

An example of the heading and the case summary of the docket sheet report are shown below. See Figure 5.

To search by case number, enter a valid format in the "Case Number" field (e.g. 05-50000).

To search by party, enter the last name or company name. For valid search options, see <u>6.1 Querying the System</u>.

To search by nature of suit, select one of the codes with its accompanying description. The nature of suit describes the basic issue of the case chosen by the plaintiff in the case from a pre-determined list that is part of the civil cover sheet.

A user can also search by case type, and search according to case flags. Always leave the cause code blank. The Eastern District of Michigan does not use cause codes to identify cases.

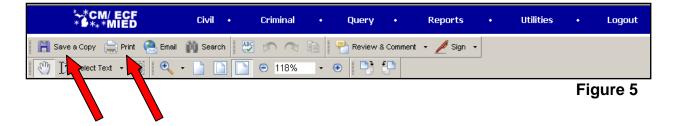

To narrow the search results, use a combination of search options, ex. Last Name, Nature of Suit and date.

The results will show the case number and the date the order was filed. The case number is an optional link to the docket sheet, but PACER fees apply, if activated. To view the written opinion, click on the document number to open the PDF image, see the arrow in Figure 4.

8.1 Utilities Features- Your Account

The "Utilities" section of the ECF system allows a filing user to update his or her account profile, electronically send proposed orders to chambers, change certain PACER information and to determine which attorneys are registered users in a specific case. To access this information, click on "Utilities" in the Main Menu Bar. See Figure 1.

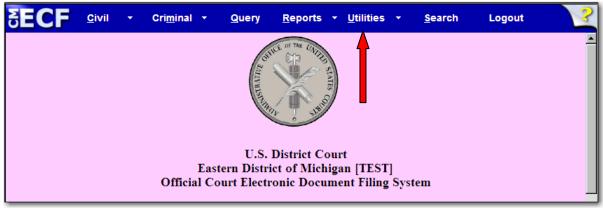

Figure 1

The next screen shows all available options. To update the filing user's name, street address, phone number and fax number, click on "<u>Maintain Your Address</u>" on the Utilities event screen. See Figure 2.

8.3 Utilities Features – Proposed Orders

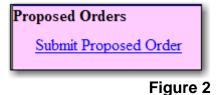

The "Proposed Orders" link is used to send proposed orders, stipulated orders and stipulations and orders combined into one document to judicial officers. If a document requires a signature of the judicial officer, it generally should be sent using this link, see E.D. Mich. LR 58.1(c). All proposed orders should be saved and submitted in a format compatible with WordPerfect. **Do not convert the proposed order to PDF.** For more instruction, see ECF P&P Rule 11, Proposed Orders.

After clicking on "Utilities" from the Main Menu Bar, click on <u>Proposed Orders...</u>. See Figure 1.

Click on the <u>Submit Proposed Order</u> link. See Figure 2

From the drop down menu, select the judicial officer that should receive the proposed order. District Judges and Magistrate Judges are listed. See Figure 3.

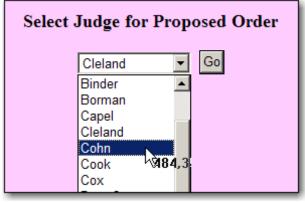

Figure 3

The next screen asks for the submitter's e-mail address and the case number. If necessary, enter a brief comment, such as the title of the proposed order, or if the proposed order is sent per the judge's instructions. **Do not use this field to send ex parte communication to the judge.** See Figure 4.

Click on the **[Submit Proposal]** button. The system will show a confirmation screen stating the proposal has been submitted. In addition, the system will send an e-mail to the e-mail address entered in the "from" field as confirmation that the proposed order was submitted. **No notices of electronic filing are sent.** A copy of the proposed order should be provided to all other parties by the submitting attorney according to Rule 11 of the ECF Policies & Procedures. To return to CM/ECF to perform other functions, click on "<u>Return to CM/ECF</u>" in the Main Menu Bar. See Figure 7.

9.1 Logging Out of the ECF System

After finishing all transactions for a particular session in ECF, completely logout of the system. Click on "Logout" in the Main Menu Bar. This will automatically log the user out of the ECF system and returns the filing user to the ECF login screen. See Figure 1.
