### NATIONAL CENTER FOR EDUCATION STATISTICS

E.D. TABS December 1998

Salaries of Full-Time Instructional Faculty on 9- and 10-month Contracts 1996-97

#### Salaries of Full-Time Instructional Faculty 1996-97

This report presents detailed tabulations for academic year 1996-97 and comparisons with previous years of the number and average salaries of full-time instructional faculty on 9- and 10-month contracts. These data are from the Salary of Full-Time Instructional Faculty survey, a component of the Integrated Postsecondary Education Data System (IPEDS) of the U.S. Department of Education's National Center for Education Statistics (NCES).

The U.S. Department of Education, National Center for Education Statistics, has collected data on full-time instructional faculty since 1968. From 1968 to 1985, these data were collected under Higher Education General Information Surveys (HEGIS). HEGIS was limited to higher education institutions that were accredited at the college level by an agency recognized by the Secretary of Education. In 1986, HEGIS was superseded by the Integrated Postsecondary Education Data System (IPEDS), which collects data from all postsecondary institutions. Although, IPEDS encompassed the entire spectrum of postsecondary education institutions, data on the number, salary, tenure, and fringe benefits of full-time instructional faculty are collected only from those institutions that were formerly in the HEGIS universe.

In the past, the HEGIS distinguished accredited institutions of higher education from the non-accredited institutions that granted bachelors or post baccalaureate degrees. This information was provided by the Office of Postsecondary Education (OPE). Beginning with the 1996-97 academic year, the OPE no longer made this distinction. In order to provide continuity, this report provides information in tables 1 through 3 about the subset of accredited schools representing the Salary file before 1996-97; these are identified as "higher education" institutions. Subsequent tables represent the larger group of schools in the 1996-97 file, and these are identified as "degree-granting" institutions.

Thus, this report is a departure from earlier reports. Previous salary reports were concerned with full-time instructional faculty in higher education institutions that were distinguished by thei accreditation status as noted above. While this report presents changes in faculty salaries for 'accredited' higher education institutions, it also presents 1996-97 faculty salary data for all degree-granting postsecondary institutions that are eligible for Title IV financial aid. This dual reporting is necessary because the Department of Education no longer distinguishes among institutions based upon accreditation status and NCES cannot obtain updated lists of "higher education" institutions as defined in previous reports. In lieu of this designation, NCES has subset the postsecondary institutional universe on the basis of whether or not institutions grant a degree, information that is available directly from IPEDS data. Additionally, because eligibility for Title IV federal financial aid has reporting implications and is of particular policy interest, the postsecondary institution universe is further subdivided into those schools that are eligible for Title IV federal financial aid and those that are not eligible. This distinction among postsecondary institutions was based on lists of eligible institutions maintained by the Office of Postsecondar Education, U.S. Department of Education.

The change in the definition of higher education institutions from "institutions accredited at the college level by an agency recognized the Secretary of the U.S. Department of Education" to degree-granting institutions eligible to participate in the Title IV federal financial aid program that occurred between 1995 and 1996 clearly will confound any observed differences in average faculty salaries between 1995 and 1996 since it is difficult to sort out if observed changes are due to actual salary increases or decreases or to changes in the institutional universe. To assure the validity of observed changes in faculty salaries in this report; historical data on faculty salaries are reported only for those institutions that were designated higher education institutions based on their accreditation status in 1995.

#### **Average Faculty Salaries in 1996-97**

In 1996-97 the salaries of full-time instructional faculty on 9- and 10-month contracts averaged \$50,837 in accredited institutions and \$50,829 in degree granting institutions for all ranks combined (tables 3 and 4). In fact, for the salary survey, reporting on accredited higher education institutions or reporting on degree granting institutions made very little difference in average faculty salaries for 1996-97.

In both accredited higher education institutions and in degree granting institutions male faculty made about \$10,100 more than female faculty over all ranks. This disparity is greater than any within a rank because relatively few women are reported in the senior faculty ranks. Within faculty ranks, the differential between men and women's salaries was highest among professors and decreased with decreasing rank. Among professors, men's salaries averaged about \$8,000 more than women's salaries; among associate professors, the difference in average salaries was about \$3,000; among assistant professors, it was about \$2,500; and among instructors it was about \$1,000 (tables 3, 11, and 12).

