College Station, Texas 77843

Dear Carl,

I am writing to apply for the post doctoral research scientist position that we have discussed.

I don't think you will find anything surprising in my resume or curriculum vitae, but I appreciate you taking the time to read them. As you know from when I first talked to you about this position, I have enjoyed working with you and Bob and hope that we can work together again even if this position is filled by someone else.

I have asked the references on the enclosed list to send letters directly to you on my behalf. Please feel free to contact me if you have any questions or if there is any further information which I can provide to you.

Sincerely,

Rusty S. Towell
