

# Supply and Procurement

Check out the latest featured products and services from **GSA**.

## Energy “NEWS”

GSA’s Energy Management Services Schedule 871 II has changed its name to Energy Services Schedule 871 II.

Along with a new name to better reflect the scope of work that falls under the schedule, you will notice that SINs 871-203 and 871-204 now include “Managing the Procurement and Use of Energy From Renewable Sources,” previously SIN 871-205.

Since the Energy Management Services Schedule was initiated in mid-2000, Federal agencies have found the schedule to be an easy way to develop strategy and meet their energy efficiency goals while saving time and money.

Customers are finding they can purchase on-site energy managers, strategy and planning services, audits, building commissioning, metering solutions, green power, as well as natural gas and electricity under this schedule. Procurement times are short, allowing agencies to take advantage of favorable market conditions.

New providers are continuously coming onboard this increasingly popular schedule.

For Energy schedule inquiries, contact the Energy team at: [energy@gsa.gov](mailto:energy@gsa.gov) or 1-800-241-RAIN (7246), press #1 for Schedule Programs and #5 for “Energy.”

---

## GSA Web Site Now Offers “Environmental Information Spreadsheet” for Paints and Coatings

Recent environmentally preferred purchasing mandates for the Federal community have made it critical that purchasers have comprehensive product information in order to make responsible decisions. In response, the GSA Hardware SuperStore has created an environmental information spreadsheet that displays the key environmental attributes that apply to paint and coating specifications (federal and military), and commercial item descriptions (CIDs). In total, there are 104 active specifications and CIDs listed in the table for Federal Stock Group 80 items. For each item, Federal Customers can quickly check the

item’s volatile organic compound content, whether it complies with current California South Coast Air Quality regulations or U.S. EPA National Emission Standards for Hazardous Air Pollutant regulations, or whether it contains recovered materials, ozone depleting substances, lead, cadmium, hexavalent chromium, mercury, benzene, toluene, or carcinogens.

The intent of this spreadsheet is to allow Federal purchasers to use this information to locate coating specifications or CIDs that meet a specific performance requirement and, at the same time, view

and compare the environmental attributes that are associated with the performance specifications or CIDs being compared. Information is posted as follows.

<http://www.fss.gsa.gov/>

[select “environmental programs” on left side of screen.]

[select “safer paints, cleaning and other chemical products” on right side of screen.]

[select “environmental programs – environmentally responsible coatings offering” on right side of screen.]

## GSA Fully Supports DoD Hazardous Material Information Resource System (HMIRS)

On May 15, 2002, the Department of Defense fielded for worldwide use its new “Hazardous Material Information Resource System (HMIRS)” material safety data sheet (MSDS) database. This new system replaces the previous “Hazardous Material Information System (HMIS)” MSDS database and includes many new features. Organizations now have the ability to specify “location” folders within HMIRS that contain MSDSs specifically used at their location. Also, groups of MSDSs can be downloaded onto CD for Local Area Network or PC use, and hazardous material suppliers and end use customers alike can scan and directly submit

electronic images of MSDSs via the HMIRS on-line submittal web page. <http://www.dlis.dla.mil/hmirs/>

GSA partners with DoD to ensure that the latest information is input into the HMIRS system. Suppliers now have the option of submitting MSDSs on-line to the HMIRS system. All MSDSs still being provided to the government in paper form are scanned and entered at the GSA Hardware SuperStore so that they are also in the on-line system. Also, we continue to provide paper MSDSs with each shipment of hazardous materials.

For GSA customers with no computer access, or no Internet access, the GSA Hardware SuperStore continues to operate an “MSDS Request Center”. Federal customers can call toll free 866-588-7659, DSN 465-5097, or Commercial 816-926-5097 or e-mail [MSDS@gsa.gov](mailto:MSDS@gsa.gov), to request any GSA MSDS. Requests are normally filled via return e-mail or fax no later than the close of business, the next business day following the request.

## Environmental “NEWS” You Can Use

When you have a project that requires environmental expertise, turn to the GSA Environmental Services Schedule to quickly solve your problem.

Federal agencies have found that the Environmental Services Schedule, 899, is a key schedule that provides solutions to environmental issues.

To view the Environmental Services Schedule 899, visit Schedules E-Library at [www.fss.gsa.gov/elibrary](http://www.fss.gsa.gov/elibrary).

For keyword searches on a particular service or subject go to GSA Advantage™ at [www.gsaadvantage.gov](http://www.gsaadvantage.gov).

For your unique requirements, contact us and we can assist you in performing a query of the schedule contractors to locate those with the specific expertise you need.

