

**Safety Attribute Inspection (SAI) Data Collection Tool**  
**3.1.2 Flight Attendant Duties / Cabin Procedures (OP)**

**ELEMENT SUMMARY INFORMATION**

**Purpose of this Element** (certificate holder's responsibility):

- To ensure the safety of all cabin occupants during ground and flight operations.

**Objective** (FAA oversight):

- To determine if the certificate holder's Flight Attendant Duties/Cabin Procedures process meets all applicable requirements of Title 14 of the Code of Federal Regulations (14 CFR) and FAA policies.
- To determine if the certificate holder's Flight Attendant Duties/Cabin Procedures process incorporates the safety attributes.
- To identify any shortfalls in the certificate holder's Flight Attendant Duties/Cabin Procedures process.

**Specific Instructions:**

- This element is applicable to operations conducted with or without flight attendants.

**SUPPLEMENTAL INFORMATION**

### SAI Section 1 - Procedures Attribute

**Objective:** Procedures, instructions, and information are documented methods for accomplishing a process. The certificate holder's policies should establish their compliance posture. Policies may be stand-alone statements, or they may be imbedded within procedures, instructions, or information regarding a particular regulatory requirement. The questions in this section of the data collection tool (DCT) are designed to assist the inspector in determining if the certificate holder has documented or prescribed methods of accomplishing the process requirements that provide answers to the associated questions regarding who, what, when, where, and how. This section contains policy questions, procedural questions, and instructional or informational questions pertaining to various types of certificate holder requirements such as actions, prohibitions, or resources (i.e., personnel, facilities, equipment, technical data, etc.).

#### Tasks

	To meet this objective, the inspector must accomplish the following tasks:
1.	Review the information listed in the Supplemental Information section of this DCT.
2.	Review the duties and responsibilities for management and other personnel identified by the certificate holder who accomplish the Flight Attendant Duties/Cabin Procedures process.
3.	Review the certificate holder's Flight Attendant Duties/Cabin Procedures process to ensure that it contains policies, procedures, instructions, and information necessary for the Flight Attendant Duties/Cabin Procedures process.

#### Questions

	To meet this objective, the inspector must answer the following questions:	
1.	Does the certificate holder's Flight Attendant Duties/Cabin Procedures process meet the specific regulatory and FAA policy requirements for a Flight Attendant Duties/Cabin Procedures process:	
1.1.	<p>Does the certificate holder's Flight Attendant Duties/Cabin Procedures process include instructions and information to provide the required number of flight attendants on each passenger-carrying airplane?</p> <p>SRRs: 121.135(a)(1); 121.391(b); 121.391(a)</p> <p><i>Related Design JTIs:</i></p> <ol style="list-style-type: none"> <li>1. The Certificate Holder's manual contains instructions and information necessary for personnel concerned to provide one flight attendant on each airplane with a maximum payload capacity of more than 7,500 pounds and having a seating capacity of more than 9 but less than 51 passengers. <i>Sources:</i> 121.135(a)(1); 121.391(a)(1) <i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 4.2.4(OP)</li> <li>2. The Certificate Holder's manual contains instructions and information necessary for personnel concerned to provide one flight attendant on each airplane with a maximum payload capacity of 7,500 pounds or less, and having a seating capacity of more than 19 but less than 51 passengers. <i>Sources:</i> 121.135(a)(1); 121.391(a)(2) <i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 4.2.4(OP)</li> <li>3. The Certificate Holder's manual contains instructions and information necessary for personnel concerned to provide two flight attendants on</li> </ol>	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable

	<p>each airplane with a seating capacity of more than 50 but less than 101 passengers.</p> <p><i>Sources:</i> 121.135(a)(1); 121.391(a)(3) <i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 4.2.4(OP)</p> <p>4. The Certificate Holder's manual contains instructions and information necessary for personnel concerned to provide two flight attendants plus one additional flight attendant for each unit (or part of a unit) of 50 passenger seats above a seating capacity of 100 passengers on each airplane.</p> <p><i>Sources:</i> 121.135(a)(1); 121.391(a)(4) <i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 4.2.4(OP)</p>	
1.2.	<p>Does the certificate holder's Flight Attendant Duties/Cabin Procedures process include instructions and information to have required flight attendants positioned during taxi, takeoff, and landing, as required by 14 CFR part 121, section 121.391(d)?</p> <p><i>SRRs:</i> 121.135(a)(1); 121.391(d) <i>Related Design JTIs:</i></p> <p>1. The Certificate Holder's manual contains instructions and information necessary for personnel concerned to have, during take-off, flight attendants located as near as practicable to required floor level exits and uniformly distributed throughout the airplane in order to provide the most effective egress of passengers in event of an emergency evacuation.</p> <p><i>Sources:</i> 121.135(a)(1); 121.391(d) <i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 4.2.4(OP)</p> <p>2. The Certificate Holder's manual contains instructions and information necessary for personnel concerned to have, during landing, flight attendants located as near as practicable to required floor level exits and uniformly distributed throughout the airplane in order to provide the most effective egress of passengers in event of an emergency evacuation.</p> <p><i>Sources:</i> 121.135(a)(1); 121.391(d) <i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 4.2.4(OP)</p> <p>3. The Certificate Holder's manual contains instructions and information necessary for personnel concerned to, during taxi, have flight attendants required to remain at their duty stations with safety belts and shoulder harnesses fastened except to perform duties related to the safety of the airplane and its occupants.</p> <p><i>Sources:</i> 121.135(a)(1); 121.391(d) <i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 4.2.4(OP)</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.3.	<p>Does the certificate holder's Flight Attendant Duties/Cabin Procedures process include instructions and information to have required flight attendants remain at their duty stations with safety belts and shoulder harnesses fastened during taxi, except to perform duties related to the safety of the airplane and its occupants?</p> <p><i>SRRs:</i> 121.135(a)(1); 121.391(d) <i>Related Design JTIs:</i></p> <p>1. The Certificate Holder's manual contains instructions and information necessary for personnel concerned to, during taxi, have flight attendants required to remain at their duty stations with safety belts</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable

	<p>and shoulder harnesses fastened except to perform duties related to the safety of the airplane and its occupants.</p> <p><i>Sources:</i> 121.135(a)(1); 121.391(d)</p> <p><i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 4.2.4(OP)</p>	
1.4.	<p>Does the certificate holder's Flight Attendant Duties/Cabin Procedures process include instructions and information to meet the requirements of 14 CFR part 121, section 121.393, at stops where passengers remain onboard, unless relief is granted by an exemption as listed in their operations specifications paragraph A005?</p> <p><i>SRRs:</i> 121.135(a)(1); 121.393(b)(1)(i); 121.393(b)(1)(ii); 121.393(b)(1)(iii); 121.393(b)(2); 121.393(b)(3); 121.393(b)</p> <p><i>Related Design JTIs:</i></p> <ol style="list-style-type: none"> <li>The Certificate Holder's manual contains instructions and information necessary for personnel concerned to ensure that at stops where passengers remain on board, the airplane engines are shut down when the number of flight attendants remaining on board is fewer than the flight attendant(s) required by 121.391(a).</li> </ol> <p><i>Sources:</i> 121.135(a)(1); 121.393(b)(1)(i)</p> <p><i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 2.1.2(AW); 2.1.2(OP); 3.1.3(OP); 4.2.4(OP)</p> <ol style="list-style-type: none"> <li>The Certificate Holder's manual contains instructions and information necessary for personnel concerned to ensure that at stops where passengers remain on board, that at least one floor level exit remains open to provide for the deplaning of passengers when the number of flight attendants remaining on board is fewer than the required flight attendant complement.</li> </ol> <p><i>Sources:</i> 121.135(a)(1); 121.393(b)(1)(ii)</p> <p><i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 4.2.4(OP)</p> <ol style="list-style-type: none"> <li>The Certificate Holder's manual contains instructions and information necessary for personnel concerned to ensure that at stops where passengers remain on board, the number of flight attendants on board is at least half the number required, rounded down to the next lower number in the case of fractions, but never fewer than one.</li> </ol> <p><i>Sources:</i> 121.135(a)(1); 121.393(b)(1)(iii)</p> <p><i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 4.2.4(OP)</p> <ol style="list-style-type: none"> <li>The Certificate Holder's manual contains instructions and information to personnel concerned that at a stops where passengers remain onboard and the flight attendants remaining onboard is fewer than required by 121.391(a), the Certificate Holder may substitute other persons qualified in the emergency evacuation procedures, if these persons are identified to the passengers.</li> </ol> <p><i>Sources:</i> 121.135(a)(1); 121.393(b)(2)</p> <p><i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 2.1.2(AW); 2.1.2(OP); 3.1.3(OP); 4.2.4(OP)</p> <ol style="list-style-type: none"> <li>The Certificate Holder's manual contains instructions and information to personnel concerned that at a stops where passengers remain onboard and the flight attendants remaining onboard is fewer than required by 121.391(a), and only one flight attendant or other qualified person is onboard, that flight attendant or other qualified person shall be located in accordance with the Certificate Holder's FAA-approved operating procedures.</li> </ol>	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain

