COPYRIGHT AND RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted materials. The various state privacy acts govern the use of materials that document private individuals, groups, and corporations.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a reproduction if the document does not infringe the privacy rights of an individual, group, or corporation. These specified conditions of authorized use include:

- non-commercial and non-profit study, scholarship, or research, or teaching
- criticism, commentary, or news reporting
- as a NPS preservation or security copy
- as a research copy for deposit in another institution

If a user later uses a copy or reproduction for purposes in excess of "fair use," the user may be personally liable for copyright, privacy, or publicity infringement. This institution's permission to obtain a photographic, xerographic, digital, or other copy of a document doesn't indicate permission to publish, exhibit, perform, reproduce, sell, distribute, or prepare derivative works from this document without first obtaining permission from the copyright holder and from any private individual, group, or corporation shown or otherwise recorded.

Permission to publish, exhibit, perform, reproduce, prepare derivative works from, sell, or otherwise distribute the item must be obtained by the user separately in writing from the holder of the original copyright (or if the creator is dead from his/her heirs) as well as from any individual(s), groups, or corporations whose name, image, recorded words, or private information (e.g., employment information) may be reproduced in the source material. The holder of the original copyright isn't necessarily the National Park Service. The National Park Service is not legally liable for copyright, privacy, or publicity infringement when materials are wrongfully used after being provided to researchers for "fair use."

This institution reserves the right to refuse to accept a copying order if fulfillment of the order is judged in violation of copyright or federal or state privacy or publicity law.

File "Safety Unit Logs" Sporadic logs detailing the activities of the safety officer from 7/27/88 to 8/14/88. The logs include several incidents and discussion of air traffic safety around West Yellowstone airport.

File "Safety-Accident Reports" Contains three accident investigation reports involving Federal vehicles.

File "Training Unit Logs" Unit logs from 8/25/88 to 9/24/88 with occasional summaries of number of trainees under GYAC.

1988 Fire Records Collection: GYAC Box #3

Plans

File "GYAC Fire BEH, Situation Reports" Contains reports/predictions issued by the Fire Behavior Service Center attached to the GYAC beginning on 9/4/88 and continuing through 9/18/88.

File "GYAC Fire Behavior Evaluations September" These are more detailed reports/predictions of the Yellowstone fires by the Fire Behavior Service Center for 9/4/88, 9/8/88, and 9/10/88.

File "Fire Behavior Calculations-Fire Behavior Narrative" The Fire Behavior Service Center developed methods for calculating fire behavior in the Yellowstone area and these are found here along with an uncredited essay "What Have We Learned from these Fires"

File "FBA's: Field Observations-Narrative Observations" Contains various narrative assessments of fire behavior including the Storm Creek, North Fork, Snake River Complex, Red, and Shoshone fires.

File "GYAC Fire Line Update" Contains daily fire summaries intended for public dissemination issued by the Greater Yellowstone Area Command from 8/20/88 to 9/23/88 including individual fire assessments, personnel fighting the fires, and total cost expended in the effort.

File "Fire Mgt. Situation Report w/Planning Levels" These are national fire summaries from 7/25/88 to 10/21/88 issued by the NIFCC (National Interagency Fire Coordination Center).

File "Inside Track Fire Report" Contains regional fire summaries from 7/28/88 to 9/21/88 issued by the Intermountain Region of the Forest Service

File "NIFCC Daily Situation Report" These are national fire summaries issued by the NIFCC (National Interagency Fire Coordination Center) from 4/8/88 to 10/21/88.

File "GYAC Fire Status Update/Situation Update/Summary" These are daily situation summaries issued by the GYAC beginning on 7/28/88 to 9/18/88 that include individual descriptions of fires, personnel on each fire, and cost to fight each fire.

File "RICO-Fire Behavior Center-Fire Behavior Forecasts" Contains a variety of fire forecasts including one by Don Despain from 7/23/88-9/13/88. The bulk of these forecasts were issued through RICO (Regional Incident Coordination Organization) and include occasional press releases regarding the fire weather situation.

File "RICO Fire Situation Summary Northern Region August 1988" Contains daily fire summaries for Idaho, Wyoming, and Montana including fire restrictions in various National Forests, BLM lands and National Parks. August 3rd and 6-11th are missing.

File "RICO Fire Situation Summary Northern Region September" As above but for September 1988 through the 20th. September 18th and 19th are missing.

