NOTICE OF PROPOSED RULE MAKING

Adopted: April 6, 2001

Released: April 9, 2001

Comment Date: May 31, 2001
Reply Comment Date: June 15, 2001

By the Chief, Video Services Division:

1. The Commission has before it a petition for rule making filed by KM Communications, Inc. ("KM"), an applicant for a construction permit for a new television station to operate on channel 14 at Boise, Idaho.¹ KM requests the substitution of channel 39 for channel 14 at Boise, Idaho.²

2. In support of its proposal, KM states that the adoption of its proposal could provide Boise, Idaho, with its third local television service. KM further states that the proposed substitution would resolve the potential land mobile radio interference concerns and speed the resolution of the mutually exclusivity between the competing applicants for channel 14, by eliminating the obstacle to approval of

¹ KM states that it and International Television Network, Inc. ("ITN"), filed competing, mutually-exclusive applications for channel 14 at Boise, Idaho. However, KM notes that, the parties have entered into a settlement agreement. KM states that the Joint Request for Approval of Universal Settlement as well as an amendment to the original settlement agreement remains pending before the Commission.

² KM originally requested that channel 21 be substituted for channel 14, but amended its petition for rule making to request that channel 33 be substituted for channel 14 after channel 21 was reserved as the DTV channel to be paired with NTSC channel 4 at Boise. See *Advanced Television Systems and Their Impact Upon the Existing Television Broadcasting Service*, MM Docket No. 87-268, Sixth Report and Order, 12 FCC Rcd 14588 (1997). On July 17, 2000, KM amended its petition for rule making to invoke the provisions outlined in the Commission's Public Notice (*Public Notice*) released on November 22, 1999, DA 99-2605. In that *Public Notice* the Commission announced a window filing opportunity to allow persons with certain pending requests for new analog (NTSC) television stations to modify their requests to eliminate technical conflicts with digital television (DTV) stations and/or to move from channels 60 through 69. KM states that it subsequently changed its requested channel from channel 33 to channel 39 so as not to displace an existing LPTV station from channel 33.

the settlement agreement and the Joint Request that have been pending before the Commission since 1995.

3. We believe KM's proposal warrants consideration since the channel substitution would permit KM to provide the community of Boise with its third commercial television service. A staff engineering analysis indicates that channel 39 can be allotted to Boise³ with a zero offset consistent with the criteria set forth in the Commission's *Public Notice* for evaluating requests to change an NTSC allotment. Pursuant to the Commission's policy as noted in its *Public Notice*, we will not accept competing expressions of interest in the use of television channel 39 at Boise.⁴

4. Accordingly, we seek comments on the proposed amendment of the TV Table of Allotments, Section 73.606(b) of the Commission's Rules, for the community listed below, to read as follows:

<u>City</u>	<u>Channel No.</u>	
	<u>Present</u>	<u>Proposed</u>
Boise, Idaho	2, *4+, 7, 14	2, *4+, 7, 39

5. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. In particular, we note that a showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be allotted.

6. Interested parties may file comments on or before May, 2001, and reply comments on or before June 15, 2001, and are advised to read the Appendix for the proper procedures. Comments should be filed with the Secretary, Federal Communications Commission, Washington, D.C. 20554. Additionally, a copy of such comments should be served on the petitioner, or its counsel or consultant, as follows:

Jeffrey L Timmons
 Irwin, Campbell & Tannenwald, P.C.

³ The coordinates for channel 39 at Boise are North Latitude 43-45-18 and West Longitude 116-05-52.

⁴ New and amended rulemakings petitions submitted during the noted window filing opportunity will be subject to the Commission's normal notice and comment procedures. However, the Commission indicated in the *Sixth Further Notice of Proposed Rule Making*, 11 FCC Rcd 10968 (1996), that new proposals for additional NTSC channel allotments will not be accepted. Furthermore, new parties may not counterproposal a new NTSC allotment in the same or nearby communities. The opportunity for filing counterproposals is limited to those parties with existing petitions and applications that are the subject of the announced filling window indicated in the Commission's *Public Notice*.

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the TV Table of Allotments, Section 73.606(b). See Certification That Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend Sections 73.202(b), 73.504 and 73.606(b) of the Commission's Rules, 46 FR 11549, February 9, 1981. The Regulatory Flexibility Act of 1980 would also not apply to rule making proceedings to amend the DTV Table of Allotments, Section 73.622(b) of the Commission's Rules.

8. For further information concerning this proceeding, contact Pam Blumenthal, Mass Media Bureau, (202) 418-1600. An ex parte presentation is not prohibited if specifically requested by the Commission or staff for the clarification or adduction of evidence or resolution of issues in the proceeding. However, any new written information elicited from such a request or a summary of any new oral information shall be served by the person making the presentation upon the other parties to the proceeding unless the Commission specifically waives this service requirement. Any comment which has not been served on the petitioner constitutes an ex parte presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment, to which the reply is directed, constitutes an ex parte presentation and shall not be considered in the proceeding.
