

APPENDIX D — ISO ELEVATION CERTIFICATE DATA

Data Dictionary of Elevation Certificates Provided by ISO for CRS Communities

Column headings for the spreadsheet below are explained as follows:

- cEC: credit for Elevation Certificates -- this is credit for communities that join the CRS and agree to maintain FEMA Elevation Certificates (post CRS). The maximum credit is 56 points. A community is assigned a lesser value if there are problems with the ECs or if it is not maintaining 100% of the ECs. Credit has been assigned for 958 communities.
- cECPO: credit for Elevation Certificates (post FIRM). This is credit for maintaining ECs since joining the NFIP. The maximum credit is 56 points. A community is assigned a lesser value if it does not have ECs for 100% of the post FIRM properties in the Special Flood Hazard Area (SFHA). Credit has been assigned for 268 communities.
- cECPR: credit for Elevation Certificates (pre FIRM). This is credit for maintaining ECs before joining the NFIP. The maximum credit is 15 points. A community is assigned a lesser value if it does not have ECs for 100% of pre FIRM ECs in the SFHA. Credit has been assigned for only 26 communities.
- cECCF: credit for Elevation Certificates in Computer Format -- this credit is for maintaining the ECs that they get credit for, above, in a Computer Format. The maximum credit is 15 points. A community is assigned a lesser value if it does not have 100% of the ECs in computer format. Credit has been assigned for 162 communities.
- Data Entered: this refers to a special project that ISO completed where hard copy ECs were scanned and populated into an Access database. ISO has 33,865 such ECs for 315 CRS communities.
- Additional Data Available: ISO has over 300 diskettes, which represent 17,751 ECs for 90 CRS communities.
- Total Data Available: ISO has 51,616 ECs for 351 CRS communities. Note, for 54 communities, ISO has data for both scanned hard copy and diskettes. Some duplication of addresses may occur.
