

AEROSPACE PRODUCTS
LITERATURE CENTER
DIRECTORY

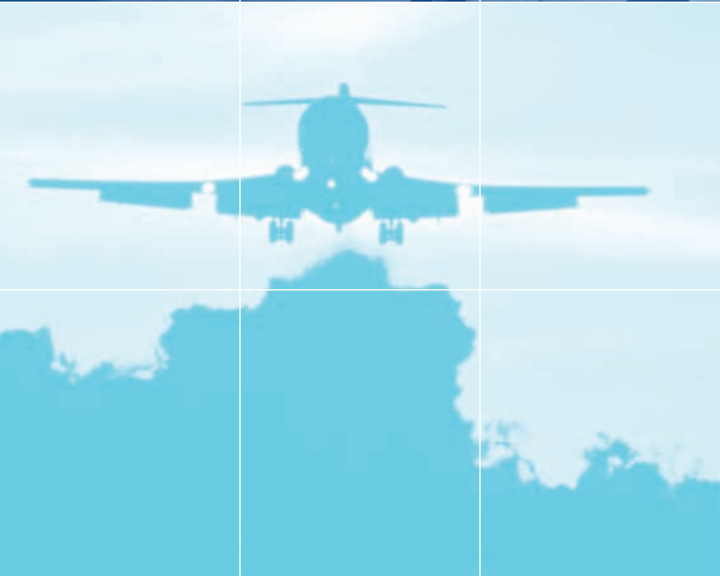

ASIAN AEROSPACE 2007

ASIAWORLD EXPO
HONG KONG

SEPTEMBER 3-6, 2007

The Aerospace Products Literature Center is
an initiative of the U.S. Commercial Service.

AEROSPACE PRODUCTS

LITERATURE CENTER

ASIAN AEROSPACE 2007

The Office of Global Trade Programs, part of the Department of Commerce's (DOC) U.S. Commercial Service, compiled this Directory. The U.S. companies in this Directory are interested in expanding their business globally through market exposure. Literature from each company is available at the Aerospace Products Literature Center, Booth 7G03, Asian Aerospace 2007. The U.S. Commercial Service invites you to examine the U.S. company literature, taking that which interests you. Expressions of your interest will be sent to the company for their response.

The Aerospace Products Literature Center program is offered by the U.S. Department of Commerce at major international air shows as well as some smaller, niche-oriented aviation events. The program assists small and medium-sized U.S. companies to expand their businesses in international markets and to identify new customers through market exposure. U.S. Commercial Service aerospace specialists on

site provide information about U.S. companies participating in the Aerospace Products Literature Center.

The U.S. Commercial Service operates in more than 80 countries, which represent more than 95 percent of the world market for U.S. exports. Within the United States, the U.S. Commercial Service operates a network of 108 U.S. Export Assistance Centers. These centers offer companies a comprehensive package of export services and assistance. For further information about U.S. Department of Commerce trade promotion programs, visit www.export.gov and www.ita.doc.gov/td/aerospace, or contact me directly at:

AAA AIR SUPPORT

1613 West 134th Street, Unit #2
Gardena, California 90249
USA

Ted Mezo

Vice President, Sales

Tel: +1 (310) 538-1377

Fax: +1 (310) 538-1378

E-mail: tedmezo@netscape.net

Web site: www.aaaair.com

DESCRIPTION:

For more than 15 years, AAA Air Support has been a valued and respected raw material supplier to The Boeing Company, Lockheed Martin, Spirit Aerosystems, Northrop Grumman, Cessna, the U.S. Government, and almost every domestic and foreign airline company and repair station in the world. AAA Air Support is a worldwide manufacturer and supplier of aluminum alloy roll stringer, extrusions (both metal and plastic), seat track, and other raw materials for various commercial aircraft. The company offers 24-hour AOG service and provides special advantage to airlines, repair stations and industry substations with its "no minimum buy requirements" policy. AAA Air Support is SAE AS 9100:2001, ANSI/ISO/ASQ Q9001:2000 certified.

E-mail: Adinitz@transpo.com

Web site: www.transpo.com

DESCRIPTION:

Since 1968, Transpo Industries has manufactured and supplied "Smart Solutions" products for airports, bridges, roads, tunnels and railroads. The company's safety products and polymer concrete materials are widely recognized for their quality and performance.

Transpo's BLAST-SAFETM jet-blast/perimeter security fencing is perfect for "tight" locations. The company's T-70 MX-30 Sealant is a specially formulated, HMWM resin system that is highly effective for sealing and filling cracks in concrete runways. Transpo's T-17 Patch is a rapid-setting permanent polymer concrete great for runway rehabilitation and preservation.
