

BNL Lecture Making Sense Out of Environmental Data

For the past five years at BNL, Frederick Lipfert (DAS) has been working on a number of studies of energy/environmental interactions, including regional development, the impact of residential wood-burning, and acid precipitation. He came to Brookhaven in 1978 following five years at LILCO where he was manager of air quality, dealing with both

Frederick Lipfert

regulatory matters and research programs aimed at better defining the impact of LILCO facilities. Before his interest in air quality problems developed, he worked for 15 years in aerospace fluid mechanics, including a stint in Norway as head of aerodynamics for a Norwegian gas turbine manufacturer.

Lipfert will draw on all his environmental experience when he presents "Environmental Impact Assessment: Theories and Applications," the last lecture in the current Brookhaven Lecture series. The lecture will be given at 4:30 p.m. on Wednesday, June 22, at Berkner Hall.

The talk is focussed on air quality problems, beginning with source characterization, proceeding through transport and chemical/physical transformation, and ending with effects on receptors. The applications he will illustrate include characterization of source emissions based on combustion theory, calibration of meteorological transport models against field measurements, and statistical regression analysis of air pollution effects, for example human health. He will conclude with an outline of the National Acid Precipitation Assessment Program (and BNL's role in it) as a current example of a program which involves all these areas. The lecturer is principal investigator on a project, jointly funded by DOE and EPA, to provide coordination, oversight, and assessment support to the entire national program.

Lipfert's education includes degrees in mechanical engineering (M.E.) and aeronautical engineering (M.S.) from the University of Cincinnati, a diploma from the Von Karman Institute for Fluid Dynamics in Belgium, and a Ph.D. from the Union Graduate School, an arm of the Union for Experimenting Colleges and Universities headquartered in Cincinnati.

A coffee reception will be held at 4 p.m. preceding the lecture, and a buffet supper at 6:30 p.m., approximately an hour after the lecture. The price of dinner is \$7.50 and reservations should be made by calling Ext. 3541 before 5 p.m. that day.

Doug Humphrey

A computer is now part of the life of the Kramer family. Martin Kramer (left) Physics Dept., and his wife, Carolyn, DAS, say it is used for both games and educational purposes. Son, Scott, and daughter, Karen, are doing some programming, and Martin says that Scott would like to write his own games. The Kramers maintain that their home computer does not add anything to their electric bill.

Computer: The Next Household Appliance?

Computers have been around the office for some time now and, to most people, they are part of the workaday world. But to have one in the home, as naturally as a refrigerator, is not yet a prime concern of the average citizen.

However, nobody is taking any bets as to what the situation might be in, say, five years. According to most reports, more and more people are walking into computer shops to see what these new-fangled gadgets are all about and, likely as not, walking out with one.

At the Lab, where a microcomputer club has been in existence for about three years, the 80 or so members own these little wizards for a variety of reasons. They use a microcomputer to keep track of their taxes, investments, electric consumption, home finances, recipes, and other household records. One member programs a computer to monitor his solar heating system. And some people are trying to use voice synthesis as alarm systems for their homes.

Many of the members also have a computer as an educational tool for their children. Says George Sintchak (Instrumentation), "I've had several computers around the house, because I think it's necessary for my children to be computer literate." George Trigg (Phys. Rev.) who is writing a book and uses his computer for word processing, says his son, a high school senior, is modifying the software to produce a Greek alphabet which Trigg needs.

As time goes on, more information and services will be offered over the telephone lines for customers to hook into. One club member's college-bound high schooler has already taken advantage of it. For a 10 cent local call, he was able to hook into his school's computer and obtain a lot of useful information on colleges throughout the country.

It may not be long before students will be going off to college with a stereo under one arm and a microcomputer under the other. According to a recent issue of Time magazine, Drexel University will buy some 3,000 newly developed Apple MacIntosh computers, and require that each of its incoming freshmen buy one, at \$1,000 apiece (apparently about half the expected retail price).

About one-third of the programmers employed at Brookhaven are women.

Veronica (Ronnie) Evans, who is a programmer in DAS, has a personal computer at home. There, she helped set it up for her husband's business. Her children play games on it and learn new languages. It appears that women who are unfamiliar with computers through a professional association, do not take to them readily when their husbands bring them home. Most of the members of the club said their wives had not expressed much interest in learning about computers.

