To assist the Department in complying with the specific requirements of Executive Order 12866 and its overall requirement of reducing regulatory burden, the Secretary invites comments on whether there may be further opportunities to reduce any regulatory burdens found in these proposed regulations.

Background

On March 4, 1995 the President announced a Regulatory Reinvention Initiative to reform the Federal regulatory system. In response to the President's initiative, on August 23, 1996 the Secretary issued an Advance Notice of Proposed Rulemaking (ANPRM) to request public comment on the changes being considered in the Department' programs to simplify regulations and reduce regulatory burden (Regulatory Reinvention, 61 FR 43639, August 23, 1996). Regulations for the International Education Programs in 34 CFR Parts 662 (Higher Education Programs in Modern Foreign Language Training and Area Studies—Doctoral

Dissertation Research Abroad Fellowship Program), 663 (Faculty Research Abroad Fellowship Program), and 664 (Group Projects Abroad Program) were included in the ANPRM. The Secretary received no comments on changes proposed in the ANPRM for the International Education Programs.

Proposed Regulatory Changes

As part of the President's Regulatory Reinvention Initiative, the Department is reviewing and revising the regulations governing the Higher Education Programs in Modern Foreign Language Training and Area Studies—Doctoral Dissertation Research Abroad Fellowship Program, Faculty Research Abroad Fellowship Program, and Group Projects Abroad Program. The Secretary is proposing amendments which are needed to improve the application review process and to update the regulations in light of developments in the field of foreign language, area, and international studies, including political developments abroad, modifications in the policies and practices of the J. William Fulbright Foreign Scholarship Board, and interpretations of regulations. In the spirit of reinventing government, the goal of the proposed changes is to markedly reduce burden associated with the regulations.

The proposed regulations would change the names of these programs to align them with how they are popularly referred to in the field. Additionally, the proposed regulations would make changes in the terminology applicable to these programs, remove obsolete references, and make changes in the selection criteria. The proposed regulations would also reorganize the sections, change the names of several section titles, correct errors in the numbering of the sections, and make other technical changes to improve the regulations.

The substantive changes proposed in the regulations are discussed with respect to each part. A number of the substantive changes proposed would affect each of the parts being amended (34 CFR Parts 662, 663, and 664). Therefore, in the discussion of the proposed changes under Part 662, it is noted whether the proposed change would be duplicated in a corresponding section of Parts 663 or 664.

Part 662

The name of Part 662 would be changed to Fulbright-Hays Doctoral Dissertation Research Abroad Fellowship Program. Throughout Parts 662, 663, and 664 the "Board of Foreign Scholarships" would be changed to "J. William Fulbright Foreign Scholarship

Board" to reflect the change in the name of the board.

Proposed § 662.3 would delete current paragraph (a)(3) to eliminate persons "in the United States for other than a temporary purpose with the intention of becoming a citizen or permanent resident" as eligible applicants. The proposed change reflects the Secretary's decision that to receive a federally funded fellowship, a person should demonstrate commitment to the United States, either by being a citizen or permanent resident. The proposed change furthers the goal of the program to train people who will then serve in the United States educational field. The proposed change would also apply to §§ 663.3 and 664.3.

Proposed § 662.3 would also delete current paragraph (a)(4) which states that a resident of the Trust Territory of the Pacific Islands is eligible for a fellowship, since these islands are no longer a trust territory. The proposed change would also apply to §§ 663.3 and 664.3.

Proposed § 662.7 would revise the list of terms used in this part that are defined in 34 CFR Part 77, and it would add 34 CFR Part 80. Terms that are not used in this part would be deleted.

Proposed § 662.7(c) would change the definition of "dependent". The proposed regulation would add the requirement that the individual being claimed as a dependent must accompany the recipient to his or her training site for the entire fellowship period. Also, the proposed regulation would narrow the definition of "dependent" to exclude parent(s) of a participant or parents of the participant's spouse. Both changes in the definition are grounded in the need to conserve limited program funds. By requiring that in order to receive a dependent's allowance the dependent be at the training site for the entire fellowship period, the Secretary will preclude the use of program funds for short term visits. The changes in the dependent's definition with regard to parents would bring the program's policy toward dependents more in line with similar fellowship programs. Additionally, only once in more than 30 years of program administration has a dependent's allowance been requested for a parent.

Proposed § 662.7(c) would eliminate the definition for "foreign currencies" since all foreign currency accounts previously available to the Secretary for operation of this program have been exhausted.

All of the proposed changes to § 662.7(c) would also apply to § 663.7(c).

Proposed § 662.10 incorporates the language found in current § 662.21. Paragraph (c) of current § 662.21 which addresses requirements for an applicant who plans to conduct research in the former USSR and Eastern European countries was deleted, since changes in the research climate in those countries have eliminated the need to require an applicant to apply to the International Research and Exchange Board. The proposed change would also apply to § 663.10.

