LIST OF INSTRUCTIONS

§ 1242.00 Separation of common operating expenses.

(a) Commencing with annual reports for the year 1978 or for any portion thereof until further order, all class I railroad companies including class I switching and terminal companies subject to section 20 of the Interstate Commerce Act as amended shall separate operating expenses common to both freight service and passenger service in accordance with the regulation in this part.

(b) The carrier shall maintain records supporting its common operating expense apportionments to freight and passenger services. The carrier shall report common expense apportionments to the Board as required.

49 CFR Ch. X (10-1-03 Edition)

GENERAL

§ 1242.01 Expenses solely related to freight service and passenger service.

The Uniform System of Accounts for Railroad Companies (49 CFR part 1201) requires that carriers assign directly to freight service or to passenger service, including allied services, the expenses, taxes, and purchased services incurred solely for the benefit of either freight or passenger service.

§ 1242.02 Common expenses.

The Uniform System of Accounts also requires that carriers assign to common expense accounts the remaining expenses, taxes and purchased services which are not solely related to either freight or passenger service. The following instructions govern the separation of common expense accounts between freight and passenger services.

§ 1242.03 Made by accounting divisions.

The separation shall be made by accounting divisions, where such divisions are maintained, and the aggregate of the accounting divisions reported for the quarter and for the year.

§ 1242.04 Special tests.

When the separation of common expense accounts between freight and passenger services is based upon special tests or service unit factors, such tests shall be made at sufficiently frequent intervals to represent actual operating conditions. The service unit factors used are those of the reporting period.

§ 1242.05 Operating expense account number notation.

(a) The operating expense account numbers consist of a six-digit coding structure divided into three two-digit groups. The first two-digit group denotes natural expenses; the second group denotes activities/subactivities for freight, passenger or common service; and the third group signifies applicable function assignment.

(b) For reporting purposes, four natural expense categories are utilized.