Over all ranks, faculty in private degree-granting institutions had higher average salaries than faculty in public degree-granting institutions. By rank, however, only professors and lecturers made more in private institutions than in public. Associate and assistant professors, instructors, and those with no academic rank had higher average salaries in public institutions than in private institutions (tables 5 and 6).

Faculty in 4-year, degree-granting institutions had significantly higher salaries than those in 2-year degree-granting institutions. On average, faculty in 4-year schools earned over \$8,000 more per year than those in 2-year institutions. Those faculty in the academic ranks of professor, associate professor, and assistant professor had higher average salaries in 4-year institutions than in 2-year institutions; while those faculty in the ranks of instructor and lecturer, and those with no academic rank had higher average salaries in 2-year than in 4-year institutions (tables 7 and 9).

The salaries of full-time instructional faculty on 9- and 10-month contracts in public institutions in Connecticut and New Jersey averaged over \$60,000 per year. In contrast, the salaries of full-time

instructional faculty on 9- and 10-month contracts in public institutions in Arkansas, North Dakota, South Dakota, and Wyoming were under \$40,000 per year (table 5).

#### Changes in faculty salaries between 1992-93 and 1996-97

Between 1995-96 and 1996-97, the salaries of the majority of the full-time instructional faculty in accredited higher education institutions did not keep pace with inflation. Only professors and faculty with no academic rank (45 percent of all full-time instructional faculties) had salar increases that kept pace with inflation. The salaries of all other full-time, instructional faculty including associate and assistant professors, instructors and lecturers declined in constant 1996-97 dollars with the declines ranging from .1 to .4 percent (table 1).

Over the 4-year period from 1992-93 to 1996-97, only the salaries of assistant professors and instructors failed to keep pace with inflation. The average salaries of full-time instructiona faculty with no academic rank increased 5 percent over the inflation rate, while the salary o lecturers outpaced inflation by 2.7 percent and the salary of professors outpaced inflation by 1.6 percent.

This E.D. TABS report presents the results of analyses of data on salaries of full-tim instructional faculty on 9- and 10-month contracts; the data were collected through the Integrated Postsecondary Education Data Systems (IPEDS) for the academic years 1992-93, 1993-94, 1994-95, and 1996-97.

#### Acknowledgments

The author appreciates the reviewers of this E.D. TABS: Ernst Benjamin, American Association of University Professors; and Thomas D. Snyder and Summer Whitener-King, National Center for Education Statistics. The author also wishes to thank Brenda M. Wade for technical support.

# **APPENDIX A**

#### SALARY SURVEY

#### Introduction

Salary data were requested from 3,670 in scope postsecondary degree granting institutions in 1996 that were eligible for Title IV federal financial aid. The survey form (attached) was the same for all institutions surveyed.

Although, this report present data on the average salaries and the count of faculty on 9- and 10-month contracts, the Salary Survey collected the following data:

Total salary outlays (in whole dollars), the total number of full-time instructional faculty that were paid those outlays, and the number of those faculty that have tenure, who are on tenure track, and the number not on tenure track. These data were collected by rank (professor, associate professor, assistant professor, instructor, lecturer, and no academic rank) for men and women, and for 9/10 - month and 11/12 - month contracts. In addition, salary outlays, total number and tenure status was collected for full-time faculty on contract schedules other than 9/10 and 11/12 months. These data were not collected by rank or by gender.

Fringe benefits data (Part B of the survey form) were collected for those full-time instructional faculty reported on Part A. Fringe benefits expenditures (in whole dollars) and the number of full-time faculty covered, by length of contract (9/10 and 11/12- month contracts) were collected for the following benefits plans:

- 1. Retirement plans (other than Social Security)
- 2. Medical/dental plans
- 3. Group life insurance
- 4. Other insurance benefits (Cafeteria Plan, etc.)
- 5. Guaranteed disability income protection
- 6. Tuition plans (dependents only) restricted/unrestricted
- 7. Housing plan -- restricted/unrestricted
- 8. Social Security taxes
- 9. Unemployment compensation
- 10. Worker's compensation
- 11. Other benefits in kind with cash options

#### Confidentiality of Data

The confidentiality of individuals' salaries was preserved in accordance with Title V, Section 501(a) of the Education Amendments of 1974 (Public Law 93-380, 93rd Congress, August 21, 1974) which amends Part A of the General Education Provisions Act by adding at the end thereof a new Section 406 specifically referring to NCES. Section (d)(2) of the Act is cited below:

"The Center shall develop and enforce standards designed to protect the confidentiality o persons in the collection, reporting, and publication of data under this section. This subparagraph shall not be construed to protect the confidentiality of information about institutions, organizations, and agencies receiving grants from or having contracts with the Federal Government."

