please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and to what degree this rule would economically affect it.

# **Assistance for Small Entities**

Under section 213(a) of the Small **Business Regulatory Enforcement** Fairness Act of 1996 (Pub. L. 104-121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact LT Kevin Lynn, Project Manager for Eighth Coast Guard District Commander, Hale Boggs Federal Bldg., 501 Magazine Street, New Orleans, LA 70130, telephone (504) 589-6271.

### **Collection of Information**

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520).

# Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

#### **Unfunded Mandates Reform Act**

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this proposed rule will not result in such expenditure, we discuss the effects of this rule elsewhere in this preamble.

# **Taking of Private Property**

This proposed rule would not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

# **Civil Justice Reform**

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of

Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

# **Protection of Children**

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

# Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal government and Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes.

## **Energy Effects**

We have analyzed this proposed rule under Executive Order 13211, Actions **Concerning Regulations That** Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that Order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

## Environment

We have analyzed this proposed rule under Commandant Instruction M16475.1D, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321-4370f), and have concluded that there are no factors in this case that would limit the use of categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1 paragraph (34)(g), of the instruction, from further environmental documentation because this rule is not expected to result in any significant environmental impact as described in NEPA.

A draft "Environmental Analysis Check List" and a draft "Categorical Exclusion Determination" are available

in the docket where indicated under **ADDRESSES.** Comments on this section will be considered before we make the final decision on whether the rule should be categorically excluded from further environmental review.

## SUPPLEMENTARY INFORMATION:

## Background

NARA is concerned that the current Federal records management regulations do not reflect many of the recent changes in records management and, therefore, need updating to meet the challenges of a changing recordkeeping environment. We are considering revising the existing regulations to incorporate current standards and practices, such as new guidance on electronic recordkeeping and relevant portions of ISO 15489–1:2001, Records management—Part 1: General (ISO Records Management Standard).

In addition, we propose to restructure the regulations to better reflect the lifecycle of records, from creation through active agency use to disposition. We are considering consolidating all definitions under 36 CFR 1220; reorganizing the Parts of 36 CFR Chapter XII, Subchapter B, to more clearly reflect the lifecycle of records; and elevating subparts in the current 36 CFR 1228 to parts, for better emphasis. The regulations would also be re-written in accordance with plain language principles (such as using the questionstyle for the section headings) to make them easier to read, understand, and use.

Our goal is to make it easier for Federal agencies and records management contractors to follow our regulations. As part of the revision, we also intend to address the issues raised in the advance notice of proposed rulemaking, Records Management; Electronic Text Documents (RIN 3095– AB05) that was published October 10, 2001 (66 FR 51740).

More information about NARA's Redesign of Federal Records Management may be found online at http://www.archives.gov/ records\_management/initiatives/ rm redesign project.html.

#### **Questions for Comment**

What do you think about this proposal? Do you agree that the current Federal records management regulations need revision? Which regulations do vou think need updating, revision, or expansion? Are there other records management issues that NARA should address? If you think the NARA regulations need to be revised, are there any priority areas that should be addressed first? Will the proposed reorganization of 36 CFR chapter XII, subchapter B, make the regulations easier to use? Will consolidating definitions in one section be useful? How do you see the proposed revision affecting the records management programs of Federal agencies? Please specify what further changes you would like to see

Dated: March 2, 2004.