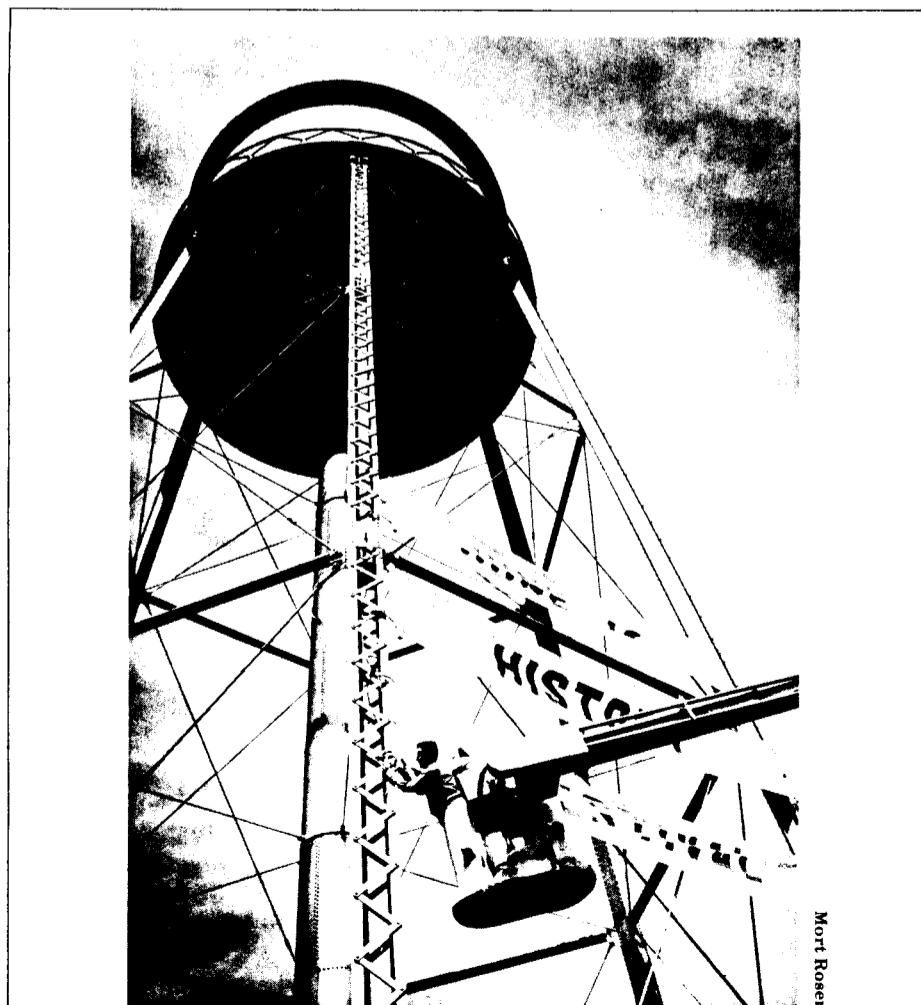

Biophysicist Jim Hainfeld started the Lab club because he wanted to know more about personal computers and hoped to attract people of like interests. He did, but most of them didn't know as much as he did and Hainfeld turned out to be the guru. He designed and built his own computer, but says it is unlikely he would do it again from scratch.

The club meets every Thursday at noon, and the programs vary. Sometimes Hainfeld talks about such things as computer architecture, discs or programming; and sometimes, members demonstrate their particular hardware or software. At other times, people from computer shops are invited to display their wares. And to see computers in action, members will tour a Lab facility such as the Light Source where some 60 microcomputers are hooked into a large computer.

Among the most popular computers purchased for home use by club members are Atari, Sinclair, Vic 20, TRS color computer, KayPro, Apple and IBM. About the least expensive is the Sinclair which can be purchased for under \$100. On the other hand, if the family budget allows, one might invest in a KayPro which costs about \$1800 initially, but can run up to \$3,000 or \$4,000 if a printer and other accessories are added.

What are some of the problems of computer owners? "It's easy to spend money on computers," says Hainfeld, "and this could lead to some family disputes." Besides cash flow, he says another problem is that users would like to share their programs with each other but they can't because the formats are not compatible.

