

Information and Instructions

**Instructions for Schedule for Defined Geographic Area To Be Leased/Subleased
(Geographically-Licensed Services)
FCC Form 603-T, Schedule F**

Schedule F is a supplementary schedule used in conjunction with either Schedule B or Schedule D when geographically licensed authorizations are involved and the entire spectrum in the geographic area is not included in the Lease/Sublease.

Item 1a Enter the Call Sign of the spectrum associated with the Lease/Sublease.

Item 1b For Subleases only, provide the Lease/Sublease Identifier associated with the Call Sign provided in Item 1a.

The Lease/Sublease Identifier was issued upon proper notification to the FCC or approval by the FCC for a New Lease/Sublease.

Item 2 If the area to be Leased/Subleased is defined according to the FCC rules, enter its description under Item 2. To obtain a list and description of defined areas, refer to the FCC Public Notice for the auction.

In some cases, more than one geographic area exists with the same name in the same state (*i.e.*, an independent city with the same name as a county in the same state). To indicate these independent cities, you must enter its 5 digit FIPS code (2-digit state FIPS code + 3-digit county FIPS code). For example, in Virginia there is a Fairfax County and a Fairfax City. Fairfax City is an independent city and is not affiliated with Fairfax County. To indicate the city of Fairfax, you must enter its FIPS code, 51600. To indicate the county of Fairfax, you could enter its FIPS code or 'Fairfax,VA.' For a listing of FIPS codes, refer to "www.census.gov/datamap/fipslist/AllSt.txt."

Item 3 If the area to be leased/subleased is undefined, describe its periphery by completing the Undefined Geographic Area Schedule, FCC Form 603-T, Schedule G.

Item 4 Enter the population of the Leased/Subleased area.

Item 5 Authorized spectrum blocks can be Leased/Subleased by assigning one or more frequency blocks. To indicate a frequency, enter its lower value in MHz in the Lower Frequency field and enter its upper value in MHz in the Upper Frequency field. In this table, complete as many entries as you need to indicate the spectrum completely.

Certifications

By signing the Main Form, FCC Form 603-T, the Licensee and Lessee/Sublessee certify that the applicable statements listed in this schedule are true, complete, correct, and made in good faith.

Schedule for Defined Geographic Area To Be Leased/Subleased

1a) Call Sign: _____
1b) Lease/Sublease Identifier: _____

Geographic Area of Spectrum To Be Included in Lease/Sublease

2) Defined Area to be Leased/Subleased	3) Undefined Area to be Leased/Subleased (Complete undefined geographic area attachment)	4) Population of Leased Area
	Attach Schedule G	

5) Frequencies of Spectrum To be Included in Lease/Sublease (MHz)

Spectrum Leased/Subleased		Spectrum Leased/Subleased		Spectrum Leased/Subleased	
Lower Frequency	Upper Frequency	Lower Frequency	Upper Frequency	Lower Frequency	Upper Frequency
