

Pt. 230

40 CFR Ch. I (7-1-05 Edition)

(8) Except in emergency situations, as determined by the U.S. Army Corps of Engineers and/or the District Commander of the U.S. Coast Guard, the Captain-of-the-Port (COTP), U.S. Coast Guard, and the EPA Regional Administrator shall be notified forty-eight (48) hours in advance of the proposed disposal. In addition, the COTP and the EPA Regional Administrator shall be notified by telephone at least twelve (12) hours in advance of the vessel's departure from port with such details as the proposed departure time and place, disposal site location, estimated time of arrival on site, and the name and communication capability of the towing vessel. Schedule changes are to be reported to the COTP as rapidly as possible.

(9) The National Ocean Survey, NOAA, 6010 Executive Blvd., Rockville, MD 20852, shall be notified in writing, within 1 week, of the exact coordinates of the disposal site so that it may be marked on appropriate charts.

**PART 230—SECTION 404(b)(1)
GUIDELINES FOR SPECIFICATION
OF DISPOSAL SITES FOR
DREDGED OR FILL MATERIAL**

Subpart A—General

Sec.

- 230.1 Purpose and policy.
- 230.2 Applicability.
- 230.3 Definitions.
- 230.4 Organization.
- 230.5 General procedures to be followed.
- 230.6 Adaptability.
- 230.7 General permits.

**Subpart B—Compliance With the
Guidelines**

- 230.10 Restrictions on discharge.
- 230.11 Factual determinations.
- 230.12 Findings of compliance or non-compliance with the restrictions on discharge.

**Subpart C—Potential Impacts on Physical
and Chemical Characteristics of the
Aquatic Ecosystem**

- 230.20 Substrate.
- 230.21 Suspended particulates/turbidity.
- 230.22 Water.
- 230.23 Current patterns and water circulation.
- 230.24 Normal water fluctuations.

- 230.25 Salinity gradients.

**Subpart D—Potential Impacts on Biological
Characteristics of the Aquatic Ecosystem**

- 230.30 Threatened and endangered species.
- 230.31 Fish, crustaceans, mollusks, and other aquatic organisms in the food web.
- 230.32 Other wildlife.

**Subpart E—Potential Impacts on Special
Aquatic Sites**

- 230.40 Sanctuaries and refuges.
- 230.41 Wetlands.
- 230.42 Mud flats.
- 230.43 Vegetated shallows.
- 230.44 Coral reefs.
- 230.45 Riffle and pool complexes.

**Subpart F—Potential Effects on Human Use
Characteristics**

- 230.50 Municipal and private water supplies.
- 230.51 Recreational and commercial fisheries.
- 230.52 Water-related recreation.
- 230.53 Aesthetics.
- 230.54 Parks, national and historical monuments, national seashores, wilderness areas, research sites, and similar preserves.

Subpart G—Evaluation and Testing

- 230.60 General evaluation of dredged or fill material.
- 230.61 Chemical, biological, and physical evaluation and testing.

**Subpart H—Actions To Minimize Adverse
Effects**

- 230.70 Actions concerning the location of the discharge.
- 230.71 Actions concerning the material to be discharged.
- 230.72 Actions controlling the material after discharge.
- 230.73 Actions affecting the method of dispersion.
- 230.74 Actions related to technology.
- 230.75 Actions affecting plant and animal populations.
- 230.76 Actions affecting human use.
- 230.77 Other actions.

**Subpart I—Planning To Shorten Permit
Processing Time**

- 230.80 Advanced identification of disposal areas.

AUTHORITY: Secs. 404(b) and 501(a) of the Clean Water Act of 1977 (33 U.S.C. 1344(b) and 1361(a)).

SOURCE: 45 FR 85344, Dec. 24, 1980, unless otherwise noted.

Subpart A—General**§ 230.1 Purpose and policy.**

(a) The purpose of these Guidelines is to restore and maintain the chemical, physical, and biological integrity of waters of the United States through the control of discharges of dredged or fill material.

(b) Congress has expressed a number of policies in the Clean Water Act. These Guidelines are intended to be consistent with and to implement those policies.

(c) Fundamental to these Guidelines is the precept that dredged or fill material should not be discharged into the aquatic ecosystem, unless it can be demonstrated that such a discharge will not have an unacceptable adverse impact either individually or in combination with known and/or probable impacts of other activities affecting the ecosystems of concern.

(d) From a national perspective, the degradation or destruction of special aquatic sites, such as filling operations in wetlands, is considered to be among the most severe environmental impacts covered by these Guidelines. The guiding principle should be that degradation or destruction of special sites may represent an irreversible loss of valuable aquatic resources.

§ 230.2 Applicability.

(a) These Guidelines have been developed by the Administrator of the Environmental Protection Agency in conjunction with the Secretary of the Army acting through the Chief of Engineers under section 404(b)(1) of the Clean Water Act (33 U.S.C. 1344). The Guidelines are applicable to the specification of disposal sites for discharges of dredged or fill material into waters of the United States. Sites may be specified through:

(1) The regulatory program of the U.S. Army Corps of Engineers under sections 404(a) and (e) of the Act (see 33 CFR Parts 320, 323 and 325);

(2) The civil works program of the U.S. Army Corps of Engineers (see 33 CFR 209.145 and section 150 of Pub. L. 94-587, Water Resources Development Act of 1976);

(3) Permit programs of States approved by the Administrator of the En-

vironmental Protection Agency in accordance with section 404(g) and (h) of the Act (see 40 CFR parts 122, 123 and 124);

(4) Statewide dredged or fill material regulatory programs with best management practices approved under section 208(b)(4)(B) and (C) of the Act (see 40 CFR 35.1560);

(5) Federal construction projects which meet criteria specified in section 404(r) of the Act.

(b) These Guidelines will be applied in the review of proposed discharges of dredged or fill material into navigable waters which lie inside the baseline from which the territorial sea is measured, and the discharge of fill material into the territorial sea, pursuant to the procedures referred to in paragraphs (a)(1) and (2) of this section. The discharge of dredged material into the territorial sea is governed by the Marine Protection, Research, and Sanctuaries Act of 1972, Pub. L. 92-532, and regulations and criteria issued pursuant thereto (40 CFR parts 220 through 228).

(c) Guidance on interpreting and implementing these Guidelines may be prepared jointly by EPA and the Corps at the national or regional level from time to time. No modifications to the basic application, meaning, or intent of these Guidelines will be made without rulemaking by the Administrator under the Administrative Procedure Act (5 U.S.C. 551 *et seq.*).

§ 230.3 Definitions.

For purposes of this part, the following terms shall have the meanings indicated:

(a) The term *Act* means the Clean Water Act (also known as the Federal Water Pollution Control Act or FWPCA) Pub. L. 92-500, as amended by Pub. L. 95-217, 33 U.S.C. 1251, *et seq.*

(b) The term *adjacent* means bordering, contiguous, or neighboring. Wetlands separated from other waters of the United States by man-made dikes or barriers, natural river berms, beach dunes, and the like are "adjacent wetlands."

(c) The terms *aquatic environment* and *aquatic ecosystem* mean waters of the United States, including wetlands, that serve as habitat for interrelated and