Computers are very useful but they may not be the best solution for every (Continued on page 2)

Mort Rosen

Site linemen Jack Cochrane (left) and Jack Barry hang banners on the water tower to announce BNL's History Festival this Sunday. Festival hours are 10 a.m. to 5 p.m., and there is no admission charge. This year Suffolk County is celebrating its 300th birthday, and the History Festival is one of the official Tercentenary events.

Science in Ancient Africa

Prof. Ivan Van Sertima, Rutgers University, will speak on "The Lost Sciences of Africa" on Tuesday, June 14, at 7 p.m., Berkner Hall. Specifically, he will talk about agriculture, astronomy, architecture and engineering, experimental aeronautics, metallurgy, mathematics, medicine, navigation, physics, and writing systems. The lecture will be illustrated with slides.

Professor Van Sertima was born in Guyana, South America. He was educated at the School of Oriental and African Studies, London University, and at the Rutgers Graduate School. He holds degrees in African studies, linguistics and anthropology.

He is the author of "Caribbean Writers," a collection of critical essays on the Caribbean novel. From 1976-1980 he was asked by the Nobel Committee of the Swedish Academy to nominate candidates for the literature Prize.

Van Sertima has published essays on the dialect of the Sea Islands off the Georgia Coast, and is the compiler of the "Swahili Dictionary of Legal Terms" based on his field work in Tanzania, East Africa.

He is the author of "They Came Before Columbus: The African Presence in Ancient America." In 1981 it was awarded the Clarence L. Holte Prize, a prize given every two years "for a work of excellence in literature and the humanities relating to the

Ivan Van Sertima

cultural heritage of Africa and the African diaspora."

Professor Van Sertima is an Associate Professor of African Studies at Rutgers and is editor of the Journal of African Civilizations.

Aerial Survey

A blue and white helicopter will fly over the Lab at an altitude of 150 feet from June 11 to June 18. The flights will be during the day and will encompass a 25-square-mile area. The crew, from EG&G Inc., Washington, D.C., will map the natural terrestrial radiation profile of the areas around Brookhaven, as part of routine radiological background surveys performed by the Department of Energy (DOE). The surveys will be similar to those DOE has been conducting around many facilities in the U.S. for the last 20 years in connection with a continuous research and environmental radiation monitoring program.

WIS Events

The annual business meeting of Brookhaven Women in Science will be held on Tuesday, June 14, at noon, Room A, Berkner Hall.

Brookhaven Women in Science will hold their third annual cocktail party on the patio at the Brookhaven Center on Tuesday, June 21 at 5 p.m. Hot and cold hors d'oeuvres will be served and there will be a cash bar. Reservations are requested and can be made by sending a check for \$3.50 per person, payable to Brookhaven Women in Science, to treasurer Ellen Gannon, Bldg. 801, by June 16. The party is open to the Lab community.

Students Arrive

The summer students are here. From June 6 until August 19, 59 of them from 43 colleges will be collaborating with scientists in various departments. The purpose of the program, which is in its 31st year, is to provide students with educational and training experiences which will further their research interests. Funding has been provided by the Division of Intergovernmental and Institutional Relations, Department of Energy.

