ORDERING INFORMATION ON UNDERGROUND STORAGE TANKS

- C Go to EPA's Web site at www.epa.gov/swerust1/pubs/index.htm to order, read, or download documents online.
- C Call EPA's toll-free RCRA Call Center at 800-424-9346 and order free copies or ask questions. Or, e-mail your request to epacallcenter@bah.com.
- C Contact our publication distributor, the National Service Center for Environmental Publications (NSCEP) via telephone, U.S. Mail, or the Internet for free publications. NSCEP's toll-free number is 800-490-9198; or fax your order to 513-891-6685. NSCEP's website is www.epa.gov/ncepihom/ and its mailing address is: Box 42419, Cincinnati, OH 45242.

TITLES

Automatic Tank Gauging Systems For Release Detection: Reference Manual For Underground Storage Tank Inspectors (EPA 510-B-009). August 2000.

This manual can help State and EPA inspectors of USTs evaluate how well UST owners and operators are using their automatic tank gauging (ATG) systems to comply with release detection requirements. Includes handouts for distribution to UST owners and operators. (140 pages).

Closing Underground Storage Tanks: Brief Facts (EPA 510-F-96-004). July 1996.

Trifold leaflet presents "brief facts" on properly closing USTs in order to comply with federal closure requirements.

Controlling UST Cleanup Costs (EPA 510-F-98-008). January 1998.

Fact sheet series on the cleanup process includes: Hiring a Contractor, Negotiating the Contract, Interpreting the Bill, Managing the Process, and Understanding Contractor Code Words (10 pages).

Doing Inventory Control Right: For Underground Storage Tanks (EPA 510-B-93-004). November 1993.

Booklet describes how owners and operators of USTs can use inventory control and periodic tightness testing to temporarily meet federal leak detection requirements. Contains recordkeeping forms (16 pages).

Dollars And Sense: Financial Responsibility Requirements For Underground Storage Tanks (EPA 510-K-95-004). July 1995.

Booklet summarizes the "financial responsibility" required of UST owners and operators (16 pages).

Estimating Air Emissions From Petroleum UST Cleanups (EPA 510-K-92-901 and -902) June 1989.

This guidance document and companion field cards (September 1989) are intended to provide State regulators with a means of estimating air emission rates of VOCs and benzene at individual UST cleanup sites. This information may be used to develop policies regulating such air emissions.

Expedited Site Assessment Tools For Underground Storage Tank Sites: A Guide For Regulators (EPA 510-B-97-001). March 1997.

The expedited site assessment (ESA) process is a framework for rapidly characterizing UST site conditions for corrective action decisions. This concept has been described with other names including: accelerated site characterization, rapid site characterization, and expedited site investigation.

Financial Responsibility For Underground Storage Tanks: A Reference Manual (EPA-510-B-00-003). January 2000.

This detailed, comprehensive manual provides UST inspectors with the restrictions, limitations, and requirements of each financial responsibility mechanism provided in the federal UST regulations. Note that this "Reference Manual" is based on the federal UST financial responsibility requirements, though it should provide useful information and insight into understanding and reviewing state-specific financial responsibility mechanisms.

Financing Underground Storage Tank Work: Federal And State Assistance Programs (EPA 510-B-99-002). March 1999.

Booklet identifies potential sources of financial assistance to cover the costs of upgrading, replacing, or closing an UST, or of cleaning up an UST release (23 pages).

Getting The Most Out Of Your Automatic Tank Gauging System (EPA-510-F-98-011). March 1998.

Trifold leaflet provides UST owners and operators with a basic checklist they can use to make sure their automatic tank gauging systems work effectively and provide compliance with federal leak detection requirements.

How To Effectively Recover Free Product At Leaking Underground Storage Tank Sites: A Guide For State Regulators (EPA 510-R-96-001). September 1996.

Technical guidance document helps state regulators and cleanup contractors review those parts of an UST corrective action plan that propose free-product-recovery technologies.

How To Evaluate Alternative Cleanup Technologies For Underground Storage Tank Sites: A Guide For Corrective Action Plan Reviewers. (EPA 510-B-94-003). Revised May 1995 (EPA 510-B-95-007) New Addition June 2004 (EPA 510-R-04-002)

The original manual covered 8 alternative technologies: soil vapor extraction (SVE), air sparging, biosparging, landfarming, biopiles, bioventing, low-temperature thermal desorption, and natural attenuation. In May 1995, two additional chapters (dual-phase extraction and in situ groundwater bioremediation) were added and the Introduction and Glossary were updated at the same time. In June 2004 new and updated chapters became available.