# **APPENDIX B**

#### SALARY SURVEY METHODOLOGY

#### Overview

The Salary survey is an annual survey, which was mailed to 3,670 institutions in 1996-97; 2,204 were sent to 4 -year institutions; 1,438 were sent to 2 -year institutions and 28 were sent to less -than-2-year institutions.

Beginning in 1996, the subset of all postsecondary institutions that were eligible to participate in Title IV was validated by matching the IPEDS universe with the Postsecondary Education (PEPS) file which contains the "true" eligibility status of postsecondary institutions. This file is maintained by the Office o Postsecondary Education (OPE). OPE grants eligibility to institutions to participate in Title IV federal financial aid programs. Using the PEPS file as the source for determining eligibility, 3,670 institutions were mailed the Salary Survey form. In the past the salary universe was developed by selecting fro the prior years institutional characteristics (IC) Universe I: all accredited higher education institutions (including the accredited less-than-2-year institutions) and non-accredited institutions that grant bachelor, master's, doctoral, and first-professional degrees.

Institutions were excluded from the survey based on responses to questions on the IPEDS Institutional Characteristics survey. The exclusions are:

- a. All of the instructional faculty at this institution are employed on a part-time basis
- b. All of the instructional faculty at this institution are military personnel
- c. All of the instructional faculty at this institution contribute their services (e.g., are members of a religious order)
- d. All of the instructional faculty at this institution teach preclinical or clinical medicine.

#### Salary Data Base Composition

The forms were mailed out in July 1996. The survey results were collected from November 15, 1996 through April 15, 1997. During this time period institutions were added to the universe and other institutions were deleted from the universe. The deletions (out-of-scope) were received through formal notification from IPEDS state coordinators, the Department of Education eligibility notices, and fro follo -up telephone calls. They included schools that had closed, did not offer postsecondary programs, or were duplicated in the file.

The overall response rate was calculated as the ratio of the number of completed questionnaires divided by the number of schools in the final universe. The final universe is derived by subtracting the number of institutions determined to be out-of-scope from the number of surveys mailed and adding in schools new to the universe. A summary of the universe is provided below:

TABLE B-1: SALARIES SURVEY RESPONSE TOTALS

Level	Mailed	Universe	Response	Response Rate
Total	3,670	3,637	3,378	92.9
4-year Public Nonprofit	2,204 610 1,493	2,212 612 1,495	2,043 599 1,348	92.4 97.9 90.2

For-profit	101	105	96	91.4
2-year	1,438	1,401	1,318	94.1
Public	1,063	1,050	1,008	96.0
Nonprofit	167	158	140	88.6
For-profit	208	193	170	88.1
Less-than-2-year	28	24	17	70.8
Public	3	3	2	66.7
Nonprofit	3	2	2	100.0
For-profit	22	19	13	68.4

#### **Data Management**

Follo -up for nonresponse was started on January 9, 1997 by telephone and letter. Data were edited for major reporting and processing errors. Generated totals were compared to the reported totals. If these were within an acceptable range, the generated totals replaced the reported totals; otherwise, institutions were contacted to resolve these discrepancies. Generated totals are indicated by an imputation flag code of 1. Also data for institutions with FICE codes were checked for consistency with their prior year's response. Data were imputed for total nonresponding institutions i.e., those that did not return a survey form.

#### **Imputations**

#### **Partially Responding Institutions**

In 1995-96, Salary imputation procedures were developed for partially responding institutions. However, where possible all missing data items were resolved during telephone follow-up with the institutions <sup>1</sup>. Data for any partially responding institution reporting data for summary lines (7, 14, 15, 22 and 30) and column (4 and 5) but no corresponding detail data for lines (1-6, 8-14, 16-21 and 23-28) and columns (1, 2, 3, and 4) were imputed <sup>2</sup>.