Reminder

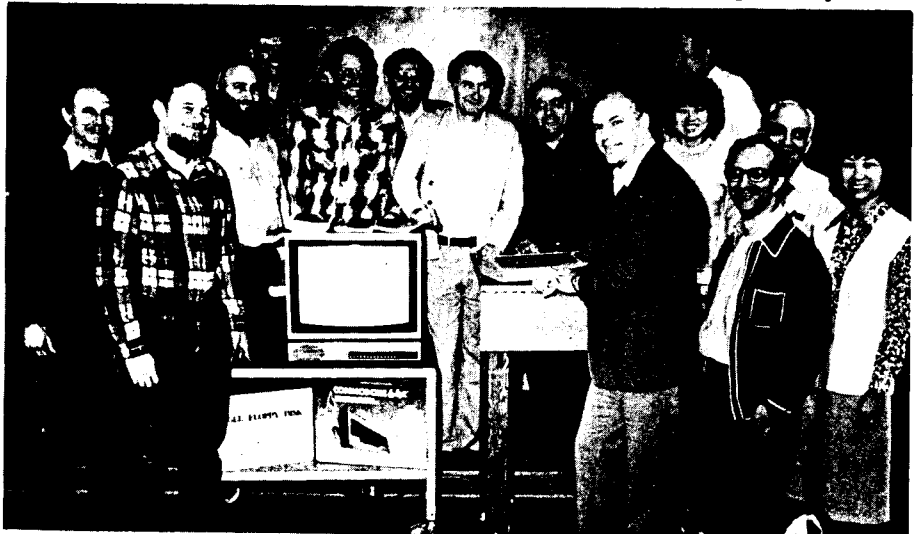

Today is the deadline for enrolling in the Dental Assistance Plan. If you do not join now, the next chance to participate will be January 1, 1985.

Computer

(Cont'd)

situation. One club member recounted how his car broke down in the middle of nowhere and when he found something was wrong with his distributor cap, he was able to fix it temporarily. He said that if he had had a computer-

ized car, no repairs could have been made on the road, and the replacement of a module would have been very expensive. And as for computers being able to do everything a human being can do, Hainfeld says — "it's going to be hard to replace a poet."

Roger R. Stoutenburg

At a recent Thursday meeting of the Microcomputer Club, George Sintchak (front, third from right) demonstrated the ins and outs of his new Commodore 64 personal computer. Members at the meeting were (from left) Arthur Forman, Jim Hainfeld, Alan Kuehner, Dick Squires, Richard Machnowski, Sam Borenstein, Jack Tallent, Irving Montanez, Sintchak, Lily Liu, Joe Sheehan, Marty Kramer, Bill Siegelman, Judy Liu. Each week the club members exchange information and explore the joys and problems of home computers. Owners of the same type of machine are also forming informal user groups. For more information on this call George Sintchak on Ext. 4227.

Signs For All Reasons

These last few weeks have been busy ones for Frank DeRosa, BNL sign painter. He has been doing the signs for the History Festival this Sunday, including the big banners now hanging on the water tower.

Actually, though, DeRosa is always busy. He's a one-man operation, responsible for all the signs on site. Traffic signs, street signs, nameplates, electronic panel schematics, retirement plaques, pressure sensitive labels, back lighted signs, silk screened signs — he does them all.

A visit to DeRosa's shop tells the story. Amid the brushes and paints he uses for hand lettering are other tools which make him seem less of a sign painter and more of a sign maker. For example, all metal signs are made with special techniques. Signs that must be reflective are done with a heat process that involves baking a reflective material onto metal. Nameplates, retirement plaques and the like are made with photosensitive metal plates onto which words and pictures can be burnished.

These processes are time savers because the actual letters are purchased commercially or typeset by computer in Graphic Arts. But there is no sub-

stitute for hand lettering and drawing when a special one-of-a-kind sign is needed. That's when talent, combined with a good eye and a steady hand, are most critical.

DeRosa's artistic leanings were recognized when he was a youngster. His first pictures — not counting early childish doodling — were of a boxer and a ferry boat. Later he painted murals and lettered cars for friends. He never had any formal training, but he had encouragement from his parents.

In his job at Brookhaven, DeRosa started as assistant sign painter to Doug Smith, who left the Lab almost three years ago. Now that he is alone in the shop, he's always looking for ways to save time. One of his innovations is using photosensitive metal to make the plaques given to retirees, which replaces the hand drawings he used to do.

While one week he might concentrate on making certain types of signs, as he just did for the History Festival, on the whole, he does a large mix of everything needed on site. And visitors to the Lab this Sunday will be able to find their way around more easily, thanks to DeRosa's signs.

Frank DeRosa unfurls one of the banners he painted for the History Festival this weekend.

Children's Summer Program

This summer's recreation program for children will begin on Wednesday, July 6.

Swimming Classes

Place: BNL Swimming Pool
Activities: Each child will be scheduled for one lesson each week for eight consecutive weeks. American Red Cross certificates will be awarded to those children who qualify.

Time: Monday through Friday - 1:30 to 3:00 pm

Fee: \$15 for each child upon registration. Also, each child will pay the daily admission fee of \$1.25, or present a season ticket.

Participation: Children of all Laboratory employees. A minimum height of 47" is a participation requirement.

