

This number: 866-590-3188, continues to call my land line number every day and has been for the last month or so. Sometimes it is six or seven times a day, day and night (even late...bedtime), and sometimes it is every hour. We do not answer and they do not leave a message. I have Googled the number and according to others who have done the same (on line comments) this number claims to be the CANCER FUND OF AMERICA. It is a SCAM. Some folks who have answered or called back have gotten extremely rude people screaming at them...I have also contacted(today) the American Cancer Society to see if it is their organization or an affiliate. I am registered with donotcall.gov and the way they get through this is claiming to be a charity organization. This needs to stop! These con artists need to be halted and put in jail for breaking the law and for fraud. PLEASE help!!! Oh, they just called again while I am sitting here writing to you! I AM keeping a log of the dates and times they call.
