**A BILL**

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

4 (a) SHORT TITLE.—This Act may be cited as the  
5 “Anti-Phishing Consumer Protection Act of 2008” or the  
6 “APCPA”.

1 (b) TABLE OF CONTENTS.—The table of contents for  
2 this Act is as follows:

- Sec. 1. Short title; table of contents.
- Sec. 2. Findings.
- Sec. 3. Phishing; related deceptive practices.
- Sec. 4. Civil actions by certain aggrieved parties.
- Sec. 5. Federal trade commission and other agency enforcement.
- Sec. 6. Penalties for fraud and related activity in connection with manipulation  
of e-mail and website information.
- Sec. 7. Effect on other laws.
- Sec. 8. Separability.
- Sec. 9. Definitions.
- Sec. 10. Effective date.

3 **SEC. 2. FINDINGS.**

4 Congress finds the following:

5 (1) Phishing is a method of online identity theft  
6 that takes the form of fraudulent e-mails or fake  
7 websites in order to deceive the recipient into giving  
8 personal or financial account information.

9 (2) Phishing e-mails are becoming more sophis-  
10 ticated by having malicious spyware attachments  
11 that once opened covertly record the keystrokes and  
12 passwords of computer users, or install malware  
13 software.

14 (3) Approximately 59,000,000 phishing e-mails  
15 are sent a day, and as many as 10,000,000 fake  
16 messages are opened per day by recipients.

17 (4) According to Gartner, Inc., between August  
18 2006 and August 2007, roughly 3,500,000 United  
19 States computer users were victims of phishing  
20 scams, and suffered losses totaling \$3,200,000,000.

1           (5) The Anti-Phishing Working Group found  
2           that in November 2007, there were over 28,000  
3           unique phishing reports received, which is an 8 per-  
4           cent increase from the year before.

5           (6) The United States is consistently 1 of the  
6           top 3 countries that host the most phishing websites.  
7           In November 2007, the United States hosted ap-  
8           proximately 24 percent of phishing websites.

9           (7) A form of phishing known as “Spear  
10          Phishing” targets companies and government agen-  
11          cies to gain unauthorized access to their computer  
12          systems in order to steal financial information, trade  
13          secrets, or even top secret military information.

14          (8) Both the Internal Revenue Service and the  
15          Federal Trade Commission have alerted taxpayers  
16          and consumers about phishing scams in which e-  
17          mails purporting to come from these agencies  
18          have—

19                 (A) been sent to fraudulently solicit infor-  
20                 mation from recipients; or

21                 (B) contained spyware attachments.

22          (9) Phishing operators utilize deceptive domain  
23          names for their schemes. They routinely register do-  
24          main names that mimic the addresses of well-known  
25          online merchants, and then set up websites that can

1 fool consumers into releasing personal and financial  
2 information.

3 (10) Phishing and other forms of identity theft  
4 continue to have a detrimental effect on e-commerce  
5 by eroding consumers' confidence in online trans-  
6 actions. According to a 2007 Javelin Strategy & Re-  
7 search study, 80 percent of Internet users are con-  
8 cerned about being victims of online identity theft.

9 (11) For small businesses that want to estab-  
10 lish an online presence, phishing schemes can per-  
11 manently undermine their ability to acquire the crit-  
12 ical trust from consumers that is necessary with e-  
13 commerce.

14 (12) Deceptive domain names, and the abuses  
15 for which they are used, threaten the integrity of do-  
16 main name system. Businesses, small and large, rely  
17 upon the integrity of the domain name registration  
18 to ensure that their brands aren't misrepresented.  
19 The World Intellectual Property Organization re-  
20 ported in April 2007, that the number of Internet  
21 domain name cybersquatting disputes increased 25  
22 percent in 2006.

23 (13) A 2006 Zogby Interactive poll found that  
24 78 percent of small business owners polled stated

1 that a less reliable Internet would damage their  
2 business.

3 (14) The Organization for Economic Co-oper-  
4 ation and Development has stated “businesses that  
5 provide false contact information can undermine the  
6 online experience of a consumer that decides to con-  
7 duct a WHOIS search about the business.”.