Environmental Services Schedule 899 has specialists in:

- Oil spill cleanup
- Wildfire training
- Recycling computers
- Fire management

- NEPA training
- Hazardous waste removal
- Anthrax testing
- Lead and asbestos testing/cleanup
- Safety training
- Amphibian surveys
- Toxic mold surveys

To learn more about the Environmental schedule, contact the Environmental team at: [environmental@gsa.gov](mailto:environmental@gsa.gov) or 1-800-241-RAIN (7246), press #1 for Schedule Programs and #3 for “Environmental.”

# Cold Weather Quiz!

A.

1. Does your vehicle have fresh anti-freeze and enough windshield washer fluid for the messy driving ahead?

F.

2. Does your trunk carry a warm blanket and flares for a roadside emergency?

G.

3. Do you have a shovel handy to clear your path (and your visitors' path) of snow?

4. Do you have a space heater for that corner of the building that never warms up?

*If you answered "No" to any of the questions above, it's time to call GSA's Customer Supply Center and stock up on the cold weather supplies you need.*

	NSN	DESCRIPTION	UNIT	PRICE
A.	6850-00-664-1403	Antifreeze	GL	\$ 6.09
B.	7920-01-383-8023	Snow/Ice Scraper	EA	\$ 2.57
C.	6850-00-823-7861	Starter Fluid	DZ	\$20.98
D.	4520-00-555-8696	Space Heater	EA	\$36.65
E.	7930-01-412-0984	Road/Sidewalk Deicer	DR	\$59.84
F.	7210-00-205-2804	Blanket	EA	\$17.31
G.	6545-00-664-5313	First Aid Kit (Automobile)	EA	\$18.52
H.	5120-00-288-6529	Snow Shovel/Pusher	EA	\$19.84
I.	5120-00-892-5319	Snow Shovel	EA	\$13.52
J.	6810-00-227-0437	Sodium Chloride (Salt)	BG	\$15.33

B.

C.

D.

E.

H.

I.

J.

For your facility or work area, we have snow shovels, ice scrapers, and several space heaters. For your vehicle, we have antifreeze, starting fluid, windshield washer and ice scrapers. Be sure your trunk has a first aid kit, warm blanket and a road flare so you are prepared for emergencies.

For every season, GSA is your source for quality supplies.

To order, call 800-525-8027 or  
fax your order to 800-856-7057,  
or visit us on-line at [www.gsaAdvantage.gov](http://www.gsaAdvantage.gov)™

## “Low-VOC” Items to be Delineated in FLS

Recently, the Department of Defense/General Services Administration (GSA) “Joint Group for Environmental Attributes” has authorized the term “Low-VOC” be used within the Federal Logistics system for any product that complies with the California South Coast Air Quality Management District volatile organic compound (VOC) limits. “Low-VOC” designations are made via “Environmental Attribute Code (ENAC)” in the characteristics data field of the Federal Logistics Information System Total Item Record (FLIS TIR). Right now, there are three “Low-VOC” ENACs currently being used in FLIS. More are under consideration.

In response to this initiative, the GSA Hardware SuperStore has identified 50 performance standards for paints that meet the quantitative limits of the California Standards for VOC. These standards, in turn, correspond to 1,939 individual product “National Stock Numbers” within the Federal Logistics System. As appropriate ENACs are added to the FLIS, GSA will continue to update Total Item Records to accurately reflect product “Low-VOC” status so that eventually all of these items are delineated.

The three Low-VOC ENACs currently in use are as follows:

- “GR” – Architectural Coatings
- “GS” – Auto Refinishing Coatings
- “GQ” – Household Consumer Products

# GSA Announces a New Special Item Number on the Logistics Worldwide (LOGWORLD) Schedule

You've asked and we've answered by adding a new Special Item Number (SIN) to the Logistics Worldwide (LOGWORLD) Multiple Award Schedule. The new SIN provides your agency with the ability to execute turnkey operations and maintenance support right on schedule.

## OPERATIONS & MAINTENANCE LOGISTICS MANAGEMENT AND SUPPORT SERVICES SIN 874-507

Planning, designing, managing, operating and maintaining logistics systems, equipment, facilities and logistics infrastructures, specifically including services inherent to the performance of operations and maintenance for the support of logistics/support systems. Typical services include, but are not limited to:

- Logistical Support Services
- Supply Services
- Equipment Asset Management and Maintenance
- Fleet Management and Maintenance
- Preventative Maintenance Planning
- Property Management and Maintenance
- Strategic and Tactical Planning
- Strategic Account Management
- Mobile Utility Support Equipment Operation, Maintenance and Repair
- Project Management, Integrated Facility Management, and Operations Management Support.