	<p><i>Sources:</i> 121.135(a)(1); 121.393(b)(3)</p> <p><i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 2.1.2(AW); 2.1.2(OP); 3.1.3(OP); 4.2.4(OP)</p> <p>6. The Certificate Holder's manual contains instructions and information to personnel concerned that at a stops where passengers remain onboard that if more than one flight attendant or other qualified person is on board during a stop, the flight attendants or other qualified persons shall be spaced throughout the cabin to provide the most effective assistance for evacuation in case of an emergency.</p> <p><i>Sources:</i> 121.135(a)(1); 121.393(b)(3)</p> <p><i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 2.1.2(AW); 2.1.2(OP); 3.1.3(OP); 4.2.4(OP)</p>	
1.5.	<p>For airplanes on which flight attendants are not required, does the certificate holder's Flight Attendant Duties/Cabin Procedures process include instructions and information for stops where passengers remain onboard that address the requirements of 14 CFR part 121, section 121.393(a)?</p> <p>SRRs: 121.135(a)(1); 121.393(a)</p> <p><i>Related Design JTIs:</i></p> <p>1. The Certificate Holder's manual contains instructions and information necessary for personnel concerned to ensure that on each airplane for which a flight attendant is not required by 121.393(a), a person who is qualified in the emergency evacuation procedures for the airplane in 121.417 and who is identified to the passengers remains near by the airplane in a position to adequately monitor passenger safety and the airplane engines are shut down and at least one floor level exit remains open for the deplaning of passengers.</p> <p><i>Sources:</i> 121.135(a)(1); 121.393(a)</p> <p><i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 4.2.4(OP)</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.6.	<p>Does the certificate holder's Flight Attendant Duties/Cabin Procedures process include instructions and information for each crewmember to have a flashlight in good working order readily available for use on each flight?</p> <p>SRRs: 121.135(a)(1); 121.549(b)</p> <p><i>Related Design JTIs:</i></p> <p>1. The Certificate Holder's manual system contains instructions and information necessary for personnel concerned to have each crewmember on each flight, have readily available for his or her use a flashlight that is in good working order.</p> <p><i>Sources:</i> 121.135(a)(1); 121.549(b)</p> <p><i>Interfaces:</i> 1.1.2(AW); 1.1.2(OP); 2.1.1(AW); 2.1.1(OP); 2.1.2(AW); 2.1.2(OP); 3.1.3(OP); 4.2.4(OP)</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
1.7.	<p>Does the certificate holder's Flight Attendant Duties/Cabin Procedures process include instructions and information to prohibit any passenger-carrying airplane from being moved on the surface, taking off, or landing unless each automatically deployable emergency evacuation assisting means, installed under 14 CFR part 121, section 121.310(a), is ready for evacuation?</p> <p>SRRs: 121.135(a)(1); 121.570(a)</p> <p><i>Related Design JTIs:</i></p>	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable

	<p>1. The Certificate Holder's manual system contains instructions and information necessary for personnel concerned to prohibit a person from causing an airplane carrying passengers to be moved on the surface unless each automatically deployable emergency evacuation assisting means is ready for evacuation. <i>Sources:</i> 121.135(a)(1); 121.570(a) <i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 2.1.2(AW); 2.1.2(OP); 3.1.3(OP); 4.2.4(OP)</p> <p>2. The Certificate Holder's manual system contains instructions and information necessary for personnel concerned to prohibit any person from causing an airplane carrying passengers to take off unless each automatically deployable emergency evacuation assisting means is ready for evacuation. <i>Sources:</i> 121.135(a)(1); 121.570(a) <i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 2.1.2(AW); 2.1.2(OP); 3.1.3(OP); 4.2.4(OP)</p> <p>3. The Certificate Holder's manual system contains instructions and information necessary for personnel concerned to prohibit a person from causing an airplane carrying passengers to land unless each automatically deployable emergency evacuation assisting means is ready for evacuation. <i>Sources:</i> 121.135(a)(1); 121.570(a) <i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 2.1.2(AW); 2.1.2(OP); 3.1.3(OP); 4.2.4(OP)</p>	
1.8.	<p>Does the certificate holder's Flight Attendant Duties/Cabin Procedures process include instructions and information to ensure that, whenever passengers are onboard before airplane movement on the surface, at least one floor-level exit is available for passengers to use by normal or emergency means? <i>SRRs:</i> 121.135(a)(1); 121.570(b)</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
1.9.	<p>Does the certificate holder's Flight Attendant Duties/Cabin Procedures process provide instructions and information to prohibit the use of any portable electronic device on any U.S.-registered civil aircraft operating under part 121 except as provided by section 121.306(b)? <i>SRRs:</i> 121.135(a)(1); 121.306(a) <i>Related Design JTIs:</i></p> <p>1. The Certificate Holder's manual system provides information and instruction to personnel concerned that non-prohibited electronic devices may be used on any U.S. registered civil aircraft under 14CFR Part 121. <i>Sources:</i> 121.135(a)(1); 121.306(a); 121.306(b)(1); 121.306(b)(2); 121.306(b)(3); 121.306(b)(4); 121.306(b)(5) <i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 2.1.2(AW); 2.1.2(OP); 3.1.1(OP); 3.1.3(OP); 4.2.4(OP)</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
1.10.	<p>Does the certificate holder's Flight Attendant Duties/Cabin Procedures process include information on what portable electronic devices are not prohibited under 14 CFR part 121, section 121.306(b)? <i>SRRs:</i> 121.135(a)(1); 121.306(b)(1); 121.306(b)(2); 121.306(b)(4); 121.306(b)(3); 121.306(b)(5) <i>Related Design JTIs:</i></p>	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain

	<p>1. The Certificate Holder's manual system provides information and instruction to personnel concerned that non-prohibited electronic devices may be used on any U.S. registered civil aircraft under 14CFR Part 121.</p> <p><i>Sources:</i> 121.135(a)(1); 121.306(a); 121.306(b)(1); 121.306(b)(2); 121.306(b)(3); 121.306(b)(4); 121.306(b)(5)</p> <p><i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 2.1.2(AW); 2.1.2(OP); 3.1.1(OP); 3.1.3(OP); 4.2.4(OP)</p>	
1.11.	<p>Does the certificate holder's Flight Attendant Duties/Cabin Procedures process include instructions and information regarding the use of oxygen for each cabin attendant as required by 14 CFR part 121, section 121.333(d)?</p> <p>SRRs: 121.135(a)(1); 121.333(d)</p> <p><i>Related Design JTIs:</i></p> <p>1. The Certificate Holder's manual contains instructions and information necessary for personnel concerned to have each attendant, during flight above flight level 250 flight altitude, carry portable oxygen equipment with at least a 15-minute supply of oxygen unless it is shown that enough portable oxygen units with masks or spare outlets and masks are distributed throughout the cabin to ensure immediate availability of oxygen to each cabin attendant, regardless of his location at the time of cabin depressurization.</p> <p><i>Sources:</i> 121.135(a)(1); 121.333(d)</p> <p><i>Interfaces:</i> 1.1.2(AW); 1.1.2(OP); 2.1.1(AW); 2.1.1(OP); 4.2.4(OP)</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.12.	<p>Does the certificate holder's Flight Attendant Duties/Cabin Procedures process include instructions and information for a crewmember to provide the instructions and demonstrations for passengers on the use of oxygen before flight is conducted above flight level 250?</p> <p>SRRs: 121.135(a)(1); 121.333(f)</p> <p><i>Related Design JTIs:</i></p> <p>1. The Certificate Holder's manual contains instructions and information necessary for personnel concerned to have a crewmember instruct the passengers, before flight is conducted above flight level 250, on the necessity of using oxygen, in the event of cabin depressurization.</p> <p><i>Sources:</i> 121.135(a)(1); 121.333(f)</p> <p><i>Interfaces:</i> 1.1.2(AW); 1.1.2(OP); 2.1.1(AW); 2.1.1(OP); 4.2.4(OP)</p> <p>2. The Certificate Holder's manual contains instructions and information necessary for personnel concerned to have a crewmember point out to the passengers the location of the oxygen-dispensing equipment before flight is conducted above flight level 250.</p> <p><i>Sources:</i> 121.135(a)(1); 121.333(f)</p> <p><i>Interfaces:</i> 1.1.2(AW); 1.1.2(OP); 2.1.1(AW); 2.1.1(OP); 4.2.4(OP)</p> <p>3. The Certificate Holder's manual contains instructions and information necessary for personnel concerned to have a crewmember demonstrate to the passengers the use of the oxygen-dispensing equipment, before flight is conducted above flight level 250.</p> <p><i>Sources:</i> 121.135(a)(1); 121.333(f)</p> <p><i>Interfaces:</i> 1.1.2(AW); 1.1.2(OP); 2.1.1(AW); 2.1.1(OP); 4.2.4(OP)</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable

1.13.	Does the certificate holder's Flight Attendant Duties/Cabin Procedures process include instructions and information to provide and use means to prevent: SRRs: 121.135(a)(1); 121.576	
1.13.1	Each item of galley equipment from becoming a hazard by shifting under emergency landing conditions? SRRs: 121.576 <i>Related Design JTIs:</i> 1. The Certificate Holder's manual system contains instructions and information necessary for personnel concerned to prevent each item of galley equipment and each serving cart, when not in use which is carried in a passenger or crew compartment from becoming a hazard by shifting under the appropriate load factors corresponding to the emergency landing conditions under which the airplane was type certificated. <i>Sources:</i> 121.135(a)(1); 121.576 <i>Interfaces:</i> 1.3.1(AW); 1.3.9(AW); 2.1.1(AW); 2.1.1(OP); 2.1.2(AW); 2.1.2(OP); 3.1.5(OP); 3.1.8(OP); 4.2.4(OP)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.13.2	Each serving cart, when not in use, from becoming a hazard by shifting under emergency landing conditions? SRRs: 121.576 <i>Related Design JTIs:</i> 1. 1.32.	Does the certificate holder's Flight Attendant Duties/Cabin Procedures process include procedures for the proper loading and stowage of United States Air Force (USAF)-supplied medical equipment and supplies when carried as cargo in the passenger compartment? SRRs: A.522d	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.33.	Does the certificate holder's procedures for the proper loading and stowage of USAF-supplied medical equipment and supplies, when carried as cargo in the passenger compartment, include that: SRRs: A.522d(1)	
1.33.1	The medical equipment and supplies must be contained in a series of containers designed for this purpose and are essential for in-flight patient care? SRRs: A.522d(1)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.33.2	The equipment must be securely fastened with tie-down straps when not in use, during movement on the surface and during flight, that prevent uncontrolled movement so as to not block emergency exits or escape paths at any time? SRRs: A.522d(2)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.34.	Does the certificate holder s Flight Attendant Duties/Cabin Procedures process have appropriate procedures in place for the use of flight crewmembers, persons substituting for flight crewmembers, flight attendants, persons substituting for flight attendants, USAF Patient Loading Teams, and Aeromedical Evacuation Crew Members (AECMs) during an emergency evacuation? SRRs: A.522e	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.35.	Does the certificate holder s Flight Attendant Duties/Cabin Procedures process the include instructions and information necessary for personnel to instruct USAF Patient Loading Team or AECMs, as applicable on the use of emergency evacuation procedures before the first and subsequent Aeromedical Evacuation (AE) flights? SRRs: A.522e	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.36.	Does the certificate holder's Flight Attendant Duties/Cabin Procedures process include approved policies and procedures for substituting an employee in the place of the full complement of flight attendants: SRRs: A.522j(1)	
1.36.1	During lengthy litter patient and passenger loading? SRRs: A.522j(1)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.36.2	When the crew is to be replaced at a stop and passengers remain on board? SRRs: A.522k	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.37.	Does the certificate holder s instructions and information for substituting an employee in the place of the full complement of flight attendants during AE operations that requires at least one of the flight crewmembers listed in the flight s flight release must be on duty in the cockpit or, a person who is an employee who is authorized to substitute for the flight crewmember on duty in the cockpit?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable

	SRRs: 121.135(a)(1); A.522j(2)	
1.38.	Does the certificate holder s instructions and information for substituting an employee in the place of a flight attendant during AE operations require that any person who substitutes for a flight attendant is required to be qualified by: SRRs: A.522j(1); A.522j(2)	
1.38.1	Being knowledgeable of, and able to operate the airplane emergency communication equipment to include PA and interphone? SRRs: A.522j(3)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.38.2	Being able to work through a cockpit duty person to communicate with ground personnel when necessary? SRRs: A.522j(3)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.38.3	Being familiar with galley equipment and be able to shut off galley service heating equipment? SRRs: A.522j(3)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.38.4	Being able to locate and remove from stowage and operate each type of aircraft emergency equipment to be used for ground operations? SRRs: A.522j(3); A.522j(4)(a)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.38.5	Being able to locate and operate emergency exits to include slide packs where used? SRRs: A.522j(3); A.522j(4)(a)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.38.6	Being able to match fire extinguisher with class of fire and be able to operate each type of extinguisher? SRRs: A.522j(3); A.522j(4)(a)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.38.7	Being knowledgeable in ground fire fighting procedures to include emergency evacuation? SRRs: A.522j(3); A.522j(4)(a)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.39.	Does the certificate holder s Flight Attendant Duties/Cabin Procedures process include instructions and information that when substituting an employee person in the place of the full complement of flight attendants during Aeromedical Supplemental Operations that require: SRRs: 121.135(a)(1); A.522j(2)	
1.39.1	That at least one of the flight crewmembers listed in the flight s flight release must be on duty in the cockpit or, a person who is an employee who is authorized to substitute for the flight crewmember on duty in the cockpit? SRRs: A.522j(2)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.39.2	That any person who substitutes for the flight crewmember on duty in the cockpit be required to: SRRs: A.522j(2)	
1.39.2.1	Be in the cockpit on duty at all times? SRRs: A.522j(2)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable

1.39.2.2	Be knowledgeable of the emergency equipment and procedures necessary to coordinate with other crewmembers and ground crew, and be able to use the airplane radio communication equipment to call for fire and rescue services in an emergency? SRRs: A.522j(2)(a)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.39.2.3	Be knowledgeable of the aircraft electrical system including appropriate circuit breakers and properly manage the external power system? SRRs: A.522j(2)(b)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.39.2.4	Be knowledgeable of, and be able to accomplish fuel, oil, oxygen and other servicing procedures if servicing is permitted during substitute? SRRs: A.522j(2)(c)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.39.2.5	Meet the qualification requirements stated in Operations Specification A522j(4)? SRRs: A.522j(2)(d)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.40.	Does the certificate holder's Flight Attendant Duties/Cabin Procedures process comply with the guidance contained in FAA Order 8900.1, Volume 3, Chapter 33, Section 4, Paragraph 3-3511?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.41.	Does the certificate holder's Flight Attendant Duties/Cabin Procedures process comply with the guidance contained in FAA Order 8900.1, Volume 3, Chapter 33, Section 4, Paragraph 3-3512? <i>Related Design JTIs:</i> 1. The certificate holder's manual states that the flight attendants must be uniformly distributed throughout the operation of flight, including when the aircraft is parked at the gate and during movement on the surface, to provide passengers the most effective egress in the event of aircraft evacuation. <i>Sources:</i> FAA Order 8900.1, Vol 3, Ch 33, Sec 4, Para 3-3512. <i>Interfaces:</i> 2.1.1(OP); 3.1.1(OP); 4.2.4(OP) 2. The certificate holder's manual states that flight attendants shall not congregate in one area (such as the first class cabin) when passengers are on board. <i>Sources:</i> FAA Order 8900.1, Vol 3, Ch 33, Sec 4, Para 3-3512A <i>Interfaces:</i> 2.1.1(OP); 4.2.4(OP) 3. The certificate holder's manual states the location of required flight attendant stations that is not be contrary to the Type Certification Data Sheet of the Flight Standards Board (FSB) report for that aircraft. <i>Sources:</i> FAA Order 8900.1, Vol 3, Ch 33, Sec 4, Para 3-3512B <i>Interfaces:</i> 2.1.1(OP); 4.2.4(OP)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.42.	Does the certificate holder's Flight Attendant Duties/Cabin Procedures process comply with the guidance contained in FAA Order 8900.1, Volume 3, Chapter 33, Section 4, Paragraph 3-3514? <i>Related Design JTIs:</i> 1. The certificate holder's instructions and information to personnel concerned state that supernumerary personnel are to be seated during take-off.	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable

	<p><i>Sources:</i> FAA Order 8900.1, Vol 3, Ch 33, Sec 4, Para 3-3514 <i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 4.2.4(OP)</p> <p>2. The Certificate Holder's manual system will describe the functions for each type and model of airplane, assigned to each category of required crewmember, as appropriate, the necessary functions to be performed in an emergency or a situation requiring emergency evacuation. The Certificate Holder shall show those functions in 121.397(a) are realistic, can be practically accomplished, and will meet any reasonably anticipated emergency including the possible incapacitation of individual crewmembers or their inability to reach the passenger cabin because of shifting cargo in combination cargo-passenger airplanes</p> <p><i>Sources:</i> 121.397(a); 121.397(b)</p> <p><i>Interfaces:</i> 2.1.1(AW); 2.1.1(OP); 4.2.4(OP)</p> <p>12. The Certificate Holder's manual system includes the functions of each category of required crewmembers under paragraph (a) of 121.397.</p> <p><i>Sources:</i> 121.397(b)</p>	
--	---	--

	<i>Interfaces: 2.1.1(AW); 2.1.1(OP); 4.2.4(OP)</i>	
3.	Does the certificate holder's manual reference the appropriate Federal Aviation Regulations listed in the Supplemental Information section of this safety attribute inspection (SAI)? SRRs: 121.135(b)(3)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
4.	Does the certificate holder's manual contain the duties and responsibilities for personnel who will accomplish the Flight Attendant Duties/Cabin Procedures process? SRRs: 121.135(b)(2)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
5.	Does the certificate holder's manual include instructions and information for personnel to meet the requirements of the Flight Attendant Duties/Cabin Procedures process? SRRs: 121.135(a)(1)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain

<b>SAI Section 1 - Procedures Attribute Drop-Down Menu</b>	
1.	No procedures, policy, instructions or information specified.
2.	Procedures or instructions and information do not identify (who, what, when, where, how).
3.	Procedures, policy or instructions and information do not comply with CFR.
4.	Procedures, policy or instructions and information do not comply with FAA policy and guidance.
5.	Procedures, policy or instructions and information do not comply with other documentation (e.g., manufacturer's data, Jeppesen's Charts, etc.).
6.	Procedures, policy or instructions and information unclear or incomplete.
7.	Documentation quality (e.g., unreadable or illegible).
8.	Procedures, policy or instructions and information inconsistent across Certificate Holder manuals (FOM - Flight Operations Manual to GMM - General Maintenance Manual, etc.).
9.	Procedures, policy or instructions and information inconsistent across media (e.g., paper, microfiche, electronic).
10.	Resource requirements incomplete (personnel, facilities, equipment, technical data).
11.	Other.

### SAI Section 2 - Controls Attribute

**Objective:** Controls are checks and restraints designed into a process to ensure a desired result. The questions in this section of the DCT are designed to assist the inspector in determining if checks and restraints are designed into the process to ensure the desired result is achieved. Controls should be written into the system to ensure that the most important policies, procedures, or instructions and information will be followed.

Controls may be in the form of administrative controls, which are secondary or supplemental written procedures. Like written procedures, administrative controls also need to provide answers to questions regarding who, what, when, where, and how. Controls may also be in the form of engineered controls, such as automated features or mechanical actions or devices (i.e., safety devices, warning devices, etc.).

#### Tasks

To meet this objective, the inspector must accomplish the following tasks:

1. Review the control questions below.
2. Review the certificate holder's policies, procedures, instructions, and information to gain an understanding of the controls that it has documented.

#### Questions

	To meet this objective, the inspector must answer the following questions:	
1.	Are the following controls built into the Flight Attendant Duties/Cabin Procedures process:	
1.1.	Is there a control or controls in place to ensure that required cabin preflight duties are conducted in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
1.2.	Is there a control or controls in place to ensure that checks of emergency and flotation equipment are accomplished by appropriate personnel?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
1.3.	Is there a control or controls in place to ensure that crew briefings are conducted in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.4.	Is there a control or controls in place to ensure that all flight attendants are in possession of a current manual when performing assigned duties?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.5.	Is there a control or controls in place to ensure that flight attendants are evenly distributed throughout the aircraft in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.6.	Is there a control or controls in place to ensure that flight attendants prepare the passenger cabin for movement on the surface, takeoff, and landing in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.7.	Is there a control or controls in place to ensure that aircraft exits are armed/disarmed in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable

1.8.	Is there a control or controls in place to ensure that safety demonstrations and passenger briefings are accomplished in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.9.	Is there a control or controls in place to ensure that the flight deck door is closed and locked in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.10.	Is there a control or controls in place to ensure that flight attendants are properly restrained at their assigned duty stations for movement on the surface, takeoff, and landing, unless performing safety-related duties?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.11.	Is there a control or controls in place to ensure that galleys and carts are secured during movement on the surface, takeoff, landing, and when not in use, in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.12.	Is there a control or controls in place to ensure that flight attendants observe sterile flight deck procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.13.	Is there a control or controls in place to ensure that restricted passengers (such as armed individuals, prisoners, escorts, and intoxicated passengers) are not served alcohol?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.14.	Is there a control or controls in place to ensure that cabin maintenance discrepancies are documented in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.15.	Is there a control or controls in place to ensure that all passenger irregularities/disturbances are reported in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.16.	Is there a control or controls in place to ensure that the certificate holder's procedures for the number of required crewmembers onboard the aircraft are followed?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.17.	Is there a control or controls in place to ensure that passengers remaining onboard during en route stops are monitored in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.18.	Is there a control or controls in place to ensure that the certificate holder's procedures regarding prohibited electronic devices are followed?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
1.19.	Is there a control or controls in place to ensure that flight attendants monitor passenger compliance with regulations throughout the flight?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.20.	Is there a control or controls in place to ensure that flight attendants know the certificate holder's normal operating procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.21.	Is there a control or controls in place to ensure that flight attendants know the certificate holder's emergency procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
2.	Does the certificate holder have a documented method for assessing the impact of any changes made to the controls in the Flight Attendant Duties/Cabin Procedures process?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain

<b>SAI Section 2 - Controls Attribute Drop-Down Menu</b>	
1.	No controls specified.
2.	Documentation for the controls do not identify (who, what, when, where, how).
3.	Controls incomplete.
4.	Controls could be circumvented.
5.	Controls could be unenforceable.
6.	Resource requirements incomplete (personnel, facilities, equipment, technical data).
7.	Other.

### SAI Section 3 - Process Measurement Attribute

**Objective:** Process measurements are used by the certificate holder to measure and assess its processes, to identify and correct problems or potential problems, and to make improvements to the processes. The questions in this section of the DCT are designed to assist the inspector in determining if the certificate holder measures or assesses information to identify, analyze, and document potential problems with the process. Process measurements are a certificate holder's internal evaluation or auditing of the most important policies, procedures, or instructions and information associated with an element.

To prevent the duplication of work, process measurements are most commonly addressed through a combination of auditing features contained in both the certificate holder's safety program/internal evaluation program (for operations and cabin safety-related issues) and the auditing function of the Continuous Analysis and Surveillance System (for airworthiness or maintenance/inspection-related issues). The director of safety and the quality assurance department often work together to accomplish this function for the certificate holder. This approach requires amendment of the safety program/internal evaluation program audit forms or checklists and the Continuous Analysis and Surveillance System audit forms or checklists to include the specific process measurements for each element.

#### Tasks

	To meet this objective, the inspector must accomplish the following tasks:
1.	Review the process measurement questions below.
2.	Review the certificate holder's policies, procedures, instructions, and information to gain an understanding of the process measurements that it has documented.

#### Questions

	To meet this objective, the inspector must answer the following questions:	
1.	Does the certificate holder's Flight Attendant Duties/Cabin Procedures process include the following process measurements:	
1.1.	Is there a process measurement or process measurements that would identify if required cabin preflight duties were not conducted in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
1.2.	Is there a process measurement or process measurements that would identify if checks of emergency and flotation equipment were not accomplished by appropriate personnel?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
1.3.	Is there a process measurement or process measurements that would identify if a crew briefing was not conducted in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.4.	Is there a process measurement or process measurements that would identify if flight attendants failed to be in possession of a current manual when performing assigned duties?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.5.	Is there a process measurement or process measurements that would identify if flight attendants failed to be evenly distributed throughout the aircraft in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable

1.6.	Is there a process measurement or process measurements that would identify if flight attendants failed to prepare the passenger cabin for movement on the surface, takeoff, and landing, in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.7.	Is there a process measurement or process measurements that would identify if aircraft exits were not armed/disarmed in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.8.	Is there a process measurement or process measurements that would identify if safety demonstrations and passenger briefings were not accomplished in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.9.	Is there a process measurement or process measurements that would identify if the flight deck door was not closed and locked in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.10.	Is there a process measurement or process measurements that would identify if flight attendants failed to be properly restrained at their assigned duty stations for movement on the surface, takeoff, and landing, unless performing safety-related duties?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.11.	Is there a process measurement or process measurements that would identify if galleys and carts were not secured during movement on the surface, takeoff, landing, or when not in use, in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.12.	Is there a process measurement or process measurements that would identify if flight attendants failed to observe sterile flight deck procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.13.	Is there a process measurement or process measurements that would identify if restricted passengers (such as armed individuals, prisoners, escorts, and intoxicated passengers) were served alcohol?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.14.	Is there a process measurement or process measurements that would identify if cabin maintenance discrepancies were not documented in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.15.	Is there a process measurement or process measurements that would identify if passenger irregularities/disturbances were not reported in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.16.	Is there a process measurement or process measurements that would identify if the certificate holder's procedures for the number of required crewmembers onboard the aircraft were not followed?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.17.	Is there a process measurement or process measurements that would identify if passengers remaining onboard during en route stops were not monitored in accordance with the certificate holder's procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.18.	Is there a process measurement or process measurements that would identify if the certificate holder's procedures regarding portable electronic devices were not followed?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
1.19.	Is there a process measurement or process measurements that would identify if flight attendants failed to monitor passenger compliance with the regulations throughout the flight?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.20.	Is there a process measurement or process measurements that would identify if flight attendants did not know the certificate holder's normal operating procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain

