

CFTC FORM 40

STATEMENT OF REPORTING TRADER

Public reporting burden for this collection of information is estimated to average 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Agency Clearance Officer, Administrative Services, Commodity Futures Trading Commission, Three Lafayette Centre, 1155 21st Street, NW, Washington, DC 20581; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

PRIVACY ACT NOTICE

The Privacy Act of 1974 says that each Federal Agency that asks you for information must tell you the following:

- 1. Its legal right to ask for the information and whether the law says you must give it.
- 2. What purpose the agency has in asking for it, and the use to which it will be put.
- 3. What could happen if you do not give it.

For the large trader reporting system of the Commodity Futures Trading Commission, the law covers the following:

- 1. The CFTC form 4O.
- 2. The series '03 reports.
- 3. The series '04 reports.
- 4. Any questions concerning records of your cash, futures, and option positions which you are required to maintain by the regulations under the Commodity Exchange Act.

Our legal right to ask for information from traders with large futures or option market positions is granted in sections 4i and 8 of the Commodity Exchange Act (7 U.S.C. 61 and 12). Disclosure of the information called for is mandatory and failure to comply may result in the imposition of criminal or administrative sanctions (see *e.g.*, 7 U.S.C. 9, 213a-1, 13(c)).

The information requested is used generally in the Commission's market surveillance activities to provide information concerning the size and composition of the commodity futures or option markets, and to permit the Commission to monitor and enforce the speculative position limits that have been established. The complete listing of routine uses, in accordance with the Privacy Act, 5 U.S.C. §522a, and the Commission's rules thereunder, 17 CFR Part 146, of the information contained in these records is found in the Commission's annual notice of its system of records.

Data from the forms may be used by the Commission in the conduct of investigations or litigation and, in limited circumstances, may be made public in accordance with provisions of the Commodity Exchange Act. It may also be disclosed to other government agencies and to contract markets to meet their responsibilities assigned to them by law.

CFTC Form 40 (05/00) Previous Editions Obsolete

GENERAL INSTRUCTIONS

Who Must File a Form 40 — Every person who holds or controls a reportable position must file a CFTC Form 40, Statement of Reporting Trader. (See section 18.04 of the regulations under the Commodity Exchange Act.)

Persons include individuals, associations, partnerships, corporations, and trusts.

What to File — All trades required to file must complete part A. In addition:

- 1. Traders who are individuals, partnerships, or joint tenants must also complete part B.
- 2. All other traders must complete part C.
- 3. All traders commercially engaged in the marketing of cash commodities or in business activities that they hedge by using futures or option markets must also complete schedule 1.

When to File — A reportable trader must file a form 40 on call by the Commission or its designee.

Where to File — This statement is to be submitted to the nearest CFTC office or as otherwise instructed.

Signature — Your signature is required as the last item on part A.

COMPLETING PART A

All reportable traders are required to complete part A and all questions must be answered. If the trader filing the form 40 is an independent account controller and is not employed by, in partnership with, or similarly affiliated with the trader in whose name futures or option trading is done, the controller is the reporting trader and should answer all questions with respect to himself, not with respect to the person whose trading is controlled.

- 1. **Name and address of the trader.** If futures or option trading is done in the name of a firm, list the firm's name as the reporting trader. If the futures or option trading is done in the name of an individual, list the reporting trader's last name, first name, and middle initial.
- 2. **Principal business and occupation of the reporting trader.** Show the principal business or occupation of reporting trader. In addition, for question 2b, check at least one and/or as many categories as are applicable.
- 3. **Type of trader.** Indicate type with respect to the reporting trader. If individual, joint tenant, or partnership is indicated, complete part B in addition to part A. If corporation, association, or trust, etc., is indicated, complete part C in addition to part A.
- 4. **Is the reporting trader registered under the Commodity Exchange Act?** Answer "yes" only if the registration is currently in effect. Note: If the registration status changes during the next twelve months, the reporting trader is not required to file an updated form 40.
- 5. Does the reporting trader control the futures or option trading for any other persons? Traders control the futures or option trading of other persons if, by power of attorney or otherwise, they actually direct trading in futures or option accounts of other persons. Persons who control all or a portion of the assets of commodity pools must give the names and addresses of each commodity pool operator and for each commodity pool operator the names of the pools for which trading is controlled. For managed or guided account customer programs in which ten or more persons participate, give the name of the program indicating that it is a customer trading program and give the name and address of the person sponsoring the program.
- 6. **Does any other person control the trading of the reporting trader?** Do not include brokers unless, by power of attorney or otherwise, the broker actually directs the trading. Persons who are commodity pool operators, or participate in the management of commodity pools by selecting advisor to trade the assets