- I. The following describes the imputation procedures for partially responding institutions in a single imputation group:
  - A. For institutions with prior year salary data the prior year data was prorated to reported totals for columns 1-3. Estimates were made at the lowest possible level and then aggregated.
  - B. Columns 1-3 were added for each line to obtain imputations for column 4.
  - C. A salary/faculty ratio was computed by dividing column 5 by column 4 for each non-summary line in prior year salary data.
  - D. Column 5 interim figures for non-summary lines were added to obtain interim totals for lines and to prorate the interim figures to the reported salary for column 5.
  - E. For Institutions without prior year salary data, the same procedure above was used, except the group means was substituted for the prior year data.

Partial responding institutions were those with a RSTATUS= 1, but included at least one detail "not reported": status cod in Part A.

Lines and column numbers refer to positions on the attached Salary survey form.

II. For partially reporting institutions that provided summary lines and some detail, the detail were subtracted from the reported totals and then the same procedure as above was used for the remaining lines and the remaining summary line totals.

#### **Total Nonresponding Institutions**

Imputation procedures used for nonresponding institutions were as follows:

- I. Imputation groups used to impute 1996-97 salary data.
  - 1. All responding institutions were grouped into IPEDS sectors and BEA Region <sup>3</sup>. If any group had fewer than 20 institutions, it was merged with the groups from the adjacent BEA Region.
  - 2. Sectors 1 and 2 (4-year public and private nonprofit) were further disaggregated into:
    - (a) schools granting 30 or more doctoral degrees
    - (b) schools granting 30 or more postbaccalaureate degrees, but not 30 or more doctoral degrees and
    - (c) all other schools (include schools with no C data)
  - 3. Sectors 3, 6, and 9 were in 1 imputation group
  - 4. Sectors 4 and 7 were in 1 imputation group
  - 5. Sectors 5 and 8 were in 1 imputation group
- II. For institutions that responded in 1995-96 and not in 1996-97, the following method was used:
  - A. A group ratio by sector was calculated for institutions responding in both 1995-96 and 1996-97. For each 1996-97 nonrespondent institution, the group ratio was multiplied by the institution's reported 1995-96 data to get an estimate for 1996-97 salary outlays and number of faculty. Data based on prior year's response are indicated by an imputation flag code of 3.
  - B. For all the reporting schools in each of the identified groups, the ratio for the average number of full-time instructional faculty (9/10, 11/12 and other summed) per full -time-equivalent student (FTE) was computed (This was done for both the current and prior years). FTE was calculated by taking all of the full-time students plus one third of the part-time students as reported in the IPEDS Fall Enrollment survey.
  - C. The FTE enrollment for the nonresponding institutions was obtained from the IPEDS Fall Enrollment survey.
  - D. The average number o full-time instructional faculty per FTE for the sector was then multiplied by the FTE of the non-responding institution. This yielded an estimate for full -time instructional faculty for the nonresponding school.
  - E. To distribute the estimated total full-time instructional faculty across the various academic

3

Bureau of Economic Analysis.

- ranks, the total full-time faculty from each school's prior year Salary report was computed. The total full-time faculty equals the sum of rows 15, 30 and 31 in column 4 of the Salary form.
- F. Each institution's ratio of total full-time faculty to FTE for the prior year was computed. The prior year faculty FTE was then multiplied by the current year's FTE to obtain the imputation for the current year's total full-time faculty.
- G. To compute the imputations for the nonsummary cells in columns 1-3, each cell in columns 1-3 in the institutions prior year Salary report was multiplied by the ratio computed above in Step F.
- H. The imputations were rounded to units and details were added to obtain imputations for the nonsummary cell in column 4 and then for summary cells in columns 1-4.
- I. The prior year salary/faculty ratios were multiplied by the corresponding nonsummary faculty imputations in column 4 to obtain interim salary imputations for nonsummary cells. Details were then added to obtain interim salary imputations for summary cells.
- J. Final imputations were obtained by multiplying each interim salary imputation computed in Step I by the group ratio of current year average salary to prior year average salary computed in Step A.
- III. For nonresponding institutions that reported salary data in the prior year but are not on the Fall enrollment file in either the current or prior year, the prior year's response was used as final imputes for columns 1-4 and interim imputes for column 5. To obtain the final imputes for column 5; the interim figures were multiplied by the group ratio of the current year average salary to prior year average salary.
- IV. The imputation method below was used for nonresponding institutions **without** prior year Salary data, but on the Fall Enrollment file:
  - A. Using institutions that reported data for salary and fall enrollment, the following aggregates were computed:
    - 1. The aggregate FTE on the Fall Enrollment file.
    - 2. The aggregate for each cell of Part A on the Salary survey.
    - 3. The total full-time faculty men plus women for all contract lengths. (Column 4, rows 15 + 30 + 31)
  - B. The group average for each cell on the Salary form was computed by dividing the cell aggregate by the number of institutions in the group.
  - C. The group ratio of aggregate total full-time faculty from Step A-3 was compared to the aggregate full-time-equivalent enrollment from Step A-1.
  - D. A group mean of total full-time faculty was computed by dividing the aggregate total full-time faculty from Step A-3 by the number of institutions in the group.

