1	INCLUDING APERTURED BOARD AND	34	AERODYNAMICALLY SUPPORTED OR
	ELEMENT HAMMERED INTO APERTURE		RETARDED
2	DOMINO EFFECT	35	.Ornithopter
3	INCLUDING VIBRATING OR	36	.Including rotary wing (e.g.,
3	HORIZONTALLY RECIPROCATING		helicopter, flying propeller,
	SUPPORT FOR TRAVELLING OBJECT		autogyro, etc.)
	OR TRAVELLING OBJECT THEREFOR	37	And means to rotate wing
4	HAVING PORTIONS KNOCKED APART OR	38	Separable rotating means
	AWRY BY IMPACT	39	Including resilient actuator
5	.Including portion serving as	40	Including flaccid pulling
	container for diverse articles		element
	(e.g., pinata)	41	Having rewinding spring or
6	.Vehicle		plural discrete flaccid
7	SIMULATION OF VEHICLE COCKPIT OR		elements
	OF VEHICLE CONTROL	42	Flaccid element wound about
8	TOY MONEY BOX		and in contact with portion
9	.Having figure or mechanism		which moves aloft
	operated or released by coin	43	Including spiral actuator
10	.Having coin depositing mechanism	44	Including elastomeric actuator
11	Coin projector	45	And projector
12	Coin depositing figure	46	.Spinning disc (e.g., flying
13	.Having retractable coin slot or		saucer)
13	quard	47	With electric light or sounder
14	OPERATED BY INTRINSIC TEMPERATURE	48	Having through air passage
	CHANGE	49	.Parachute
15	HAVING MEANS FOR FORMING	50	Released from airplane or
13	TRANSITORY BUBBLE		simulated airplane
16	.Including movably mounted means	51	Released from container
	to dip orificed member into	52	From rocket or simulated
	solution		rocket
17	And mouthpiece	53	Container detached from
18	And variable size air chamber		parachute
19	.Including mouthpiece	54	And separable projector
20	And solution reservoir with	55	.Having retractable landing gear
20	discrete intermediate passage	56	.Jet-propelled
	leading to bubble forming area	57	.Having motor-driven propeller
21	.Including variable size air	58	Gear-driven or having plural
21	chamber		propellers
22	SPARKING	59	Elastomeric motor (e.g., rubber
23	.Figure, wheeled, or simulated		band)
23	weapon	60	Enclosed
24	SMOKING	61	.Glider
25	.Wheeled vehicle	62	Having folding wing
26	BODY-CARRIED OR WORN	63	And projector or launcher
27	.Facial, head or neck	64	Resiliently biased projector
28	.Torso	65	Including means to retain
29	STRADDLED		resilient propulsion member in
30	TETHERED FIXED-WING AIRCRAFT		stressed condition
31	.Tether-manipulated control or	66	Having adjustably mounted
J 1	mechanism		airfoil
32	Elevator control only	67	Having longitudinally folded or
33	.Including aircraft-carried		creased fuselage
55	propulsion means	68	Having ballast feature
	Proparoton mound		-

153	AQUATIC		-

185	Including external fluid-	215	Having tether for whirling
	operated accessory or means to		sounder
	move figure portion	216	Whistle or siren
186	Contractable balloon for moving	217	.Having fluid-driven rotatable
	fluid		radial blade (e.g., pinwheel)
187	Jet-propelled balloon	218	Rollable or having plural
188	Sounding		rotating bladed members
189	Wheel-actuated	219	HAVING CHEMILUMINESCENT LIGHT
190	And tearing, or having		SOURCE, OPTIC FIBER, MIRROR,
	mechanism or manipulatable		OR LENS
	means for moving figure	220	INFLATABLE
	portion	221	.Having separately inflatable
191	Having electrical or wind-up		parts
	motor	222	.Including externally applied
192	Including motive power means		sealing element
	or hand manipulator for	223	.And means attachable to form a
	sounder		figure
193	And bellows or bulb	224	.Having check valve
194	Rotary or pivoted valve	225	.Simulated aerial or space
195	Reciprocating valve		vehicle
196	Including piston slidable	226	.Figure
	along central apertured member	227	INFANT'S TOY AND MEANS FOR
197	Bellows or bulb for moving		RETAINING, ATTACHING, OR
	fluid		SUPPORTING TOY IN INFANT'S
198	To move figure or figure		ENVIRONMENT
	portion	228	SUSPENDED FOR TRAVEL BELOW GUIDE
199	.For changing or moving figure or		OR SUPPORT MEANS
	figure part	229	.Including electrical or wind-up
