# Results of Mistag Matrix on Ehig08/09 Data (Preliminary)

Table 1: Double tags in EHig08/09 data observed and predicted.

| | neg-neg | pos-neg | total |
|---|---|---|---|
| predicted | 1060 | 4131 | 5190 |
| observed | 1138 | 4543 | 5681 |

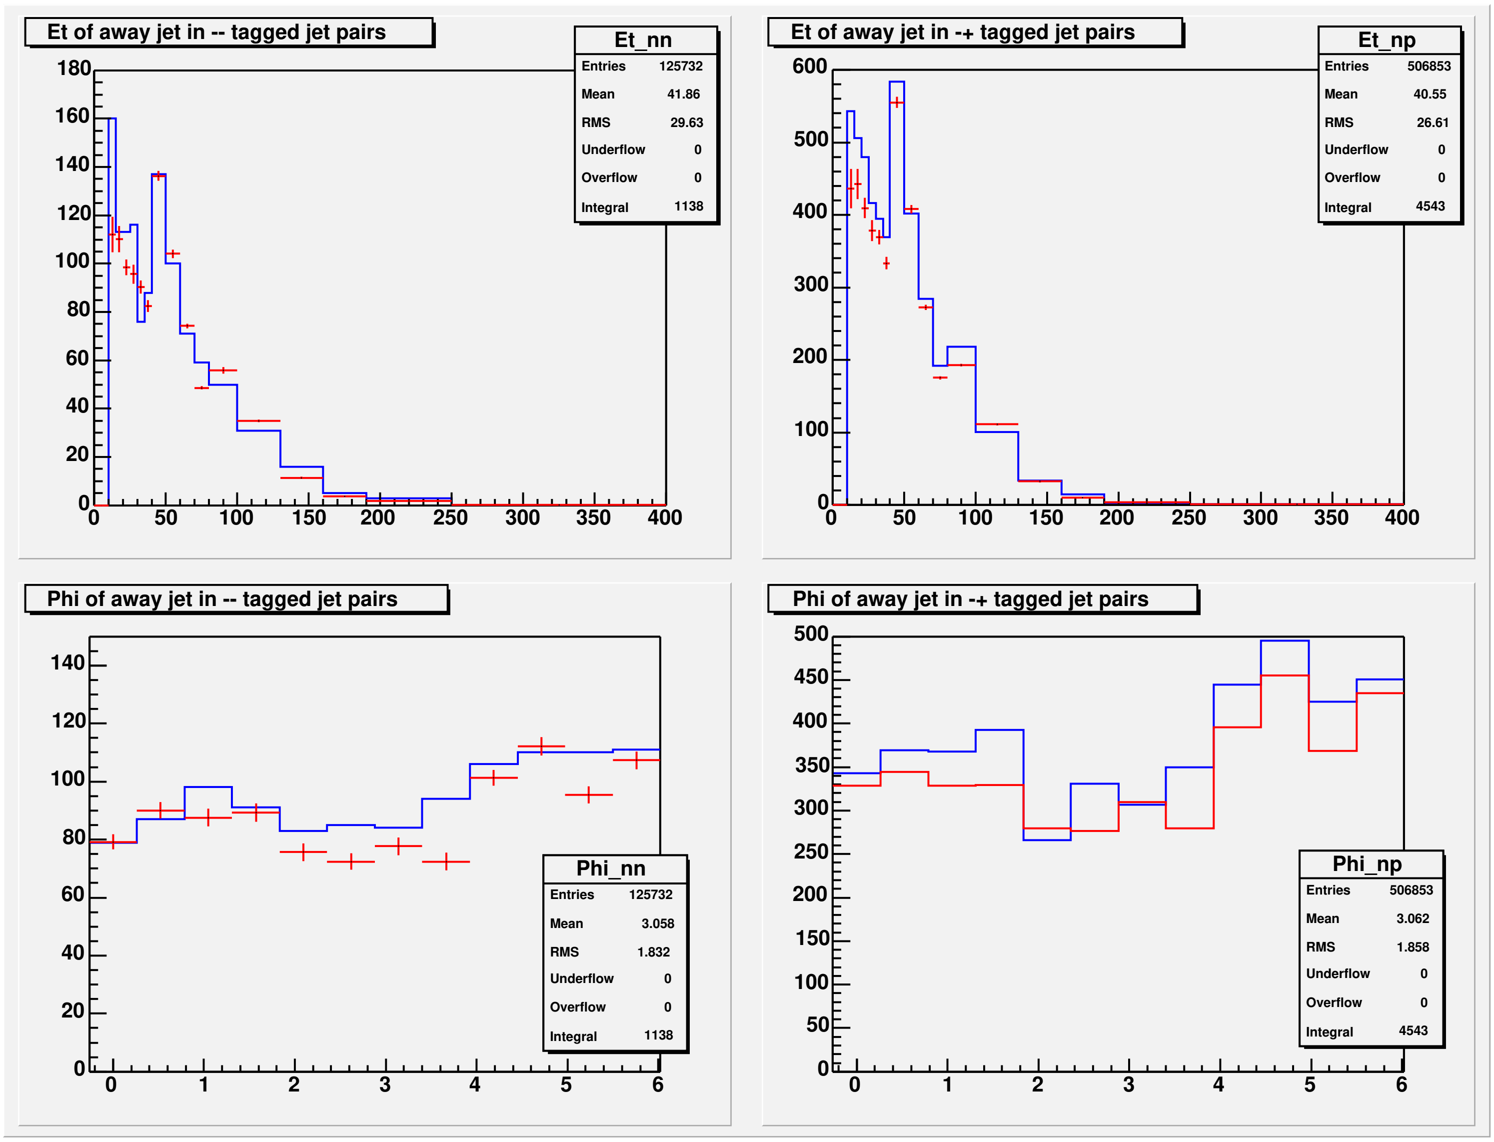

Figure 1: Double negative and negative positive tags in Ehig08/09 data. Observed in blue, predicted in red. Shown as a function of jet $E_T$ and jet phi