To learn more about the LOGWORLD schedule, contact the LOGWORLD team at: [logworld@gsa.gov](mailto:logworld@gsa.gov) or 1-800-241-RAIN (7246), press #1 for Schedule Programs and #4 for "LOGWORLD."

---

## Management, Organizational and Business Improvement Services (MOBIS) Homeland Security

The Federal government is recognized as having the public responsibility for emergency management activities. Each agency should consider doing a threat assessment so that their homeland defense or terrorism preparedness programs are in fact comprehensive. There are several contractors under the multiple award schedule MOBIS that help federal agencies develop a comprehensive emergency management program. They can provide an integrated approach to the management of emergency programs and activities for all four emergency phases (mitigation, preparedness, response, and recovery), for all types of emergencies and disasters (natural, manmade, and attack). These services include, but are not limited to, the identification of potential disastrous events, identification of resources, the ability to apply resources in the most productive possible manner, and coordination of capability efforts, before, during, and after a disaster.

To learn more about the MOBIS schedule, contact the MOBIS team at: [mobis@gsa.gov](mailto:mobis@gsa.gov) or 1-800-241-RAIN (7246), press #1 for Schedule Programs and #1 for "MOBIS."

# GSA Can Meet Your Language Service Requirements with the Latest Technological Innovations

Technology is changing the world we live in at an exponential rate. GSA has taken the lead in locating language service providers with a technological edge in the language service industry. Language Services Schedule 738 II includes:

## Video Productions

CD-ROMs have become the preferred medium for multimedia content distribution. We have on Language Services Schedule 738 II a vast array of systems capable of meeting your demands that include captioning and subtitling in more than 100 languages. Options include:

- Full-service production facilities offering immediate deployment of mobile units fully equipped to shoot, edit, and output broadcast-quality material.
- Special effects, 3-D computer graphics animation.
- Production of fully interactive DVDs in multiple languages for presentations, training, and educational purposes in over 100 languages.

## Web Site Translation

Our Language Services Schedule offers full cutting-edge service support for your web site with localization solutions to meet every client need. Contractors on schedule can make replicas of your present web site in the languages that you choose. This includes graphics containing text needing translation, databases, animation, dubbing of audio and scripts.

## Multilingual Desktop Publishing

Look to GSA for extensive multilingual desktop publishing and electronic E-Book capabilities.

## Software Translation

Many countries prohibit software in languages other than their official one. Our contractors on schedule provide comprehensive software localization solutions that meet the industry's highest technical standards and deliver superior quality localized software on time and within budget.

## Acrobat PDF Translation

*Catalog and Brochure translation in Acrobat PDF files.*

Many agencies are working toward compliance of Section 508 of the Rehabilitation Act of 1973, [Equal Access to Information Technology for People with Disabilities](#). Contractors on this schedule are eager to help you with these new obligations.

The Language Services Multiple Award Schedule 738 II is your global solution to bridge the communications gap. The use of this schedule can be a valuable tool in meeting an agency's need to implement consistent standards of language assistance and in meeting small business set aside requirements.

For Language schedule inquiries, contact the Language team at: [language@gsa.gov](mailto:language@gsa.gov) or 1-800-241-RAIN (7246), press #1 for Schedule Programs and #6 for "Language."

# Write in Outer Space... or Write Right Out in the Rain

**N**ASA took this pen to the moon...these pens write upside down, underwater, in extreme heat, and won't leak on airplanes at high altitudes.

When mission commander Neil Armstrong was returning to the lunar module during the first moon landing, his life-support pack knocked against a switch for turning on the rocket engines to return to the command module orbiting around the moon. As a weight-saving measure, they had brought few tools with them. Lunar module pilot Edwin "Buzz" Aldrin explained the problem to ground control, where they came up with the idea of using a pen in place of the switch. It worked, they returned to the main craft, and along with command module pilot Michael Collins, Apollo 11 safely returned to earth.

Now you can have a pen with the same type of pressurized cartridge that went to the moon. These pens don't just write in the weightlessness of a space capsule, they also write underwater, upside down, and don't leak when you're on an airplane flight. They don't skip, they write amazingly smoothly, and you'll never find a pen that's more comfortable in your hand.

What's more, you can write with them in the rain. Which brings us to all-weather paper.

### **Paper you can write on no matter how wet it gets**

"You're up to your neck in water, when the radio crackles, 'Prepare to copy.' You grope your wet pockets and pull out a soggy notebook..."