Proposed § 662.20(d) preserves and clarifies the current position of the Department relating to veteran's preference. The regulation would add language to clarify that if two scores are tied and one of the applicants is a veteran, the applicant who is a veteran will receive a preference. The proposed change would also apply to § 663.20(d).

Proposed § 662.21 would revise the selection criteria. The revised criteria would reflect a greater consistency with criteria used in comparable fellowship programs. This would facilitate writing fellowship applications for individuals since the applications would be similar.

There would also be a greater emphasis on foreign language training. Since these programs were originally intended to enhance the foreign language competence of individuals trained in American schools, the criteria would be modified to give greater emphasis to having acquired a foreign language. Paragraph (c)(3) would add the requirement that the applicant be proficient in one or more of the languages of the country or countries of research, excluding English and the applicant's native language. The proposed language most likely would result in a decrease in the number of applications from individuals wishing to conduct research in English and would encourage non-native born United States citizens or resident aliens to acquire an additional foreign language. The Department has experienced a substantial increase in the number of applications for conducting research in English.

The points assigned would be changed to allow the readers greater ability to differentiate among the applications. The proposed changes in points assigned are reflected in § 662.21(a), (b), and (c). Due to the extremely high caliber of applications, there is frequently a clustering of high scores. The proposed point structure would allow readers a broader range in which to assign points. Under current § 662.21 points are assigned in a narrow range and a multiplication factor is applied, which results in significant clustering of like applications.

The Department has consulted with various experts in language and area studies as well as administrators of fellowship programs in developing the proposed revisions to the selection criteria. Their comments and feedback have been incorporated into these proposed changes.

The proposed changes to § 662.21 would also apply to § 663.21.

Proposed § 662.22 incorporates the language from current § 662.33 and would add a new paragraph (b) to prevent an applicant from receiving more than one fellowship under the Fulbright-Hays Act in a given fiscal year. The provision would prevent an applicant from receiving a fellowship from the Department and United States Information Agency (USIA) within the same fiscal year. The proposed change would ensure that limited funds appropriated to the agencies have a broader impact and are not used duplicatively. The proposal reflects the current policy statements of the Foreign Scholarship Board.

Similar to proposed § 662.10, proposed § 662.22 would eliminate language from current § 662.33(a)(2) which addresses requirements for an applicant who plans to conduct research in the USSR and Eastern European countries. Changes in the research climate in those countries have eliminated the need to require an applicant to apply to the International Research and Exchange Board. The proposed change would also apply to § 663.22.

Part 663

The name of Part 663 would be changed to Fulbright-Hays Faculty Research Abroad Fellowship Program.

Section 663.3 outlines who is eligible to receive a fellowship under this program. Current § 663.3(d)(1) and (2) would be deleted from the proposed regulations because they are part of the selection criteria and should not be considered under eligibility.

Part 664

The name of Part 664 would be changed to Fulbright-Hays Group Projects Abroad Program.

Proposed § 664.5 would revise the list of terms used in this part that are defined in EDGAR, 34 CFR Part 77. Terms that are not used in this part would be deleted.

Sections 664.11, 664.12, and 664.13 propose changes in the length of the projects, allowing for shorter project periods. The changes are proposed to allow applicants greater flexibility in carrying out their projects. The current provisions encouraged longer periods in

the field, even when they were not necessary for the successful accomplishment of the project goals. Proposed § 664.11 would change the length of a short term project from six weeks under current regulations, to four to six weeks. Proposed § 664.12 would change the length of a curriculum development project from six to eight weeks under current regulations, to four to eight weeks. Proposed § 664.13 would change the length of a group research project from two to twelve months under current regulations, to three to twelve months.

In order to be consistent with Parts 662 and 663, proposed § 664.30 would add a new paragraph (d) which establishes that the Secretary will consider for funding only projects that an applicant proposes to carry out in a country in which the United States has diplomatic representation.

Proposed § 664.31(a)(2)(v) and (b)(4) which address the inclusion of underrepresented groups in the selection criteria for applications would be revised to be consistent with the Education Department General Administrative Regulations (EDGAR) (§ 75.210(c)(5) and (d)(1)(iv)). The proposed language would require the applicant to ensure that participants in the Fulbright-Hays Group Projects and its personnel selected for employment are selected without regard to race, color, national origin, gender, age, or handicapping condition.

Proposed § 664.33(b)(1) would allow for greater flexibility in establishing annual per diem rates, consistent with the cost of living in overseas areas. Current regulations require a maintenance stipend to be based on 50 percent of the amount established in the U.S. Department of the State publication "Maximum Travel Per Diem Allowances for Foreign Areas". Proposed § 664.33(b)(1) would eliminate the 50 percent limitation which would permit an upwards or a downwards adjustment based on the cost of living in the host country.

