Descriptive Report  
Topographic Sheet 1224-a

This sheet shows the Coast of Maine from the Spessard  
River to Goose Fair Creek.

Revision made a photo print of the original  
sheet, and plans of towns and real estate compa-  
nies. Tracings were made and taken into the field.  
Changes were noted and plotted on the photograph  
of the original sheet by angles and distances  
measured from identified objects on the original  
sheets.

Roads groups of streets and houses are  
conventionalized, but plotted with such  
accuracy as to require an instrumental and  
accurately measured distances to show discrepancies.

Main roads, roads leading to the shore, electric  
and plain roads are noted.

By roads and detached houses are not shown  
except when their location was incidental to other  
work. No fence lines or wood limits shown.

Revision

Examination of Topographic Sheets

by the

Divisions of Field Work and Field Records.

1. Has the magnetic meridian been determined? ..... *No*
2. Is the point occupied for the determination of magnetic meridian designated? .....
3. Is the approximate or rodded location of high water mark in back of mangroves shown? .....
4. Have navigable rivers been surveyed? .....
5. Is interior information given by descriptive legends or otherwise? .....
6. Is the inking of the sheet legible? ..... *Yes*
7. Is projection properly shown? .....
8. Are methods of surveying fully described? ..... *Yes*
9. Are descriptive legends given concerning conspicuous islets, objects, rocks, and other features given in blank areas? .....
10. Are geographic names given? .....
11. Is full information regarding geographic names given in the descriptive report in accordance with paragraph 557 of the Instructions for Field Work? .....
12. Are the names of topographic signals given? .....
13. Does the sheet have a neat appearance? .....
14. Is sufficient contouring shown, some of which could be obtained by sextant directions from boat positions? .....

- 15. Is the control good? .....
- 16. Is the sheet well laid out? .....
- 17. Is the accuracy of traverses between triangulation stations stated in the descriptive report? *Yes* .....
- 18. Are the elevations of prominent rocks or islets given? .....
- 19. Are the description of reefs, as bare, awash or covered at high or low water given? .....
- 20. Are objects useful for future surveys indicated? *No* .....
- 21. Is there a record of marking topographic stations? .....
- 22. Is the character of the beach shown in various places? .....
- 23. Is the plane of reference for elevations given? .....
- 24. Is the low water line determined at important places? .....
- 25. Is there a full list of data affecting sheet given on title sheet? .....
- 26. Is there a list of plane table positions? *No* .....
- 27. Are the elevations whether that of tree-top or ground indicated? .....
- 28. Does the descriptive report give date of instructions? *No* .....
- 29. Is a sketch given showing contouring of interior mountainous country beyond limits of sheet? .....
- 30. Is the general description of the coast given? .....
- 31. Is there information about obtaining fresh water? .....
- 32. Have standard symbols for various features been used? .....

1224<sup>u</sup>

- 33. Is the survey complete? .....
- .....
- 34. Is there a note as to cultivations, roads and other improvements?  
.....
- 35. Is commercial information given in descriptive report? .....
- 36. Is there a list of landmarks? .....
