

category) that the affected Rockwell Collins FMC units are installed on (other airplanes could have the installation):

Type certificate holder	Affected airplanes
Raytheon	Model Beechjet 400A and Model 400T (T-1A).
Bombardier ..	Model CL-600-2B19 Regional Jet Series 100 and Model CL-600-2B16 (variant CL-604).

(b) *Who must comply with this AD?*
 Anyone who wishes to operate an aircraft equipped with one of the affected FMCs must comply with this AD.

(c) *What problem does this AD address?*
 The actions specified by this AD are intended to prevent the FMC from retaining original information when an edit is made to a procedure or flight plan. Such a condition could cause the pilot to fly the airplane out of the range of the correct altitude constraint. This condition could result in air traffic control or the pilot making flight decisions

that put the airplane in unsafe flight conditions.

(d) *What actions must I accomplish to address this problem?* To address this problem, you must accomplish the following:

Actions	Compliance
(1) Remove the affected FMC unit specified in paragraph (a)(1) of this AD and install a modified or new FMC unit (as specified in paragraph (e) of this AD) in accordance with the applicable maintenance manual.	Within the next 24 calendar months after December 20, 2002 (the effective date of this AD), unless already accomplished.
(2) Do not install, on any aircraft, an affected FMC unit specified in paragraph (a)(1) of this AD that has not been modified to the replacement part number specified in paragraph (e) of this AD.	As of December 20, 2002 (the effective date of this AD).

Note 1: When selecting a replacement FMC part number, determine if the part number has been certified for installation on the particular aircraft through either the Type

Certification or Supplemental Type Certification process. Also, determine whether additional avionics units must be upgraded at the same time to be compatible

with the selected replacement FMC part number.

(e) *What are the acceptable replacement FMC part numbers?*

FMC affected part No.	Acceptable replacement FMC part No.
822-0783-002	822-0783-011 or 822-0783-013
822-0783-006	822-0783-011 or 822-0783-013
822-0783-010	822-0783-011 or 822-0783-013
822-0891-001	822-0891-005 or 822-0891-008
822-0868-004	822-0868-029, 822-0868-030, 822-0868-031, or 822-0868-032
822-0868-010	822-0868-029, 822-0868-030, 822-0868-031, or 822-0868-032
822-0868-021	822-0868-029, 822-0868-030, 822-0868-031, or 822-0868-032

(f) *Can I comply with this AD in any other way?* You may use an alternative method of compliance or adjust the compliance time if:

- (1) Your alternative method of compliance provides an equivalent level of safety; and
- (2) The Manager, Wichita Aircraft Certification Office (ACO), approves your alternative. Submit your request through an FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Wichita ACO.

Note 2: This AD applies to each airplane identified in paragraph (a) of this AD, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (f) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and, if you have not eliminated the unsafe condition, specific actions you propose to address it.

(g) *Where can I get information about any already-approved alternative methods of compliance?* Contact Roger A. Souter, FAA, Wichita Aircraft Certification Office (ACO), 1801 Airport Road, Rm 100, Wichita, Kansas 67209; telephone: (316) 946-4134; facsimile:

(316) 946-4407. E-mail address: Roger.Souter@faa.gov.

(h) *What if I need to fly the airplane to another location to comply with this AD?* The FAA can issue a special flight permit under sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate your airplane to a location where you can accomplish the requirements of this AD.

(i) *When does this amendment become effective?* This amendment becomes effective on December 20, 2002.

Issued in Kansas City, Missouri, on October 28, 2002.

Michael Gallagher,
 Manager, Small Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-U

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 97

[Docket No. 30337; Amdt. No. 3029]

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations and

instrument flight rules at the affected airports.

DATES: This rule is effective November 5, 2002. The compliance date for each SIAP is specified in the amendatory provisions.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of November 5, 2002.

ADDRESSES: Availability of matters incorporated by reference by the amendment is as follows:

For Examination

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591;

2. The FAA Regional Office of the region in which the affected airport is located.

3. The Flight Inspection Area Office which originated the SIAP; or,

4. The Office of the Federal Register, 800 North Capitol Street, NW., Suite 700, Washington, DC.

For Purchase—Individual SIAP copies may be obtained from:

1. FAA Public Inquiry Center (APA-200), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription—Copies of all SIAPs, mailed once every 2 weeks, are for sale by Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

FOR FURTHER INFORMATION CONTACT:

Donald P. Pate, Flight Procedure Standards Branch (AMCAFS-420), Flight Technologies and Programs Division, Flight Standards Service, Federal Aviation Administration, Mike Monroney Aeronautical Center, 6500 South MacArthur Blvd. Oklahoma City, OK 73169 (Mail Address: P.O. Box 25082 Oklahoma City, OK. 73125) telephone: (405) 954-4164.

SUPPLEMENTARY INFORMATION: This amendment to part 97 of the Federal Aviation Regulations (14 CFR part 97) establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR part 51, and § 97.20 of the Federal Aviation Regulations (FAR). The applicable FAA Forms are identified as FAA Forms 8260-3, 8260-4, and 8260-5. Materials

incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the **Federal Register** expansive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction on charts printed by publishers or aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form documents is unnecessary. The provisions of this amendment states the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

The Rule

This amendment to part 97 is effective upon publication of each separate SIAP as contained in the transmittal. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (NFDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Procedures (TERPS). In developing these SIAPs, the TERPs criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs are impracticable and contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

Conclusion

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT

Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 97

Air traffic control, Airports, Incorporation by reference, and Navigation (Air).