- E. The FTE for each nonresponding institution was obtained from the Fall Enrollment Survey.
- F. The imputation for the total full-time faculty for each nonresponding institution was calculated, by multiplying the group ratio of aggregate total full-time faculty to aggregate full-time-equivalent enrollment (Step C) by each institution FTE (Step E).
- G. The ratio of the imputed total full-time faculty in the nonresponding institution from Step F was computed to the group mean total full-time faculty from Step D.
- H. The ratio of the imputed total full-time faculty in the nonresponding school to the group mean total full-time faculty was multiplied by the group average for each nonsummary cell in column 1- 3 by the group average (Step B) to obtain faculty imputations for the nonresponding institution.
- I. The imputations were rounded to units and added to obtain imputations for nonsummary cells in column 4 and then for summary cells in columns 1-4 for the nonresponding institutions.
- J. For each nonsummary line in the group means (Step B) the ratio of salary to faculty was computed.
- K. The group mean salary/faculty ratios were multiplied by the corresponding nonsummary faculty imputations in column 4 for the nonresponding school to obtain salary imputations for nonsummary cells. The details were added to obtain salary imputations for summary cells.

For totally nonresponding institutions, without prior year salary data, not on the current year Fall Enrollment file, the group means were used as imputations.

VI. Part B was not imputed for any nonresponding institution.

### Changes from the 1995-96 form for

# 1996-97 SALARIES, TENURE AND FRINGE BENEFITS OF FULL-TIME INSTRUCTIONAL FACULTY

FORM IPEDS-SA (6-1-96)

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1850-0582. The time required to complete this information collection is estimated to vary from 30 minutes to 8.0 hours per response, with an average of 5.0 hours, including the time to review instructions, search existing data resources, gather and maintain the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: U.S. Department of Education, Information Management Team, Washington, DC 20202-4652. If you have any comments or concerns regarding the status of your individual submission of this form, write directly to:

National Center for Education Statistics/IPEDS U.S. Department of Education 555 New Jersey Avenue, NW Washington, DC 20208-5652

The definitions and instructions for compiling IPEDS data have been designed to minimize comparability problems. However, postsecondary education institutions differ widely among themselves. As a result of these differences, comparisons of data provided by individual institutions may be misleading.

#### **GENERAL INSTRUCTIONS — SA**

Please respond to each item on this report in the space provided. The Glossary provides definitions of terms used in this report.

#### INSTITUTIONAL IDENTIFICATION

In the space provided on the front page of this report make any necessary corrections to the preprinted address information. Also, enter the name, title, area code and telephone number of the person responsible for completing the report.

**Exclusions from reporting** — This report may not be applicable to your institution because ALL of your instructional faculty embrace one of the exclusion categories listed on page 1 of the survey form. If this is the case, mark (X) the appropriate category and return the form.

#### PERIOD OF REPORT

This report requests data on full-time instructional faculty employed (including those under contract but not yet in the payroll system) by your institution as of October 1, 1996.

#### PART A — SALARIES AND TENURE OF FULL-TIME INSTRUCTIONAL FACULTY, ACADEMIC YEAR 1996-97

General instructions for Part A — Sections I, II, and III — The following general instructions apply to all Part A — Sections I, II, and III. (Instructions related to a specific contract length only (9/10-month, 11/12-month, or other than 9/10-month and 11/12-month) are provided in Part A, Sections I, II, and III.)