		<input type="checkbox"/> Not Applicable
1.21.	Is there a process measurement or process measurements that would identify if flight attendants did not know the certificate holder's emergency procedures?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
2.	Is there a process measurement or process measurements that would reveal if the certificate holder's policy, procedures, instructions, and information were not followed?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
3.	Does the certificate holder document its process measurement results?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
4.	Does the certificate holder use of process measurement results to improve its programs?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
5.	Does the organization that conducts the process measurements have direct access to the person with responsibility for the Flight Attendant Duties/Cabin Procedures process?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain

<b>SAI Section 3 - Process Measurement Attribute Drop-Down Menu</b>	
1.	No process measurements specified.
2.	Documentation for the process measurements does not identify (who, what, when, where, how).
3.	Inability to identify negative findings.
4.	No provisions for implementing corrective actions.
5.	Ineffective follow-up to determine effectiveness of corrective actions.
6.	Resources requirements (personnel, facilities, equipment, technical data).
7.	Other.

### SAI Section 4 - Interfaces Attribute

**Objective:** Interfaces are used by the certificate holder to identify and manage the interactions between processes. The questions in this section of the DCT are designed to assist the inspector in determining whether or not interactions between the policies, procedures, or instructions and information associated with other independent processes within the certificate holder's organization are documented. Written policies, procedures, or instructions and information that are interrelated and located in different areas within the certificate holder's system must be consistent and complement each other. For the interfaces to be effectively managed, the certificate holder's system should identify and document the interfaces.

#### Tasks

	To meet this objective, the inspector must accomplish the following tasks:
1.	Review the interfaces associated with the Flight Attendant Duties/Cabin Procedures process that have been identified along with the individual questions in section 1, Procedures, of this DCT.
2.	Review the certificate holder's policies, procedures, instructions, and information to gain an understanding of the interfaces that it has documented.

#### Questions

	To meet this objective, the inspector must answer the following questions:	
	NOTE: The design job task items (JTIs) displayed with the questions in section 1, Procedures, of this DCT identify potential interfaces (by element number) for this element.	
1.	Does the certificate holder's system properly address the interfaces that are identified along with the questions in section 1, Procedures, of this DCT?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
2.	Does the certificate holder document a method for assessing the impact of any changes to the associated interfaces within the Flight Attendant Duties/Cabin Procedures process?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain

<b>SAI Section 4 - Interfaces Attribute Drop-Down Menu</b>	
1.	No interfaces specified.
2.	The following interfaces not identified within the Certificate Holder's manual system:
3.	Interfaces listed are inaccurate.
4.	Specific location of interfaces not identified within the manual system.
5.	Other

### SAI Section 5 - Management Responsibility & Authority Attributes

**Objective:** The questions in this section of the DCT address the responsibility and authority of the process. They are designed to assist the inspector in determining if there is a clearly identifiable, qualified, and knowledgeable person who is responsible for the process, is answerable for the quality of the process, and has the authority to establish and modify the process. (The person with the authority may or may not be the person with the responsibility.)

#### Tasks

	To meet this objective, the inspector must accomplish the following tasks:
1.	Identify the person who has overall responsibility for the Flight Attendant Duties/Cabin Procedures process.
2.	Identify the person who has overall authority for the Flight Attendant Duties/Cabin Procedures process.
3.	Review the duties and responsibilities of the person(s) documented in the certificate holder's manual.
4.	Review the appropriate organizational chart.

#### Questions

	To meet this objective, the inspector must answer the following questions:	
1.	Does the certificate holder clearly identify who is responsible for the quality of the Flight Attendant Duties/Cabin Procedures process?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain Name/Title:
2.	Does the certificate holder clearly identify who has authority to establish and modify the policies, procedures, instructions, and information for the Flight Attendant Duties/Cabin Procedures process?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain Name/Title:
3.	Does the certificate holder's manual include the duties and responsibilities of those who manage the work required by the Flight Attendant Duties/Cabin Procedures process? SRRs: 121.135(b)(2)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
4.	Does the certificate holder's manual include instructions and information for those who manage the work required by the Flight Attendant Duties/Cabin Procedures process? SRRs: 121.135(a)(1)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
5.	Does the certificate holder clearly and completely document the responsibility for this position?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
6.	Does the certificate holder clearly and completely document the authority for this position?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
7.	Does the certificate holder clearly and completely document its qualification standards for the person having responsibility for the Flight Attendant Duties/Cabin Procedures process?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
8.	Does the certificate holder clearly and completely document its qualification standards for the person having authority to establish and modify the certificate holder's policies, procedures, instructions, and information for the Flight Attendant Duties/Cabin Procedures process?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain

9.	Does the certificate holder clearly and completely document the procedures for delegation of authority for the Flight Attendant Duties/Cabin Procedures process?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
----	--	--

<b>SAI Section 5 - Management Responsibility &amp; Authority Attributes Drop-Down Menu</b>
1. Not documented.
2. Documentation unclear.
3. Documentation incomplete.
4. Other.