Registration applications may be picked up at the Recreation Office between the hours of 8:30 a.m. to 5:00 p.m.; the BERA Film Service Office in Berkner Hall between 9:00 a.m. and 1:00 p.m.; and the swimming pool during open hours. Mail or deliver applications with registration fees (checks payable to BERA) to Recreation Office, Building 185, no later than June 24.

Tennis Program

Place: BNL Tennis Courts

Activities: Basic tennis instruction
Time: Monday through Thursday - 3:00 to 4:00 p.m.

*Fee: No fee or registration required.

Participation: Children of all Laboratory employees. Children will provide their own racquets and balls.

*Children who wish to play in the end-of-season tournament will be asked to pay a \$2 entrance fee.

Friday Pool Specials

Place: BNL Swimming Pool

Activities: Water games and contests

Time: Each Friday - 3:15 to 4:30 p.m.

Fee: \$1.25 daily pool admission or present a season ticket. No registration is required.

Participation: Children of all Laboratory employees.

Arrivals & Departures

Arrivals

Henry G. Ashby, Jr. Accelerator
Peter K. Boni Physics
Dongmin Chen Physics
Diane R. Collins Contr. & Proc.
Janice DePass Nuclear Energy
Lewis Jiggetts Accelerator
Richard L. Maldonado Reactor
Anthony Muscarella Accelerator
Raymond Patuano Plant Eng.
Ann Marie Schuler Applied Science

Departures

This list includes all employees who have terminated from the Laboratory, including retirees:
Ann M. Smith Contr. & Proc.

Hospitality News

As mentioned last week, Betty Mazzarella has made arrangements for a tour of the historical William Floyd Estate. The group will be departing at 10 a.m. from the Brookhaven Center. If you are interested in taking the tour, it is suggested that you arrive at the Center no later than 9:45 a.m. in order that you may be advised of the travel arrangements.

BROOKHAVEN BULLETIN

Published weekly for the employees of BROOKHAVEN NATIONAL LABORATORY

BERNICE PETERSEN, Editor
MONA S. ROWE, Assistant Editor
ANITA COHEN, Reporter

35 BROOKHAVEN AVE., UPTON, N.Y. 11973
Telephone (516)282-2345

Swimming Pool

The pool will be closed on Sunday, June 12, and also during the holiday weekend July 2 through 5.

Summer Schedule (Starting July 6)

Monday through Thursday
11:00 am to 1:30 pm employees only
1:30 pm to 3:00 pm children's lessons
3:00 pm to 9:30 pm employees/families/guests

Friday
11:00 am to 1:30 pm employees only
1:30 pm to 3:00 pm children's lessons
3:00 pm to 4:30 pm children's pool special
4:00 pm to 9:30 pm employees/families/guest

Saturday & Sunday
1:00 pm to 6:00 pm employees/families/guests

Entrance Fees

Daily Admissions:

\$1.25 employee
\$1.25 family member
\$1.75 guest

Season Tickets: (valid to September 4)
\$23.00 individual
\$33.00 family

Season tickets are sold at the pool during open hours to employees and immediate family members.

Guest Ruling (Applies to all recreation facilities)

One Guest - An employee is allowed to bring one guest per visit without special permission or prior arrangement. The guest must be accompanied by the employee.

Two to Five Guests - Advance arrangements for two to five guests may be made at the Recreation Office. (No more than five guests per employee is ever permitted.) When such an arrangement is made, the Recreation Office issues an admission card stating the sponsor's name and life number, the number of guests permitted, the date of visit, and the facility to be visited. Guests must be accompanied by the employee, who will be requested to show the admission card at the main gate and at the swimming pool ticket desk.

Sponsoring employees are responsible for their guests during the entire time they are on site.

Blood Drive In Gear

In January the Greater New York Blood Program gave BNL an award. Among federal facilities in the N.Y.C., N.J., L.I. and Hudson Valley area, the Laboratory had one of the highest percentages of employees donating blood in 1982.