File "RICO Fire Situation Summary July" As above but on teletype from 7/27/88 through 7/31/88.

File "Fuel/Duff/Soil Measure." Contains fuel moisture samples information in various forms from 8/25-8/27/88 and 9/1-9/20/88.

File "Site/Moisture Calculations" Contains various data on fuel moisture levels in late August and September of 1988 including around Mammoth and the North Fork Fire.

File "Weather and Fire Behavior Graphs" Various technical graphs dealing with fuel moisture, wind, and fire potential at Mammoth, the Bechler area and around Lake Hebgen in 1988. Miscellaneous climate data for the Summer of 1988 as well.

1988 Fire Records Collection: GYAC Box #4

Plans

File "BIFC May Weather Briefing" Includes three weather briefings. One was issued in early May 1988 the others on 6/3/88 and 7/7/88.

File "Weather Forecasts-Missoula Fire Weather Office" These are rather brief summaries of weather conditions and forecasts sporadically from 7/24/88 through 9/27/88 with much of September missing.

File "GYAC Weather Forecasts NWS Boise July to October" This folder contains two subfolders.

Subfolder One: "Long Range Forecasts-NWS" These are week-long forecasts prepared for the Greater Yellowstone Area by the National Weather Service for 8/1/88 and then 9/5-9/12/88.

Subfolder Two: "National Weather Service-Boise" These are daily fire weather forecasts issued by the NWS office in Boise. Sporadic coverage throughout July with 8/6/88 and 9/17/88 being the only forecasts present from those months in the file.

The bulk of the file contains fire weather forecasts printed in various formats issued for the Greater Yellowstone Area from 6/1/88-10/18/88

File "Infra-Red Mapping N.A.S.A." This binder contains general information regarding infrared imagery interpretation and flight requests and coordination with NASA and Army Mohawk units. Several pages of hand-tabulated fire acreage estimates based in IR flights are also here.

File "1932 Low Value Area Policy" This is a copied transcript of a 1932 meeting between various Forest Service officials discussing what the appropriate policy should be towards fire suppression in "low-value" areas during a tour of such areas.

File "Post-Fire Evaluations" This is a collection of various documents centering around the planning of a post-fire evaluation conference as well as miscellaneous other fire-related documents. Of note is a list of "GYA Issues and Concerns" which seem to be a compilation of the most-asked questions by the public about the fires.

File "FI General Messages" These are miscellaneous messages sent to/from the Fire Information Office of the GYAC during August and September. Included also is a copy of a statement dated 9/8/88 that fire officials would no longer be discussing fire management policy or fire ecology with the media.

File "Information Unit Log" These are the daily logs of Fire Information personnel from 8/4/88 to 9/27/88 including discussion of the daily operation of the Fire Information Center in West Yellowstone and visits by various VIPs. Also here is a handwritten memo titled "Critique of Area Command Operations from an Informational Point of View" dated 8/4/88

File "Info Handouts" Contains a variety of documents intended for public dissemination on topics like natural fire and fire fighting including a nearly complete run of the daily fire maps released to the public from 7/15 to 9/18/88.

File "Media Phone List"

File "Overviews Public Affairs Office and Fire Info. Dispatches" These are daily reports generated by the Public Affairs Office with individual fire data as well as occasional draft stories from 8/26 to 9/19/88.

File "Media Phone Logs" Logs of media contacts made and subjects discussed 8/1-9/26/88.

File "Press Conf./VIP Visits" Contains media lists/itinerary for visits of Secy's of Ag/Interior on 9/10-9/11/88. Various photographs also here undated but perhaps from this visit.

File "GYUAC Public Relations/Fire Information Report 9-21-88" Contains a draft summary dated 9/21/88 of public relations/fire information efforts beginning on 8/18/88. Additional strategy sheets as above are also here.

1988 Fire Records Collection: GYAC Box #5

Plans

The dated folders below appear to have been collected/generated by the Fire Information Office.

File "August 31" These are documents/maps detailing the fire situation in the park on 8/31/88 including resource/personnel allocations. An easel sheet from a 8/31/88 public meeting in West Yellowstone is also present.

File "August 30" As above with additional documents including the itinerary of Major General Shalikashvili's visit

File "August 29" As above with additional documents including what appears to be a 8/29/88 summary of a meeting with area commander Rick Gale.

