 Notes: None

AGE_P HHC Recode		Recode
		ASTATFLG = 1 and AGE = 18+
		Sample adults 18+
19-20		Age
	30,141	18-84 18-84 years
	711	85 85+ years

Sources: AGE
 Recodes: None
 Keywords: age

Notes: In most cases, data on age came from HHC.120. Because age is an important variable for instrument check items and in developing the weights, all respondents must have data on age. A series of questions in the instrument from HHC.124 through HHC.165 attempted to collect data on age when age was not given in HHC.120.

	0 10 Hispanic/Latino/Spanish, type refused	
	0 11 Hispanic/Latino/Spanish, type not ascertained	
	25,436 12 Not Hispanic/Spanish origin	

Sources: ORIGIN_I; HHC.180

Recodes: None

Keywords: ethnicity; national origin; ancestry

Notes: "Other-specify" responses were assigned to specific groups where possible. Respondents who selected the generic "Hispanic/Spanish" response category were assigned "09", and in cases where the respondent refused to answer Hispanic origin or didn't know it, this variable was assigned "10" and "11", respectively. When Hispanic origin was not ascertained, this variable was also assigned "11". In cases where "Other-specify" responses were determined to be non-Hispanic, this variable was assigned "12" for not Hispanic/Spanish origin, and ORIGIN_I was back coded to "2" or "No" (no group represented respondent's national origin). Respondents coded as "12" answered 2,7,8, or 9 in ORIGIN_I. Data came from HHC.170 & HHC.180.

	06 Chinese	190
	07 Filipino	175
	12 Asian Indian	170
	16 Other race*	1,663
	17 Multiple race, no primary race selected	68

Sources: HHC.200; HHC.220

Recodes: None

Keywords: race; old OMB race standards; bridge variable

Notes: MRACBPI2 creates a bridge between the old (MRACE_P in 1997 and 1998) and the new OMB race standards (MRACER_P in 1999, MRACRP_I in 2000, 2001 and 2002, and MRACRPI2 in 2003 and beyond). Data came from HHC.200 and HHC.220. If only one valid race was given, that answer was copied from RACE1 to here. If more than one race was given, the response was copied from MLTRAC (HHC.220). When comparing NHIS health measures across years by detailed race categories, MRACBPI2 should be used. For confidentiality reasons, it is not possible to create a bridge for the API (Asian and Pacific Islander) category. * Other race is included here for bridging purposes.

	Sample adults 18+

676 Alcohol Drinking Status: Recode

7,737	1	Lifetime abstainer [<12 drinks in lifetime]
4,459	2	Former drinker [No drinks in past year]
17,861	3	Current drinker [1+ drinks in past year]
795	9	Drinking status unknown

Sources: ALCLIFE; ALC1YR; ALC12MYR

Recodes: None

Keywords: alcohol; drinking;

Notes: This recode is not directly comparable to pre-1997 NHIS alcohol drinking status recodes due to change in the order and reference period of the questions. Reference period changed from past 2 weeks to past year beginning in 1997. Definition of lifetime abstainer changed from "< 12 drinks in any one year" to "< 12 drinks in lifetime". Current drinkers include persons who had 1 or more drinks in past year, including those with unknown frequency of drinking in ALC12MNO and ALC12MTP.

Sources: AHB.200; AHB.190

Recodes: None

Keywords: desirable body weight; overweight; obesity; underweight

Notes: (1) DESIREWT was calculated using the inhouse versions of the height and body weight variables, which contain a greater range of height and weight values than are available on the public use file. (2) DESIREWT was calculated using the Metropolitan Life Insurance Company (MLIC Standards of Desirable Body Weight, 1983 Revision. (3) The category "unknown" includes person with "refused", "not ascertained," or "don't know" to height or weight, as well as persons for whom height was outside the range of the MLIC standards [61-75 inches for men; 57-71 inches for women]. (4) In calculating "percent desirable body weight," pounds were first converted to kilograms, using a conversion factor of 1 kilogram = 2.205 pounds. See Survey Description Document.

Sources: None

Recodes: None

Keywords: access; source; flu; flu shot; flu vaccine; influenza

Notes: Beginning in Q4 of 2003, an FR instruction was added to this variable which states: "A flu shot is injected in the arm. Do not include an influenza vaccine sprayed in the nose." This was due to the addition of a new variable (SPRFLUYR AAU.315) that asked about the use of flu spray. Early analysis indicates there may be problems with incorrect reporting and the variable SPRFLUYR will not be included on the public use file in 2003.

Recodes: RMAM3

Keywords: time since; mammogram

Notes: This is a recode for months since the last mammogram. This recode also utilizes the interview date, which is not available for public-use analysis. If the month/year were provided, the date of the last mammogram was set to the 15th of that month. If the year (but not month) was provided, the date of the last mammogram was set to June 30th of that year. Respondents that initially answered in RMAM2CA are in Refused/Not Ascertained/Don't Know (could not be coded for this field).

SOURCELA Appendix - 1

2003 National Health Interview Survey
AAU Section

SOURCELA Recode	Source of Medical Care
01	Has the same regular source for sick and routine/preventive care
02	Has a usual source for sick care, but does not have a usual source of routine/preventive care
03	Has a usual source for sick care, and has a usual source of routine/preventive care, but it is not/or it is unknown if it is the same source as the usual source of sick care
04	Has a usual source of sick care, but (doesn't go one place most often for routine/preventive care or unknown if has a usual source of routine/preventive care)
05	Has two or more usual sources of sick care and one of them is the source of routine/preventive care
06	Has two or more usual source for sick care, but does not have a usual source of routine/preventive care
07	Has two or more usual sources of sick care and has a usual source of routine/preventive care, but it is not/or it is unknown if it is the same source as the usual source of sick care
08	Has two or more usual sources of sick care, but (doesn't go one place most often for routine/preventive care or unknown if has a usual source of routine/preventive care)
09	No usual source of sick care or of routine/preventive care
10	No usual source of sick care, but has a usual source of routine/preventive care
11	No usual source of sick care, and (doesn't go one place most often for routine/preventive care or unknown if has a usual source of routine/preventive care)
12	Unknown if has usual source of sick care and does not have a usual source of routine/preventive care
13	Unknown if has usual source of sick care but has a usual source of routine/preventive care
14	Unknown if has usual source of sick care and (doesn't go one place most often for routine/preventive care or unknown if has routine/preventive care)
99	Unknown other

Note: Items 4, 8, 11, and 14 were modified in 1999 due to the addition of a new answer category in the input variable AHCPLKND (AAU.037). See edit specification for details.