This scene is all too familiar to those of us who work in the military. Other government employees who work in the field are often subjected to poor conditions as well, and these days almost every item destined for use in the field has been "weatherized" and "field hardened" to make life a little easier. Until now, methods of "weatherizing" and "field hardening" field manuals and documents have been costly and time consuming

(lamination, printing on high-cost plastics, placing documents in "zip-lock" bags). "Rite in the Rain's" Tactical Product line changes everything.

Several years ago the U.S. Military became very interested in "Rite in the Rain" All-Weather Paper for use by personnel in a tactical environment. Due to its unique and exclusive coating, "Rite in the Rain" products shed water making it possible to write clear, legible notes in the worst of conditions. With the assistance of numerous military organizations, the "Rite in the Rain" Tactical Line was born. Today, "Rite in the Rain" products are being used by government personnel worldwide in conditions where outdoor writing is hampered by rain, snow, humidity, or a marine environment.

"Rite in the Rain's" Tactical line offers a variety of products that meet the needs of most everyone. From a variety of smaller notepads and notebooks to copier paper, field binders, and all-weather pens, "Rite in the Rain" has something for everyone.

"Rite in the Rain" All-Weather Tactical Products may be purchased on [www.gsadvantage.gov](http://www.gsadvantage.gov) (keyword Rite in the Rain on schedule 75 II A) or through GSA's stock program using assigned National Stock Numbers (visit [www.riteintherain.com/directtact.html](http://www.riteintherain.com/directtact.html) for details).

## Write in Outer Space (cont'd.)

**NEWLY ADDED SOP RITE IN THE RAIN PRODUCTS: “Rite in the Rain” all-weather writing paper is a truly amazing paper created specifically for writing field notes in all weather conditions.**

**7530-01-498-1873**

**Part #980**

**All-Weather Tactical Field Book**

The “Rite in the Rain” All-Weather Tactical Field Book is 4-5/8” x 7-1/4”. Pages are printed on green all weather paper that is perforated with horizontal line front and 1/4” grid on the back. Hardbound green polydura cover with a total of 156 pages of writing. For best results, use a pencil or an all-weather pen such as 7520-01-498-1876 (regular black ink pen) or 7520-01-498-2079 (the convenient folding pen – black ink).

**7510-01-498-1880**

**Part #37R**

**Rite in the Rain Pen Refill**

The “Rite in the Rain” All-Weather Pen refill writes on wet paper, underwater, and/or upside down in temperatures ranging from 50°F to 400°F. Fits Rite in the Rain Pen. 7520-01-498-1876. Black ink.

**7520-01-498-1876**

**Part #97**

**Rite in the Rain All Weather Pen**

All-weather pen writes on wet paper, underwater, and/or upside down in temperatures ranging from 50°F to 400°F. Black ink. Refill NSN 7510-01-498-1880.

**7520-01-498-2079**

**Part #96**

**Rite in the Rain Folding Pen**

All-weather bullet style pen folds up to 3-3/4”. All-weather pen writes on wet paper, underwater, and/or upside down in temperatures ranging from 50°F to 400°F. Black ink.

**7510-01-498-2077**

**Part #9200**

**All-Weather Tactical Field Binder**

The “Rite in the Rain” Tactical Field Binder is 5-5/8” x 7-1/2”. It is made of green polydura and has an inside clear pocket to hold your military symbol stencil or index cards. Binder holds Rite in the Rain tactical loose-leaf paper (7530-01-498-2081). For best results, use a pencil or an all-weather pen such as 7520-01-498-1876 (regular black ink pen) or 7520-01-498-2079 (the convenient folding pen – black ink).

**7530-01-498-2078**

**Part #946**

**All-Weather Rite in the Rain Notepad**

The All-Weather Notepad is 4” x 6”, top spiral bound on the 4” side and fits easily in a hop pocket. Notepad has horizontal lines with faint vertical 1/4” dotted lines, creating a grid pattern to facilitate drawing sector sketches, etc. Total of 50 sheets per pad. For best results, use a pencil or an all-weather pen such as 7520-01-498-1876 (regular black ink pen) or 7520-01-498-2079 (the convenient folding pen – black ink).

**7530-01-498-2080**

**Part #935**

**All-Weather Rite in the Rain Notepad**

The All-Weather Notepad is 3” x 5”, top spiral bound on the 3” side and fits easily in a shirt pocket. Notepad has horizontal lines with faint vertical 1/4” dotted lines, creating a grid pattern to facilitate drawing sector sketches, etc. Total of 50 sheets per pad. For best results, use a pencil or an all-weather pen such as 7520-01-498-1876 (regular black ink pen) or 7520-01-498-2079 (the convenient folding pen – black ink).