In reporting instructional faculty, include only those members of the Instruction/Research staff who are employed full time (as defined by the institution) and whose major (more than 50%) regular assignment is instruction, including those with released time for research. Also included in this category are —

- Full-time instructional faculty on sabbatical leave. Report such faculty at their regular salaries even though the faculty member may be receiving a reduced annuity while on leave.
- Full-time replacements for instructional faculty on leave without pay.
- Chairs of departments (if they have no other administrative title and hold a full-time faculty rank). Report such faculty at their contracted faculty salary.

#### In reporting instructional faculty, the following apply —

- Additional stipends for administrative, managerial, or other responsibilities should NOT be included in the salary calculation.
- When reporting instructional faculty by academic rank, use the institution's designations. Institutions without standard academic ranks should report all faculty in the category of "No Academic Rank".
- When reporting tenure status, use the institution's criteria or requirements for tenure.
- Instructional faculty should be reported as having 9/10-month, 11/12-month, or other than 9/10-month and 11/12-month salary contracts on the basis of the contracted (teaching) period, not on the basis of the number of installments in which salaries are paid.

#### Do not report the following instructional faculty —

- Replacements for instructional faculty on sabbatical leave.
- Instructional faculty on leave without pay.
- Instructional faculty for preclinical and clinical medicine.\*
   (NOTE Instructional faculty in all other fields, such as dentistry, veterinary medicine, nursing, dental hygiene, etc., should be reported.)
- Instructional faculty who are employed on a part-time basis.\*
- Instructional faculty (such as members of religious orders) whose services are valued by bookkeeping entries rather than by full cash transactions.\*
- Instructional faculty who, as members of military organizations, are paid on a different salary scale from civilian employees.\*
- Administrative officers with titles such as dean of instruction, academic dean, dean of faculty, dean of students, librarian, registrar, coach, etc., even though they may devote part of their time to classroom instruction.
- Undergraduate or graduate students who assist in the instruction of courses, but have titles such as graduate or teaching assistant, teaching associate, teaching fellow, etc.

#### INSTRUCTIONS FOR COMPLETING THIS FORM

#### PART A — Salary Contract Lengths

Sections I, II, and III of this part provide instructions related to 9/10-month, 11/12-month, or less than 9/10-month salary contracts.

Part A, Section I: Full-time faculty on 9/10-month salary contracts — Also read the general instructions above before completing this part of the survey form.

The term, 9/10-month salary contract, applies to instructional faculty who teach 2 semesters, 3 quarters, 2 trimesters, 2 4-month sessions, or the equivalent.

**Column (1)** — **Faculty with Tenure** — For each line report the number of full-time instructional faculty with tenure.

**Column (2)** — **Non-tenured Faculty on Tenure Track** — For each line, report the number of full-time instructional faculty who are non-tenured but are in positions which lead to consideration for tenure.

Column (3) — Non-tenured Faculty Not on Tenure Track — For each line, report the number of full-time instructional faculty who are non-tenured and are **not** in positions which lead to consideration for tenure. Also report all full-time instructional faculty for each line if the institution does not recognize tenure.

**Column (4) — Total Number of Faculty —** For each line, report the sum of columns (1), (2), and (3).

**Column (5)** — **Total Salary Outlay** — For each line, report to the nearest whole dollar the total salary outlay for those faculty reported in column (4).

REMOVE INSTRUCTIONS BEFORE MAILING AND RETAIN FOR YOUR FILES.

FORM IPEDS-SA (6-1-96) Instructions page 1

<sup>\*</sup>If this statement applies to ALL instructional faculty at your institution, mark (X) the appropriate exclusion category listed on page 1 of this survey form and return the form.

#### **GENERAL INSTRUCTIONS - SA — Continued**

#### PART A — SALARY CONTRACT LENGTHS — Continued

Part A, Section II: Full-time faculty on 11/12-Month Salary Contracts — Also read the general instructions on the preceding page for Part A before completing this part of the survey form.

The term, 11/12-month salary contract, applies to instructional faculty employed for the entire year. These faculty members are usually employed for 11 months of teaching.

Follow directions for Part A, Section I for reporting data in columns (1) through (5).

Part A, Section III: Full-time faculty on less than 9/10-month salary contracts — Also read the general instructions Part A on page 1 before completing this part of the survey form.

The term, less than 9/10-month salary contract, applies to faculty considered full-time employees that are not in Part A, Sections I or II.

