Includes Department of Transportation, Agency for International Development, Department of Housing and Urban Development, Department of Labor, Nuclear Regulatory Commission, and Department of the Interior.

NOTE:

During the fiscal year 1995 survey cycle, the Agency for International Development (AID) restructured its internal database and implemented a New Management System. As a result, AID's response to the fiscal year 1995 Federal support survey was produced using an interim reporting system. The significant differences between AID's fiscal year 1995 and prior year data can be attributed to this change in reporting systems. In addition, AID anticipates that future responses to the Federal support survey will differ from the fiscal year 1995 submission, since the interim reporting system will be refined to produce more accurate data.