# Write in Outer Space (cont'd.)

**7530-01-498-2081**

**Part #982**

**All-Weather Rite in the Rain Loose-leaf Paper**

The All-Weather tactical loose-leaf paper is 4-5/8" x 7", and has an oval six-hole punch to fit a variety of organizers or binders. Overall green pages have horizontal lines on front and 1/4" grid on the back. Fits perfectly with the Rite in the Rain tactical binder (7510-01-498-2077). For best results, use a pencil or an all-weather pen such as 7520-01-498-1876 (regular black ink pen) or 7520-01-498-2079 (the convenient folding pen – black ink).

**7530-01-498-2082**

**Part #8517**

**All-Weather Copier Paper**

The All-Weather white copier paper is 11" x 17" and allows you to copy or laser print your own all-weather forms, graphics, documents, or worksheets on a paper that can survive in the harshest of weather conditions. 20 lb basis weight bond comes in packages of 200 sheets. For best results, use a pencil or an all-weather pen such as 7520-01-498-1876 (regular black ink pen) or 7520-01-498-2079 (the convenient folding pen – black ink).

**7520-01-498-2083**

**Part #8511**

**All-Weather Copier Paper**

The All-Weather white copier paper is 8-1/2" x 11" and allows you to copy or laser print your own all-weather forms, graphics, documents, or worksheets on a paper that can survive in the harshest of weather conditions. 20 lb basis weight bond comes in packages of 200 sheets. For best results, use a pencil or an all-weather pen such as 7520-01-498-1876 (regular black ink pen) or 7520-01-498-2079 (the convenient folding pen – black ink).

**7520-01-498-2084**

**Part #9517**

**All-Weather Copier Paper**

The All-Weather green copier paper is 11" x 17" and allows you to copy or laser print your own all-weather forms, graphics, documents, or worksheets on a paper that can survive in the harshest of weather conditions. 20 lb basis weight bond comes in packages of 200 sheets. For best results, use a pencil or an all-weather pen such as 7520-01-498-1876 (regular black ink pen) or 7520-01-498-2079 (the convenient folding pen – black ink).

**7530-01-498-2085**

**Part #9511**

**All-Weather Copier Paper**

The All-Weather green copier paper is 8-1/2" x 11" and allows you to copy or laser print your own all-weather forms, graphics, documents, or worksheets on a paper that can survive in the harshest of weather conditions. 20 lb basis weight bond comes in packages of 200 sheets. For best results, use a pencil or an all-weather pen such as 7520-01-498-1876 (regular black ink pen) or 7520-01-498-2079 (the convenient folding pen – black ink).

# New JWOD Purchase Card Training Video Now Available!

A new Javits-Wagner-O'Day (JWOD) Program purchase card training video entitled "Working Together: Purchasing with JWOD" is now available for distribution. This new video provides updated information on how Federal purchase card holders can obtain SKILCRAFT® and other JWOD quality products and services in order to create employment opportunities for nearly 40,000 Americans who are blind or have other severe disabilities.

With a running time of under six minutes, this new video fits easily into group purchase card training sessions either on its own, or in conjunction with JWOD purchase card training slides (also available for electronic distribution). The new video is also perfect for long-standing purchase card holders looking to brush up on their JWOD skills.

General information on the Committee for Purchase From People Who Are Blind or Severely Disabled, the Federal agency that administers the JWOD Program, and on National Industries for the Blind and NISH (serving people with a range of disabilities), the two Central Nonprofit Agencies which act as liaisons between the Committee and JWOD-participating nonprofit agencies across the country, is also provided.

To get your copy of the new JWOD purchase card training video, contact Annmarie Hart-Bookbinder of the Committee staff at [abookbinder@jwod.gov](mailto:abookbinder@jwod.gov).

## JWOD Products Help Keep Messes Under Control!

Don't be left with a mess on your hands! Help maintain a clean work environment with these high-quality JWOD mops manufactured by New York City Industries for the Blind. All items are available through GSA Advantage!™

### Dust Mop - Complete

Designed for sweeping smooth, bare, dry floors. Comes fully assembled with dust mop head on 3" wide frame and attached to 15/16" x 53" wood handle. Mop head is fully launderable and has 100% looped-end cotton yarn sewn onto durable white polyester backing. Keyhole opening makes changing heads easy. Multiple polyester ties secure head to frame.

3-3/8" x 9-3/4"	7920-00-205-0481
3-3/8" x 15-3/4"	7920-00-205-0483
3-3/8" x 22-1/2"	7920-00-205-0484

### Inhibitor Dust Mop Head

This anti-microbial dust mop head features maximum dust-attracting colored 4-ply 100% synthetic fiber looped-end yarn sewn onto pre-shrunk white polyester fabric to allow multiple washings with minimal shrinkage. Key-hole openings make changing heads easy and multiple polyester ties firmly secure head to frame.