200	Including mouthpiece for		propulsion motor
	blowing or sucking	230	SIMULATED AIRCRAFT OR SPACE
201	Including fluid-driven rotary		VEHICLE (I.E., NON-
	blades		AERODYNAMIC)
202	.Including mouthpiece for blowing	231	.Space vehicle or rocket
	or sucking	232	.Having means to rotate propeller
203	Plural differently operated		or rotor
	sounders	233	GYROSCOPIC
204	Whistle or siren	234	.Having figure
205	Including discrete relatively	235	.Having detachable cord for
	movable portions		spinning
206	Including distinct means for	236	ROTATING OR HAVING VISIBLE
	enabling selection of pitch		ROTATING PORTION (E.G.,
207	Vibratory reed sounder		SPINNING OR WHIRLING, NOT
208	Including distinct means for		ROLLING)
	enabling selection of pitch	237	.On wheeled support
209	And cone-shaped terminal	238	And having additional portion
	portion (e.g., horn)		which reciprocates or
210	.Convection-operated		oscillates, or which rotates
211	.Having jet propulsion	0.2.0	about distinct axis
212	And multiple stages or holder	239	.Including corrugated support for
	for launching	0.40	imparting rotation
213	.Sounding	240	.Including unattached rod for
214	Having twistable or	0.44	manipulating toy
	intertwistable flaccid strands	241	.Including helically grooved or
	for rotating sounder		twisted shaft for imparting
			rotation

242	.Including electric light or electric sounder	280	Including wheel-driven mechanism for moving figure or
243	.Including markings producing		figure portion
	<pre>visual effect (e.g., chromatic)</pre>	281	Plural relatively moving figures
244	Thaumatropic effect	282	Dependent movement or common
245	Cord impeller		component
246	.Including hand crank for	283	One figure mounted on
	imparting rotation		another figure
247	.Having attached cord for imparting rotation	284	Relatively moving portions of one figure
248	Wound about rotatable member	285	Having moving limb or foot to
249	Including spring to rewind		simulate walking
250	Bandalore	286	Figure movement simulates
251	Including sounder, figure, or		propulsion of wheeled support
	vehicle	287	Movement about vertical axis
252	Sounding		or by bent support wheel axle
253	Intertwistable flaccid strands	288	Including means to move figure
254	Including sounding means		or figure portion with respect
255	.Aerial (e.g., diabolo)		to wheeled support
256	.Top	289	Including axle through or
257	Plural tops		within figure
258	Including sounding means	290	Front and rear axles
259	And means for spinning	291	More than two axles
260	Spring impeller	292	Including wheel-driven
261	Cord impeller		mechanism for moving figure
262	Including holding means	0.00	portion or accessory
263	Separable	293	For moving limb or foot to
264	Having special tip or spindle	0.04	simulate walking
265	.Sounding	294	Having moving limb or foot to
200			
266	.Handle supported manually	205	walk or simulate walking
266	.Handle supported manually actuated rotating portion	295	.Having means to simulate
<ul><li>266</li><li>267</li></ul>		295	.Having means to simulate respiration, heartbeat, body

266 267 268 269 270 271	actuated rotating portion  HAVING ENCLOSED LIQUID  FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanism		.Having means to simulate respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor
266 267 268 269 270	actuated rotating portion  HAVING ENCLOSED LIQUID  FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for		.Having means to simulate respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical
266 267 268 269 270 271	actuated rotating portion  HAVING ENCLOSED LIQUID  FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure		.Having means to simulate respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care,
266 267 268 269 270 271	actuated rotating portion  HAVING ENCLOSED LIQUID  FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portion	296	.Having means to simulate respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.)