8 (15) WHOIS databases provide a crucial tool  
9 for businesses, the Federal Trade Commission, and  
10 other law enforcement agencies to track down brand  
11 infringement, online fraud, identity theft, and other  
12 online illegal activity, but are often hindered in their  
13 pursuit because the person responsible is hiding be-  
14 hind the anonymity of false registration information.

15 **SEC. 3. PHISHING; RELATED DECEPTIVE PRACTICES.**

16 (a) PHISHING; DECEPTIVE SOLICITATIONS OF IDEN-  
17 TIFYING INFORMATION.—

18 (1) IN GENERAL.—It is unlawful for any person  
19 to solicit identifying information from a protected  
20 computer if—

21 (A) the identifying information is solicited  
22 by means of false or fraudulent pretenses or  
23 misleading representations that the solicitation  
24 is being requested by, or made on behalf of, a

1 government office, nonprofit organization, busi-  
2 ness, or other entity; and

3 (B) such person has actual knowledge, or  
4 knowledge fairly implied on the basis of objec-  
5 tive circumstances, that its representations  
6 would be likely to mislead a computer user, act-  
7 ing reasonably under the circumstances, about  
8 a material fact regarding the solicitation of the  
9 identifying information (consistent with the cri-  
10 teria used in enforcement of section 5 of the  
11 Federal Trade Commission Act (15 U.S.C.  
12 45)).

13 (2) RULE OF CONSTRUCTION.—For purposes of  
14 paragraph (1)(A), a person that does not have the  
15 authority, express or implied, to make statements on  
16 behalf of a government office, nonprofit organiza-  
17 tion, business, or other entity purported to be rep-  
18 resented shall be considered to be in violation of  
19 such paragraph (1)(A) for having false or fraudulent  
20 pretenses or making misleading representations.

21 (3) CYBERSQUATTED DOMAIN NAMES.—It is  
22 unlawful for any person to use a domain name that  
23 is in violation of section 43 of the Trademark Act  
24 of 1946 (15 U.S.C. 1125), to solicit identifying in-

1           formation from a protected computer in violation of  
2           paragraph (1).

3           (b) DECEPTIVE OR MISLEADING DOMAIN NAMES.—

4                 (1) IN GENERAL.—It is unlawful for any person  
5           to use a domain name in an electronic mail message,  
6           an instant message, or in connection with the dis-  
7           play of a webpage or an advertisement on a  
8           webpage, if—

9                 (A) such domain name is or contains the  
10           identical name or brand name of, or is confus-  
11           ingly similar to the name or brand name of a  
12           government office, nonprofit organization, busi-  
13           ness, or other entity;

14                (B) such person has actual knowledge, or  
15           knowledge fairly implied on the basis of objec-  
16           tive circumstances, that the domain name would  
17           be likely to mislead a computer user, acting rea-  
18           sonably under the circumstances, about a mate-  
19           rial fact regarding the contents of such elec-  
20           tronic mail message, instant message, webpage,  
21           or advertisement (consistent with the criteria  
22           used in enforcement of section 5 of the Federal  
23           Trade Commission Act (15 U.S.C. 45)).

24                (2) CIRCUMSTANCES FACTORING INTO KNOWL-  
25           EDGE DETERMINATION.—In determining whether a

1 person meets the requirement established under  
2 paragraph (1)(B), the Commission shall consider cir-  
3 cumstances such as the—

4 (A) trademark or other intellectual prop-  
5 erty rights of a person, if any, in the domain  
6 name;

7 (B) extent to which the domain name con-  
8 sists of the legal name of the person or a name  
9 that is otherwise commonly used to identify  
10 that person;

11 (C) person's prior use, if any, of the do-  
12 main name in connection with the bona fide of-  
13 fering of any goods or services;

14 (D) person's bona fide noncommercial use  
15 of the domain name or fair use of a mark in  
16 a website accessible under the domain name;

17 (E) person's intent to divert consumers  
18 from the brand name or trademark owner's on-  
19 line location to a website accessible under the  
20 domain name that could harm the goodwill rep-  
21 resented by the brand name or the trademark,  
22 either for commercial gain or with the intent to  
23 tarnish or disparage the trademark, by creating  
24 a likelihood of confusion as to the source, spon-

1 sorship, affiliation, or endorsement of the  
2 website;