## Think JWOD First

### Dust Mop Head - Cotton

Designed for sweeping smooth, bare, dry floors. Mop head is fully launderable and has 100% looped-end cotton yarn sewn onto durable white polyester backing. Keyhole opening makes changing heads easy. Multiple polyester ties secure head to frame.

3-3/8" x 9-3/4"	7920-00-205-0485
3-3/8" x 15-3/4"	7920-00-205-0487
3-3/8" x 22-1/2"	7920-00-205-0488
5" x 18"	7920-00-998-2482
5" x 24"	7920-00-998-2483
5" x 36"	7920-00-998-2484
5" x 48"	7920-00-851-0141

### Dust Mop - Frame & Handle

Black vinyl-coated tubular steel dust mop handle (NSN 7920-00-NIB-0164) is attached to a 5" dust mop frame.

5" x 18" frame with handle	7920-00-998-2485
5" x 24" frame with handle	7920-00-998-2486
5" x 36" frame with handle	7920-00-851-0140
5" x 48" frame with handle	7920-00-851-0142

### Disposable Dust Mop Head

Mop head construction utilizes "tufted" design and has 100% cotton yarn "punched through" DuPont 5.0 oz. Typar non-woven synthetic backing in the middle with 100% cotton looped-end fringe borders. Pre-treated with special mineral seal oil treatment. Multiple polyester ties.

Fits frame 5" x 24"	7920-01-460-6660
Fits frame 5" x 36"	7920-01-460-7908

# Who Uses Recycled Copier Paper from GSA? We do.

At GSA, we use the same copier paper that we sell.

And not just because Executive Order 13101 requires federal government agencies to use copier paper with a 30% PCM content.

We use GSA recycled copier paper because no paper on the market is more reliable. What do we mean by reliable? As absolutely jam-free as you can get. Because whether you go with one of our generic brands or you chose Xerox brand copier paper, you know that it's paper manufactured with quality control that's absolutely unsurpassed.

So you can count on paper that has a consistently uniform weight and thickness with low opacity giving a sharp, smooth, clean appearance with every copy.

GSA copier paper works with consistent excellence in high speed or desktop copiers as well as laser, bubble jet, and ribbon printers—even in offset duplicating equipment.

*GSA copier paper. We rely on it.*

*And so can you.*

# New Items In Stock!

### Geared box wrench sets

Geared combination wrenches have an all-steel, one-piece construction and are fully polished. The box end has a geared ratcheting 12-point closed head design with a 0 degree offset. Short ratcheting arc and small head thickness allow the fastener to be quickly turned even in confined areas. The conventional open end permits more torque to be applied to a fastener. Furnished in a vinyl roll.

#### **5120-01-495-7705**

Set consists of seven wrenches in the following sizes: 3/8, 7/16, 1/2, 9/16, 5/8, 11/16, and 3/4". Armstrong Tool P/N 25-661. \$80.35 (SE)

#### **5120-01-495-7708**

Set consists of 10 wrenches in the following metric sizes: 10, 11, 12, 13, 14, 15, 16, 17, 18, and 19mm. Armstrong Tool P/N 52-667. \$120.41 (SE)

#### **5120-01-495-7709**

Set consists of seven wrenches in the following sizes: 3/8, 7/16, 1/2, 9/16, 5/8, 11/16, and 3/4". Armstrong Tool P/N 27-609. \$98.16 (SE)

#### **5120-01-495-7712**

Set consists of ten wrenches in the following sizes: 1/4, 5/16, 11/32, 3/8, 7/16, 1/2, 9/16, 5/8, 11/16, and 3/4". Armstrong Tool P/N 25-667. \$104.50 (SE)

#### **5120-01-495-7719**

Set consists of seven wrenches in the following sizes: 3/8, 7/16, 1/2, 9/16, 5/8, 11/16, and 3/4". Armstrong Tool P/N 27-607. \$74.39 (SE)

#### **5120-01-495-7710**

Set consists of seven wrenches in the following sizes: 3/8, 7/16, 1/2, 9/16, 5/8, 11/16, and 3/4". Reversible with reversing lever. Armstrong Tool P/N 28-900. \$88.39 (SE)

#### **5120-01-495-7711**

Set consists of 10 wrenches in the following metric sizes: 10, 11, 12, 13, 14, 15, 16, 17, 18, and 19mm. Reversible with reversing lever. Armstrong Tool P/N 54-950. \$132.45 (SE)

