WC Docket No. 02-60

Dear Proposal Review Committee:

OneCommunity is pleased to submit this proposal to the Federal Communication Commission for the Rural Health Care Pilot Program. We believe that OneCommunity's history and experience will support the Federal Communication Commission as it plans on facilitating the creation of a nationwide broadband network dedicated to health care, connecting public and private non-profit health care providers in rural and urban locations

OneCommunity proposes the creation of HealthNet, a Northeast Ohio Broadband initiative, in support of the Telemedicine and Health Information Exchange (HIE). OneCommunity has an existing broadband network, a significant healthcare technology coordination role and an established partner network that includes the Northeast Ohio Regional Health Organization (NEO RHIO), regional urban and rural healthcare providers, and a consortium of vendors, technology researchers and government advisers.

Again, it is our pleasure to submit this proposal for this dynamic project. If you should have any questions please call us at the number below. Please note that we have submitted our proposal electronically and that this is a backup proposal in the case of electronic complications. If you have any questions regarding our proposal, please contact Mark Ansboury, Chief Operating Officer and our FCC RHCP Program Manager direct at (216)621-3367, mobile at (440)785-6772 or via email at mark.ansboury@onecommunity.org.

Sincerely,

Scot Rourke
President, OneCommunity