File "August 28" As above with a map used at a strategy meeting held 8/28/88.

File "August 27" As above with easel sheets detailing campground/road closures and a "worst case scenario" fire projection for 8/27/88.

File "August 26" As above with what seems to be a draft plan to defend West Yellowstone from fire generated by city authorities and a map used at a 8/26 strategy meeting.

File "August 25" As above with a number of easel sheets detailing fire suppression strategies and resource allocations apparently for a public briefing.

File "August 24" As above including easel sheets.

File "August 23" As above including detailed draft notes on the North Fork Fire.

File "August 22" As above including a note that backcountry overnight use will no longer be allowed due to fires.

File "August 21" As above including an overlay map showing fire growth from 8/18 to 8/25 that was on display at the West Yellowstone airport.

File "August 20" As above with an overlay map showing fire status on 8/20.

File "August 19" As above.

File "August 18" As above.

File "August 13" Contains internal NFS briefing material on the Fan Fire.

File "August 11" Maps of the Fan and North Fork Fires.

File "August 10" Contains limited materials on the North Fork Fire but also has an uncredited satire of fire suppression efforts thus far.

File "August 9" Contains a draft of a letter from Robert Barbee to concerned Congressmen about the fires as well as a draft press release regarding Park Service Director Mott's visit to the park.

File "August 8" Contains fire information for this date as well as a list of contacts for thank you letters.

File "August 7" Misc. Fire information for this date.

File "August 6" As above.

File "August 5" As above including notice of a planned burn near Madison, various art associated with daily fire action plans, and a list of aircraft assigned to GYAC as of 8/1/88.

File "August 4" As above with a compilation of wire news stories about fires in the region.

File "August 3" As above with a summary of a 8/2 strategy meeting with Park Superintendent Barbee and NFS officials, a copy of a wire story about C.U.T. members trying to chant the fires away and general messages regarding FIO personnel.

File "August 2" As above.

File "August 1" As above.

File "July 31" As above with references to road closures and the writing of a script for a video detailing efforts to fight the fires.

File "July 30" As above.

File "July 29" As above but with a script page for a video fire situation update for 7/29/88 and a press release noting progress in suppressing fires in the region.

File "July 28" As above.

1988 Fire Records Collection: GYAC Box #6

Plans

The dated folders below appear to have been collected/generated by the Fire Information Office and **usually** include various summaries/maps of fire status on a daily basis including handwritten notes on individual fires particularly early in the month. Other documents are noted as found.

File "September 21" Contains various data on fire status and resource allocation. A draft thank you note to students who wrote letters to firefighters is included.

File "September 20" Contains a list of talking points regarding fire policy and effects.

File "September 19" Contains copies of student letters to firefighters and a list of military resources committed issued by the Army.

File "September 18" Contains a FIO unit log for this date and a copy of an Executive Order by the Governor of Montana dated 9/6 closing to trespass all federal, state, and private lands in Montana in order to reduce fire danger.

File "September 17"

File "September 16" Contains a note warning about fire near Mammoth may spread due to exceptionally dry conditions there, a brief report from a Marine spokesman regarding their activities in the park, and a summary of a public meeting at Cooke City.

File "September 15" Contains a media list for Governor Mike Dukakis' visit.

File "September 14" Contains a handwritten fire summary that may actually date from 9/4/88.

File "September 13" Contains a unit log for this date, address labels listing where FIO materials were sent, discussion of care packages for firefighters being delivered/donated, and a notepad with briefing plans.

File "September 12" Contains a press release noting the Governor of Montana terminating the ban on recreational activity outside cities and towns issued on 9/6, notes regarding a fatal airplane crash near Jackson Hole airport involving a plane that had transported Forest Service personnel, and a letter of introduction involving a children's author writing a book on fire.

File "September 11" Contains a parody section of a Grand Teton/Teton National Forest fire newsletter called "The Smoke Screen," and a letter from a local merchant complaining about a caterer being brought in for military personnel rather than local restaurants being used.

File "September 10" Contains concerns about fires around Mammoth and memos about crew rotation issues.

File "September 9" Contains brief notes about possible evacuations around Gardiner and Jardine, a press release noting partial closure of Grand Teton National Park, a declaration of a fire emergency by the mayor of West Yellowstone, a request from the White House regarding minority representation on fire crews, a transcript of a briefing given by Dan Sholly, and a copy of TW Recreational Services notice of closure of all facilities in park.

