- The study area was defined as consisting of all those parcels within a half mile of the site's boundary, as opposed to the site's center.
- For parcels in Woburn and Wilmington, the tax rate varied according to the parcel's use (residential vs. commercial/industrial). Parcels in Reading all had the same tax rate.
- A parcel's 2003 tax revenue was calculated by multiplying the parcel's 2003 property value by the 2003 tax rate applicable to its use designation.
- A parcel's 1992 tax revenue was calculated by multiplying the parcel's 1992 property value by the 2003 tax rate applicable to its use designation.
- Tax exempt parcels were assigned a tax rate of zero. Other exemptions were not considered when calculating tax revenue.
- 1992 property values and 2003 tax rates were obtained from the Assessors' Offices of Woburn, Reading, and Wilmington. 2003 property values for Woburn and Reading were obtained from the Woburn and Reading Assessors' websites, respectively. 2003 property values for Wilmington were obtained from the Wilmington Assessor's Office.