266 267 268 269 270 271	actuated rotating portion  HAVING ENCLOSED LIQUID  FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of	296 297	.Having means to simulate respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding means
266 267 268 269 270 271 272	actuated rotating portion  HAVING ENCLOSED LIQUID  FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axis	296 297	.Having means to simulate respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding meansAnd internal mechanism to move figure portion
266 267 268 269 270 271	actuated rotating portion  HAVING ENCLOSED LIQUID  FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axisIncluding wheel-driven	296 297 298	.Having means to simulate respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding meansAnd internal mechanism to move
266 267 268 269 270 271 272	actuated rotating portion  HAVING ENCLOSED LIQUID  FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axisIncluding wheel-driven mechanism for moving figure	296 297 298 299	.Having means to simulate respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding meansAnd internal mechanism to move figure portionPhonograph, tape, or wire
266 267 268 269 270 271 272 273 274	actuated rotating portion  HAVING ENCLOSED LIQUID  FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axisIncluding wheel-driven mechanism for moving figure portion	296 297 298 299 300	.Having means to simulate respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding meansAnd internal mechanism to move figure portionPhonograph, tape, or wireHead or head part movement
266 267 268 269 270 271 272 273 274	actuated rotating portion  HAVING ENCLOSED LIQUID  FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axisIncluding wheel-driven mechanism for moving figure portionVehicle and external figure	296 297 298 299 300	.Having means to simulate respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding meansAnd internal mechanism to move figure portionPhonograph, tape, or wireHead or head part movementEye, eyelid, or mouth
266 267 268 269 270 271 272 273	actuated rotating portion  HAVING ENCLOSED LIQUID  FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axisIncluding wheel-driven mechanism for moving figure portionVehicle and external figureHaving moving limb or foot to	296 297 298 299 300 301	.Having means to simulate respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding meansAnd internal mechanism to move figure portionPhonograph, tape, or wireHead or head part movementEye, eyelid, or mouth movement
266 267 268 269 270 271 272 273 274 275 276	actuated rotating portion  HAVING ENCLOSED LIQUID  FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axisIncluding wheel-driven mechanism for moving figure portionVehicle and external figureHaving moving limb or foot to simulate walking	296 297 298 299 300 301 302	.Having means to simulate respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding meansAnd internal mechanism to move figure portionPhonograph, tape, or wireHead or head part movementEye, eyelid, or mouth movementPhonograph, tape, or wire
266 267 268 269 270 271 272 273 274	actuated rotating portion  HAVING ENCLOSED LIQUID  FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axisIncluding wheel-driven mechanism for moving figure portionVehicle and external figureHaving moving limb or foot to simulate walkingBy direct linkage to vehicle	296 297 298 299 300 301 302	.Having means to simulate respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding meansAnd internal mechanism to move figure portionPhonograph, tape, or wireHead or head part movementEye, eyelid, or mouth movementPhonograph, tape, or wireAnd motive power means or hand
266 267 268 269 270 271 272 273 274 275 276 277	actuated rotating portion  HAVING ENCLOSED LIQUID  FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently   recovering striking mechanismAnd wheel-driven mechanism for   moving figure or figure   portionPivoted figure having center of   gravity below pivot axisIncluding wheel-driven   mechanism for moving figure   portionVehicle and external figureHaving moving limb or foot to   simulate walkingBy direct linkage to vehicle   wheel or axle	296 297 298 299 300 301 302 303	.Having means to simulate respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding meansAnd internal mechanism to move figure portionPhonograph, tape, or wireHead or head part movementEye, eyelid, or mouth movementPhonograph, tape, or wireAnd motive power means or hand crank
266 267 268 269 270 271 272 273 274 275 276	actuated rotating portion  HAVING ENCLOSED LIQUID  FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axisIncluding wheel-driven mechanism for moving figure portionVehicle and external figureHaving moving limb or foot to simulate walkingBy direct linkage to vehicle wheel or axleElongate figure having writhing	296 297 298 299 300 301 302 303 304	.Having means to simulate respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding meansAnd internal mechanism to move figure portionPhonograph, tape, or wireHead or head part movementEye, eyelid, or mouth movementPhonograph, tape, or wireAnd motive power means or hand crank .Nursing, eating, or drinking