File "September 8" Contains list of media flights, a disaster resolution by the Board of County Commissioners of Gallatin County dated 9/2, discussion of the fire's effects on structures in/around Old Faithful, and a handwritten analysis of fire threats to inhabited areas in/around the park.

File "September 7" Includes newspaper clippings regarding fires and evacuations around Old Faithful, Cooke City, and Silver Gate, a copy of a press release from Senators Wallop and Simpson calling for Wyoming to be declared a disaster area and for Park Service Director Mott to resign, summary of a press conference made at Old Faithful Inn, summary of a briefing given to Senate staffers, and a summary of a press conference given at the Department of Interior with Forest Service Chief Robertson and NPS Director Mott.

File "September 6" Contains fire restrictions from Targhee National Forest, numerous notes on individual fire behavior, a memo regarding safety concerns in fire camps, drafts on Old Faithful Area closures, and status reports from Cooke City.

File "September 5" Includes a set of documents warning of an upcoming "Extreme Fire Situation" due to weather conditions and press releases regarding a strategy meeting of the GYACC (Greater Yellowstone Area Coordinating Committee).

File "September 4" Usual materials with special emphasis on the Cooke City area.

File "September 3".

File "September 2" Includes a Gallatin National Forest memo asking for cooperation with the Gallatin County Commission in closing County Roads on N.F. land and discussion of the North Fork Fire situation around West Yellowstone.

File "September 1" Contains a 9/1/88 issue of the Smoke Screen, a military resource status update and a summary of fire restrictions in the region.

File "Charter Flight Plans" These documents are flight plans, manifests, and passenger lists for GYAC charter flights broken down by aircraft.

File "Dispatch Logs" These are legal-sized sheets with air dispatch logs from 8/26/88-10/7/88.

File "General Messages" Includes liability waivers signed by passengers on GYAC planes. The bulk of the materials are daily internal messages from GYAC Air Operations including aircraft-equipment-infrared imagery requests/needs and personnel transfers. 8/2/88-9/30/88.

File "Incidents" Contains incident reports where GYAC aircraft were damaged or near-miss collisions occurred. 8/26/88-9/19/88.

File "Infrared Aircraft Scanner Orders" 7/28-8/6/88 with an additional request for records on 9/28/88.

File "Interagency Data Cards-Helicopter Pilot Qualifications Record-Pilot Certifications" Contains data on individual aircraft and individual pilot qualifications.

1988 Fire Records Collection: GYAC Box #10

Air Operations

File "Aircraft-Resource Orders" This folder is a mixture of aircraft requests with emphasis on infrared flights. 7/23-10/5/88.

File "Misc. Air Ops. Papers" Includes a wide variety of documents categorized by dividers. Highlights include, a request for military helicopters citing lack of air resources available in the civilian sector, lists of pilots/crews, helicopter manifests, safety evaluations and estimates of gallons of water/retardant dropped per fire as of 9/4/88.

File "Maps" Includes maps of the West Yellowstone Airport, aviation maps of the region/park and temporary heliports.

File "Fixed Wing Aircraft"

File "Aircraft Tracking Logs"

File "Field Operations Guide"

File "General Messages" These documents are internal messages to/from the Fixed Wing Base Manager/Flight Desk. 7/25/88-10/2/88.

File "Aircraft Itineraries" These are itineraries of personnel arriving/departing via both charter and commercial aircraft from 8/18/88-9/17/88.

File "Scheduled Flight Plans" These are USFS flight plans for what appear to be charter flights from 8/1/88-10/2/88.

File "Flight Logs" These appear to be flight logs kept by the Fixed Wing Base Manager from 8/2/88-10/2/88.

File "Flight Request" This is a request for an IR flight by NASA dated 8/28/88 and an unrelated charter flight request list from late September.

File "Manifests" These are passenger and cargo manifests from 8/16/88-10/4/88. Numerous lists of personnel brought in to fight the fires appear here.

File "Requests for Air Services" This seems to be a single request for a charter flight dated 8/14/88.

1988 Fire Records Collection: GYAC Box #11

Demobilization

File "Demobilization Guidelines" As described with an additional document dated 8/2/88 noting that the North Yellowstone Mobilization Center could not handle R&R activities and that West Yellowstone was not to be the "dumping" ground for crews on R&R.