Introduction To Statistical Inventory Reconciliation: For Underground Storage Tanks (EPA 510-B-95-009). September 1995.

Booklet describes how Statistical Inventory Reconciliation (SIR) can meet federal leak detection requirements (12 pages).

List Of Integrity Assessment Evaluations For Underground Storage Tanks—Third Edition. January 22, 1999.

This 8-page EPA Memorandum (dated February 9, 1999) provides a list of integrity assessment procedures that have been successfully evaluated and certified by a qualified independent third party to meet specified performance criteria.

List Of Known Insurance Providers For Underground Storage Tanks (EPA 510-B-00-004). January 2000.

Provides UST owners and operators with a list of insurance providers who may be able to help them comply with financial responsibility requirements by providing suitable insurance mechanisms (12 pages).

Manual Tank Gauging: For Small Underground Storage Tanks (EPA 510-B-93-005). November 1993.

Booklet provides simple, step-by-step directions for conducting manual tank gauging for tanks 2,000 gallons or smaller. Contains recordkeeping forms (12 pages).

Musts For USTs: A Summary Of Federal Regulations For Underground Storage Tank Systems (EPA 510-K-95-002). July 1995.

Plain language summary of federal UST requirements for installation, release detection, spill, overfill, and corrosion protection, corrective action, closure, reporting and recordkeeping. (36 pages).

Operating And Maintaining Underground Storage Tank Systems: Practical Help And Checklists (EPA 510-B-00-008). August 2000.

This manual contains brief summaries of the federal UST requirements for operation and maintenance (O&M), as well as practical help that goes beyond the requirements. Checklists prompt the user to look closely at what kinds of equipment are in use and how to keep that equipment working properly over the lifetime of the UST system. The manual provides recordkeeping forms that also help the UST owner and operator keep equipment operating properly. Owners and operators will find this manual contains checklists and information that will help them properly operate and maintain their USTs. State and EPA UST inspectors can use the manual and its checklists to help educate UST owners and operators and encourage their compliance with the UST requirements. (50 pages).

Report To Congress On A Compliance Plan For The Underground Storage Tank Program (EPA-510-R-00-001). June 2000.

Congress in its FY2000 Appropriations Committee Conference Report directed the U.S. EPA to prepare and submit to Congress a compliance plan regarding the UST program. EPA developed this report in response to that request. The report presents information and cost estimates necessary to: identify USTs that are not in compliance with Subtitle I of the Resource Conservation and Recovery Act; identify USTs in temporary closure; determine the ownership of USTs not in compliance or in temporary closure; determine the plans of owners and operators to bring USTs into compliance or out of temporary closure; and determine how USTs for which no owner can be identified will be brought into compliance or closed permanently. (70 pages).

Standard Test Procedures For Evaluating Various Leak Detection Methods (EPA/530/UST-90/004 through EPA/530/UST-90/010).

March 1990.

EPA produced seven testing protocols that sophisticated, professional testers could use to demonstrate that an individual release detection equipment type could meet the performance requirements noted in the federal UST requirements for detecting leaks. These protocols are: Automatic Tank Gauging Systems; Liquid-Phase Out-of-Tank Product Detectors; Non-Volumetric Tank Tightness Testing Methods; Pipeline Leak Detection Systems; Statistical Inventory Reconciliation Methods; Vapor-Phase Out-of-Tank Product Detectors; and Volumetric Tank Tightness Testing Methods.

State Funds In Transition: Models For Underground Storage Tank Assurance Funds (EPA 510-B-97-002). January 1997.

This booklet is intended for state officials who are considering changes and alternatives to their state funds. The booklet presents "case studies" describing some of the activities that three states have conducted in making a transition from a state fund program to other financial assurance mechanisms. The booklet also describes five programs that might serve as "models" for states that have decided to change the structure of their state funds. (40 pages).

Straight Talk On Tanks: Leak Detection Methods For Petroleum Underground Storage Tanks (EPA 510-B-97-007). September 1997.

Explains federal regulatory requirements for leak detection and briefly describes allowable leak detection methods. (28 pages).

Survey Of Flexible Piping Systems (EPA510-R-97-002). March 1997.

This survey includes information on which companies are making various types of flexible pipe, the number of installers, piping construction, compatibility, materials warranty, and the status of various systems in meeting national codes and standards.

Underground Storage Tanks: Requirements And Options (EPA 510-F-97-005). June 1997.

Trifold leaflet alerts UST owners and operators who are "nonmarketers" (who do not sell stored petroleum) that they need either to find alternatives to managing their USTs or to make decisions about UST compliance.