Clarity of the Regulations

Executive Order 12866 requires each agency to write regulations that are easy to understand. The Secretary invites comments on how to make these proposed regulations easier to understand, including answers to questions such as the following: (1) Are the requirements in the proposed regulations clearly stated? (2) Do the proposed regulations contain technical terms or other wording that interferes with their clarity? (3) Does the format of the proposed regulations (grouping and order of sections, use of headings,

paragraphing, etc.) aid or reduce their clarity? Would the proposed regulations be easier to understand if they were divided into more (but shorter) sections? (A "section" is preceded by the symbol "§" and a numbered heading; for example, § 662.1 *What is the Fulbright-Hays Doctoral Dissertation Research Abroad Fellowship Program?*). (4) Is the description of the proposed regulations in the "Supplementary Information" section of this preamble helpful in understanding the proposed regulations? How could this description be more helpful in making the proposed regulations easier to understand? (5) What else could the Department do to make the proposed regulations easier to understand?

A copy of any comments that concern how the Department could make these proposed regulations easier to understand should be sent to Stanley M. Cohen, Regulations Quality Officer, U.S. Department of Education, 600 Independence Avenue, SW. (room 5121, FB-10B), Washington, DC 20202-2241.

Regulatory Flexibility Act Certification

The Secretary certifies that these proposed regulations would not have a significant economic impact on a substantial number of small entities. The small entities affected would be small institutions of higher education. The proposed regulations would not have a significant economic impact on any of the entities participating in the programs because the regulations impose minimal application and administrative costs necessary to protect Federal funds.

Paperwork Reduction Act of 1995

Sections 662.21, 663.21, and 664.31 contain information collection requirements. As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3507(d)), the Department of Education has submitted a copy of these sections to the Office of Management and Budget (OMB) for its review.

Collection of Information: *Application for Grants under the Fulbright-Hays Doctoral Dissertation Research Abroad Fellowship Program (Part 662), Fulbright-Hays Faculty Research Abroad Fellowship Program (Part 663).*

Under the Fulbright-Hays Doctoral Dissertation Research Abroad (DDRA) and Faculty Research Abroad (FRA) Programs, individual scholars and eligible institutions apply simultaneously for benefits under a single grant. Individual scholars apply for fellowships; however grants are made to the successful scholars' institutions. Respondents include individuals and institutions of higher

education. The data requested are used in determining the academic qualifications and suitability of the individual applicant, potential political sensitivity and feasibility of the project in terms of the host country reaction, research climate, and adequacy of the proposed budget.

The data requested are the minimum necessary to administer the grant in compliance with program regulations. The annual reporting and record keeping burden for: (1) student respondents is estimated to average 30 hours for each response for 600 respondents, totaling 18,000 burden hours; (2) faculty respondents is estimated to average 8 hours for each response for 70 respondents, totaling 560 burden hours; (3) project directors is estimated to average 15 hours for each response for 130 respondents, totaling 1,950 burden hours. Thus, the total annual reporting and record keeping burden for this collection is estimated to be 20,510 hours.

Fulbright-Hays Group Projects Abroad Program (Part 664)

Under these proposed regulations, institutions of higher education, State departments of education, and private nonprofit organizations are eligible to apply for grants to conduct educational projects abroad. Teachers, undergraduate and graduate students, and faculty are selected by grantees to participate in these projects. The proposed regulations will be used to obtain the programmatic and budgetary information needed to evaluate applications and make funding decisions. The data requested are used in determining the need and academic worth of specific projects, political sensitivity and feasibility in terms of host country reaction, and adequacy of the proposed budget.

Advanced intensive language projects, which apply every three years, do not have to submit full-blown proposals each year, only in the initial year for multi-year projects. The annual reporting and record keeping burden for this collection of information is estimated to average 100 hours for each response for 95 respondents, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Thus, the total annual reporting and record keeping burden for this collection is estimated to be 9,500 hours.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control

number. The valid OMB control numbers assigned to the collection of information in these regulations will be displayed at the end of the affected sections of the final regulations.

Organizations and individuals desiring to submit comments on the information collection requirements should direct them to the Office of Information and Regulatory Affairs, OMB, room 10235, New Executive Office Building, Washington, DC 20503; Attention: Desk Officer for U.S. Department of Education.

The Department considers comments by the public on these proposed collections of information in—

- Evaluating whether the proposed collections of information are necessary for the proper performance of the functions of the Department, including whether the information will have practical use;

- Evaluating the accuracy of the Department's estimate of the burden of the proposed collections of information, including the validity of the methodology and assumptions used;

- Enhancing the quality, usefulness, and clarity of the information to be collected; and

- Minimizing the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology; e.g., permitting electronic submission of responses.

OMB is required to make a decision concerning the collections of information contained in these proposed regulations between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment to OMB is best assured of having its full effect if OMB receives it within 30 days of publication. This does not affect the deadline for the public to comment to the Department on the proposed regulations.

Intergovernmental Review

These programs are not subject to the requirements of Executive Order 12372 and the regulations in 34 CFR part 79.

Assessment of Educational Impact

The Secretary particularly requests comments on whether the proposed regulations in this document would require transmission of information that is being gathered by or is available from any other agency or authority of the United States.