File "General Messages" These are various internal messages dealing with personnel staging and reassignment but mostly demobilization requests and lists from 7/25-10/4/88.

File "Itineraries" These are flight itineraries presumably for demobilized personnel from 8/17/88-9/17/88.

1988 Fire Records Collection: GYA Phase II Report Box #1

Post Fire Assessments

File "Fire Interpretation Plan Status Report, February 8, 1989" Consists of a summary of NPS efforts to add new displays/pamphlets on the fires by the summer of 1989.

File "Materials Distribute" (label pieces inside the file suggest that the entire label should read "Materials Distributed to the Public during and after the fires") Consists of a variety of materials dealing with the fires. Several public information sheets summarize the fires, a stapled bundle of documents include a "questions and answers" article about the fires, a copy of the "Interim Report of the Greater Yellowstone Postfire Ecological Assessment Workshop," and the "Recommendations of the Fire Management Policy Review Team," from the Federal Register of 12/20/88. A Yellowstone Association catalog with fire-related items is also included dated 4/1989 along with a brief article by Paul Schullery titled, "Yellowstone's Fire Regime."

File "Review of Fire Management Plan" Contains a detailed review of Yellowstone's Fire Management Plan dated 5/9/1989.

File "Greater Yellowstone Postfire Assessment" This is a 147 page document put together by the Greater Yellowstone Coordinating Committee assessing the impact of the 1988 fires on the GYA (soils, wildlife, tourism, etc).

File "Coordination and Management Review: 1988 Greater Yellowstone Area Fire Situation." This report evaluates the "coordination and management of the 1988 fire activity in the Greater Yellowstone Area" and includes recommendations for changes as well as a chronology of fire management activities in the summer of 1988.

File "Ecological Consequences of the 1988 Fires in the Greater Yellowstone Area" This 58 page report was prepared by the Greater Yellowstone Postfire Ecological Workshop group and is the final draft of this report.

File "Snake River Fire Review" Consists of an evaluation of and recommendations based upon the suppression effort against the Snake River Complex fire.

File "Fan Fire Review" This is an evaluation of and recommendations based upon the suppression effort against the Fan fire prepared for the YNP Superintendent.

File "Clover-Mist Review & Fire History" Consists of a fire history and two copies of a twenty page review of firefighting efforts on the Clover-Mist with findings and recommendations.

File "Primer on 1988 Fire Season 10/1/88" Contains two copies of an 18 page report each with substantial appendices including technical articles.

File "Hellroaring & Storm Creek Fire Review" Contains seven copies of the "Hellroaring and Storm Creek Interagency Fire Review Report" dated 11/18/1988 with findings and recommendations.

File "Review-North Fork/Wolf Lake" Consists of three copies of this review dated 11/29/88 with findings and recommendations.

File "Huck Mink Fire Review" Consists of five draft copies of this review dated 11/7-11/10/88 with findings and recommendations.

File "Fire Shelter Deployment: Incident Review Board Report-Clover" This is a report critical of Dan Sholly's actions while protecting the Calfree Creek cabin. Two fire shelter deployments took place during this effort.

File "Phase II Evaluation" This is a comprehensive 232 page draft document that "is intended as a factual, objective account of the GYA fires" rather than one "that makes judgments about the management" of the fires. This is an excellent document for basic fire information. Also included are two copies of a two page memo where YNP responds to this report.

File "Greater Yellowstone Area Fire Situation (1988) Final Copy" This is a polished, final version of the report noted above.

File "Burned Area Survey Dec 1988 Dec 1989" As described for these two dates.

File "Wildland Fire Management Plan for Y.N.P." This is the draft fire policy under review at the time of the 1988 fires.

File "Yellowstone Fires: Progression maps produced during the fires for public information" Contains a run of the fire maps produced for park visitors from 7/15-9/26/88. The run is not complete.

File "Fire Manuals" Contains the following: "Lifeline to the Fireline" pamphlet, "Incident Command System Position Manual-Planning Section," "Field Operations Guide ICS-420-1," "Procedures for Fire Injuries and Illnesses," "NWCG National Fire Equipment System Catalog Part 2: Publications," "BEHAVE: Fire Behavior Prediction and Fuel Modeling System," "NWCG Fireline Handbook," and "1988 National Interagency Mobilization Guide."