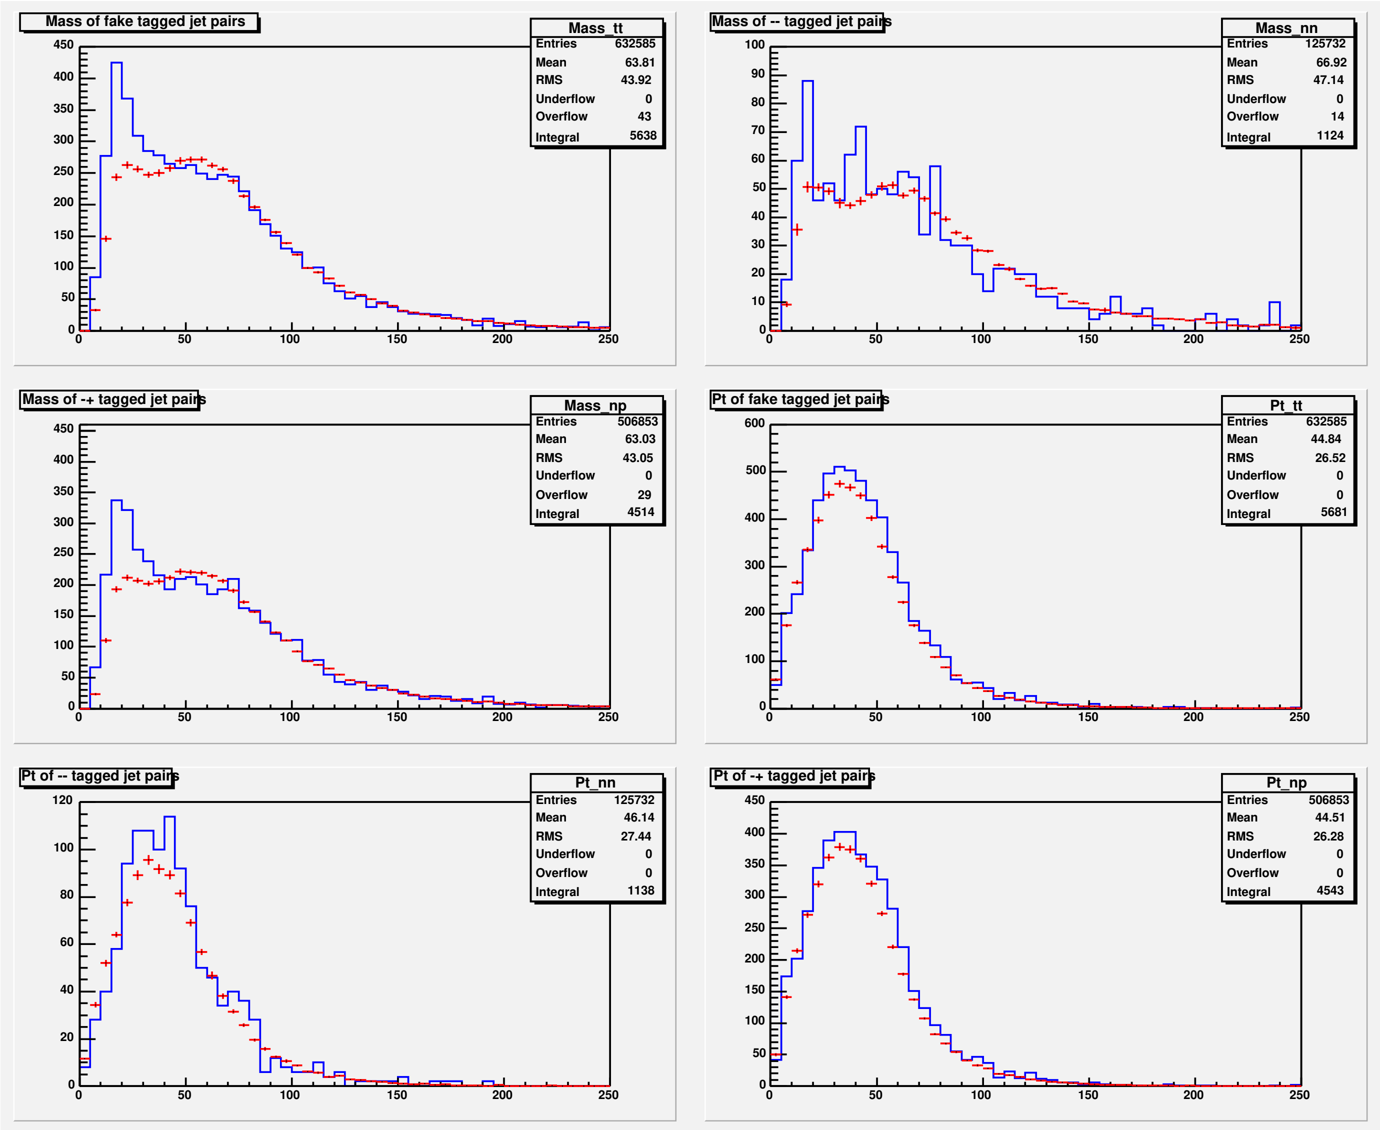

Figure 2: Total double, double negative and negative positive tags in Ehig08/09 data. Observed in blue, predicted in red. Shown as a function of dijet invariant mass and jet $P_T$
