## **APPENDIX F – MINERAL LEASING STIPULATIONS**

## Appendix F: Mineral Leasing Surface Use Stipulations

Apply only to mineral leasing.

### Definitions:

**No Surface Occupancy (NSO)** = Closed to placement of surface facilities or any surface disturbing activity

**Controlled Surface Use (CSU)** = Activity is only subject to restraints specified in the stipulation description

**Timing Limitation (TL)** = Activity is subject to restraints during the time period specified in the stipulation description (i.e. seasonal).

**Exception** = One-time exemption

**Modification** = Change to the language or provisions

**Waiver** = Permanent exemption

NSO-4	Raptor Nests	1,567	1,567	1,567	<p><i>Stipulation:</i> Surface occupancy is prohibited within 1/2 mile of identified nests.</p> <p><i>Exception:</i> The authorized officer may grant an exception if concurrence is obtained from the USFWS (through applicable provisions of the Endangered Species Act, Eagle Protection Act, or Migratory Bird Treaty Act), to interrupt active nesting attempts and/or cause short or long term adverse modification of suitable nest site characteristics. An exception may also be granted by the authorized officer if environmental analysis of a proposed action reveals that it would not impair the function or utility of the nest site for current or subsequent nest activities or occupancy.</p> <p><i>Modification:</i> The area of application of the NSO may be modified pending determination that a portion of the NSO area is not essential to nest site functions or utility; or that the nature or conduct of the activity, as proposed or conditioned, would not impair the function or utility of the nest site for current or subsequent nest activities or occupancy. The stipulation may also be modified if the proponent, BLM, and where necessary, other affected interests, negotiate compensation that satisfactorily offsets anticipated impacts to raptor breeding activities and/or habitats. Modifications could also occur if sufficient information is provided that supports the contention that the action would not contribute to the suppression of breeding population densities or the population's production or recruitment regime from a Geographic Reference Area perspective. If a species status is downgraded, or delisted, the NSO buffer area may be modified to an appropriate level.</p> <p><i>Waiver:</i> A waiver may be granted if the species becomes extinct or if site conditions change such that there is no reasonable likelihood of occupation for a subsequent minimum period of 10 years.</p>

Stip	Protected Resource	Acres Alt B	Acres Alt C	Acres Alt D	Description
TL-1	Deer and Elk Winter Range	27,852	27,582	27,852	<p>Stipulation: No construction or development activities will be allowed within deer or elk winter range between December 15 and March 31.</p> <p>Exception: The authorized officer may grant an exception if environmental analysis indicates that a proposed action would not adversely impact use of this habitat.</p> <p>Modification: Area of application for this stipulation may change based on monitoring and scientific research.</p> <p>Waiver: None</p>
TL-2	Bald Eagle Winter Feeding Area	285	285	285	<p>Stipulation: No ground disturbing activity is allowed within winter feeding areas November 15 to February 15.</p> <p><i>Exception:</i> An exception may be granted by the authorized officer if concurrence is obtained from the USFWS (through applicable provisions of the Endangered Species Act, Eagle Protection Act, or Migratory Bird Treaty Act), to interrupt feeding activities and/or cause short or long term adverse modification of suitable roost site characteristics. The Area Manager may also grant an exception if an environmental analysis indicates that the nature or conduct of the action, as proposed or conditioned, would not impair the function or utility of the site for current or subsequent feeding activities.</p> <p><i>Modification:</i> The stipulation may be modified if an environmental analysis indicates that a portion of the area is nonessential to winter feeding, or that the proposed action could be conditioned to not impair the function or utility of the site for current or subsequent feeding activities. The stipulation may also be modified commensurate with changes in species status.</p> <p><i>Waiver:</i> The stipulation may be waived if the species becomes extinct or if the site has failed to support feeding activities over a minimum three year period. A waiver may also apply if the area has changed such that there is no reasonable likelihood of use for a subsequent minimum period of 10 years.</p>