#### **5120-01-495-7720**

Set consists of 10 wrenches in the following metric sizes: 10, 11, 12, 13, 14, 15, 16, 17, 18, and 19mm. Stubby wrenches. (Overall length from 4" to 5-1/2") Armstrong Tool P/N 54-607. \$108.29 (SE)

#### **5120-01-495-7714**

Set consists of 10 wrenches in the following metric sizes: 10, 11, 12, 13, 14, 15, 16, 17, 18, and 19mm. Armstrong Tool P/N 54-609. \$150.80 (SE)

#### **5120-01-495-7715**

Set consists of 17 wrenches in the following fractional and metric sizes: 3/8, 7/16, 1/2, 9/16, 5/8, 11/16, and 3/4", 10, 11, 12, 13, 14, 15, 16, 17, 18, and 19mm. Armstrong Tool P/N 27-708. \$237.70 (SE)

#### **5120-01-495-7716**

Set consists of four wrenches in the following sizes: 13/16, 7/8, 15/16, and 1". Armstrong Tool P/N 27-704. \$85.41 (SE)

#### **5120-01-495-7718**

Set consists of four wrenches in the following metric sizes: 21, 22, 24, and 25mm. Armstrong Tool P/N 54-504. \$95.40 (SE)

## Sanford Uni-Ball Gel Impact Roller Ball Pens Express Yourself

# Snowed Under from Legal Research? Now Get It *All Done On-Line.*

**Legal research.** With everything else you need to do in a government legal office, the demands on your time can be daunting. Especially if you don't have a researcher available.

But legal research doesn't need to be in a dusty library anymore. This is, after all, the age of the internet. And now, GSA has services under contract for doing your legal research on-line.

This service, a computer-assisted legal research tool, offers the user access to legal cases and statutes that have been editorially enhanced, in addition to business news information, legal periodicals, texts, as well as rules and regulations.

A researcher can now trace the history of a case, administrative decision, statute, or regulation. Find out opinions. Get case synopses.

So if you're working in a federal legal office—especially a small one—you now have a tool that gives you the kind of access to legal archives that used to require a university legal library and a staff of researchers.