Follow directions for Part A — Section I for reporting data in columns (1) through (5).

#### PART B — FRINGE BENEFITS OF FULL-TIME INSTRUCTIONAL FACULTY ON 9/10-MONTH AND 11/12-MONTH CONTRACTS, ACADEMIC YEAR 1996-97

Report the projected fringe benefit expenditures which will be paid by the institution, State, and/or local government to full-time instructional faculty during the academic year. Fringe benefits should be reported only for those salaried instructional faculty reported in Part A, column (4) of this survey, EXCLUDING those on other than 9/10-month and 11/12-month contracts (PART A — Section III, line 31).

Fringe benefit expenditures for all instructional faculty (total men and women) on 9/10-month contracts should be reported in Part B, column (1), and the number of faculty covered in column (2). Similarly, the fringe benefits for all instructional faculty on 11/12-month contracts should be reported in Part B, column (3), and the number of faculty covered in column (4).

Fringe benefits are defined as cash contributions in the form of supplementary or deferred compensation other than salary. The employee's contribution should be excluded when determining the dollar value of fringe benefits. Expenditures should be reported to the nearest dollar. When an expenditure is reported for a fringe benefit, the number of persons receiving the benefit should also be reported.

Lines 32 and 33 — Retirement plans (Other than Social Security) — Report contributions by the institution, State, and local government toward retirement on lines 32 and 33 according to the vesting provisions of the institution's retirement plan. A vested retirement plan is defined as one in which the full amount of the contribution by institution, State, and local government, with accumulations thereon, will be made available as a benefit in case of death while in service and with no forfeiture in case of resignation or dismissal from the institution.

**On Line 32**, report contributions toward retirement if they become vested in the faculty member not later than the end of the 5th year of full-time service at the institution and are not lost to the member if the member leaves the institution or moves to another State. If the institution's retirement

vesting provision meets the 5-year criterion, report all contributions to the retirement plan on line 32 even though some faculty members may have been employed less than 5 years.\*

**On line 33**, report expenditures for retirement plans in which the employer's contribution becomes vested in the faculty member after 5 years or only upon retirement.\*

**Line 34 — Medical/dental plans —** Report contributions to insurance plans which provide for hospital, medical, surgical, or dental care.\*

**Line 35 — Group life insurance —** Report expenditures by the institution to support the group life insurance program.\*

Line 36 — Other insurance benefits (cafeteria plan) — Report contributions to insurance plans which cannot be reported separately on lines 34 and 35 (hospital, medical, surgical, dental care, and group life insurance) or plans which provide employee selected care options.\*

Line 37 — Guaranteed disability income protection — Report expenditures, through insurance or otherwise, for long-term disability income payments (defined as salary in excess of 6 months) not covered in other retirement or insurance plans listed on this form. These payments are not to consist of the accumulation of unused sick leave benefits.\*

Line 38 — Tuition plan — Report cash payments and the dollar value of tuition waivers and exchanges for dependents (including spouse) of faculty members to attend another institution or this institution. If the tuition plan is available to all dependents of all faculty members to attend any institution of their choice, mark (X) the "No" box on line 38. If either of these conditions does not apply, mark (X) the "Yes" box one line 38.

The number covered by this benefit should be the number of faculty dependents receiving tuition, rather than the number of faculty members covered by this benefit. If the number of faculty dependents who will receive this benefit in the academic year covered by this report is unknown, apply the tuition benefit to the number receiving the tuition in the previous academic year to derive an estimate.

Line 39 — Housing plan — Report the expenditures in the form of cash payments or subsides to faculty members for off-campus or institution-owned housing. If faculty members have the option of choosing off-campus housing, mark the "No" box on line 39. If the housing plan only applies to institution-owned housing, mark the "Yes" box on line 39. If the number of faculty members who will receive the housing benefit in the academic year covered by this report is unknown, apply the current rate for this benefit to the number receiving the housing benefit in the previous academic year to derive an estimate.\*

**Line 40 — Social Security taxes —** If covered by Social Security, report the F.I.C.A. taxes calculated at the rate effective January 1, 1996. This amount should include taxes for Medicare and OASDI .\*

**Line 41 — Unemployment compensation —** Report the taxes (not benefits) to be paid under this law. If the institution is self-insured, report the estimated amount which would otherwise be paid to the State.\*

**Line 42 — Worker's compensation —** Report the taxes (not benefits) to be paid under this law. If the institution is self-insured, report the estimated amount which would otherwise be paid to the State.\*

FORM IPEDS-SA (6-1-96) Instructions page 2

<sup>\*</sup>Verify that the number covered in column (2) on this line does not exceed the total reported in Part A, line 15, column (4). Also verify that the number covered in column (4) on this line does not exceed the total reported in Part A, line 30, column (4).