3 (F) person's offer to transfer, sell, or oth-  
4 erwise assign the domain name to the brand  
5 name or trademark owner or any third party  
6 for financial gain without having used, or hav-  
7 ing an intent to use, the domain name in the  
8 bona fide offering of any goods or services, or  
9 the person's prior conduct indicating a pattern  
10 of such conduct;

11 (G) person's—

12 (i) provision of material and mis-  
13 leading false contact information when ap-  
14 plying for the registration of the domain  
15 name;

16 (ii) intentional failure to maintain ac-  
17 curate contact information; or

18 (iii) prior conduct indicating a pattern  
19 of such conduct; and

20 (H) person's registration or acquisition of  
21 multiple domain names which the person knows  
22 are identical or confusingly similar to brand  
23 names or trademarks of others that are distine-  
24 tive at the time of registration of such domain  
25 names, or damaging to the brand name or dilu-

1           tive of famous trademarks of others that are fa-  
2           mous at the time of registration of such domain  
3           names, without regard to the goods or services  
4           of the parties.

5           (c) WHOIS DATABASE INFORMATION ACCURACY.—

6           (1) DOMAIN NAME REGISTRANTS ENGAGED IN  
7           COMMERCIAL ACTIVITIES.—It is unlawful for the  
8           registrant of a domain name used in any commercial  
9           activity to register such domain name in any  
10          WHOIS database or with any other domain name  
11          registration authority with false or misleading identi-  
12          fying information, including the registrant's name,  
13          physical address, telephone number, facsimile num-  
14          ber, or electronic mail address.

15          (2) DOMAIN NAME REGISTRARS, REGISTRIES  
16          AND OTHER AUTHORITIES.—It is unlawful for a do-  
17          main name registrar, registry or other domain name  
18          authority, directly or indirectly, via proxy or any  
19          other method, to replace or materially alter the con-  
20          tents of, or to shield, mask, block, or otherwise re-  
21          strict access to, any domain name registrant's name,  
22          physical address, telephone number, facsimile num-  
23          ber, electronic mail address, or other identifying in-  
24          formation in any WHOIS database or any other  
25          database of a domain name registration authority if

1 such registrar, registry, or domain name authority  
2 has received written notice, including via facsimile or  
3 electronic mail at such entity's facsimile number or  
4 electronic mail address of record, that the use of  
5 such domain name is in violation of any provision of  
6 this Act.

7 **SEC. 4. CIVIL ACTIONS BY CERTAIN AGGRIEVED PARTIES.**

8 (a) ACTION BY STATES.—

11 of a State, has reason to believe that an interest of  
12 the residents of that State has been or is threatened  
13 or adversely affected by any person who violates this  
14 Act, the attorney general, official, or agency of the  
15 State, as *parens patriae*, may bring a civil action on  
16 behalf of the residents of the State in a district

15 (5) RULE OF CONSTRUCTION.—For purposes of

20 eral Trade Commission Act were incorporated into and  
21 made a part of that subtitle.

22 (e) AVAILABILITY OF CEASE AND DESIST ORDERS  
23 AND INJUNCTIVE RELIEF WITHOUT SHOWING OF

3 tion, with the provisions of section 3, neither the Commis-  
4 sion nor the Federal Communications Commission shall  
5 be required to allege or prove the state of mind required  
6 by such section or subparagraph.

7 (f) ENFORCEMENT BY STATES.—

8 (1) CIVIL ACTION.—In any case in which the  
9 attorney general of a State, or an official or agency  
10 of a State, has reason to believe that an interest of  
11 the residents of that State has been or is threatened  
12 or adversely affected by any person who violates the  
13 provisions of section 3, or who engages in a pattern  
14 or practice that violates the provisions of section 3,  
15 the attorney general, official, or agency of the State,  
16 as *parens patriae*, may bring a civil action on behalf  
17 of the residents of the State in a district court of the  
18 United States of appropriate jurisdiction—

19 (A) to enjoin further violation of section 3  
20 of this Act by the defendant; or

21 (B) to obtain damages on behalf of resi-  
22 dents of the State, in an amount equal to the  
23 greater of—

24 (i) the actual monetary loss suffered  
25 by such residents; or