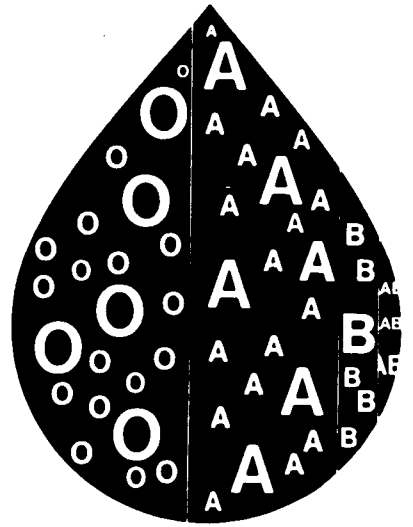

BNL will try to improve upon last year's turnout (643) when the 1983 Summer Blood Donor Program is held Wednesday, June 22 and Thursday, June 23 from 10 a.m. to 3 p.m. in the gymnasium.

A summer event for the past 15 years, the blood drive comes before the July 4th weekend because of the anticipated rise in car accidents.

For the first time, donors will be asked to fill out a confidential questionnaire concerning AIDS, a disease with an unknown cause, which has received considerable attention during the past year. The questionnaire will be used to screen potential donors. If there is a possibility of AIDS, the blood will be used for research.

As for contracting this disease when giving blood, "chances are minimized," says L.C. Emma, Chairman of the BNL Blood Program. "Antiseptic measures, including the use of disposable needles, are employed during blood donation to prevent the spread of this or any other communicable disease."

Pledge cards have been distributed and must be returned either to departmental blood drive captains (see below) or to Emma no later than June 14.

Blood Drive Captains

Accelerator	Peter Yamin
App. Math	Mike Losquadro
Biology	Richard Sautkulis

Gymnasium Hours

Closed Saturdays and Sundays throughout the summer months.

June 11 - 20
Open - 11:00 a.m. - 2:00 p.m. (employees only)
5:00 p.m. - 9:30 p.m. (general activities)

June 21 - 23
Closed for Blood Drive

June 24
Open - 5:00 p.m. - 9:30 p.m. (general activities)

June 27 - July 1
Open - 11:00 a.m. - 2:00 p.m. (employees only)
5:00 p.m. - 9:30 p.m. (general activities)

July 4 and 5
Holiday closing

Starting Wednesday, July 6
Normal summer schedule
11:00 a.m. - 1:30 p.m. (employees only)
5:00 p.m. - 9:30 p.m. (general activities)

Whitewater Films

The Mountain/Canoe Club invites all who are interested to view a two-film program about whitewater fun and safety. Show time is noon on Monday, June 13 in Room B, Berkner Hall. Each film runs from 12 to 15 minutes.

Berries Come Lately — Again

The inclement weather of past weeks has delayed the start of the strawberry season on Long Island. Local growers say the berries should be at their peak by the weekend of June 18th. But just in case, call ahead.

The annual Strawberry Festival sponsored by the Mattituck Lions Club will be held on June 18th from noon to 5 p.m. at Mattituck High School (Rte.

25 east of Mattituck). This popular event will include the High School band, a raffle for a \$5000 scholarship, coronation of the Strawberry Queen, arts and crafts exhibitions and sales, amusement rides, games of skill, and mountains of old-fashioned homemade strawberry shortcake topped with whipped cream. Admission is \$1 for adults, 50¢ for children.

Osborn Farm: Main Street, Wainscott (537-1323). 8 acres. Dawn to dusk, Mon.-Sat. 75¢/qt. including container. Children especially welcome.

Lewin Farms: Sound Avenue, Wading River (929-4327). Next to Wildwood State Park, 50 acres. 7 a.m.-7 p.m. 65¢/qt. Containers available.

Fritz Lewin Farm: Corner of Sound and Edwards Avenues, Calverton (727-3346). 8 a.m.-6 p.m. 60¢/qt. Containers may be purchased.

Sabat Farm: 116 Sound Avenue, Baiting Hollow (727-2426). 7 a.m.-3 p.m. 60-75¢/qt. Bring your own qt. containers.

William J. Polak, Jr.: Church Lane, Aquebogue (722-3049). 4 acres. 8 a.m.-6 p.m. Prices not available. Containers available at cost.

Ferdinand Schmitt Farm: 26 Pinelawn Road, Melville (423-5693). 10 acres. 8 a.m.-4 p.m. Prices not available. Including container.

