Ask the FDA to delete item 5.9 of agenda item No. 6 in the draft guidelines for vitamin and mineral supplements. Tell them that every citizen is the real gatekeeper for truthful and non-misleading information about nutrition, and that item 5.9 of the labeling proposal is regressive, misleading, and *not in the best interest of the U.S. consumer*. Also tell them that item 5.9 is in violation of the Dietary Supplement Health and Education Act of 1994 (DSHEA).
