Description | Accessories | Features

The EPSON Stylus Color 900 is the new top of the range A4 colour printer with the fastest ink jet print speeds available providing performance comparable to laser printers but for a fraction of the cost. Combining ultra-fast true black and colour print performance, with superb print quality from its enhanced 1440 dpi print technology and the EPSON Perfect Picture Imaging System, the Stylus Color 900 is the ideal printer for individual power-users at home or in the office, while the Stylus Color 900N is ideal for work-groups of networked users. The Stylus Color 900 incorporates the latest development of EPSON's award winning Piezo inkjet technology - EPSON Advanced MicroPiezo. A combination of two key elements - EPSON Ultra MicroDot and EPSON Variable- Sized Droplet Technology - cutting- edge innovation that produces the best combination of speed and print quality without compromise. In addition EPSON have advanced print quality by producing the world's smallest ink droplet, at only 3 picolitre in volume. Equipped with standard parallel and serial interfaces, Windows and Mac compatibility comes as standard. The Stylus Color 900 also includes support for the Universal Serial Bus, fully supported by Microsoft Windows 98, Apple iMac and G3. Optional integrated network interfaces and are also available and optional software PostScript RIPs support both Mac and PC printing.
