LANDS CONSIDERED FOR ACQUISITION

Acquire easements to provide access to public lands for resource needs.

Consider nonfederal lands or interest in lands for acquisition to meet the objectives of the various resource management programs. Criteria for which lands would be acquired include in-holdings within wilderness study areas (WSA), and some special designations and management areas (SD/MA) and herd management areas (HMA). See Land Exchange and Disposal Criteria, Appendix 6.

Acquire state lands in the area of environmental concern (ACEC). See SD/MA section of the Approved Plan and Land Exchange and Disposal Criteria, Appendix 6, for exchange criteria.

Acquire lands to manage the candidate plant species. See SD/MA section of the Approved Plan and Land Exchange and Disposal Criteria, Appendix 6, for exchange criteria.

Acquire state lands as they become available through purchase or exchange (preferably both surface and mineral to avoid split estate). See SD/MA section of the Approved Plan and Land Exchange and Disposal Criteria, Appendix 6.