Kenneth Glover: 633 Horse Block Road, Brookhaven (286-8721). 50 acres. 8 a.m.-7 p.m. 75¢/lb. Containers may be purchased. At least one adult for every two children.

Sep's Farm Stand: A.P. Sepenoski, Jr. Route 25, East Marion (323-3612). 5 acres. 8:30 a.m.-5 p.m. Prices not available. Containers may be purchased.

Henry Schwenk: Montauk Highway, Bridgehampton (537-1377). 2 acres. 8 a.m.-6 p.m. Prices not available. Containers may be purchased.

Young's Orchard: 54 Sound Ave., Riverhead (727-5363). 4 acres. 8 a.m.-6 p.m. Prices not available. Containers may be purchased.

R. Hogner: 120 Dayton Ave., Manorville (878-1774). 2 acres. 8 a.m.-sunset. Prices not available. Containers 5¢ extra.

Edwards Farm: N. Edwards Ave., Calverton (727-0472). 9 acres. 8 a.m.-6 p.m. 60¢/qt.

South Breeze Farm: 260 Old Country Road, Huntington (423-5914). 8 a.m. Come early. Prices not available.

John Berezny: Sound Ave., Riverhead (727-4661). 2 acres. 8 a.m.-5 p.m. Prices not available. Containers may be purchased.

Wickham Fruit Farm: Main Road, Cutchogue (734-6441). 10 a.m.-5 p.m. Mon.-Sat. Prices not available. Bring your own qt. containers.

Green Thumb: Montauk Highway, Water Mill (726-4989). 10 acres. 8 a.m.-5:30 p.m. 60¢/lb. Bring your own containers. Please call ahead.

Hodun Farms: (727-2618). 8 a.m.-5 p.m. 50¢/qt. Containers available at cost.

Car Repair Class For Women

The Gulf Service Station is conducting a workshop on June 16 from 5:30 to 7 p.m. — and it is for women only. Two mechanics will give instruction in basic car maintenance involving such matters as how to check the oil, transmission fluid, tire pressure, and what to do in case of an emergency. There is room for 16-20 women and, to reserve a place, call Charlie on Ext. 4034. Each participant will also receive a small gift and a certificate.

Golf

The third tournament of the BGA golf season will be held on Wednesday, June 22, at the Pine Hills Country Club in Manorville. Tee times will be from 11:30 to 1:00 and may be obtained by contacting John Nagy, Ext. 2667, Bldg. 475. Entry fees are \$1 for league members and \$2 for non-members, and must be paid by Friday, June 17. Nagy will also handle the collection of greens fees - \$9. Those planning to play in the tournament may include the greens fee with the entry fee, or pay Nagy at the course.

Theater Group

The Theater Group will meet at 8 p.m. on Friday, June 10, in the Physics Department lounge. The main item of business will be the election of officers for the next year. The slate of candidates is:

President — Karl Swyler
Vice President/Treasurer — Lori Eagle

Secretary — Bob Kinsey
House Committee Chairman — Rita Straub

Program Committee Chairman — Bill Love

Advisory Committee Chairman — Kurt Fuchel

Publicity Committee Chairman — Penny Baggett

Nominations will also be accepted from the floor. All members are urged to attend.

Singles Club

The BNL Singles Club will meet on June 14 at 5:10 p.m., Room C, Berkner Hall. Members who haven't sent in a reply form for the club picnic on June 18, should do so as soon as possible. Money for the Atlantic City trip (June 25) and Westbury Fair, "Camelot" (June 30) should also be sent in immediately. For further information, call Chuck on Ext. 5317.