266 267 268 269 270 271 272 273 274 275 276 277 278	actuated rotating portion  HAVING ENCLOSED LIQUID  FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently   recovering striking mechanismAnd wheel-driven mechanism for   moving figure or figure   portionPivoted figure having center of   gravity below pivot axisIncluding wheel-driven   mechanism for moving figure   portionVehicle and external figureHaving moving limb or foot to   simulate walkingBy direct linkage to vehicle   wheel or axleElongate figure having writhing   or undulating movement	296 297 298 299 300 301 302 303 304 305	.Having means to simulate respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding meansAnd internal mechanism to move figure portionPhonograph, tape, or wireHead or head part movementEye, eyelid, or mouth movementPhonograph, tape, or wireAnd motive power means or hand crank .Nursing, eating, or drinkingAnd tearing or wetting
266 267 268 269 270 271 272 273 274 275 276 277	actuated rotating portion  HAVING ENCLOSED LIQUID  FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axisIncluding wheel-driven mechanism for moving figure portionVehicle and external figureHaving moving limb or foot to simulate walkingBy direct linkage to vehicle wheel or axleElongate figure having writhing	296 297 298 299 300 301 302 303 304 305 306	.Having means to simulate respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding meansAnd internal mechanism to move figure portionPhonograph, tape, or wireHead or head part movementEye, eyelid, or mouth movementPhonograph, tape, or wireAnd motive power means or hand crank .Nursing, eating, or drinkingAnd tearing or wetting .Tearing

308	.Leaping or projected figure or accessory	338	And means to move or manipulate head
309	Figure	339	Changeable by hand-
310	From within enclosure (e.g.,		manipulatable means
310	"Jack-in-the-box")	340	Manipulatable means is
311	Self-projecting	340	different body portion
312	By impulse from moving limb	341	Including changeable eye
J12	or foot	342	Movable eyelid
313	Animal and rider	343	Movable eyella Movable eye
314	.Including guide for ascending or	344	<del>-</del>
314		344	Universally movableAbout horizontal axis
315	descending figureAnd flaccid element for		
213		346	Independently movable eyes
316	supporting or moving figure	347	Incrementally closed by
310	.Constructed for walking down incline	2.4.0	rocking figure
217		348	Having end-mounted axle, or
317	.Including spring for returning		relatively pivoted or sliding
240	limb or foot during walking	2.40	anchoring portions
318	.Including musical instrument or simulation thereof	349	Having lock or drag for eye movement, or having spring
319	.Variable length hair		acting against axle in slot
320	.Enlargeable or elongatable	350	Adjustable eye spacing
	figure or figure portion	351	Operated by movably mounted
321	.Having selectively displayed		weight
	alternative faces, limbs, or bodies	352	Including motive-power means or hand-crank mechanism
322		353	Motive-power means intrinsic
322	<pre>.Seesawing or swinging (e.g.,   jumping jack)</pre>	333	to figure
323	Including flaccid support or	354	Human figure having movably
	actuator for figure		attached arm or leg portion
324	.Tumbling		moved by motive power means
325	.Balanced or self-righting	355	Walking
326	Having relatively movable	356	Four moving supporting limbs
	section on balanced or self-		or feet
	righting portion	357	Plural relatively moving
327	.Having hand-or finger-		figures
	accommodating means in figure	358	Including extrinsic electric
328	Hand or finger forms visible		or wind-up motor
	part of figure	359	Including support or
329	And movable jaw		manipulator extrinsic to
330	.Having mechanism or		figure (e.g., marionette)
	manipulatable means to move	360	Relatively movable striking
	figure or figure portion		platform
331	Base-mounted figure and button-	361	Flaccid support or manipulator
	controlled flaccid element to	362	Plural flaccid elements to
	move figure or figure portion		manipulate plural body parts
332	Figure movable along endless	363	Hand-held overhead support
	path		for flaccid elements
333	Kicking	364	For drawing figure along
334	Fighting		surface
335	Including motive power means	365	Resiliently biased body
	or hand crank		portion
336	Striking	366	Rod-supported or -controlled
337	Having changeable facial		figure
	feature	367	Plural rods for manipulating
			plural body parts

368	.Reptile	405	.Having simulated weapon feature
369	.Fabric-covered stuffed figure		coordinated with sound
370	Having enclosed reinforcing or skeletal portion	406	Including finger trigger for sounder
