

**A8 - Refrigerator-Freezers with Automatic Defrost with Side Mounted  
Freezer with Through-the-Door (by Brand) August 2008 Data**

**What do the energy consumption numbers on this table mean?**  
 Energy consumption for these appliances is measured in kilowatt-hours (kWhs). The more energy an appliance consumes, the more it will cost to operate. One kilowatt-hour (kWh) is the amount of electrical energy supplied by one kilowatt over a one-hour period. It is the basic unit of measurement for electrical energy. Electricity bills are based in part on the number of kilowatt-hours a customer uses during a billing period.

**Important Note About Operating Costs**  
 Your actual operating cost will vary depending on your utility rates and your use of the product.

Brand Name	Model Number	Total Cubic Feet	Annual Consumption in Kilowatt Hours (KWH)	Through the Door Ice Access?