- of the pools, give the names of each pool for which assets are managed, indicate whether you are a commodity pool operator for the pool, and, for each pool, give the names, addresses and business phones of those controlling the trading of the assets of the pool.
- 7. Give names and locations of all firms through which the reporting trader now carries accounts. In addition, provide the name of the account executive at each office of the firms at which the futures or option trading accounts are carried. (Note: If the information in answer to this question changes, an updated statement is not required.)
- 8. Do any other persons guarantee the futures or option trading accounts of the reporting trader or have a financial interest of ten percent or more in the reporting trader or the futures or option accounts of the reporting trader? If "yes," list the names and locations of such persons and show whether they guarantee the accounts by checking "G," or have a financial interest in the accounts of the reporting trader by checking "F."
- 9. Does the reporting trader guarantee or have a financial interest of ten percent or more in futures or option accounts not in the trader's name or have a financial interest of ten percent or more in another futures or option trader? If "yes," give (1) the names of the accounts that the reporting trader guarantees or in which the reporting trader has a financial interest (including interest as a limited partner), the names of the principal owners of such accounts, and the names and the locations of the brokerage firms through which such accounts are carried; and/or (2) the names of the futures or option traders in which the reporting trader has a financial interest. In addition, show whether the reporting trader guarantees (G) or has a financial interest (F) in the traders or accounts listed.
- 10. Does the reporting trader represent a foreign government? If the reporting trader is a representative of instrumentality of a foreign government, specify the relationship according to those shown on the form. On a continuation sheet, briefly elaborate on the type of relationship, and indicate any manner in which the futures or option trading is restricted or otherwise controlled.

COMPLETING PART B

To be Completed by Individuals, Joint Tenants, and Partnerships

- 1. Give the **telephone number** at which the reporting trader can be contacted during normal business hours.
- 2. **Employer and job title.** This question should be answered only if type of trader (part A, question 3) has been checked "individual."
- 3. Is the reporting trader commercially engaged in business activities hedged by use of the futures or option markets? This would include production, merchandising, or processing of a cash commodity, asset/liability risk management by depository institution, security portfolio risk management, etc. If "yes," complete schedule I listing the futures or option contract used, the cash commodity(ies) hedged, or the risk exposure covered, and the marketing occupations associated with hedging uses. (For a definition of hedging, see the instructions for completing schedule 1.)
- 4. Does the reporting trader participate in the management of any organization that holds another futures or option trading account? If the reporting trader is an officer, partner, or holds a position of similar responsibility, answer "yes."
- 5. **For partnerships and joint tenants.** For partnerships, list the name and address of each partner, excluding limited partners in commodity pools. (Limited partners with 10 percent or more financial interest should be reported under part A, question 9.) For joint tenants, list each tenant. In both instances, indicate which person ordinarily places orders.

COMPLETING PART C

To be Completed by Traders Who Checked Corporation, Association, Trust, or "Other" Type of Trader in Part A

- 1. **For corporations, associations, and trusts.** In answering item "b" of this question, a company is considered to be your parent if it has more than 50% financial interest in your firm. List all parent companies. For example, a company that is a wholly owned subsidiary of a wholly owned subsidiary would have two parent companies.
- 2. **Is the reporting trader commercially engaged in business activities hedged by use of the futures or option markets?** This would include production, merchandising, or processing of a cash commodity, asset/liability risk management by depository institution, security portfolio risk management, etc. If "yes," complete schedule 1 listing the futures or option contract used, the cash commodity(ies) hedged or the risk exposure covered, and the market occupations associated with hedging uses. (For a definition of hedging, see the instruction for completing schedule 1.)
- 3. **Person(s) to contact regarding a firm's futures or option trading.** If the person to contact regarding the firm's futures or option trading is different than that person controlling such trading, give name, office address, and business telephone number under question 3b. If same, please indicate.

COMPLETING SCHEDULE 1

To be Completed Only by Traders Who Checked "Yes" to Question 3 of Part B or Question 2 of Part C

General Definition. Bona fide hedging transactions and positions mean transactions and positions in a contract for future delivery on any contract market, or in a commodity option, where such transactions or positions normally represent a substitute for transactions to be made or positions to be taken at a later time in a physical marketing channel, and where they are economically appropriate to the reduction of risks in the conduct and management of a commercial enterprise, and where they arise from:

- 1. The potential change in the value of assets which a person owns, produces, manufactures, processes, or merchandises or anticipates owning, producing, manufacturing, processing, or merchandising;
- 2. The potential change in the value of liabilities which a person owns or anticipates incurring; or
- 3. The potential change in the value of services which a person provides, purchases, or anticipates providing or purchasing.

If the reporting trader's use of the futures or option markets conforms to this general definition, complete schedule 1 using a continuation sheet if necessary. The schedule is comprised of three parts based on the type of futures or option market used for hedging: financial futures and options including currencies; agricultural and natural resources futures and options, excluding livestock and meats; and, livestock and meats futures and options. For each of the three types of futures and option markets that you use for hedging, first list or check-off all merchandising or marketing activities associated with your hedging. Next, list the futures and option markets you use and the cash market instruments, commodities, or risk exposure that you hedge. If the marketing activities listed on the schedule do not adequately describe activities associated with your hedging, check "other" and attach a short narrative comment. Please contact any CFTC office of you have questions.