371	Including hinge feature	407	Single report
	connecting parts	408	.Simulated musical instrument,
372	Including facial or hair feature		radio, camera, or television device
373	.Having enclosed reinforcing or	409	.Including rolling or tumbling
0.0	skeletal portion		toy
374	Of non-recovering bendable	410	Toy locomotive
	material	411	And rod, cable or tether as
375	Including pivoted joint		guide means
376	.Having movably joined body parts	412	Guide means secured centrally
377	Walking		of wheel
378	And locking means for retaining	413	Including wheel-carried
	body parts in adjusted		strikers for impacting non-
	position		rotating portion
379	Including separate resilient	414	Having belt-carried or rotary
	member		striker on vehicle
380	Elastomeric member	415	.Snapping sheet member (e.g.,
381	For joint allowing movement		cricket)
	about plural axes	416	.Voice-actuated diaphragm (e.g.,
382	By bendable or pliant material		kazoo)
	connecting parts	417	.Tick-tack
383	Including joint allowing	418	.Percussion
	movement about plural axes	419	Unsecured loosely confined
384	Swivelled head		percussive member (e.g.,
385	.Formed from specific material	400	rattle)
386	Edible material	420	Ratchet-actuated
387	<pre>Sheet material figure (e.g.,   paper doll)</pre>	421	Including handle for shaking, flipping, or flicking
388	Three-dimensional folded	422	Resiliently restored swinging
	figure	400	percussive member
389	Eye	423	GARAGE
390	.Limb, hand or foot	424	MATERIAL OR ARTICLE HANDLING
391	.Head	405	DEVICE
392	Eye	425	.Having load supporting swingable
393	Eyelash	426	arm
394	Having hair	420	<pre>Horizontally swinging (e.g.,     crane)</pre>
395	Mouth feature	427	.On wheeled vehicle
396	BALANCED OR SELF-RIGHTING (E.G.,	428	Having tiltable vehicle body
207	ROCKING)	420	portion for discharging
397	SOUNDING		contents (e.g., dump truck)
398 399	.DetonatingIncluding projecting means	429	DISCRETE LAUNCHER, ACCELERATOR,
400	Projectile		OR RETARDER FOR TOY VEHICLE
400	Simulated weapon	430	.Including helical spring or
401	Cane or rod thrust		elastomeric strip
404	longitudinally against surface	431	ROLLING OR TUMBLING (E.G.,
403	Including magazine		WHEELED)
403	With means facilitating	432	.Fire apparatus
101	combination with diverse art	433	.Endless track vehicle
	device	434	.Tractor or trailer

435	.Vehicle and means for freeing or launching object therefrom	466	Wheels vertically movable relative to chassis
436	.Including changeable program	467	Railroad locomotive simulation
	carried by vehicle	468	Having means permitting turning
437	.Including means for causing		of wheel for steering
	erratic movement	469	Having specific means for
438	.Including illumination means		mounting axle to chassis
439	And battery holder on rolling	470	Having specific body structure
	or tumbling toy	471	Demountable
440	.Motorcycle, tricycle or bicycle	472	SIMULATED MEDICAL OR TOILET
441	.Including vehicle-carried		DEVICE
	control mechanism activated or	473	SIMULATED WEAPON OR PROTECTOR
	deactivated in response to	474	SIMULATED CLOTHES OR FABRIC
	contact with extrinxic		WORKING OR CLEANING
	structure	475	INCLUDING DISPENSER
442	Reversing	476	BUILDING, TOWER, BRIDGE OR
443	.Having reversible drive		HABITATION
444	.Including extrinsic guide or	477	.Including electrical feature
	means cooperable with	478	.Folding or collapsible
	extrinsic guide	479	BUILDING FURNISHING OR APPLIANCE
445	Cooperable traction means on	480	.Simulated fireplace
	vehicle and roadway	481	.Simulated stove, heater, or
446	By guide surface below running		cooking device
	surface	482	.Chair, table, desk, cabinet or
447	Vehicle having flanged wheel		bed
448	.Including wheel- or axle-	483	SIMULATED DISPENSER OR PUMP
	operated device	484	ELECTRIC
449	Operated by belt drive or by	485	.With lamp
	tangential contact with wheel	486	RESILIENT TOY OR ACTUATOR
450	.Including handle, rod or tether	487	FOLDABLE, COLLAPSIBLE, OR HAVING
	for physically guiding or	107	PIVOTED PORTION
	propelling (e.g., trundle,	488	.Sheet material folded to form
	hoop, etc.)	100	object
451	Plural wheels	489	INCLUDING SLIDING OR GUIDING
452	Guide means secured centrally	405	ELEMENT OR PORTION
	of wheel	490	INCLUDING FLACCID ELEMENT OR
453	Including rolling element or	400	PORTION
	sliding or pivoted retainer	491	MISCELLANEOUS
	between rod and hoop or wheel	<b>ユ</b> フェ	MISCELLAMEOUS
454	.Remotely controlled		
455	Via conductor adjacent to		
	vehicle path	anoaa	
456	By radio signal	CROSS-	-REFERENCE ART COLLECTIONS
457	.Including intrinsic motive power	0.04	
	means for propulsion	901	DETACHABLY ADHESIVE
458	And eccentric weight		
459	Elastomeric (e.g., rubber band)		
460	Steering vehicle		
461	Having lock for rotary motor or	<u>FOREIG</u>	ON ART COLLECTIONS
	transmission		
462	Having instrinsic energy-	FOR 00	0 CLASS-RELATED FOREIGN DOCUMENTS
	storing battery or flywheel		
463	And clutch		
464	Flat spiral or torsion spring		
465	.Wheeled vehicle