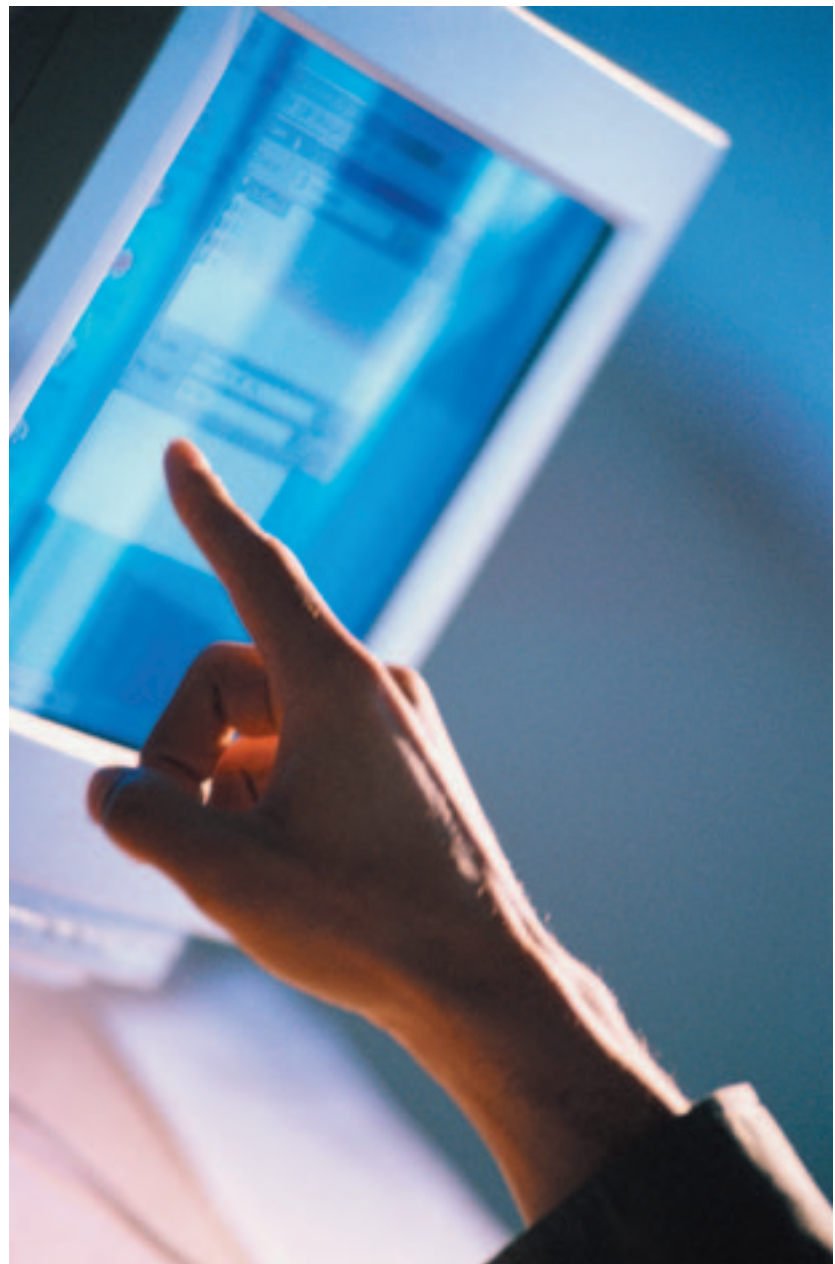

Whether you're working in the office of a regulatory agency, a congressional representative, or an inspector general, we can help you make your work faster and more efficient.

On-line legal research. It's like having a law library at your fingertips.

## Focus on Videocassettes

Did you ever have your camcorder but didn't have a videocassette to record an event? Don't forget to keep plenty of videocassettes on hand, since you may not get that second chance. Do you need to record important events or document knowledge that may be lost through retirement? Buy videocassettes to document important award ceremonies, to record lab and equipment procedures, or to produce a training video that may be dubbed as often as needed to answer common questions. Videocassettes are also useful for recording needed building maintenance, or practicing for presentations.

Videocassettes are available in either 3/4 inch or even in 1/2 inch (Beta.) All are low noise, distortion free and have high output, to produce broadcast quality, professional looking results. If that's not enough, these videocassettes are low abrasion so they won't destroy your VCR's heads and are extremely durable. The 3/4 inch cassettes are available in 10, 20, 30 and 60 minutes. The 1/2 inch (Beta) videocassettes are available in small and large sizes. Small 1/2 inch (Beta) cassettes are available in 5, 10, 20 and 30 minutes where the large 1/2 inch (Beta) cassettes are available in 30, 60 and 90 minutes.

# NEW! Printing Services

Do you need posters, envelopes, letterhead, signs, or high quality copies of a presentation produced for distribution to an audience?

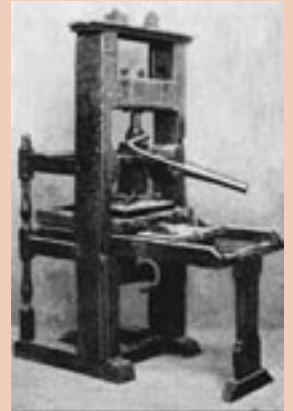

GSA knows government cannot function without printing. To help you with your printing needs, GSA now offers its customers full service, large volume, standard and custom printing utilizing state of the art technology. This includes envelope manufacturing equipment, jet presses and the six-color Komoris printer for large sheet fed print jobs. The Komoris is known throughout the industry for its vibrant color, speed, and quality of print.

In-house color separation and plate making, binding, collating, layout, and design are available as well as envelope, letterhead, label, brochure, poster, and sign production. Custom requests are welcome as are requests for “green products” using water, oil, or soy based inks with recycled paper. Additional information may be found on the GSA eLibrary under Schedule 75 II A, Office Products, Supplies and Schedules, SIN 75 210, Office Services. Visit [gsaelibrary.gsa.gov](http://gsaelibrary.gsa.gov).

**Maria Paserman**  
(212) 264-9576  
[maria.paserman@gsa.gov](mailto:maria.paserman@gsa.gov)

The advent of printing first required the invention and refinement of papermaking in China around 105 A.D. Papermaking spread throughout the Middle East and Europe during the twelfth and thirteenth centuries.

Scribes and block printing were used for document production until Johannes Gutenberg, a businessman and goldsmith working in Germany in the 1450's, made the production of printed materials quicker and cheaper with a printing press using metal movable type. Movable type was crucial in producing documents for the rapidly growing fields of trade and government. It was instrumental in the spread of scientific thought and the ideas that shaped the American Revolution.

The most famous American printer, Benjamin Franklin, got his start during the colonial period, working as a printer's apprentice. In 1728 at the age of 22, he opened a printing office in Philadelphia, where he would later do printing under contract for several colonies. Franklin became the official printer of Pennsylvania. In addition, he produced money and government documents for Delaware, New Jersey, and Maryland. “Printed by Benjamin Franklin” was often seen on documents in the colonial period. Pictured above is the press used by Franklin as an apprentice in England in 1726. It is on display in the Hall of Printing and Graphic Arts at the National Museum of American History Behring Center in Washington, DC.