#### **GENERAL INSTRUCTIONS - SA — Continued**

Line 43 — Other benefits in kind with cash options — Report personal benefits in kind only if the faculty member has, without the imposition of conditions, the option of taking a cash payment if the person prefers to use the money in some other way. Since the objective is the measurement of income available for personal consumption, as distinct from professional purposes, benefits of a professional nature (such as convention travel, membership fees, grading assistance, faculty clubs, etc.) should not be included.\*

**Line 44 — Total —** Report the sum of expenditures on lines 32—43 for each of columns (1) and (3).

#### **CONFIDENTIALITY OF DATA**

The confidentiality of individuals' salaries will be preserved in accordance with Title V, Section 501 (a) of the Education Amendments of 1974 (Public Law 93-380, 93rd Congress, August 21, 1974) which amends Part A of the General Education Provisions Act by adding at the end thereof a new

Section 406 specifically referring to NCES. Section (d)(2) of the Act is cited below.

"The Center shall develop and enforce standards designed to protect the confidentiality of persons in the collection, reporting, and publication of data under this section. This subparagraph shall not be construed to protect the confidentiality of information about institutions, organizations, and agencies receiving grants from or having contracts with the Federal government."

The Freedom of Information Act requires that data retained by the Federal government must be made available to the public so long as the rights to privacy of individuals are not violated. When requested, data collected in this survey will be made available to the public. Data cells containing salary outlays or fringe benefit expenditures for fewer than three individuals will be removed. The data base will contain all of the data items on the report (except those which might identify individuals), as well as the names of institutions submitting the reports.

\*Verify that the number covered in column (2) on lines 32—43 does not exceed the total reported in Part A, line 15, column (4). Also verify that the number covered in column (4) on lines 32—43 does not exceed the total reported in Part A, line 30, column (4).

# GLOSSARY SALARIES, TENURE, AND FRINGE BENEFITS OF FULL-TIME INSTRUCTIONAL FACULTY — SA

**FRINGE BENEFITS EXPENDITURES** — Cash contributions (of the institution) in the form of supplementary or deferred compensation other than salary. Excludes the employee's contribution.

#### FULL-TIME INSTRUCTIONAL FACULTY -

Instruction/Research staff employed full-time (as defined by the institution) and whose major regular assignment is instruction, including those with released time for research.

**HOUSING PLAN (RESTRICTED)** — Plans which restrict beneficiaries to choose from only institution-owned housing.

**LESS THAN 9/10-MONTH SALARY CONTRACT** — The contracted teaching period of faculty employed for other than 2 semesters, 3 quarters, 2 trimesters, 2 4-month sessions, or 11-12 months.

OTHER INSURANCE BENEFITS (Cafeteria Plan) — An insurance plan that gives an employee the option of selecting a combination of health care and insurance benefits (e.g., hospital, medical, surgical, dental care, and group life insurance).

**TENURE** — Status of a personnel position, or a person occupying a position or occupation, with respect to permanence of position.

**TENURE TRACK** — Status of personnel positions that lead to consideration for tenure.

**TUITION PLAN (RESTRICTED)** — Plans for dependents (including spouses) of faculty members which restrict the beneficiary to attendance at only the institution where the faculty member is employed.

**VESTED RETIREMENT PLAN** — One in which the full amount of the contribution by the institution and by the state and local government, with accumulations thereon, will be made available as a benefit in case of death while in service and with no forfeiture in case of resignation or dismissal from the institution.

**9/10-MONTH SALARY CONTRACT** — The contracted teaching period of faculty employed for 2 semesters, 3 quarters, 2 trimesters, 2 4-month sessions, or the equivalent.

**11/12-MONTH SALARY CONTRACT** — The contracted teaching period of faculty employed for the entire year, usually a period of 11 months.