Issued in Washington, DC on October 25, 2002.

James J. Ballough,

Director, Flight Standards Service.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 97 of the Federal Aviation Regulations (14 CFR part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective at 0901 UTC on the dates specified, as follows:

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

1. The authority citation for part 97 is revised to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120, 44701; and 14 CFR 11.49(b)(2).

2. Part 97 is amended to read as follows:

By amending: § 97.23 VOR, VOR/DME, VOR or TACAN, and VOR/DME or TACAN; § 97.25 LOC, LOC/DME, LDA, LDA/DME, SDF, SDF/DME; § 97.27 NDB, NDB/DME; § 97.29 ILS, ILS/DME, ISMLS, MLS, MLS/DME, MLS/RNAV; § 97.31 RADAR SIAPs; § 97.33 RNAV SIAPs; and § 97.35 COPTER SIAPs, identified as follows:

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 165

[COTP Houston-Galveston-02-018]

RIN 2115-AA97

Security Zones; Captain of the Port Houston-Galveston Zone

AGENCY: Coast Guard, DOT.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing security zones within the ports of Houston, Morgan's Point, Bayport, Texas City, and Freeport, Texas. These zones are being established to protect waterfront facilities, persons, and vessels from subversive or terrorist acts. Entry of persons and vessels into these zones is prohibited except as authorized by this rule or by the Captain of the Port Houston-Galveston.

DATES: This section is effective from 8 a.m. on October 15, 2002 through 8 a.m. on April 15, 2003.

ADDRESSES: Documents indicated in this preamble as being available in the docket, are part of docket [COTP Houston-Galveston-02-018] and are available for inspection or copying at U.S. Coast Guard Marine Safety Office Houston-Galveston, 9640 Clinton Dr, Galena Park, TX 77547 between 8 a.m. and 3:30 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Lieutenant Junior Grade (LTJG) George Tobey, Port Waterways Management, Marine Safety Office Houston-Galveston, TX at (713) 671-5100.

SUPPLEMENTARY INFORMATION:

Regulatory Information

We did not publish a notice of proposed rulemaking (NPRM) for this rule. Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing an NPRM and, under 5 U.S.C. 553 (d)(3), good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**.

On June 11, 2002 the Coast Guard published a temporary final rule entitled "Security Zones; Captain of the Port Houston-Galveston Zone" [COTP Houston-Galveston-02-011] (67 FR 39851). This rule was required to respond to security concerns within the Captain of the Port Houston-Galveston zone following the September 11, 2001 attacks on the World Trade Center towers in New York City and the Pentagon in Washington DC. October 15, 2002 is the expiration date of that rule.

National security and intelligence officials continue to warn that future terrorist attacks against United States interests are likely. The Captain of the Port Houston-Galveston is establishing a new temporary final rule that encompasses many of the same areas covered in the expiring rule. Any delay in making this new rule effective would be contrary to the public interest because immediate action is necessary to protect against the possible loss of life, injury, or damage to property.

On June 11, 2002, we published an NPRM entitled "Security Zones; Captain of the Port Houston-Galveston Zone" [COTP Houston-Galveston-02-009] (67 FR 39919). The NPRM proposed to replace the existing temporary security zones with permanent zones. The comment period for the NPRM expired on August 12, 2002. We received only two comments on this rule and both of these comments asked for information

on how to comment on the proposed rule. As a result of these comments and to reflect changes in the size of the security zones in this rule the Coast Guard intends to issue a supplemental notice of proposed rule making and reopen the comment period.

Background and Purpose

On September 11, 2001, both towers of the World Trade Center and the Pentagon were attacked by terrorists. The President has continued the national emergencies he declared following those attacks (67 FR 58317 (Sep. 13, 2002) (continuing the emergency declared with respect to terrorist attacks); 67 FR 59447 (Sep. 20, 2002) (continuing emergency with respect to persons who commit, threaten to commit or support terrorism)). The President also has found pursuant to law, including the Magnuson Act (50 U.S.C. 191 *et seq.*), that the security of the United States is and continues to be endangered following the terrorist attacks (E.O. 13,273, 67 FR 56215 (Sep. 3, 2002) (security of U.S. endangered by disturbances in international relations of U.S. and such disturbances continue to endanger such relations). In response to these terrorist acts, heightened awareness and security of our ports and harbors became necessary. To enhance security the Captain of the Port Houston-Galveston established temporary security zones published in the **Federal Register** on June 11, 2002 (67 FR 39851). The original rule established security zones within the ports of Houston, Bayport, Texas City and Freeport, TX.

In order to provide continuous protection while permanent zones are being promulgated through notice and comment rule making the Coast Guard is establishing a new temporary final rule for the ports of Houston, Morgan's Point, Bayport, Texas City and Freeport, TX. This rule establishes distinct security zones in these areas with slight modifications from the previous rule and includes the addition of a new zone for Morgan's Point, TX. The Morgan's Point security zone was originally proposed in the NPRM published on June 11, 2002 (67 FR 39919). We received no comments or objections regarding the security zone for Morgan's Point.

These zones are being established to protect waterfront facilities, persons, and vessels from subversive or terrorist acts. They are being established around areas concentrated with commercial facilities considered critical to national security. This rule is designed to restrict access to vessels engaged, or assisting in commerce with waterfront facilities