Cafeteria Menu Week Ending June 17, 1983

Monday, June 13	
Cream of chicken soup	(cup) .65
	(bowl) .75
Beef liver w/onions & 1/veg.	1.80
Port chow mein on rice	1.85
Hot Deli: Veal pattie parmesan hero	1.95
Tuesday, June 14	
Pork and cabbage soup	(cup) .65
	(bowl) .75
Spaghetti Special "all you can eat" w/meatsauce & garlic bread	2.05
Beef Burgundy on rice	1.95
Hot Deli: Baked ham	(bread) 1.85
	(roll) 1.95
Wednesday, June 15	
Turkey rice soup	(cup) .35
	(bowl) .45
Meatcakes & onions w/1 veg.	1.80
Southern fried chicken w/stuffing & giblet gravy	1.95
Hot Deli: Roasted turkey breast	(bread) 1.85
	(roll) 1.95
Thursday, June 16	
Beef noodle soup	(cup) .65
	(bowl) .75
Braised Swiss steak w/onions, mushrooms & 1 veg.	2.10
Sauteed chicken breasts on rice	2.00
Hot Deli: Knockwurst & kraut	(bread) 1.85
	(roll) 1.95
Friday, June 17	
Manhattan clam chowder	(cup) .65
	(bowl) .75
Breaded fish fillet & 1 veg.	1.85
Roast loin of pork & sweet potatoes	1.95
Hot Deli: Clam boat	1.95
The Salad Bar is now open Tuesday thru Friday

Placement Notices

The Laboratory's placement policy is to select the best-qualified candidate for an available position, with consideration given to candidates in the following order of priority: (1) present employees within the department, with preference to those within the immediate work group; (2) present employees within the Laboratory as a whole; and (3) outside applicants. In keeping with the Affirmative Action plan, selection decisions are made without regard to age, race, color, religion, national origin, sex, handicap or veteran status.

Each week, the Personnel Office lists new personnel placement requisitions. The purpose of these listings is, first, to provide open placement information on all non-scientific staff positions; second, to give employees an opportunity to request consideration for themselves through Personnel; and, finally, for general recruiting purposes. Because of the priority preference policy stated above, each listing does not necessarily represent an opportunity for all candidates. As a guide to readers, the listings are grouped according to the anticipated area of recruitment.

Except when operational needs require otherwise, positions will remain open for one week following publication date.

For further information regarding a placement listing, contact the Personnel Placement Supervisor, Ext. 2882.

LABORATORY RECRUITMENT: Opportunities for present Laboratory employees.

1884. TOOLCRIB ATTENDANT - Central Shops Division.

1885. HELPER A - Central Shops Division

OPEN RECRUITMENT: Opportunities for present Laboratory employees and outside applicants.

1886. ELECTRICIAN A - (Temporary opening) - Under minimum supervision, lays out, constructs, installs, maintains, repairs and operates electrical systems, equipment, controls and related devices. Requires minimum of five years' industrial electrical experience. Plant Engineering Division.

1887. TECHNICAL POSITION - Requires AAS degree in mechanical technology or its equivalent. Will assist in the operation and maintenance of high capacity pumping equipment, cooling towers, heat exchangers and demineralizers. Experience with power house, marine equipment and water analysis helpful. Accelerator Department.

1888. DATA SERVICES ASSISTANT - Requires AAS degree or equivalent appropriate experience. Will prepare input data, keep records, prepare charts and maintain files on all trim coil information. Accelerator Department/CBA.

1889. CLERICAL POSITION (Half-time) - Requires excellent typing and clerical skills. Proven ability in statistical typing necessary. Experience in word processing, business math, and book-keeping highly desirable. Personnel Division.

1890. PROGRAMMER - Responsible for the coding of programs, testing of program logic, and preparation of these programs for computer operation. Will assist systems analysts in design specifications. Requires BS in business administration or a related field, and a year of COBOL programming experience. Familiarity with Hewlett Packard 3000 highly desirable. Management Information Systems Division.

1891. SYSTEMS/DP ANALYST - Participates in the design and development of various administrative and management systems and their associated computer implementation. Requires a BS in business administration, or a related field, and several years' COBOL programming experience, some at the analytical level. Knowledge of Image 3000 Data Base Systems necessary. Familiarity with ASK, QUERY, SPL desirable. Management Information Systems Division.

1892. BIOLOGY ASSOCIATE - (Part/Time/Mornings) - Requires BS in biology or equivalent capabilities. Must be familiar with sterile techniques and preparation of solutions. Individual hired will be expected to culture mammalian cells and prepare growth media. Biology Department.

1893. STAFF ENGINEER - Requires a bachelor's degree in electrical engineering, or equivalent capabilities. Will be involved in the development and maintenance of modern electronic instrumentation in support of a diverse fundamental research program. Chemistry Department.

Auto & Auto Supplies

- 77 CHEVY CAMARO - \$3,300. Ext. 7125.
